ASSESSOR'S REPORT.

ASSESSOR'S OFFICE,
SAN FRANCISCO, CAL. July 6th, 1891. }

*To the Honorable the Board of Supervisors
of the City and County of San Francisco :*

GENTLEMEN: In compliance with Resolution No. 5,268 (Third Series) of your honorable body, I herewith submit my Annual Report as City and County Assessor for the year ending June 30th, 1891.

On the first Monday of June last, I delivered to John A. Russel, Esq., Clerk of your Board, the Assessment Roll of Personal Property, contained in seventeen (17) volumes, amounting to \$67,411,075. This is an increase over last year of \$1,328,703.

On July 6th, 1891, I also delivered to you the Real Estate Assessment Roll contained in fifty (50) volumes, amounting to \$244,651,885, of which \$167,233,780 was the assessment against land, and \$77,418,105 was the assessment on improvements.

In addition to the above I also delivered one volume containing assessment for the payment of principal and interest on Dupont Street Bonds.

Two volumes of Real Estate Indexes and fifty-one (51) Block Books of Maps of all the lands and subdivisions of real estate within the City and County of San Francisco.

The Real Estate Assessment Roll shows an increase of.....\$9,296,217
over last year, of which 2,196,332
is on land, and the remainder..... 7,099,885
on improvements.

We, therefore, find a net increase of \$10,624,920 on Real and Personal Property over last year. The entire assessment for 1890 having been \$301,438,040 against \$312,062,960 in 1891.

ASSESSOR'S REPORT.

The following table will show in detail the increase in Real Estate and Improvements in the different sections of the city :

FIFTY VARAS.

That section bounded by Larkin, Market and line of the Bay, known as 50 varas.

| | 1890. | 1891. | INCREASE. |
|-------------------|--------------|--------------|-------------|
| Real Estate..... | \$59,170,211 | \$59,216,891 | \$46,680 |
| Improvements..... | 25,986,135 | 27,601,340 | 1,615,205 |
| Total..... | \$85,156,346 | \$86,818,231 | \$1,661,885 |

ONE HUNDRED VARAS.

That section bounded by Market, Ninth and the Bay, known as 100 varas

| | 1890. | 1891. | INCREASE. |
|-------------------|--------------|--------------|-----------|
| Real Estate | \$40,495,304 | \$40,515,382 | \$20,078 |
| Improvements..... | 13,312,995 | 14,008,020 | 695,025 |
| Total..... | \$53,808,299 | \$54,523,402 | \$715,103 |

WESTERN ADDITION.

That section bounded by Larkin, Market, Ridley and Waller streets and First Avenue north to the Bay, known as Western Addition.

| | 1890. | 1891. | INCREASE. |
|-------------------|--------------|--------------|-------------|
| Real Estate..... | \$33,699,650 | \$35,089,412 | \$1,389,762 |
| Improvements..... | 19,587,950 | 22,581,300 | 2,993,350 |
| Total..... | \$53,287,600 | \$57,670,712 | \$4,383,112 |

ASSESSOR'S REPORT.

3

MISSION.

That section bounded by Market, Ridley, Castro and Twenty-second streets, San Jose, Serpentine and Potrero Avenues, Napa, Harrison, Channel and Ninth streets to Market, known as Mission.

| | 1890. | 1891. | INCREASE. |
|-------------------|--------------|--------------|-------------|
| Real Estate..... | \$14,576,313 | \$14,613,201 | \$36,888 |
| Improvements..... | 7,228,525 | 8,231,650 | 1,053,125 |
| Total..... | \$21,804,838 | \$22,894,851 | \$1,090,013 |

NEW POTRERO.

That section lying south of the 100 varas and east of the Mission.

| | 1890. | 1891. | INCREASE. |
|-------------------|-------------|-------------|-----------|
| Real Estate..... | \$2,917,545 | \$2,919,850 | \$2,305 |
| Improvements..... | 1,992,955 | 2,118,155 | 125,200 |
| Total..... | \$4,910,500 | \$5,038,005 | \$127,505 |

HORNER'S ADDITION.

That section bounded by Twenty-second, Castro, State, Douglas, Elizabeth, Bellevue and Thirtieth streets and old San Jose road north to Twenty-second street.

| | 1890. | 1891. | INCREASE. |

C. S. LAUMEISTER,

Sheriff of City and County of San Francisco.

REPORT OF GAS INSPECTOR.

OFFICE OF GAS AND WATER INSPECTOR, }
SAN FRANCISCO, July 10, 1891. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

GENTLEMEN: In accordance with Resolution No. 5268, I have the honor to submit to your Honorable Body the workings and operations of the department of Gas and Water Inspector for the fiscal year 1890-91.

Most respectfully,

JOHN Q. BROWN,
Gas and Ex-officio Water Inspector.

EXPENSES.

| | |
|---|------------|
| Salary allowed by law..... | \$1,830 00 |
| Incidental expenses, stationery, apparatus, notices, etc..... | 63 50 |
| Total for year..... | \$1,893 50 |

The gas used by the City and County of San Francisco for lighting public buildings, engine houses and public street lamps, is furnished by the San Francisco Gas-Light Company and the Pacific Gas Improvement Company.

The rate charged the city is \$1 75 per thousand cubic feet for all gas used except that used in public lamps, and that is charged for at the rate of 12 cents per night per lamp when lighted.

The rate charged private consumers is \$2 per thousand cubic feet.

The following is a list of public buildings and engine houses furnished gas by the San Francisco Gas-Light Company:

III Lamps furnished by Pacific Lighting Company:

| | |
|--|---------|
| 2 Lungren Lamps at Morgue, \$2 00 per month, total cost per year..... | \$24 00 |
| 1 Lungren Lamp at Receiving Hospital, \$1 00 per month, total cost per year..... | 12 00 |
| Total..... | \$36 00 |

The water used by the City and County of San Francisco for municipal purposes, such as supplied to all public buildings, engine houses, school houses, fire hydrants, jails, hospitals, etc., is furnished by the Spring Valley Water Works. All public buildings, etc., are rated by the number of superficial feet contained, the number of water fixtures and number of persons dwelling within certain buildings.

The rates are fixed each year, some time during the month of February, by the Board of Supervisors.

Meters are allowed by ordinance to be attached to the service pipes of all buildings, both public and private, but only for the purpose of detecting waste, unless the building is charged for by meter rates, which rates are fixed and determined upon by the Board of Supervisors in the water ordinance. All private buildings have a fixed monthly rate. Buildings of a public nature, such as hotels, restaurants, stores, laundries, lodging houses, etc., have an estimated rate to be charged, or they may be charged for by meter rates at the option of the company.

Fire hydrants are erected from time to time by order of the Board of Supervisors, the city paying for the hydrants and the cost of placing them in position.

All complaints of consumers as to waste are lodged with this office and upon a test of the meter and reading of the statement the Inspector is empowered to adjust the differences between the water company and the water taker.

The majority of complaints come from landlords paying the water rates of rented property, the tenants seeming to take an indifferent interest as to whether the water is wasted or not.

Sprinkling of county roads or water used for that purpose by the city and county is paid for by meter rates.

Irrigation of public squares or parks is rated by the superficial area of such and paid for at the rate of one-half cent per square yard per month.

Fire hydrants are charged for at the rate of \$2 50 per month per hydrant, and the water furnished therefrom is used for fire purposes and the flushing of sewers.

The number of fire hydrants in use at present date is 1,711.

TABLE SHOWING AMOUNT OF MONEY PAID SPRING VALLEY WATER WORKS FOR
USE OF WATER FOR MUNICIPAL PURPOSES DURING YEAR 1890-91.

GAS INSPECTOR'S REPORT.

SUMMARY.

| | |
|---|------------|
| Number of meters tested during year..... | 195 |
| Number of meters correct..... | 94 |
| Number of meters slow..... | 81 |
| Number of meters fast..... | 13 |
| Number of meters wrong readings, out of order, etc..... | 7 |
| | <u>195</u> |

Acting in accordance with Ordinance No. 2226, an order "Requiring the Inspection of Gas Fixtures in Hotels and Lodging Houses to Insure the Public Safety," I caused a printed notice to be served on each hotel and lodging house keeper within the city and county, requesting that they comply with the requirements of the above mentioned ordinance, a copy of which was inclosed with the notice sent.

There are within the City and County of San Francisco 287 licensed hotels and lodging houses. Of that number 64 had filed with this office a gas fitter's certificate, setting forth the condition of burners, keys, pipes, etc., up to July 1, 1891.

As it is my duty to enforce the order I will place the list of those not having complied with the order in the hands of the proper authorities with the request that they enforce its provisions.

RECAPITULATION.

Money paid out by City and County of San Francisco for gas, water, electric lights, gas regulators, etc., during fiscal year 1890-91:

| | | |
|---|---------------------|---------------------|
| San Francisco Gas Light Company— | | |
| Gas furnished street lamps..... | \$208,787 04 | |
| Gas furnished public buildings..... | 4,996 26 | |

| Water furnished for public fire hydrants..... | 50,227 50 | |
| | <u>80,241 42</u> | |
| Total amount paid out..... | | <u>\$366,339 06</u> |

REPORT
OF
PUBLIC ADMINISTRATOR
JAMES C. PENNIE,
FOR SIX MONTHS FROM JULY 1, TO DECEMBER 31, 1890.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

James C. Pennie, ex-Public Administrator of the City and County of San Francisco, respectfully makes this his return of all estates of decedents which have come into his hands for the term commencing July 1, 1890, to December 31, 1890, in pursuance of the provisions of Section 1736 of the Code of Civil Procedure.

Respectfully submitted.

JAMES C. PENNIE,
Ex-Public Administrator of the City and County of San Francisco.

Special letters were issued to me in the following cases and the property which came into my hand under these special letters was turned over to the general administrators or executors: Estates of William N. De Rose, deceased; Emily Fossum, Perez Kent, William Kuhlman, Julia Monroe, George Elliott, Mary McKee, Celena F. Cloche, Anna Bell, Jane Weaver, Morris Hoeflich, James L. Isherwood, Susan K. King.

A. C. FREESE, Public Administrator City and County of San Francisco.

Dated July 6, 1891.

COUNTY CLERK'S REPORT.

OFFICE OF COUNTY CLERK,
CITY AND COUNTY OF SAN FRANCISCO. }

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: In accordance with a resolution of your Honorable Body, I herewith submit my Annual Report showing the transactions in the various departments of the County Clerk's Office during the fiscal year ending June 30, 1891.

The business of the office shows a marked increase over that of last year, as will be seen by reference to the general summary of increases in the various departments, hereto appended. The receipts also show an excess over that of the last fiscal year.

There have been a large number of proceedings commenced in the Superior Court without the prepayment of fees, being suits wherein said fees have been remitted by order of Court. In the Probate Department alone in ten per cent of the proceedings filed fees have been remitted, which in a large measure tends to decrease the receipts of the office. In the Civil Department it has not been so bad, there being about 150 suits in which fees were remitted.

The "Fee Bill" in this city and county is not an equitable one, the fees allowed by law being too small for the amount of labor performed. The necessity for a new one is more than ever apparent, so that a revenue may be derived from the Probate Department, instead of its expenses constantly exceeding its receipts. Under the present law the city and county receives no more from an estate of one million dollars than it does from one of one thousand, while the former entails twice as much labor, and in many instances it is years before it is settled.

In the other departments of this office the complaint is the same. We are compelled in some instances to perform labor which costs the city and county two or three hundred dollars, and the only fees derived therefrom are fifteen or twenty dollars in the most, while in other counties they receive a fair compensation for the labor performed.

COUNTY CLERK'S REPORT.

In suits where there are more than one party, plaintiff or defendant, we are compelled to index each of the names, and receive no additional fee therefor, and if the suit progresses to judgment, likewise we are compelled to enter in the judgment docket each and every name of the judgment debtors, for which there should be an extra fee provided.

The filings, too, in certain cases are numerous, reaching sometimes as high as three or four hundred, which each require a separate register entry, costing the litigant no extra expense other than that which he has paid to commence the action.

The Fee Bill referred to is an old one, having been passed by the Legislature of 1866, and has never been amended since.

These statements are made to show why the County Clerk's office of this city and county has never been self-sustaining, and the city will never derive a revenue therefrom until a new "Fee Bill" shall have been adopted.

Respectfully submitted,

WM. J. BLATTNER,

County Clerk.

San Francisco, July 15, 1891.

REPORT
OF THE
Board of Election Commissioners.

THE BOARD OF ELECTION COMMISSIONERS

OF THE
CITY AND COUNTY OF SAN FRANCISCO,

Created by an Act of the Legislature, approved March 18, 1878.

| | |
|-----------------------------------|------------------------------------|
| HON. G. H. SANDERSON (MAYOR)..... | President |
| HON. T. J. L. SMILEY..... | Auditor |
| HON. THOMAS O'BRIEN..... | Tax Collector |
| HON. JOHN H. DURST..... | City and County Attorney |
| HON. CHAS. S. TILTON..... | City and County Surveyor |
| WILLIAM A. BROWN | Registrar and ex-officio Secretary |

OFFICE OF THE REGISTRAR OF VOTERS, }
SAN FRANCISCO, July 15, 1891. }

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: In compliance with Resolution No. 5268 (Third Series) adopted by your Honorable Board June 1, 1891, I respectfully submit the following report for the fiscal year ending June 30, 1891.

Respectfully,

W. A. BROWN,
Registrar of Voters.

REGISTRAR'S REPORT.

During the year a general election was held, on Tuesday, November 4, 1890.

The total expenses of the office of the Registrar of Voters, and for election, for the last fiscal year, amounted to \$135,073.17. In addition to the usual statements, I append the following:

A table showing the date of election, the number of precincts, the total of each general registration, and number of votes cast at each election.

A statement of the annual expenses of this office and the cost of each election since the organization of the Board of Election Commissioners, March, 25, 1878, to the close of last fiscal year.

A table showing the place of nativity of the voters who were registered last year.

A table of the registration by precincts of last year, and the number of votes cast in each.

And a statement of votes polled at the general election, Tuesday, November 4, 1890.

EXPENSES OF THE OFFICE OF THE REGISTRAR OF VOTERS, AND FOR ELECTION, FROM JULY 1, 1890, TO JUNE 30, 1891.

OFFICE EXPENSES.

REPORT
OF THE
CITY AND COUNTY SURVEYOR.

SAN FRANCISCO, July 15th, 1891.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

GENTLEMEN: I herewith submit the following report of surveys made
and certificates issued for the fiscal year ending June 30th, 1891.

| | |
|--------------------------|-----|
| Surveys made..... | 992 |
| Certificates issued..... | 649 |

Very respectfully,

CHARLES S. TILTON,
City and County Surveyor.

REPORT
OF THE
BOARD OF PARK COMMISSIONERS.

OFFICE OF THE COMMISSIONERS OF GOLDEN GATE PARK, }
BUENA VISTA PARK, MOUNTAIN LAKE PARK. }
SAN FRANCISCO, CAL., July, 1891. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

GENTLEMEN:—In accordance with law, we have the honor to present our report for the fiscal year ending June 30, 1891, containing a detailed statement of the receipts and expenditures, and an account of the improvements made since last report.

Very respectfully yours,

W. W. STOW,
R. P. HAMMOND JR.,
JOSEPH AUSTIN,

Park Commissioners.

The first new work of the year was the improvement and widening of the entrance and branch road at Sixth avenue. This was done by widening the driveway, edging the road with grass, laying water pipe and placing hydrants, planting shrubs, etc.

The next improvement was the construction of a manure pit at the new stables. This pit is 50 feet by 48 feet, and 4 feet deep, has a concrete bottom designed to hold the urine and washings from the stable. A concrete wall 1½ feet thick surrounds the pit, and a rail fence divides it from the railroad. The intervening ground west of the stable has been planted with acacia and other trees to protect the stable yard from the wind, and to afford some protection against fire from the railroad locomotives passing at that point.

COMPOST.

Several teams and an equipment of laborers were employed during four or five months securing and hauling loam from the hills lying to the south of the Park. More than six thousand loads of excellent surface soil were thus added to the fertilizers so essential to the successful cultivation of flowers, plants and trees in the Park. Much of this supply is available.

OVERLOOK DRIVE.

The Overlook Drive was commenced a year ago last winter, and gave employment to many men otherwise out of employment. But a vast amount of labor was required to complete the grading and macadamizing of this very pleasant driveway. It has been finished, is sixty feet in width nearly its entire length, its banks sloped and planted with more than twenty thousand shrubs and trees. Wherever planting was done fertilizers were used to insure life and rapid growth.

Water pipes have been laid the whole length of the drive, and hydrants placed once every hundred feet.

The Driveway, as originally laid out, and as first graded, connected on the east with the "Bush" or "Dollar a day" road. To make access to the main Overlook Drive easier, a short cross road has been constructed, commencing near the cut and following along the ridge westerly until its junction with the main drive. Planting of shrubs and trees has been completed on the slopes as on other drives.

A large expenditure has been incurred on the main Driveway, between the Park office and the pheasant house. Along this driveway there has been unavoidably a concentration of those riding in the Park and those visiting the Park by cable roads. Formerly it was much too narrow, and the curves much too sharp. More accidents have happened within this limited space than elsewhere in the whole Park. There was on Saturdays, and Sundays and holidays, a constant struggle between those on foot and those in vehicles to avoid collision. In addition, some of the handsomest views obtainable in the Park were obstructed by shrubs and trees that had been formerly planted in conformity with road and walk sites, which when laid out were equal to the public convenience and necessities.

The sharp angles, the danger points, were taken off, and in some places cut away one hundred and eighty feet. The curves are now laid out on easy turns, and more than thirty feet added to the width of the Drive, thus rendering this much frequented space more secure from accident. This improvement is believed to be now equal to the growing demands upon it, and hence permanent planting may be done in its immediate vicinity.

As a further security against accident in this part of the Park, a passage for pedestrians has been provided leading from the former music grounds, south of the Conservatory, under the Driveway. This passageway is twenty feet in width and eighty feet in length. An easy flight of steps leads the pedestrians towards the present music grounds, through a cut, the banks of which are walled up with rocks, laid in a most artistic manner. The rocks for this wall were hauled about two miles, having been obtained from the hills southeast of the Park. They are so laid as to make a home for the tree-ferns and other ferns and plants that love to live among shaded rocks. Thus it will be seen that it is now possible to walk from the Conservatory to the Music Grounds, the Deer Park, the Buffalo Park and the Children's Quarters without the risk of accident, there being but one driveway to cross, and that the middle one, not very much used by vehicles. It is hoped that even this one objectionable point will be bridged in the near future.

The South Drive from the Bridge to the Donkey houses, a distance of about 2,000 feet, has been re-graded, macadamized, water-pipes laid, hydrants attached, grass verges placed on both sides, and a background of shrubs planted.

The North Ridge Road and the walks adjacent thereto have been improved by verging the same with loam, planting grass borders and a background of flowers and plants. Much of the Drive has been re-graded and made of uniform width. Particular attention has been given to the walks leading from this Drive to the Fifth and Sixth avenues.

A new road connecting with the North Drive and a new chute add much to the convenience of maintaining fires at the Conservatory, and saves labor in handling coal.

BUFFALO PARK.

The place selected by the Commission for the Buffalo Park is a little west and north of the westerly end of the Deer Glen and immediately west of the Bell Tower, in a very pretty and well sheltered spot containing about four acres. It has been enclosed with a substantial fence, and the three buffalo that have a home there are a source of great attraction to Park visitors. As an evidence of the difficulty in obtaining the buffalo at the present time, it is not amiss to state that one of the Park herd was purchased at Garden City, Kansas; one at Salt Lake City, and one in Montana.

CONSERVATORY VALLEY during the Winter months has always been flooded with rain water. It had no outlet, and became stagnant and offensive. A drain has been nearly completed which

will conduct the waters in the future into the Deer Park. The passage-way for pedestrians, heretofore described, covers a hidden gutter which connects with a tunnel through Chicken Point, now constructed to within a few feet of its intended outlet. Parenthetically, it may be observed that no public sewer has been laid that would relieve Conservatory Valley of rain waters.

The middle of Conservatory Valley has been ornamented by planting two large beds, one with foliage plants, and the other with dwarf carpet plants. The banks surrounding the Valley have been laid out and planted in a most artistic manner, as is evidenced by its many visitors.

A final settlement has been effected with Mr. Bradbury, the constructor of the Park Water Works, and the works turned over to the Park authorities. They were found to be in a most worn and dilapidated condition. They have been repaired, but still require special attention. If the Park appropriations would justify it, new works would be in order. However, the cost of water is very light, considering the quantity used.

RESERVOIR.

Since the last annual report a Reservoir has been completed, on the summit of Mount Lick, which is filled with water during the night time by gravitation from the main Reservoir on Strawberry Hill. Supply and discharge pipes have been connected with the main pipes of the Park, and from this Reservoir the Pan Handle and the eastern portions of the Park will draw supplies for the drives, watering the trees, flowers and plants, and sprinkling the lawns.

REPORT OF THE SECRETARY.

SAN FRANCISCO, June 30, 1891.

To the Honorable the Board of Park Commissioners:

GENTLEMEN:—I have the honor to submit herewith my report for the fiscal year ending with this date.

RECEIPTS AND DISBURSEMENTS FROM JULY 1, 1890, TO JUNE 30, 1891.

RECEIPTS.

| | |
|---|--------------|
| From taxes..... | \$133,020 48 |
| From pound fees..... | 73 00 |
| From fines..... | 635 00 |
| From proceeds of Children's Quarters..... | 3,453 37 |
| From rent of P. & O. R. R. Depot..... | 100 00 |
| From sale of old horses..... | 145 00 |
| Traveling expenses returned..... | 52 80 |
| Rent of stand at Haight street..... | 50 00 |
| Balance from last year..... | 3,550 69 |

PARK COMMISSIONERS' REPORT.

DISBURSEMENTS.

| | |
|--|--------------|
| Construction and improvement..... | \$63,896 94 |
| Maintenance..... | 65,974 79 |
| Stock..... | 5,915 05 |
| Miscellaneous items..... | 1,248 70 |
| Salaries (Superintendent and Secretary)..... | 3,750 00 |
| | <hr/> |
| | \$140,785 48 |

CONSTRUCTION ACCOUNT.

| | |
|---|-------------|
| STRUCTURES—Building stable for goats and jacks, concrete wall at stable, corral and manure pit, bridge, grading, lumber, bricks, lime, cement, etc., putting gas in lodge, plumbing, etc., fence around Buffalo Park and fence around Reservoir, stand at Haight Street entrance to the Park, labor and material..... | \$11,664 24 |
| WATER WORKS—Extension of distribution pipe system, including pipe, meter and labor, and final payment to W. B. Bradbury on contract for Water Works, building reservoir on Lick Mountain, lime, cement, etc., labor and material..... | 9,601 21 |
| DRAINAGE—Grounds, construction of cesspool and sewer, lumber, etc., labor and material..... | 2,355 01 |
| WAYS—Construction of new roads, walks, etc., including all labor of grading, quarry work and macadamizing, powder, fuse and other materials..... | 25,998 89 |
| GROUND—To labor of grading, forming, dressing, trimming, soiling, fertilizing, grounds, newly brought to a finished condition in this respect..... | 2,899 99 |
| PLANTATIONS AND FORESTS AND RECLAMATION—Planting trees to prevent the drifting of sand, labor and material..... | 4,161 45 |
| CONSERVATORY—Purchase of new plants especially for the conservatory..... | 745 40 |
| SMALL WORKS—Hauling loam, labor and team hire, grading for look-out, labor and material..... | 6,470 75 |

MAINTENANCE ACCOUNT.

| | |
|---|------------|
| STRUCTURES—Labor, lumber, paints and oils, glass, etc., devoted to and used in repair and general maintenance of buildings, painting lodge and out-house, and all fences and gates..... | \$4,123 25 |
| WATER WORKS—Labor, pipe-fittings, etc., expended in repairs..... | 272 76 |
| DRAINAGE—Labor, etc., maintenance of sewers..... | 102 50 |
| WAYS—Labor and material, repairing, cleaning, dressing, sprinkling, etc., roads, walks, concourses, including repairs to Point Lobos Road..... | 8,840 48 |
| GROUND—AND GARDENING—Labor and material, maintenance of garden and flower plots, lawns and grounds generally..... | 27,000 67 |
| FORESTS AND PLANTATIONS—Labor, trimming, cleaning and dressing out plantations..... | 495 25 |
| CONSERVATORY—The current cost of the conservatory, including labor, water and fuel..... | 7,330 23 |
| POLICING—The services of the regular Park police and extramurals..... | 10,707 52 |
| NURSERY—The entire nursery expense, including labor and material and new stock.. | 6,979 13 |
| CHILDREN'S QUARTERS—Labor, repairs, plumbing and drainage, etc..... | 123 00 |

APPORTIONED ACCOUNTS.

| | |
|---|------------|
| NURSERY—The entire nursery expense, including labor, material and new stock..... | \$6,979 13 |
| STABLES—Including hay and grain, horse-shoeing, attendance, etc., and medical services rendered..... | 10,888 68 |
| WATER—All water supplied the Park according to monthly bills up to December 31, 1890, and expenses of pumping same, labor and material up to June 30, 1891..... | 3,907 65 |

STOCK AND MISCELLANEOUS ACCOUNT.

| | |
|---|-------------|
| STOCK—New live and rolling stock, etc., tools, implements, watering and other apparatus..... | \$5,915 05- |
| MISCELLANEOUS—A number of items of current expenses not chargeable under either of the foregoing heads, lithographing reports, printing, demands, etc., advertising ordinance, office expenditures, telephone, general expenditure and freight..... | 1,248 70 |

WATER PIPE LAID DURING YEAR 1890-91.

| | | | |
|--------------|-------------|-------------|-------------|
| 1-inch..... | 9½ feet | 2-inch..... | 6,860 feet |
| 1-inch..... | 256 feet | 3-inch..... | 2,011 feet |
| 1½-inch..... | 1,395 feet | 4-inch..... | 2,611 feet |
| 1½-inch..... | 1,892½ feet | | |
| Total..... | | | 14,950 feet |

LIST OF DONATIONS TO THE PARK FROM JULY 1, 1890, TO JUNE 30, 1891.

| | |
|---|---|
| F. H. Johnston, steamship "San Blas"..... | One Chilean vicuna |
| Paul A. Sharp..... | One pair gray squirrels |
| Geo. Fogel..... | One brant |
| Mrs. H. Lengenberger..... | Package palmitos seeds |
| Capt. C. J. Heegard..... | One swan |
| Mrs. Geo. Helmer, Santa Barbara..... | One package of seeds |
| Jos. Strauss, Ensign U. S. steamer "Patterson"..... | One fawn |
| Hon. E. G. Waite..... | One bag Japanese walnuts |
| Geo. H. Swasey, Alameda..... | One antelope |
| Baron Ferd. von Mueller, Australia..... | One package assorted tree seeds |
| F. Sarg, Guatemala..... | Collection of orchids |
| Mrs. E. Fay..... | Some quail |
| Mrs. H. Nelson..... | Bulbs of narcissus |
| Mr. J. A. Russell..... | Several volumes of the "Forest Flora of South Australia" |
| Mr. Septon..... | Guinea fowls |
| Capt. Austin..... | One crested eulasson |
| Geo. Davidson..... | Seeds of the silver fir |
| S. P. Stow, Goleta, Santa Barbara..... | One coquito palm, walnut trees and different plants |
| C. O. Ferrine, Riverside..... | roots of romneya coulterii |
| E. J. Wickson, University of California..... | One hundred English oaks |
| H. B. Parker, Astoria..... | Plants |
| H. B. Hunt..... | Japanese pheasants |
| J. D. Peters, Stockton..... | One pelican |
| Wm. Reckner..... | One small ship |
| H. W. Buckbee, Rockford, Illinois..... | Collection of roses, pinks and chysanthemums, and pkg seeds |
| Hon. A. K. Coney, Mexican Consul..... | Orchids |
| H. M. Anthony..... | One pair California gullemlot |
| J. C. Jones, Denver..... | One pair of antelope |
| Mr. and Mrs. H. P. Bowie, San Mateo..... | Collection of Caladiums |
| W. B. Ludlaw, Oakland..... | Seeds from South Sea Islands |
| Capt. Quinton..... | Two plants from Samoa |
| Hon. F. McCoppin..... | Bag of "Kauri pine" seed |
| Hon. Wm. Alvord..... | Fifty-two copies of the "Gardener's Chronicle" |
| J. P. Donahue, Santa Clara..... | One deer |
| H. Wiggins..... | Red-bud seeds |
| W. H. Nettle, Ben Lomond, Santa Cruz..... | Some seeds of the "Lotus of the Nile, |
| Mrs. Emma Goslett, Banstead, Surrey, England..... | A collection of Shirley poppy seeds |

March 19, 1891—In reference to the duty of the Tax Collector in issuing deeds.

May 25, 1891—Relating to penalties to be enforced on delinquents in reference to Dupont street.

REVIEW.

There were pending at the commencement of the fiscal year (exclusive of three hundred and eighty-one street assessment cases) two hundred and sixty-nine cases in which the City and County of San Francisco or its officers were parties.

Since that time fifty-three new cases have been brought against the City and County or its officers, and six new cases have been commenced by the City and County as plaintiff, making a total of three hundred and twenty-eight cases.

Fifty-four cases have been tried in the various courts, and forty-seven cases were dismissed for failure to amend the complaints after demurrer sustained.

Of all the cases tried, decided and dismissed, seventy-one were in favor of the City and County, representing the sum of \$159,997.00 and interest, and twenty cases, representing the sum of \$16,275.00 and costs, were decided against the City and County or its officers.

Fifteen thousand dollars of this last amount was for the payment of "Shag Rock."

There are now pending in the various courts two hundred and thirty-seven cases (exclusive of street assessment cases), of which those involving claims against the City and County or its officers are as follows:

| | |
|---|--------------|
| For grading streets, etc..... | \$93,690 76 |
| For damages for alleged nuisances, defective sewers, etc..... | \$318,727 18 |
| For various rents, claims, salaries, etc..... | \$321,162 07 |

The remainder are principally Dupont Street Bond suits, and suits to quiet title to lands, etc.

The suits in which the City and County is plaintiff are mostly for the recovery of lands claimed adversely.

Very respectfully,

JOHN H. DURST,

City and County Attorney.

REPORT

OF THE

CHIEF OF POLICE.

OFFICE CHIEF OF POLICE,
SAN FRANCISCO, July 1, 1891. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

GENTLEMEN: In compliance with Resolution No. 5268 (Third Series) of your Honorable Board, I submit herewith the annual report of the Police Department for the fiscal year ending June 30, 1891.

SCHEDULE "A"

Exhibits the number and tabulated statement of arrests made by the police monthly during the year, and the disposition thereof by the courts for the fiscal year ending June 30, 1891.

SCHEDULE "B"

Comparative statement of the number of arrests by and strength of the police force for the twenty-nine years ending June 30, 1891.

SCHEDULE "C"

Comparative statement of population and police force of nine principal cities of the Union.

SCHEDULE "D"

Exhibits number of witnesses subpoenaed for the Police and Superior Courts, and lost children restored to their parents or guardians during the fiscal year ending June 30, 1891.

SCHEDULE "E"

Exhibits amount of property stolen and lost, and amount recovered, for the fiscal year ending June 30, 1891.

SCHEDULE "F"

Exhibits unclaimed money, and other property in the hands of the Chief of Police, on the 30th day of June, 1891.

SCHEDULE "G"

Exhibits number, character, and nationality of incoming vessels boarded monthly by the police during the fiscal year ending June 30, 1891.

SCHEDULE "H"

Exhibits number of lottery tickets (exclusive of Chinese) seized by the police during the fiscal year ending June 30, 1891.

SCHEDULE "I"

Exhibits amount of money received from Sheriffs of other counties, masters of vessels and others for keeping of prisoners in the City Prison during the fiscal year ending June 30, 1891.

SCHEDULE "J"

Exhibits amount of fines and forfeitures in Police Courts for arrests made by the Police Department during the fiscal year ending June 30, 1891.

SCHEDULE "K"

Police stations and their location.

SCHEDULE "L"

Summary of action taken by the Board of Police Commissioners in retail liquor dealers' licenses during the fiscal year ending June 30, 1891.

SCHEDULE "M"

Exhibits strength of Police Department and summary of action taken by the Board of Police Commissioners in the trial of complaints against members thereof during the fiscal year ending June 30, 1891.

SCHEDULE "N"

Exhibits correspondence, and synopsis of business, transacted in office of Chief of Police.

SCHEDULE "O"

Report of police patrol wagon service.

SCHEDULE "P"

Exhibits number of nuisances abated by the police, during the fiscal year ending June 30, 1891.

SCHEDULE "Q"

Exhibits list of persons whose claims have been liquidated as authorized by Resolution No. 5231 (Third Series), dated May 25, 1891, for property stolen from the Property Clerk's office, May 11, 1891, amounting to \$577 50.

SUGGESTIONS.

It is required that in each annual report suggestions will be made of such improvements in the arrangement and addition to the equipments of the service as experience may show to be useful and necessary.

In my annual reports of previous years I have suggested that the city and county purchase lots and erect thereon police station houses, fitted with dormitories, for the retention of a reserve force of police on duty. The Fire Department station houses are owned by the city. Why not the Police Department? In all large cities in the East the police stations are city property and fitted up to accommodate all officers in the district where located thus giving the force a place of rendezvous, where they can be concentrated in cases of riot, etc., and kept in readiness for service, night and day.

The destruction of property by riots, which has occurred in other cities, and the danger to which we have been exposed from the same cause, should warn us to use all reasonable diligence to prevent such disasters.

A small body of police, properly drilled and skillfully handled, thrown suddenly upon incipient rioters, will generally quell them before property is destroyed and life sacrificed, when, by delay, serious and disastrous consequences may follow. A reserve force should be kept in the station at all times, except when sent out on duty or for out door drill.

It should be borne in mind that the taxpayers have to pay for property destroyed by riotous mobs, and I would seriously urge that the reasonable precautionary measures to which your attention is directed would be a very cheap insurance against the heavy losses which may be incurred by neglecting to take that care of the public interests which any reasonable person would take in the management of his private affairs. This matter is of such a serious nature that I deem it proper to repeat my recommendations of previous years, and urge upon your Honorable Board the necessity of having proper places constructed for the accommodation of officers, when not on duty, and who might be required at a moment's notice. The foregoing suggestions and recommendations I shall continue to make in each annual report, as long as I am chief of this department, until such action is taken as will render them no longer necessary.

The residents of this city and this department are to be congratulated on the partial establishment of the police wagon patrol and signal system; though we have in operation but 81 boxes connecting with three stations, namely, Old City Hall, New City Hall, and Seventeenth Street, the advantage to this department has been most marked, particularly at the fire on Post street, on May 18th last, where the wounded (caused by the explosion of a gasoline stove) were promptly conveyed to the City Receiving Hospital.

The system should be extended to cover that portion of the city north-east from Ninth, between Market and the Bay, connecting with the Folsom

Street Station, and another covering the northwestern portion of the city, connecting with the North End Station.

Your attention is invited to Schedule "O" of the report, which gives the total number of runs from each station, since the wagons have been in service.

I also renew my suggestions of previous years as to the necessity of a mounted patrol for the outlying districts. Experience has demonstrated that at least fifteen mounted officers are needed to patrol the districts north and south of Golden Gate Park, the Mission and San Bruno roads. A station house fitted with dormitories for the men, and stables for the horses, should be erected for this branch of the service.

The distribution on the streets or sidewalks of printed dodgers, handbills or circulars should be prohibited by ordinance. When the city was in its infancy there was little or no objection to this mode of advertising. Now the distribution of the dodger has become a nuisance. If persons who advertise by this means would consider that as a rule the dodger is thrown on the street without being read, they would adopt some other mode of advertising; therefore they should not object to the passage of an ordinance prohibiting the distribution of the dodger. I recommend that an order be passed by your Honorable Board prohibiting absolutely the sale of and indiscriminate use of fire works.

I recommend that an order be passed prohibiting all parades of whatever nature (excepting funerals) without first obtaining a written permit therefor from the Mayor, and said permit should designate the time and the streets over which said parade should pass.

I recommend that an order be passed prohibiting on streets all public meetings, political, religious, Salvation Army, etc., without first obtaining a written permit from the Mayor stating time and place.

Order No. 2055, concerning driver of certain vehicles, runners and soliciting agents, has been in successful operation for upwards of two years, and with good effect in restraining lawlessness at our ferry landings and railroad depots.

To William S. Barnes Esq., District Attorney of the City and County of San Francisco, I desire to express my sincere thanks for valuable assistance at all times rendered this department.

In conclusion, I will state that the department is efficient and well disciplined, and, notwithstanding the force is smaller in proportion than any other seaport city in the United States, the preservation of order and suppression of crime will compare favorably with any of the great cities.

Respectfully submitted,

P. CROWLEY.
Chief of Police.

GENERAL REMARKS.

In presenting this my first annual report of the operations and expenditures of this institution for the fiscal year ending June 30, 1891, to your Honorable Body, I append a few remarks pertinent to the work done and of what is needed for the further maintenance of the institution and of the objects for which it was created.

I find that the use of this institution as a House of Correction for youthful criminals is almost entirely obviated by the herding together of all classes of the worst elements of crime that a city can produce. By referring to Exhibit "F" it will be seen that there was sent here thirty-one (31) under the statutory age of eighteen (18) years and eight hundred and sixty-one (861) over the statutory age of twenty-five (25) years; of this latter number, one hundred and sixty-eight (168) were over fifty (50) years old.

It can easily be seen that this massing together of those who have for years been a charge upon society for their maintenance on account of crimes committed, with youths who have performed their first offense against the law, can have no good results as regards reformation. It rather is nothing but a school for instruction in crime which far too many of our youth take advantage of, as the after records furnished by the Police and State Prison authorities will show of most of the graduates from it. If the one hundred and sixty-eight over fifty years of age had been sent to the Alms House, where they rightfully belonged, and the balance over twenty-five years of age (693) had been relegated to the penitentiary, the city would have been spared an expense that could very well be incurred for some object more worthy.

Another drawback for the reformation of the youthful criminal is the want of adequate means of immediate and steady employment following incarceration; some means should be furnished whereby they could be taught some useful trade or occupation that would relieve them from all idleness and fit them to be useful citizens after their release.

THE USE OF OPIUM.]

I find that the use of morphine, cocaine and opium is steadily on the increase among those committed to this institution, and that a number who are sent here under the vagrancy law, have ample means of support and only use this place as a sanitarium or "health cure" through the influence of their friends. This great evil should be stopped by all means in the power of the city government; it is ruining so many bright and promising lives and desolating so many happy homes that it is a wonder that society does not rise en masse and demand the abolition of the admittance of opium into our country in any manner whatsoever, whether for medicinal purposes or not. Science is far enough advanced at this present day to provide a substitute that will not, like a cancer, be eating out the lives, morally and physically, of the young men and women whom God intended for better purposes.

DISCIPLINE AND MORAL TRAINING.

In an institution of this kind where so many are gathered together who have been for years warring against society and its laws, it is at times difficult to make them understand that they are amenable to certain rules and regulations that they must and cannot break, but I find that by the use of mild but decidedly firm discipline, even the most incorrigible can be brought under subjection.

In the moral training of the prisoners I have been most ably assisted by the Rev. Father Jacquet of the Jesuit College, Rev. W. C. Mills of the Episcopal Church, and also by colporteurs from different Evangelical denominations.

Our library, I am sorry to say, is very much depleted at the present time, and as good works of fiction and travel are mostly in demand by the prisoners, a judicious supply of that class of works would fill a long felt want.

SANITARY CONDITION.

The sanitary condition of the prison is most excellent and the health of the inmates could not be better; the only cases of sickness in the institution being those self incurred through the use of opium and from other causes outside of the prison jurisdiction.

The visiting physician, Dr. S. S. Kahn, has at all times given us his most valuable and efficient services in relieving the different ailments of the inmates of the prison.

In closing my remarks, I wish to say a word about the work done by the prisoners during my incumbency. The prison has been thoroughly renovated and cleaned and partly repaired inside. The roof, which was sadly in need of repairs, has been thoroughly overhauled, screwed down and painted, thereby insuring its use for a long time without additional expense.

The sewers have been almost entirely rebuilt and a line of pipe run from the kitchen boilers to the chapel, giving the women's department an ample supply of hot water, thereby filling a long felt want. I have also laid lines of pipe from the mains in the yard to the field outside the fence, insuring a plentiful supply of water for irrigating purposes. I have built picket fences from the railroad crossing to the gate to the House, besides repairing the main fence, a part of which blew down in February last. The work upon the county roads has been carried on with the greatest vigor and the ends accomplished have been very gratifying.

In conclusion, I must thank your Honorable Board for the kind and hearty assistance you have given me, both individually and as a body, and also his Honor the Mayor, for his many kind acts and courtesies.

Respectfully submitted,

MARTIN FRAGLEY,

Sup't House of Correction.

INDUSTRIAL SCHOOL REPORT.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN : In compliance with Resolution No. 5,268 (Third Series) of your Honorable Board, I herewith submit my annual report of the City and County Industrial School for the year ending June 30th, 1891 :

On assuming the duties of Superintendent of this institution, January 15th, 1891, I realized that I had undertaken no easy task, and immediately set to work with the determination to thoroughly inform myself as to the requirements necessary to successfully conduct the affairs of the school in a manner that would give satisfaction to your Honorable Body and to the public in general. I found upon examination of the building and premises that owing to the insufficiency of the appropriation, the repairs which should have been made from time to time in order to keep the premises from decay, had been entirely suspended. I therefore set to work with every means at my disposal to make such repairs and alterations as were needed to insure the health of the inmates and keep the premises from falling into ruins.

Upon consulting with the Industrial School Committee and his Honor the Mayor, it was deemed absolutely necessary that immediate steps should be taken to improve the sanitary condition of the building, and with their approval I have caused the removal of the open vaults or sluices which were constructed inside of the building and used as water closets, and in their place put the most improved plug closets, the only expense to the city being the cost of material.

The plastering on ceiling and walls in many of the rooms was badly broken and falling off, owing in part to leaky roofs ; I have now about completed these repairs. I find that the roofs of the main building and that covering the brick building at the rear of the school, are in very bad condition, and it will be necessary before another winter sets in to have new roofs of some kind ; as a matter of safety, I would recommend to your Honorable Board that a fire-proof or metal roof be put on to replace the old and decayed shingle roof now in use.

The high fence surrounding the school premises I find is in bad condition, the posts and braces supporting it having rotted entirely off ; this I intend to have repaired as fast as time and means will allow.

The matter of lighting the building is a subject to which I would call the special attention of your Honorable Board ; we are at present using a gasoline machine which has been repaired since I took charge and which I find inadequate owing to the large number of lights which we are compelled to use for the school-room and dormitories. I would therefore ask that your Honorable Board consider the advisability of putting in an electric plant of sufficient power to furnish both the School and the House of Correction with lights, which would do away with the constant danger attendant upon the use of oil or gasoline.

Through the courtesy of Mr. Fragley, Superintendent of the House of Correction, in allowing me the use of some of the skilled inmates of the House, I have been enabled to do a considerable amount of cement work which was much needed—such as laying a cement floor in the kitchen and areas back of the school ; I am also having laid cement gutterways to all the walks and driveways in the front yard. This work will be permanent and durable. The drains from the closets and sink

which have in some cases been laid for many years, were constructed of wood, had become decayed, causing them to collapse, stopping up the drainage completely; in such cases I had the old drains removed and replaced with iron stone pipe. I have had constructed a four-foot picket fence, extending from the railroad on both sides of the lane leading to the House of Correction and around to the southeast corner of the school yard; from thence to the cross fence at the rear of the lot I have had constructed a board fence, thereby making the field secure for the stock.

The farm will yield a fair crop of potatoes, but owing to the season being so far advanced when I took charge of the place, I could not get the land plowed and seeded in time to give the grain which I sowed for hay, the benefit of the early rains. Consequently the hay crop was light, yielding only about thirty tons, which is of very fine quality. I have about five acres planted in white beans, which bid fair to yield a good crop. I have had the hay baled and stowed in the hay loft and we are now ready to commence hauling gravel for the walks and driveways in and around the premises, which will be rather slow work on account of the long distance which we have to haul, there being none available nearer than the bay shore beyond South San Francisco.

The number of girls maintained at the Magdalen Asylum has increased steadily during the year, having reached the average of eighty-three for the year ending June 30th, 1891, as against an average of seventy-five for the year ending June 30th, 1890, making an additional expense paid for their maintenance of \$2,374 50. I think if arrangements could be made to send all girls and boys in the future who are not residents of this city and county, to the State Reformatory which has been recently opened, that the number committed to this School would be materially lessened during the coming year.

The School Department, under the management of Mr. John A. Wright, principal, and Mr. Joseph Shea, assistant teacher, is conducted in a very satisfactory manner, both gentlemen giving their undivided attention to the instruction of the pupils intrusted to their care; the result of their labors will compare very favorably with any similar institution. Mr. Wright, having had many years' experience in the School, has attained a thorough knowledge of all the requirements and is giving the full benefit of such experience to the boys who are receiving his instruction.

The Band, under the direction of Mr. William Hinds, has become a very pleasing feature in the school; the wonderful progress which they have made during the six months that Mr. Hinds has been instructing them is worthy of commendation. The band is somewhat handicapped in its progress for want of good instruments; the ones now in use, having been many years in the school, are worn out and many of them almost useless. Should your Honorable Body consent to the purchase of a new set of instruments it would be a judicious investment. As has been the case in the past, so I believe it may be in the future, that some of the boys now receiving instruction in this branch may some day take their places among the professional musicians and be enabled to earn an honest livelihood.

I have made frequent visits to the Magdalen Asylum and have found the girls who are intrusted to the care of the Sisters of Mercy in good health and giving evidence of the excellent care bestowed upon them. The ladies who have the immediate care of the girls are untiring in their efforts to promote their welfare, discharging their duties faithfully and conscientiously.

The health of the inmates of the school has been very good for the past year, there having been but few cases requiring other than the means at hand to restore them to perfect health. No deaths have occurred.

The various departments of the school have been doing very satisfactory work. The tailor shop, sewing room and shoe shop give employment to about fifteen boys, giving them an opportunity of acquiring a knowledge in their respective departments which may be of great use to them when they leave the school.

The farm gives useful and healthful employment for many of the boys, affording an excellent opportunity for testing the reliability of such as are trusted on the outside, and I am pleased to be able to say that many of the boys now in the school have proven themselves worthy of confidence, and it is my opinion, after careful observation, that this institution could and should be made one of the most useful in the State.

If means were furnished to so arrange the premises and building that the school could be classified into three classes, segregating the vicious and criminal element from those who are unfortunate and perhaps weak, in many cases friendless, giving to such the encouragement that is so essential to a boy under such circumstances, and restraining those who are easily led into wrong-doing, until they shall have attained a sufficient knowledge of the world and of their own responsibility to enable them to realize the difference between right and wrong, the improvement and benefit would be more apparent than under the present plan.

REPORT OF SUPERINTENDENT

This could only be accomplished, in my opinion, by arranging the premises and building in such a way that those boys who had proven themselves vicious and criminally inclined should not come in contact with the other boys. It think it far more beneficial to the community to expend money for the prevention of crime than for its punishment. I would respectfully ask the earnest co-operation of your Honorable Body in this matter, with a view to the removal of the stigma which has been cast upon this institution in the past.

I wish to return my sincere thanks to his Honor, Mayor Sanderson, together with the entire Board, for the earnest support which has been given me thus far in the performance of my duties.

To the officers and employes I am indebted in a great measure for whatever degree of success I may have attained in conducting the affairs of the school, and I sincerely hope that our relations will be as pleasant in the future as they have been in the past.

Respectfully submitted,

I. P. KINCAID,
Superintendent.

SCHEDULE SHOWING AMOUNT OF MONEY EXPENDED FOR THE DIFFERENT DEPARTMENTS FOR
THE PERIOD BEGINNING JULY 1, 1890, AND ENDING JUNE 30, 1891.

EMPLOYMENT OF GIRLS.

The girls of the Industrial School, after school hours, are employed at various kinds of needlework, crocheting, knitting, etc., with the exception of about three hours devoted to recreation. From eight to ten girls alternate monthly to attend to the domestic duties and arrangements of the Industrial School Department, which is separate and distinct from the Magdalen Asylum.

EMPLOYMENT OF BOYS.

The following is the amount of work performed in the different departments :

SHOE SHOP.

Average number of boys, 3; 6 days per week.

| | |
|--|-----|
| Number of pairs of shoes made from January 1, 1891, to July 1, 1891..... | 253 |
| Number of pairs of shoes repaired from January 1, 1891, to July 1, 1891..... | 400 |
| Number of pairs of shoes distributed..... | 224 |
| Number of pairs of shoes on hand July 1, 1891..... | 29 |

TAILOR SHOP.

Average number of boys employed, 5; 6 days per week.

| | |
|---|-------|
| Number of coats made from January to July..... | 40 |
| Number of pants made from January to July..... | 83 |
| Number of caps made from January to July..... | 39 |
| Number of coats repaired from January to July | 1,800 |
| Number of pants repaired from January to July..... | 1,80 |
| Number of caps repaired from January to July..... | 400 |
| Number of coats on hand July 1, 1891..... | 77 |
| Number of pants on hand July 1, 1891..... | 41 |
| Number of caps on hand July 1, 1891..... | 30 |

LAUNDRY.

Average number of boys employed, 7; 6 days per week.

| | |
|---|--------|
| Number of pieces washed during the year | 89,890 |
| Number of pieces ironed during the year | 80,000 |

SEWING ROOM.

Average 2 boys; 5 days per week.

| | |
|---|-------|
| Number of shirts made..... | 211 |
| Number of shirts examined and repaired..... | 3,002 |
| Number of sheets made..... | 129 |
| Number of sheets examined and repaired | 238 |
| Number of pillow slips made..... | 321 |
| Number of pillow slips examined and repaired..... | 150 |
| Number of ticks made..... | 42 |
| Number of ticks examined and repaired..... | 39 |
| Number of spreads made..... | 35 |
| Number of napkins made..... | 72 |
| Number of aprons made..... | 96 |
| Number of tablecloths made..... | 23 |
| Number of towels made..... | 72 |
| Number of overalls made..... | 11 |

| Total..... | | | | | | | | | | 91 |
| Average years, 15+. | | | | | | | | | | |

No session of school is held on Saturday. The boys bathe every Saturday morning. A large number are occupied in cleaning the school building. Their clothing and shoes are inspected on Saturday afternoon, and the necessary repairs made. The boys are occupied in reading books from the library on Saturday and Sunday evenings.

MUSIC.

As usual, the boys have been instructed in instrumental music during the past year. Mr. Wm. Hinds, the leader of the band, has manifested a great deal of interest and perseverance in teaching this difficult branch. Many of his pupils have made rapid progress in the study of music. The number of boys composing the band varies from twelve to sixteen. It is necessary to have a number of the boys practicing on their respective instruments, that they may be qualified to take the places of the band boys that leave the school. It seems natural for the human mind to find joy in music, as the art of vocal music has been cultivated by most nations of antiquity. The moral influence of good music will make a lasting impression upon the youthful mind, and will exert a salutary influence over the emotional life.

GENERAL REMARKS.

The majority of prisoners in our penal institutions are men with little or no education.

The proper time to acquire an education is during the morning of life. If the youth are not educated and prepared for the duties of life, many of them will yield to temptation, and eventually become full-fledged criminals. The greater number of boys that are sent here do not attend school when at home. They spend their days in idleness; their associates are usually ignorant, and frequently depraved; thus they grow up in ignorance, and we know that ignorance is the mother of vice. Education has a tendency to develop the mental and moral faculties, leading to an improved moral state. If we expect to guide wayward youths to a better life, we must try to keep their minds occupied with their scholastic studies, and this will in a measure prevent their thinking about their past experiences and former associates.

When a boy becomes interested in his studies he has no desire to gloat over vice or criminal reminiscences. He will be eager to acquire useful knowledge, his mind will be occupied with pure and ennobling thoughts.

The deportment of the boys in the school room has been excellent, and many of them have been very diligent in their studies. The day is not far distant when some of these may become useful members of society if they receive encouragement when they leave here.

They receive religious and moral instruction on Sundays from priests, sisters of charity and Protestant instructors.

The assistant teachers have labored faithfully, and have taken a great deal of interest in their work.

Respectfully submitted,

JOHN A WRIGHT,

Principal Teacher.

June 30, 1891.

| June 30, 1891..... | 65,048 53 | 46,636 14 | 18,412 39 | 31,124 40 | 11,124 40 |
| Total..... | \$310,153 84 | \$245,046 90 | \$65,106 94 | \$150,131 67 | \$31,585 83 |

RECORDER'S REPORT.

283

In the year 1887 the receipts of the office amounted to \$42,337 50 and the expenses of Folio Clerks for recording was \$21,082 19.

The Board of Supervisors had then estimated the said expenses at \$20,000, leaving a shortage of \$1,082 19, and every year since then the Supervisors have placed the same estimate of \$20,000 on Folio Clerks, ignoring the fact that an increased business means an increased income to the city and also an increased appropriation.

The receipts of the office have increased to \$65,048 53, and the expense of Folio Clerks necessary to record that amount of work has been \$31,124 40, making a surplus for the city over said expense of \$33,924 13.

These Folio Clerks have earned for the city in the past six years \$160,-022.17 over and above their expenses, and yet this is sometimes called a shortage in the Recorder's Office.

Yours respectfully,

E. B. READ,
County Recorder.

REPORT

OF THE

SUPERINTENDENT OF PUBLIC STREETS, HIGHWAYS AND SQUARES.

SAN FRANCISCO, August 18th, 1891.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco :

GENTLEMEN : I herewith submit my annual report for the fiscal year ending June 30th, 1891.

There have been 4 4437-5280 miles of streets paved with basalt blocks, 4 2-5280 miles paved with bituminous rock, and 1317-5280 miles paved with cobbles ; also, 11 24-5280 miles of streets added to the accepted streets of this city.

There has also been 22 1874-5280 miles of sewers built, for which see annexed tables.

The work of repaving with basalt blocks and bituminous rock a portion of the accepted streets of this city, heretofore paved with cobbles, has progressed (as your Honorable Board are aware) as far as the moneys available for that purpose would permit. The continuance of this improvement as far as possible during the present fiscal year, in my opinion should precede all other improvements except the cleaning and repairing of the city's sewers. There is no work which it is the duty of the city to provide for, and the province of this department to perform, more essential to the comfort and convenience of the public than the repaving of those streets with either of the materials now being used and substituted for the miserable cobbles which have been and are yet a disgrace to this city.

PAVING.

Although your Honorable Board (by Order 2,367) amended the specifications for paving so as to dispense with a concrete foundation, yet no perceptible increase in the area of the streets paved with that material is noticeable. Property owners in general seem to prefer the bituminous or asphaltic pavements now being laid so extensively throughout the city.

These latter pavements are gaining in public favor. In cleanliness and ease of travel their adaptability cannot be questioned, but their durability is still open to doubt, and it cannot be determined until sufficient time has elapsed to prove it.

SEWERS.

The sewerage question still remains the most important of all questions which concern the public health. The formulation of a general plan adapted to the necessities of the inhabitants and the proper drainage of the city is still unperformed. This work your Honorable Board should attempt in the near future. It is true that many of the outlying districts can be effectually sewered by special plans or local systems, as has been done in the Point Lobos district, and can be done in all portions of this city and county, outside the charter line of 1851, but the necessity for a general plan, embracing these local systems wherever their outlets come inside said charter line, is increased and not diminished by their construction. The sewers heretofore constructed in this city reach the waters of the bay through outlets which are all under water at high tide. The sewage matter is thus backed up along the lower levels, creating a nuisance which cannot be abated by any exertion I may make. To remedy this evil competent engineers should be employed to prepare a plan for the sewerage of the entire city. The principal feature in any plan which may be presented will be the construction of a large receiving sewer adjacent to the water front, on a level low enough to insure the proper delivery of all sewers emptying into it, and terminating in a reservoir, from which the matter could be pumped into the bay.

MACADAMIZED STREETS.

There has been 22 1337-5280 miles of macadamized streets constructed in this city during the past fiscal year. I do not regard this improvement as desirable on any street unless in the outlying districts where the value of the property will not warrant a more expensive pavement. Your Honorable Board (by Order No. 2,405) have prohibited its use in future within certain boundaries, and I believe your action in the matter will meet with the approval of every property owner in this city who desires better highways.

The mileage of sidewalks of the several materials in use is shown in the annexed tables.

I have experienced much difficulty in enforcing the sidewalk ordinance heretofore in force, partly because it embraced portions of the city in which it was practically impossible to construct permanent sidewalks, and partly

because violations could occur where it was impossible to obtain evidence sufficient to convict if I caused arrest.

The present ordinance adopted by your Honorable Board is far more reasonable in its boundaries and will, I believe, prove more satisfactory to the people in general.

COUNTY ROADS.

A large proportion of the moneys set apart for the repairs of the county roads during the past fiscal year has been expended on the Mission road. It is the highway connecting this city with the cemeteries in San Mateo county and the principal thoroughfare over which the farm and garden produce raised there reaches the city markets. The traffic passing over this road renders it urgently necessary to make such repairs thereto as would insure public safety when traveling over it, until such times as it is turned over to the municipality as a public street by the commissioners appointed according to law for the widening of Mission street from Twenty-sixth street to the county line.

For the San Bruno road a liberal appropriation has been made, and expended thereon during the past fiscal year, and it is now in good condition throughout; the remainder of the county roads which it is the duty of this department to care for need immediate attention, and the present condition of the Mission and San Bruno roads will now permit some improvement to be made thereon.

Respectfully submitted,

JAMES GILLERAN,

Superintendent Public Streets, Highways and Squares.

AMOUNT DRAWN FROM THE STREET DEPARTMENT FUND DURING THE FISCAL YEAR 18890-91.

WORK DONE IN FRONT OF CITY PROPERTY FIRST HALF FISCAL YEAR 1890-91.

RECAPITULATION OF STREET WORK—CONCLUDED.

[illegible]

REPORT

OF THE

Board of New City Hall Commissioners.

SAN FRANCISCO, July 13, 1891.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: In compliance with the Resolution passed by your Board and by the instructions of the Board of New City Hall Commissioners, I herewith respectfully submit the annexed report for the fiscal year commencing July 1, 1890, and ending June 30, 1891.

Respectfully yours,

EDWARD I. WOLFE,
Secretary.

SAN FRANCISCO, July 1, 1891.

The present Board of New City Hall Commissioners, consisting of Hon. George H. Sanderson, Mayor, Hon. David Stern, Auditor, Hon. John H. Durst, City and County Attorney, held their first meeting on January 6, 1891, and on the 13th day of January, 1891, by resolution theretofore passed to print, Edward I. Wolfe was elected the Secretary of the Board, vice A. T. Spotts, Esq., resigned.

On the 2d day of March, 1891, the Hon. David Stern, Auditor and member of the Board, died suddenly at his residence in this city, and on the 3d of March, 1891, the Commissioners met, pursuant to a call by His Honor George H. Sanderson, Mayor, to take some action in reference to the demise of Commissioner Stern.

Commissioner Sanderson paid a high tribute to the deceased, and Commissioner Durst offered the following preamble and resolution:

WHEREAS, It is with feelings of deep regret that this Board of New City Hall Commissioners has learned of the sudden death of the Hon. David Stern, one of its members and the Auditor of

this city and county, and desiring to express our realization of his great worth as a man, as a public official and as a citizen of this city and State, be it

RESOLVED, That in the death of David Stern the Board of New City Hall Commissioners has lost one of its most valued members, and the city in which he has lived for so many years has lost one of its most public-spirited and best citizens, of whom naught can be said but the highest praise for a life well spent in the strictest probity and uprightness and in the continual performance of acts of charity and benevolence for the amelioration of the condition of the poor and unfortunate of his fellow men, irrespective of nationality or creed.

RESOLVED, That a copy of these resolutions be suitably engrossed and sent to the family of our departed friend, and that a copy of the same be spread upon the minutes of the Board.

The resolutions were adopted by the following vote: Ayes—Commissioners Sanderson and Durst.

On March 7th the Hon. Thomas J. L. Smiley, the newly appointed Auditor by the Board of Supervisors, took his seat as member of the Board, and the Commission was again complete.

The following is the financial statement, and with the exception of salary account, printing and advertising and miscellaneous expenditures, only part of which were expended by the present Board, all other expenditures were made under contracts entered into by previous Boards:

| Salary accounts..... | \$25,550 20 |
| Payments to contractors..... | 391,984 99 |
| Advertising..... | 7,357 23 |
| Miscellaneous expenditures..... | 5,798 29 |
| Printing and stationery..... | 1,468 42 |
| | <hr/> \$432,159 13. |

BALANCE DUE CONTRACTORS JULY 1, 1891.

| | |
|--|---------------------|
| Antonelli & Doe, Contract No. 7 (in litigation)..... | \$1,106 42 |
| McCann & Riddell, Contract No. 12, balance..... | 500 00 |
| Calvin Nutting & Son, iron and steel work northeast wing, No. 18..... | 20,787 25 |
| Shain & Hoffman, brickwork northeast wing, No. 20 | 25,499 75 |
| Henry L. Day, NW wing, Police Courts, County Clerk's office, etc., No. 21... | 30,640 47 |
| F. W. Kreling & Sons, NW wing, furniture, for County Clerk's office, No. 22. | 19,927 00 |
| Bateman Bros., NW wing, prison work and basements, No. 25..... | 39,821 25 |
| | <hr/> \$138,282 14. |

In the miscellaneous expenditures above referred to are included the entire plumbing repairs to the roof and basement of the building, and the filling in, grading and gardening of the grounds on the City Hall avenue and Larkin street front of the reservation.

The estimated receipts in the New City Hall Fund for the fiscal year 1891-92, by reason of the action of the Board of Supervisors in cutting down the tax levy for New City Hall purposes from 10 cents on the \$100 to 6½ cents, will only be about \$198,000, as against the receipts for the last two fiscal years of about \$300,000 each year.

The amounts due upon contracts awarded during the fiscal year 1890-91—and these are the only contracts awarded by the present Board—are as follows:

| | |
|--|------------------|
| Wm. S. Snook & Son, water closets and connections to prison cells, NW wing..... | \$2,548 00 |
| Hall Safe and Lock Co., two new steel vaults in County Clerk's new office, NW wing.... | 3,100 00 |
| Total..... | <hr/> \$5,648 00 |

The following are the amounts credited to the New City Hall Fund for each fiscal year:

| | | | | |

| " " " " 1890-91..... | 432,159 13 |

Total expenditures to July 1, 1891..... \$4,346,811 34

As the law requires an estimate to be made of the amount necessary to complete the New City Hall in accordance with the plans originally adopted, after consultation I place the cost, including the mansard roof, tower, etc., at \$1,500,000, making the estimated total cost of the building when completed \$6,000,000.

The following work has been done during the last half of the fiscal year and under the present Board:

All of the contracts alluded to having been under way during the term of office of Messrs. Pond, Strother and Flournoy.

Contract No. 12—For the brickwork, etc., on the northwest wing, was completed in February 1891, with the exception of a few minor matters, for which the sum of \$500 was retained from the contract price by the Commissioners.

Contract No. 13—For the placing of the steel floor beams and large girders spanning the County Clerk's new office, was completed in January, 1891.

Contract No. 15A—For the placing of bronze standards for gas or electric lights on the granite boundary fence, with necessary pipes, etc., was completed in February, 1891.

Contract No. 16—For the brickwork on the northeast wing up to a red line, including three stories above sub-basement, was completed in March, 1891.

Contract No. 17—For the placing of steel beams and girders bearing the galleries of the new northeast wing of the New City Hall on McAllister street, containing the assembly Hall, Treasurer's office, License Collector, Registration and Election Commissioners Department, etc., was completed in March, 1891.

Contract No. 18—For placing the large girders and attic floor beams in the northeast wing, is well under way, two of the large girders having been completed and in place, and the heavy scaffolding required to place the others being nearly completed. A number of the steel floor beams have been hoisted into place and all of the material for the completion of this contract being upon the ground. The girders put into place under this contract are the largest girders ever built in the United States and perhaps in the world, the largest weighing 303,000 pounds each, and being 126 feet 6 inches long, and 6 feet 4 inches high.

Contract No. 20—The completion of the brickwork of the northeast wing, has progressed rapidly, and the contractors are only waiting for the completion of the large girders under contract No. 18 before putting on the corrugated iron roof and completing the contract.

Contract No. 21—For the interior finish of the northwest wing, including the large room for the County Clerk's new office, three court-rooms, Police headquarters, and other rooms, corridors, etc., is about completed, a few small items and finishing touches remain in order to entirely complete the contract.

Contract No. 22—For furnishing and placing in position the black walnut fittings and furniture, etc., for the County Clerk's new office, including book racks, file box cases, desks, tables, mouldings, etc., is well under way, nearly all of the furniture having been completed at the factory and a large portion already delivered at the building.

Contract No. 23—For the laying of artificial stone sidewalks on the east, south and west of the reservation, has been completed.

Contract No. 24—For placing two large steel vaults in the County Clerk's new office, and cutting doorway, etc., has been awarded to the Hall Safe and Lock Company, and work will soon be commenced.

Contract No. 25—For the completion of the City Prison, Receiving Hospital, and interior finish of rooms to be used by the Police Commissioners, Insane Commissioners, rooms for detaining insane people until examined, and other offices and spaces, including the whole of the basement story of the Larkin street front, is rapidly nearing completion; the grille work is all in place and most of the interior finish completed. The work on steel cell linings having been retarded on account of the noise disturbing the Court proceedings on the floor above, is now, during vacation time of the Courts, being rapidly pushed ahead and nearing completion.

Contract No. 26—For furnishing in place in the County Clerk's new office fittings made therefor, —19,000 file-boxes—is being advertised for at the present time and August 12th the day set for receiving bids. The Commissioners have once before advertised for bids for these files, but having determined on metallic files, and the first advertisement having resulted in nearly all the bids being for wooden files, and only a few for metallic files, concluded in justice to all bidders to reject all bids and readvertise, which has been done.

Contract No. 27—For changing the old rooms of the Board of Education into a court-room for Judge J. C. B. Hebbard, bids were received on Tuesday, July 14, 1891, and Tuesday, July 21st, is the day set for the consideration of the bids and the awarding of the contract.

Contract No. 28—For the placing of water closets in the cells of the City Prison, and for the improvement and completion of the drains and sewer system of the Larkin street front, has been awarded to Wm. S. Snook & Son, by the present Board, and work thereon is progressing rapidly.

In addition to these contracts the work of grading and laying out the grounds and garden on the Park avenue and Larkin street side of the reservation has been performed under the direction of Superintendent of Works Wm. G. Hughes, by the Commissioners, and also the general repair and putting in good order of the roof over the older portions of the building and the much needed repairs to the plumbing generally.

It is safe to say that nothing done upon the New City Hall has given such general satisfaction to our citizens and added to the appearance of the south front of the building and the sanitary requirements thereof as the work alluded to in this paragraph.

Specifications are now in the hands of the printer, and advertisements for bids thereon will soon follow for the completion of the granite coping around the grounds, for the erection of the lamp posts on the McAllister street front, and for the completion of the artificial stone sidewalks, and the architect is preparing plans for the interior and exterior finish of the grand entrance to the Hall fronting on City Hall avenue, and for the continuance of the tower up to the present cornice and the temporary roof thereon.

The work on the main entrance spoken of will greatly add to the appearance of the south front of the building, and will be of great convenience to all those having business in the City Hall, as it will connect with all the corridors leading in each of the stories and save making a roundabout circuit of the Hall to get to the desired department, and the end of this year will see so marked an improvement in the general appearance of the exterior of the building, and so many important additions and improvements in the departments in the interior thereof, that our citizens will begin to be proud of the building which has heretofore been slightly spoken of.

In addition to the above improvements a grand driveway on the McAllister street front is being projected, and the mansard roof and the height of the main tower are being considered.

Respectfully submitted for the Board of City Hall Commissioners,

EDWARD I. WOLFE,
Secretary.

REPORT

OF THE

SAN FRANCISCO LAW LIBRARY.

SAN FRANCISCO, June 23, 1891.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: In compliance with your resolution, No. 5,268 (Third Series) the Librarian of the San Francisco Law Library has the honor herewith to submit his report in behalf of that institution ending this day:

| | |
|-------------------------|-----|
| Shareholders..... | 248 |
| Subscribers..... | 26 |
| Ex-officio members..... | 75 |
| Total..... | 349 |

The following shareholders were elected during the year: W. W. Davidson, M. Rosenthal, A. D. Keyes and A. Ruef. During the same period we lost by death John D'Arcy, S. Heydenfeldt and J. F. Wendell.

Our accessions have been more strictly confined to legal publications than in former years. We have kept abreast of the current legal literature of the day, and have supplied some of the most important periodicals needed to complete our lists.

The library now contains 29,661 registered volumes. Of these 830 were added since the last report. Of this number 674 were acquired by purchase, 40 by gift, 116 were records of the Supreme Court bound. The following lists give an idea of the character of the books:

| | |
|--------------------|-----|
| Text books..... | 119 |
| Reports..... | 210 |
| Digests..... | 25 |
| Statutes..... | 78 |
| Citations..... | 19 |
| Miscellaneous..... | 379 |

More particularly classified :

| | |
|------------------------------------|-----|
| American text books..... | 86 |
| American reports..... | 189 |
| American digests and indexes.... | 22 |
| American statutes..... | 58 |
| English text books..... | 33 |
| English reports..... | 21 |
| English digests and indexes..... | 3 |
| English statutes..... | 8 |
| Foreign statutes..... | 12 |
| Periodicals, law..... | 102 |
| Periodicals, Miscellaneous..... | 30 |
| Records of Supreme Court..... | 116 |
| Trials..... | 3 |
| United States Documents..... | 31 |
| Cyclopedias and Dictionaries..... | 7 |
| Directories and Statisticians..... | 8 |
| General Miscellany..... | 101 |
| Total..... | 830 |

Those to whose kindness we are indebted for books are : W. W. Morrow, Board of Supervisors, American Bar Association, the Secretary of the State of California, Secretary of the State of Massachusetts, George B. Mackrett, Public Printer of New Zealand, R. B. Fulton, M. M. Estee.

The expenditures for the period covered by this report are as follows:

| | <hr/> \$1,560 00 |

One-half of which has been turned over to the License Collector; the other half to the Treasurer of the Charitable Fund of this Department, with the exception of three hundred and eighty-five dollars which has been withheld by order of your Honorable Board.

RULES AND REGULATIONS.

OFFICE.

1. The Office of the Board of Fire Commissioners shall be the office of the Chief Engineer of the Department, and shall be known as the Headquarters of the San Francisco Fire Department. Office hours for the transaction of business shall be from 9 A. M. to 4 P. M. Sundays and legal holidays excepted.

DIVISIONS.

2. There shall be two divisions of the Fire Department of the City and County of San Francisco, viz.:

Division No. 1, comprising Districts Nos. 1, 2 and 5, under the immediate supervision of the Assistant Chief Engineer of the Department.

Division No. 2, comprising Districts Nos. 3, 4 and 6, under the immediate supervision of the Second Assistant Chief Engineer of the Department.

DISTRICTS.

3. District No. 1.—Commencing at the northeasterly corner of Market and Stockton streets running easterly on northerly line of Market street to bay, and northerly on easterly line of Stockton street to bay.

District No. 2.—Commencing at southeasterly corner of Market and Seventh streets, easterly on southerly line of Market street to bay, and south on easterly line of Seventh street to Centre of Sixteenth street, and easterly on Centre or Sixteenth street to bay.

District No. 3.—Commencing at southwesterly corner of Market and Seventh streets, southerly on westerly line of Seventh street to Centre or Sixteenth street, and westerly on Centre or Sixteenth street to its intersection with Market street, and easterly on southerly line of Market street to point of commencement.

District No. 4.—All territory south of Districts Nos. 2 and 3, and south of southerly line or Market street from Sixteenth, and south of contemplated extension of Sixteenth street.

District No. 5.—Commencing at northwestern corner of Stockton and Market streets, running northerly on westerly line of Stockton street to bay, and westerly on northerly line of Market street to Van Ness avenue, and northerly on easterly line of Van Ness avenue to bay.

District No. 6.—All territory west of District No. 5, and north of Districts Nos. 3 and 4.

HEADQUARTERS.

4. The headquarters of the Chief Engineer shall be, during office hours, at the Headquarters of the Fire Commissioners. After office hours, which shall be construed as being between the hours of 9 A. M. and 4 P. M., Sundays and legal holidays excepted, he shall be at the house of Engine Company No. 2, on Bush street, above Kearny.

Headquarters of Assistant Chief Engineer and Chief of Division No. 1, shall be, during office hours, at the office of the Chief Engineer, and after office hours, at the house of Engine Company No. 4, on Second street, near Howard.

Headquarters of Second Assistant Chief Engineer and Chief of Division No. 2, shall be at the house of Truck Company No. 3, on Market street, between Tenth and Eleventh.

Headquarters of District Engineer of District No. 1, shall be at the house of Engine Company No. 1, on Pacific street, near Sansome.

Headquarters of District Engineer of District No. 2, shall be at the house of Engine Company No. 6, on Sixth street, near Folsom.

FIRE COMMISSIONERS' REPORT.

Headquarters of District Engineer of District No. 3, shall be at the house of Truck Company No. 3, on Market street, between Tenth and Eleventh.

Headquarters of District Engineer of District No. 4, shall be at the house of Hose Company No. 3, on Folsom street, between Twenty-first and Twenty-second.

Headquarters of District Engineer of District No. 5, shall be at the house of Engine Company No. 3, on California street, near Leavenworth.

Headquarters of District Engineer of District No. 6, shall be at the house of Hose Company No. 2, on Post street, near Fillmore.

CLERK.

5. The Clerk of the Board of Fire Commissioners shall attend daily at the headquarters of the Department, and shall devote his whole time and attention to the duties thereof. He shall keep a true record of all the proceedings of the meetings of the Board of Fire Commissioners, and shall enter in the minutes of each monthly meeting all the appointments made by the Commissioners, and by whom made; and shall perform such other duties as may be prescribed by the Board and Chief Engineer. He shall also perform the duties of clerk to the Chief Engineer and Assistant Chief Engineer.

MEMBERSHIP.

6. Every person hereafter appointed a member of the San Francisco Fire Department must at the time of his appointment be over twenty-one years of age, a citizen of the United States, and be able to converse understandingly in the English language. He shall make application to the Board of Fire Commissioners in writing over his own signature, stating the position he is an applicant for, his name, age, birthplace, residence and business occupation. Any person applying for the position of hoseman or truckman must be of sound bodily health, and over twenty-one and not over thirty years of age.

Each and every member of the Department hereafter appointed shall procure a certificate from the Board of Examining Physicians appointed by the Board of Fire Commissioners that he is in sound health. Failing to comply with this requirement within five days from the date of his appointment, the position shall be declared vacant.

THE CHIEF ENGINEER.

7. The Chief Engineer shall devote his whole time and attention to the Fire Department, have sole and entire command at fires and alarms of fires over all officers, members and employees of the Department, and all apparatus and appurtenances belonging to the same, and he shall take all measures which he shall deem expedient for the extinguishment of fires, protection of property, preservation of order, and observance of the laws of the State, ordinances of the City, and rules and regulations of the Board of Fire Commissioners. It shall be the duty of the Chief Engineer to examine into the condition of all the houses, apparatus and appurtenances belonging to the Department, to examine Engine, Hose and Hook and Ladder companies, and to appoint all clerks and assistant foremen of companies in the Department. The Chief Engineer is vested with the power to suspend any officer, member or employee of the Department who shall refuse or neglect to perform the respective duties assigned them, or shall refuse or neglect to comply with the rules and regulations of the Commissioners, and report such action. It shall be the duty of the Chief Engineer to report from time to time to the Commissioners the name of such officer or member of the Department, if any, who, in his judgment, should be removed or discharged, with his reasons therefor. In all cases of removal from the Department, the name of the party removed, with a statement of the reasons therefor, shall be entered in the minutes of the Board. He shall be responsible to the Board of Fire Commissioners for the conduct and management of the members of said Department and shall report to the Board of Fire Commissioners any officer or member of the Department who, by reason of age, disease, accident, or other incompetency, does not or cannot fully, energetically promptly and properly perform his duty in the Department.

ASSISTANT CHIEF ENGINEER.

8. The Assistant Chief Engineer shall devote his whole time and attention to the Fire Department. It shall be his duty to respond to all alarms of fires except in case of sickness or the absence of the Chief Engineer, to take charge at fires and alarms of fire, and in case of the absence of the Chief Engineer he shall assume the same duties and have the same power as devolves upon the Chief Engineer. It shall be his duty to visit the houses connected with the Department at least once in every week, and report the condition of each to the Chief Engineer.

ASSISTANT OR DISTRICT ENGINEERS.

9. It shall be the duty of the District Engineers to devote their whole time and attention to the Fire Department; to respond to all alarms of fires within their respective districts assigned to them and report to the Chief or Assistant Chief on his arrival at the fire, and report, in writing, daily to the Chief of his division the conditions of the several houses and apparatus in his district, compiled from written reports from the different officers of the companies in his district as hereinafter provided. They shall also attend to their duties as Fire Wardens within their respective districts, and see that all orders emanating from the Board of Fire Commissioners or Chief Engineer, or Chief of Division are strictly enforced within their respective districts.

In case of the absence at any fire the District Engineer shall assume and perform the duties of Chief Engineer until the arrival of the Chief Engineer or Chief of Division.

The District Engineers of Districts Nos. 1, 2 and 5 shall report to Chief of Division No. 1 at his headquarters daily, in writing, between the hours of 11 A. M. and 1 P. M., and shall immediately return to their respective districts.

The District Engineers of Districts Nos. 3, 4 and 6 shall report to the Chief of Division No. 2 at his headquarters daily, in writing, between the hours of 11 A. M. and 1 P. M., and shall immediately return to their respective districts.

No District Engineer shall, except in case of fire, absent himself from his district, except by permission of the Chief of his Division, except when engaged in going to and from his division headquarters.

FOREMAN OF COMPANIES.

10. The Foreman of each Engine, Hose and Hook and Ladder Company shall at all fires direct the apparatus in a suitable position at the scene of fire, and the Foreman of each Engine and Hose Company shall have charge and directing of hose and hosemen.

The Foreman of each Engine, Hose and Hook and Ladder Company shall have charge of the apparatus belonging to his company. He shall preserve order and discipline at all times among the members of the company under him, and require of them and enforce a strict compliance with the rules and regulations of the Department and the orders of the Chief Engineer. He shall report to the Chief Engineer any violation of any of the rules and regulations of the Department, or neglect of duty by any of the men under his charge. He shall see that no person other than a member of the Department (except a substitute acting for a member) shall sleep in the house, nor shall he allow any person not a member of the Department to lounge in and around the house. He shall not excuse any member of his company from answering roll call on returning from an alarm of fire during the hours of 8 P. M. and 5 A. M.

ASSISTANT FOREMAN.

11. The Assistant Foreman shall in the absence of the Foreman exercise the same duties, and shall have the same powers as devolve on the Foreman.

CLERKS OF COMPANIES.

It shall be the duty of the Clerk of each company to keep an accurate record of the membership of his company in a book provided for that purpose, and to note accurately therein all absentees at all alarms of fire or drills, and to correctly keep an account of weights and qualities of feed, fuel, stores and other articles received at the house for the use of the company, and to transmit a correct copy to the Board of Fire Commissioners on the last day of each month. Said Clerk shall make a minute of the reasons on the roll call of all absentees from said roll call during the hours of 8 P. M. and 5 A. M.

ENGINEERS OF STEAMERS

12. Each applicant for the position of Engineer of Steamers shall be a regular practical engineer. All applicants, after having passed a medical examination, shall be examined by the Superintendent and Assistant Superintendent of Steamers, appointed by the Board of Fire Commissioners.

The Engineer of each steamer shall give his entire time to the interest of the Fire Department, and shall always be at the Engine House where his engine is kept, except when directed by the Chief Engineer to perform other duty, or when at meals. He shall, under the direction of the Foreman, have sole care of the Engine House and of all property therein belonging to the city. He shall be held personally responsible for the care and order of the engine, and shall work and manage the same, and see that it is at all times ready for immediate use, and while working at fires he

FIRE COMMISSIONERS' REPORT.

shall not be allowed to use over eighty (80) pounds pressure of steam, and not over one hundred and twenty (120) pounds pressure on hose, unless otherwise ordered by the Engineer in charge. It shall be his duty to take the number of the box coming in from all alarms of fires, and report the number of box located to the driver. He shall report daily to the Assistant Engineer of his district the condition of the house and apparatus in his charge. He shall also assist in keeping the house and apparatus clean and in good order, and shall have the same ready for inspection daily at 10 A. M.

DRIVERS

14. The drivers belonging to the several companies shall devote their whole time and attention to the Fire Department, shall take care of and properly groom the horses belonging to their respective companies, see that the same are at all times ready for immediate use to convey the apparatus to the scene of the fire on an alarm being sounded, and perform such other duties as may be required of him by the Foreman of his company, and shall also keep everything in and around the stable neat and clean. He shall report daily to the Assistant Engineer of the district wherein his company is located the condition of his horses and harness, and shall have his horses and harness cleaned and ready for inspection daily at 10 o'clock A. M. He is strictly prohibited from racing going to or returning from alarms of fire, nor shall he permit his apparatus to pass any other apparatus of the Department unless such apparatus or horses should be disabled; nor shall he drive his horses at a rate of speed that may be liable to cause accidents.

FIREMEN OF STEAMERS.

15. The Fireman of each engine company shall devote his whole time and attention to the Fire Department; he shall be under the direction of the Engineer of his company, assist in the care and cleanliness of the apparatus and the house, and see that the engine is properly supplied with fuel and perform such other duties as the Engineer may direct.

TILLERMEN.

16. The Tillerman of each Hook and Ladder Company shall give his entire time and attention to the Fire Department, and shall be required, under direction of the Foreman, to keep the apparatus of his company neat and clean. He shall report daily, in writing, to the Assistant Engineer of his district the condition of the apparatus and house, and shall take the box and location that comes in from all alarms of fire, and report the same to the driver; he shall have the house and apparatus ready for inspection daily at 10 A. M.

STEWARDS OF HOSE COMPANIES.

17. The Steward of each Hose Company shall give his entire time and attention to the Fire Department, and shall keep the apparatus and house of his company clean and ready for immediate use, and in the absence of the driver to his meals he shall perform the same duties as the driver. He shall take the number of box and location that comes in from all alarms of fire and report the same to the driver, and shall report daily to the Assistant Engineer of the district the condition of the house and apparatus. He shall obey all orders of the Foreman of his company, and have the house and apparatus ready for inspection daily at 10 A. M.

EXTRAMEN.

18. It shall be the duty of the Hosemen and Hook and Laddermen of each and every company of the Fire Department to attend all fires immediately upon an alarm being sounded, and to report to the officer in command of their respective companies, to obey all orders in respect to the discharge of their duty, and to return to their respective houses with their apparatus to answer roll call. They shall be required to meet as often as once in each month, at regular monthly meetings, to be determined by their respective foremen; and any member of any company who is reported absent at three or more alarms of fire or drills in any one month, without giving a satisfactory excuse to the Chief Engineer, shall be liable to suspension or dismissal from the Department, at the option of the Board of Fire Commissioners, but no member shall be excused from answering roll call between the hours of 8 P. M. and 5 A. M. Each extraman assigned to duty to any truck shall forthwith provide himself with a four-cone leather fire hat, and shall wear the same at all alarms of fires and at drills.

SUPERINTENDENT OF STEAMERS.

19. The Superintendent of Steam Fire Engines shall give his entire time and attention to the Fire Department, and shall supervise all repairs and improvements upon the apparatus of the Fire Department. He shall have general supervision of all the steam fire engines connected with the Fire Department, and of the Engineers of said engines. He shall examine the engines at least once a week, and report to the Chief Engineer in writing, once a month, any repairs or improvements necessary. He shall report all cases of neglect of duty or carelessness on the part of any Engineer to the Chief Engineer. He shall answer all general alarms of fire being sounded, repair with all possible dispatch to the point from whence the alarm comes, and see that the Engineers are all in charge of their respective engines and working the same properly.

ASSISTANT SUPERINTENDENT OF STEAMERS.

20. The Assistant Superintendent of Steam Fire Engines shall devote his whole time and attention to the Fire Department, shall be under the direct control of the Superintendent of Engines, and shall faithfully execute all orders issued by him. He shall also perform such other duties as may be prescribed by the Chief Engineer. He shall be in attendance at the Corporation Yard, when not otherwise engaged in the discharge of his duties, daily, Sundays and legal holidays excepted, from 8 A. M. to 5 P. M., and such other times as the Superintendent of Steamers or Chief Engineer may direct.

CORPORATION YARD CLERK.

21. The Clerk and Storekeeper of the Corporation Yard shall, under direction of the Chief Engineer, give his undivided attention to the duties connected with his office. He shall have care of, and deliver to the several companies, all supplies required for the use of the Fire Department. He shall keep a plain and comprehensive set of books, containing an account of all supplies received by him and delivered to the several companies. He shall see that a full supply is kept on hand at the Corporation Yard for distribution to the several companies. In no case shall he deliver any supplies to any company or any member of the Department except upon a written order from the Chief Engineer, Assistant Chief, or Clerk of the Fire Department, except at alarms of fire. He shall perform such other duties as may be required of him by the Chief Engineer, and make a monthly report to the Board of Fire Commissioners of stores received and delivered by him to the companies. He shall be at the Corporation Yard daily, Sundays and legal holidays excepted, from 8 A. M. to 5 P. M., and such other times as the Chief Engineer may direct.

CORPORATION YARD DRAYMAN.

22. The Corporation Yard Drayman shall devote his whole time and attention to the Fire Department, report to the Chief Engineer at least once every day, and hold himself in readiness at all times to attend to any business connected with the Fire Department, when so directed by the Chief Engineer.

He shall take charge of all the relief horses at the Corporation Yard, and assist in the taking care of said horses, and shall be in attendance at the Corporation Yard when not otherwise engaged in the discharge of his duties, daily, Sundays excepted, from 8 A. M. to 5 P. M., and at such times as the Chief Engineer may direct.

MESSENGER.

23. The Messenger at headquarters shall be in attendance daily, Sundays and legal holidays excepted, from 8 A. M. to 5 P. M. He shall attend at all meetings of said Commissioners, keep said offices clean and in proper order, and attend to such other duties as the Chief Engineer may direct.

HYDRANTMEN.

24. The Hydrantmen shall attend to all hydrants and cisterns in their respective districts, see that the same are in good working condition, that the hydrants are well oiled and packed, caps securely fastened, and ready at all times for immediate use. They shall see that they are kept free from obstructions of every character, so that they can be readily reached and connections made with them to supply the engines with water when a fire occurs. They shall report each month, in writing, to the Chief Engineer the condition of the same, and shall assist in keeping the Corporation Yard and office of said yard clean and in proper condition; they shall report the number of hydrants attended to in their district, and their location; they shall also be in attendance at the Corporation Yard daily, Sundays and legal holidays excepted, when not otherwise engaged in the discharge of their duties, from 8 A. M. to 5 P. M., and at such other times as the Chief Engineer may direct.

FIRE COMMISSIONERS' REPORT.

VETERINARY SURGEON.

25. The Veterinary Surgeon shall hold himself in readiness at all times to attend to any horses of the Fire Department that may require his attention. He shall report to the Chief Engineer at least once every day for orders, and promptly attend to any sick or disabled horses belonging to the Fire Department.

The person assigned to the duties of taking care of the sick and disabled horses shall devote his whole time and attention to the Fire Department; shall report to the Veterinary Surgeon daily the condition of the horses under his charge, and obey all orders the Veterinary Surgeon may direct, and obey all orders emanating from the Chief Engineer.

CORPORATION YARD HOSTLER.

26. The Corporation Yard Hostler shall be in attendance at the Corporation Yard daily between the hours of 8 A. M. and 5 P. M. He shall assist the Drayman and Watchman in taking care of the Corporation Yard stables and the horses and harness connected therewith, and attend to such other duties as the Chief Engineer may direct.

ALMO SQUARE STABLE HOSTLER.

27. The Hostler at the Fire Department stable on Almo Square shall devote his whole time and attention to the care of the horses, etc., in his charge; he shall obey all orders in regard to the feeding and care of the horses emanating from the Veterinary Surgeon, and such other duties as the Chief Engineer may from time to time prescribe.

PAINTER.

28. The Fire Department Painter shall be in attendance at the Corporation Yard daily between the hours of 8 A. M. and 5 P. M. (Sundays and legal holidays excepted), when not otherwise engaged in the discharge of his duties; he shall keep his brushes and apparatus in good order, and obey all orders emanating from the Board of Fire Commissioners or Chief Engineer.

CARPENTER.

29. It shall be the duty of the Carpenter to devote his whole time and attention to the Fire Department, to be at the office of the Board of Fire Commissioners daily, when not otherwise engaged in the discharge of his duties, Sundays and legal holidays excepted, from 8 A. M. to 5 P. M. and at any other times the Chief Engineer may direct. Whenever he has need of assistance and material in repairing any property belonging to the Department, he shall make a written application to the Chief Engineer, stating the repairs, etc., necessary to be made. He shall make a report in writing once a month to the Board of Fire Commissioners of the number of men employed, also the number of days employed, the nature of the repairs made, and the amount of material used in making said repairs.

THE CORPORATION YARD WATCHMAN.

30. The Corporation Yard Watchman shall be in attendance at the Corporation Yard at all times when the yard is closed. He shall be in readiness to fulfill all orders emanating from the Chief Engineer. He shall assist the Corporation Yard Drayman in taking care of and properly grooming the relief horses in the Department, and keep the stable neat and clean, and obey all orders from the Veterinary Surgeon.

LEAVE OF ABSENCE.

31. No member of the Fire Department shall absent himself from the city for more than ten days, except by permission of the Board of Fire Commissioners, and any member of the Fire Department requesting a leave of absence for more than ten days must apply in writing to the Board of Fire Commissioners for the same.

SUBSTITUTES.

32. All Substitute Hosemen or Truckmen shall be selected by the Chief Engineer, and all Substitute Drivers, Firemen and Stewards shall be selected by said Chief Engineer from the list of substitutes named by the Board of Fire Commissioners. All Substitute Engineers shall be selected by the Superintendent of Steamers from the list named by the Board of Fire Commissioners, and said Substitute Engineers must have the same qualifications as a regular Engineer of Steamers.

No Engineer, Driver, Fireman, Steward or Tillerman, shall leave the city without having first procured a substitute satisfactory to the Chief Engineer; and any other member of a company about to leave the city shall be required to furnish a substitute, subject to the approval of the Chief Engineer, failing to do which he is liable to dismissal.

Substitute Drivers, Stewards or Firemen selected by the Board of Fire Commissioners shall report daily to the Chief Engineer at headquarters, and shall be in attendance at all times, to be assigned to duty in case of need.

SUSPENSIONS.

32. In all cases where any member of the Fire Department is suspended for any transgression of the rules and regulations, charges shall be immediately preferred against said member, and no member shall be reinstated until a trial of the charges are had by the Board of Fire Commissioners.

REWARDS.

34. No member of the Department shall receive any rewards or presents of any kind for service rendered in the discharge of his duties without the permission of the Board of Fire Commissioners or the Chief Engineer.

TO SURRENDER PROPERTY.

35. Members of the Fire Department, on resignation or dismissal, will immediately surrender to the Chief Engineer all property in their possession belonging to the Fire Department.

FIRE LINES.

36. No person will be allowed within the lines formed by the police at a fire, unless he be a member of the Fire Department or wearing the regulation badge authorized by the Board of Fire Commissioners. Members of the Fire Department will, when on duty, have their badges displayed conspicuously on their left breast. Any violation of this rule will subject the offender to suspension.

BADGES.

37. Members of the Department are strictly prohibited from exchanging or loaning badges. Any member losing his badge will be charged the sum of \$1 to replace it.

DRIVING OVER HOSE.

38. Crossing a line of hose, when in use, is, except in cases of absolute necessity, strictly prohibited.

DRIVERS HELD RESPONSIBLE.

39. Drivers will be held responsible for any damage caused by them or carelessness displayed in conveying their apparatus to or from a fire or alarm of fire.

TO LODGE IN THE COMPANY HOUSE.

40. The Engineer, Firemen, Drivers, Tillermen and Stewards of companies shall lodge in their respective houses, and one of their number shall be on the floor of the house at all times during the day and night, the watch to be set by the Engineer of the district, and not less than three hosemen or four truckmen or their substitutes shall lodge in the houses of their respective companies, to be designated in rotation by the Foreman.

PROPERTY TO BE RETURNED.

41. Officers of companies having hose or other property belonging to other companies after a fire, shall return the same to the company to which it belongs as soon as practicable.

DUTIES AT FIRES.

42. The Foreman or Assistant Foreman of each company, when in service, shall remain with the company to direct the operations of the members thereof. Members of the several companies except when otherwise engaged, or on special duty, shall keep within hearing distance of their respective Foremen and strictly obey all orders emanating from them.

FIRE COMMISSIONERS' REPORT.

REMOVAL OF APPARATUS.

43. No company will be allowed to take their apparatus away from the house, except in case of fire or drill, without the consent of the Chief or acting Chief Engineer.

The Hook and Ladder Companies must at all fires or alarms of fires report themselves the same as other companies, and take their places as near the fire as practicable, in such a position that they can be found conveniently, and shall remain there until ordered to move.

UNIFORMS.

44. The Chief Engineer, Assistant Chief Engineer, Assistant Engineers, Engineers of Steamers, Drivers, Fireman and Tillerman shall, when on duty (except at fires), wear uniform hereafter described.

The Chief of Department—A white leather cap with eight cones, having a gilded leather front, depending from a gilt edge head, and attached to the front of the cap with the insignia of his rank painted upon it in black shaded with red, and also the word Chief, in black letters shaded with red, upon a scroll of gold. For Assistant Chief, same as the Chief of Department, with the insignia of his rank; also the words Assistant Chief. For Assistant Engineers, same as for Chief of Department, with the insignia of their rank; also the words Assistant Engineer.

FOR INSIGNIA OF RANK.

45. For Chief Engineer—Five trumpets, measuring one and five-sixteenths inches, each crossed with bells outward and projecting beyond mouth-pieces, so as to form a design one and one-half inches in diameter, to be embroidered in gold upon a circle of dark blue cloth. For Assistant Chief Engineer, same as for the Chief Engineer, except that there shall be three trumpets, measuring one and one-half inches each, crossed with bells downward. For Assistant Engineers, same as for the Assistant Chief Engineer, except that there shall be two trumpets embroidered on an oval of dark blue cloth.

FATIGUE HATS.

46. For Chief Engineer, Assistant Chief Engineer and Assistant Engineers—Black felt army hat, with the insignia of their respective ranks on the front of the hat.

COAT.

47. For the Chief Engineer—A double-breasted, close-fitting sack coat, made of dark blue navy cloth, cut to button close to the neck, with rolling collar, and to reach to a point midway between the hip joint and bend of the knee; to have eight medium-size regulation buttons on each breast, grouped in pairs; the cuffs to be made to fit the wrists, and to be closed with four small regulation buttons; to have a pocket on the inside of each breast; the coat to be lined with dark cloth or flannel and the sleeves with linen.

Coats for Assistant Chief and Assistant Engineer and members compelled to wear uniforms—Same as for the Chief of Department, except that the buttons will be six in number on each breast, placed equidistant.

VEST.

48. For all officers and members of the Department compelled to wear uniforms—A single-breasted vest, made of the same material as the coat, without collar, and to button with six small regulation buttons to within five inches of the neckband.

TROUSERS.

49. For all officers and members of the Department compelled to wear uniforms—To be made of the same material as the coat, with lap seams; to be cut to fit close around the waist, but loosely around the hams and legs, to admit of their free use.

SHIRT.

50. For all officers and members of the Department compelled to wear uniforms—To be of white linen or muslin, with turn-down collar.

CRAVAT.

51. For all officers and members of the Department compelled to wear uniforms—A narrow necktie or bow of black silk, tied in a flat knot in front, the ends to extend not more than three inches from the knot.

FATIGUE CAP

52. For members of Fire Department compelled to wear uniforms—Of United States navy pattern, made of dark blue cloth, pure indigo dye, with band one and one-half inches, and quarters one and three-quarters inches high, stiffened with hair cloth sewed into the seam of top and quarters; the top to have a small hole for ventilation in the center, and to be lined with red silk; a narrow welt around the bottom of band and top seam of cap; the inner band to be of strong, serviceable leather; the vizor to be plain, solid, black patent leather, two inches wide, with rounded corners; the chin-strap of black patent leather, one-half inch wide, with slides of the same material, fastened to the cap on each side with a small regulation button; the insignia of position to be placed in the quarters in center of the front, in gold or gilt letters, the lower points resting nearly upon the upper edge of band.

MISCELLANEOUS.

53. No member of the Fire Department shall be a delegate in person or by proxy to, or a member of any political or partisan convention, State Central Committee, or County Committee, nor while a member of said Fire Department shall be a candidate before any convention for any political office.

54. No member of the Fire Department shall be allowed to bring into any house belonging to said Department any spirituous, malt or intoxicating beverages of any kind, nor shall there be allowed any gambling devices of any kind in said Department. Nor shall any member, at any time, be under the influence of any spirituous, malt or intoxicating beverages, liquors, drugs or compounds while on duty. Nor shall he be guilty of immoral or improper conduct, nor engage in any altercation

55. No member of the Fire Department shall sell or assign his salary or incur liabilities for the necessities of himself or family which he is unable or unwilling to pay, or neglect or refuse to honorably discharge; shall not use obscene, immoral, disrespectful, impudent or other improper language, but shall always be respectful and gentlemanly to his superiors and equals, and to citizens.

56. Interference in any manner by one employee with the duties of, or the performance of the same by another, is prohibited, and it shall be the duty of each employee to make immediate report of such interference to the Chief Engineer.

57. If by accident, or otherwise, any person is damaged by any company, it shall be the duty of the Foreman of the company causing the damage to report the same immediately to the Chief Engineer, and he shall immediately investigate the matter and report the same in writing to the Board of Fire Commissioners.

58. Any member of the Fire Department meeting with an accident in the discharge of his duty, shall, within ten days, report the same to the Chief Engineer; and he shall, immediately on receiving notice of same, report the same in writing to the Board of Fire Commissioners.

59. All employees, such as mechanics, laborers, etc., employed in the Corporation Yard, shall be in attendance daily from 8 A. M. to 5 P. M., Sundays and legal holidays excepted. And they and each of them shall obey all orders emanating from the Superintendent of Steam Fire Engines, or in his absence the Assistant Superintendent of Steam Fire Engines.

60. Telephones in Department houses shall not be used by any person not a member of the Department, nor for any purpose other than business connected with the Fire Department.

Nothing contained in these rules shall preclude the Fire Commissioners and Chief Engineer from at any time requiring any or either of the employees of the Department, serving under their directions, to perform such other duties not herein specially prescribed for them, as the interests of the Department service may in their opinion demand or require.

VIOLATIONS OF RULES.

62. Any and all violations of these rules and regulations not otherwise provided for, shall be punishable by suspension or dismissal, as the Board of Fire Commissioners may elect.

63. All rules and regulations in conflict with these rules and regulations are hereby repealed.

FIRE COMMISSIONERS' REPORT.

AMENDMENTS.

May 10, 1890—All nominations for positions in this department shall be made in open Board.

Upon the applicant receiving the majority vote of this Commission he shall be deemed elected to said position, subject to the approval of the Chief Engineer.

January 3, 1891—All substitutes for extramen who are duly appointed by the Chief Engineer to run to fires during the daytime shall be allowed \$10 per month for their services.

July 12, 1890—The Corporation Yard Drayman shall devote his whole time and attention to the Fire Department, report to the Chief Engineer at least once a day, and hold himself in readiness at all times to attend to any business connected with the Fire Department.

He shall have full charge of all the horses of the Department, shall see that they are properly mated, groomed, etc.

He shall have full charge of the Corporation Yard and Alamo Square Stables, and see that they are kept in proper order.

He shall be in attendance at the Corporation Yard (when not otherwise engaged in the discharge of his duties) daily from 8 A. M. to 5 P. M. (Sundays and legal holidays excepted) and at such other times as the Chief Engineer may direct.

March 7, 1891—All substitute Hosemen or Truckmen, all substitute Firemen, Drivers, Stewards and Engineers, shall be appointed by this Commission in open Board. All substitute Engineers shall pass the same examination as a regular Engineer, and shall be assigned to duty in rotation by the Superintendent of Steamers.

All other substitutes appointed by this Commission shall be assigned to duty by the Chief of the Department in regular rotation.

July 25, 1891—All District Engineers must report to Department Headquarters in person through telephone immediately upon their departure and immediately upon their arrival at their respective stations during office hours (except in case of fire). Any District Engineer desiring to leave his district at any time for other than official business must first procure permission from the Chief Engineer.

All District Engineers must fully report immediately to Department Headquarters upon their return to their stations the result of all alarms of fire in their respective districts by telephone and also in writing in their daily reports, including as fully as possible cause of fire, name of owner and occupant and amount of loss, to the best of their ability, between the hours of 9 A. M. and 4 P. M. At all other times the above report must be made in writing upon their daily reports to Division Headquarters.

July 30, 1891—All Foremen of Companies are directed and required to report in writing immediately to the District Engineer of their respective district, the name of any member of their company injured in the discharge of his duty, with cause of accident and injury received, and on receipt of said information the District Engineers are directed to report the same immediately to the Chief Engineer in writing.

REPORT OF THE CHIEF ENGINEER

OF THE

SAN FRANCISCO FIRE DEPARTMENT.

HEADQUARTERS FIRE DEPARTMENT,
OLD CITY HALL,

SAN FRANCISCO, July 1, 1891. }

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco :*

GENTLEMEN: According to the law governing the Department, the undersigned, Chief Engineer, has the honor of herewith submitting for your consideration the following report of the operations of the Department under his charge for the fiscal year ending June 30, 1891.

Therein will be found a full list of the officers and members comprising the force, a record of the alarms responded to, and fires that have occurred during the year; the loss by fire and the amount of insurance on property affected; the aggregate of insurance paid; also such suggestions and recommendations that appear to me necessary to increase the efficiency of this branch of the municipal service.

During the year the Department responded to 414 first-bell alarms, 6 second-bell alarms, and 208 still or verbal alarms, making a total of 628 alarms of fire answered during the year.

The total loss by fire as determined by Captain White of

| | |
|-----------------------------------|--------------|
| the Underwriters' Fire Patrol was | \$979,749 35 |
| Amount of insurance paid | 726,397 57 |
| Actual loss to property-owners | \$293,351 78 |

NOTABLE FIRES.

July 26, 1890—Time, 11:18 A. M.; Box 281. Two-story frame building on San Bruno road, occupied by Mark Strouse as a packing house. Loss, \$19,307.

October 22, 1890—Time, 1:58 A. M.; Box 148. Sixteenth street, near Harrison. Pacific Candle Factory and others. Loss, \$53,000.

November 3, 1890—Time, 2:43 A. M.; Box 38. Burlington Hotel and others. Second alarm, 3:27 A. M. Loss, \$208,100.

November 13, 1890—Time, 10:38 P. M.; Box 32. Wangenheim Building and others, corner Sacramento and Davis streets. Second alarm, 10:55 P. M. Loss, \$167,000.

December 10, 1890—Time, 1:07 A. M.; Box 53. Pacific Lead and Oil Works, King street, between Second and Third. Second alarm, 1:15 A. M. Loss, \$59,655.

January 21, 1891—Time, 8:20 A. M.; Box 17. Chinese dwelling, southwest corner Sullivan and Baker alley, Chinatown. Second alarm, 8:38 A. M. Loss, about \$7,000.

June 10, 1891—Time, 8:36 P. M.; Box 281. Packing house, occupied by Mark Strouse, on San Bruno road. Loss, \$34,066.

June 29, 1891—Time, 2:58 P. M.; Box 293. Chinese lodging-house, southeast corner Sullivan and Baker alley. Second alarm, 3:08 P. M. Loss, \$17,264.

CASUALTIES.

In view of the dangerous duties the members of the Department have to perform, and the great risks they take in the discharge of those duties, the casualties, I am pleased to say, have been few during the year. The following is the list of the most serious:

August 10, 1890—James Conniff, Foreman of Engine Company No. 1, fell from ladder, Box 31. Internal injuries.

August 31, 1890—James Fay, Foreman Engine Company No. 2, fell from balcony and broke shoulder blade.

August 31, 1890—Gus Mathison, Hoseman in Engine 17, fell from roof, sustaining fracture to jaw and injury to spine.

July 6, 1890—John P. Reimer, Hoseman in Engine 9, struck with harness hangers and lost an eye.

DEATHS.

During the year the following members and employees of the Department died:

T. J. Driscoll, of Engine 3, died of consumption.

Thomas Tracy, of Engine 2, died of asphyxiation.

Edward Riley, of Engine 5, fell from ladder at a drill and died from injuries received

F. Simmons, of Truck 2, died of consumption.

RECOMMENDATIONS.

I respectfully recommend increasing the force of the Department by organizing companies in the various unprotected sections of the city.

Also, the changing of Hose Companies (from time to time, as the occasion may require) to Chemical Engine Companies and Steam Engine Companies, Truck Companies, etc.

I also recommend the removal of the stable from its present quarters at the Corporation Yard to a more central location.

Also, the alteration of the Corporation Yard Building, so that it may be used for a repair shop for all kinds of work necessary for the repair of the apparatus of the Department and the shoeing of the horses, etc.

I further recommend the renovation of the old City and County Hospital Building, on the corner of Francisco and Stockton streets, in order that it may be utilized for the purpose for which it was set aside. The present crowded condition of the Corporation Yard makes it necessary that a suitable building should be provided for the purpose of storing the extra apparatus of the Department.

I renew my former recommendations of the necessity of increasing the number of hydrants throughout the city and increasing the size of the water mains in the various portions of the city supplied by the small water mains laid many years ago.

In closing this report I desire to tender my thanks to the Honorable Board of Fire Commissioners for the active interest you have manifested in all matters pertaining to the success of the Department, and I desire also to thank the officers and members of the force for the alacrity manifested on all occasions in complying with my orders.

I also desire to express my thanks to His Honor Mayor Sanderson and the Honorable Board of Supervisors for the interest they have manifested in all business pertaining to the Department.

To the Chief of Police and members of his force, to Fire Marshal Charles Towe, to Captain White and Lieutenant O'Kell of the Fire Patrol, and to Superintendent Thomas, Fire Alarm Telegraph, I am under many obligations for the manner in which they have assisted the Department in the discharge of their duties on all occasions.

Respectfully submitted,

DAVID SCANNELL,

Chief of Fire Department.

BATTERIES.

There are now in use 214 gravity, 17 Fuller, 225 electropion and nine Leclanche cells. I have introduced a new battery test. It has proved its efficiency by prolonging the life of the batteries, thereby saving time, labor and battery materials.

WIRES.

There are now in operation 170 miles of wire, divided into twelve signal, seven alarm and two tapper circuits.

The signal circuits have been extended to the districts of Harbor View and Richmond.

Thirteen gongs have been added to the alarm and tapper circuits.

The tower bells of engine companies four and six have been disconnected by order of the Chief of the Fire Department.

REMARKS.

The system has been generally overhauled and is in the best possible condition attainable with the present appropriation and repair force.

The repair force consists of one repairer and four assistants.

I wish to ask that provision be made for the payment of the salaries of these assistants from a fund other than that for extension and repairs. As it

is, this fund is totally inadequate for the proper maintenance of the system. Especially is this so as regards the distribution of boxes, the present number of boxes being far below that necessary for a proper and reliable protection of the city.

The addition of a fourth operator would add greatly to the efficiency of the system. In case of sickness or otherwise, no member of the present force can leave his post of duty without working great hardship on the remaining members, who are then compelled to stand a long double watch. To do this for any length of time would render them unfit for their responsible duties.

Were the present force increased to four men, the chance of a serious mistake in the transmission of alarms would be greatly lessened.

I earnestly request the appointment of a fourth operator.

When I assumed charge of this office, February 1, 1891, I found the expenditures largely in excess of the monthly allowance. I regret to say that I have been unable to reduce that overdraft, which has resulted in a deficit.

The employees of this Department are:

POLICE PATROL TELEGRAPH.

In accordance with Resolution No. 3,357, passed by the Board of Supervisors May 5, 1890, the Municipal Police Alarm and Intercommunication System of Boston was selected for use of the San Francisco Police Department.

The Committee on Health and Police were empowered to purchase eighty boxes and three central stations complete with all appliances and appurtenances, for the sum of \$11,850.

The system ordered was to consist of—

First—Eighty signal boxes, embracing :

- Eighty (80) boxes (case.)
- Eighty (80) set top and bottom pipes.
- Eighty (80) ground plates with wires attached
- Eighty (80) multiple signal movements.
- Eighty (80) polarized bells for receiving return signals.
- Eighty (80) condensers for telephones.
- Eighty (80) cells battery for telephones.
- Eighty (80) cords and weights for telephones.
- Eighty (80) hangers for telephones.
- Eighty (80) lightning arresters.
- Cable for connecting boxes to main line.

Second—Three central stations, embracing :

- Three (3) Automatic Recording Registers (four pen).
- Mechanism which, in connection with an alarm bell, automatically distinguish between "silent" and alarm signals.
- Mechanism which, in connection with the electro-magnet of a time-stamping service, automatically impresses upon the signal the time of its reception.
- Mechanism which, in connection with a switch moved at the will of an operator, automatically sounds a return signal at the street box when a signal is transmitted therefrom.
- Three (3) automatic time stamps.
- Three (3) cords and weights for same.
- Three (3) paper rests.
- Three (3) paper reels.

- Three (3) rotary telephone switches.
- Three swinging arm supports for telephone.
- Three (3) cords for telephone.
- Three (3) condensers for telephone.
- Three (3) alarm bells.
- Twelve (12) double contact relays.
- Twelve (12) pole changers
- Three (3) Bunnell improved, three (3) coil galvanometers.
- Thirty-six (36) cells local battery for working instruments.
- Six cells local battery for working telephones
- Three (3) four circuit cherry cabinet desks.
- One (1) ground switch on local battery for testing.
- Four (4) ground switches on main line for testing.
- One (1) three-point switch on galvanometer for testing.
- Four (4) switches used in connection with the register.
- Four (4) switches used in connection with return signal.
- Twelve (12) line spring jacks.
- Four (4) line plugs, with cord attached.
- One (1) galvanometer plug, with cord and weight.
- Four (4) sets line plates.
- Four (4) sets ground plates.
- Four (4) sets telephone plates.
- One (1) set identification charts.
- One (1) double contact annunciator drop.

Construction of the system commenced July 23, 1890, and has since steadily progressed until now there are in operation the three stations called for in the resolution above mentioned.

The station at Seventeenth and Howard streets includes in its protection all that part of the city west of ninth and south of Market streets.

The New City Hall station includes all that part of the city west of Mason and north of Market streets.

The Old City Hall station includes all east of Mason and north of Market streets.

The boxes number eighty and are located as follows :

SEVENTEENTH STREET STATION.

| November..... | 1,946 67 | May..... | 585 85 |
| December..... | 1 338 77 | June..... | 811 55 |

The above amount, \$13,466 29, has been paid out for the construction and maintenance of the system since its adoption.

I wish to ask that action be taken towards consolidating the appropriations for the Fire Alarm and Police Telegraph and the Police Patrol Telegraph department.

During the past year considerable confusion has arisen from Fire Alarm bills being presented as charged to the Police Patrol and vice versa.

I desire to express my thanks to his Honor Mayor Sanderson, the Fire Department Committee, the Health and Police Committee, and the Board of Supervisors, for their support. To Chief Scannell and Acting Chief Sullivan and their assistants, Chief Crowley and his officers, Captain White of the Fire Patrol, for their co-operation, and the members of the Board of Underwriters for their courtesy, I am under many obligations.

Respectfully submitted,

CHAS. J. THOMAS,

Superintendent.

REPORT OF THE BOARD OF TRUSTEES

OF THE

San Francisco Free Public Library.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

As required by law, the Trustees of the Free Public Library beg to submit herewith their annual report for the fiscal year ending June 30th, 1891.

A reference to the reports of the Secretary and Librarian, hereto annexed, will serve to indicate the continued progress made by the Library since our last report, and it is therefore greatly regretted that, notwithstanding the urgent recommendations of our Trustees as to the increasing wants of the Library, your Honorable Board saw fit to reduce the amount asked to be appropriated for the coming year, thus cramping our operations on the lines laid out for new work. We regret this all the more for the reason that, relying upon the progressive spirit actuating former appropriations, we allowed our excellent Librarian to attend the last convention of the American Library Association, held in New Hampshire, and, among other efforts in behalf of this Library, to invite the Association to hold their next annual sitting, some time in the Fall, in our city, when we hoped to be able to prove to this intelligent body that, all reports to the contrary, San Francisco was not behind in provision for the intellectual advancement of the masses.

The sum of \$35,000.00 appropriated for the coming year is just sufficient to cover the fixed charges of the Main Library and the Branch Libraries; the most we can do is simply to remain stationary—pay our rents and salaries and care for the valuable books now under our direction. We must express the earnest hope that next year your Honorable Board will enable us to hold our own with similar institutions in other parts of the country,

where they are looked upon as the best evidence of progress, and are liberally provided for, not only by the city, but by private munificence as well.

Grateful for past favors, we desire to again record our appreciation of the setting aside for our use of the present quarters in the New City Hall, which at that time seemed adequate; but, whether it be due to our present central location or to the establishment of the branches, the public seem to be more awake to the existence of this desirable adjunct of the city government, the attendance being on the increase and complaints quite frequent of the lack of facilities in the Main Library. Outlying districts, moreover, are clamoring for the establishment of additional branches, to which purpose a part of the increased appropriation was to be devoted.

Fully aware of the earnest intention to complete the New City Hall, we desire in good season to request your indorsement of our application to the New City Hall Commissioners to complete the large hall on the Larkin Street wing in such a manner as will make it serve the purposes of this Library for many years to come, or until such time as one of our many wealthy and public-spirited citizens may see fit to donate grounds and a building for our use in perpetuity. As we understand the architect's plans, this is both wise and feasible, and the increased accommodations in so central a locality will enable us, we hope and believe, to satisfy the ever increasing wants of the public.

We also desire to record our high appreciation of the faithful services of the entire staff of employees, and particularly those of the Librarian, Assistant Librarian and Secretary, whose efficient work has contributed in no small degree to the raising of the Library to its present standard of excellence.

P. N. LILIENTHAL,

President.

San Francisco, July, 1891.

SECRETARY'S ANNUAL REPORT.

To the Trustees of the San Francisco Free Public Library:

GENTLEMEN :—Following is a statement showing the receipts, and from what sources, and expenditures, and for what purposes, for the year ending June 30, 1891 :

| | | |
|---------------------------|------------|-------------|
| Balance July 1, 1890..... | \$8,622 43 | |
| From taxes..... | 35,789 65 | |
| From fines..... | 559 75 | |
| | | \$44,971 83 |

DISBURSEMENTS.

| | | |
|--|-----------|-------------|
| For Insurance..... | \$111 30 | |
| For Furniture, Shelving and fitting up rooms on third floor..... | 2,811 80 | |
| For Binding..... | 2,361 98 | |
| For Salaries..... | 14,714 35 | |
| For Books..... | 8,595 01 | |
| For Telephone..... | 77 90 | |
| For Printing and Stationery..... | 490 58 | |
| For Expenses—Sundry cash items..... | 676 68 | |
| For Branch No. 1—Mission..... | 2,189 28 | |
| For Branch No. 2—Potrero..... | 1,662 60 | |
| For Branch No. 3—North Beach..... | 1,641 95 | |
| Balance..... | 9,638 40 | |
| | | \$44,371 83 |

Respectfully submitted,

C. STEVENS, Secretary.

Sworn to before me this second day of September, 1891.

W. T. PATTERSON,

Deputy Clerk Board of Supervisors.

NOTE—The above balance of \$9,638 40 was appropriated before the close of the year to meet outstanding bills for catalogue, books ordered and on the way, etc. Consequently the real balance carried over will be very small.

ANNUAL REPORT OF THE LIBRARIAN.

To the Trustees of the San Francisco Free Public Library:

GENTLEMEN: I have the honor to submit herewith my report for the year ending June 30, 1891, with appendixes of statistics. The main work of the past twelve months has been the preparation of the fiction catalogue (No. 6), which will be ready for distribution September next. It is hoped that this catalogue will not only meet the demands of the fiction department, but serve as a tool of all work until such time as the entire library is re-catalogued. It has been prepared with great care, prompted largely by the prospect of establishing closer relationship between the library and the schools. The Librarian is highly gratified by the action of the Board on his recommendation in this particular, and further, that it has been decided to make an extensive purchase of works useful to those engaged in the various trades and industries. He would again suggest the printing of a guide-book of the character recently explained to the Book Committee. With this supplement to Catalogue No. 6, we would be in a position to serve the public to the fullest extent possible while the main catalogue is in process of construction.

We have been greatly relieved by the addition of the rooms on the upper floor. The relief is temporary, but for the present we have a place to bring our periodicals together for the first time in the history of the library, and to provide decently for the public documents. It is a pleasure to report that both the periodicals and the public documents are catalogued and easy of access. The pamphlets that have been lying waste for some years have been assorted and are being bound as fast as funds will permit. Our appropriation is not up to the requirements of the library, and our quarters are, neither in arrangement nor location, such as are desired; still the library has had a successful year, and in this connection special mention should be made of the work of Branches No. 1 and No. 3. Our only mishap has been the mutilation of Lacy's Plays, in which case the prompt action taken will probably prevent like depredations for some years to come.

The Cyclostyle process proves successful in the publication of the bulletins. The work is legible and quickly done, so that our new books will henceforth be laid before the public within a reasonable time after their acquisition.

Though we can make fewer purchases than last year, the coming year bids fair to be one of progress. In October next we are to be honored by the presence of the American Library Association, and for this reason, if for no other, we may confidently look forward to a general awakening in the library interests of the Coast.

Respectfully,

J. V. CHENEY,
Librarian.

REPORT

OF THE

SUPERINTENDENT OF COMMON SCHOOLS.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

GENTLEMEN: In accordance with the law I herewith submit the Thirty-eighth Annual Report of the Superintendent of Common Schools, for the school year ending June 30, 1891.

The statistical part of this report constitutes its chief value. The monthly reports of the Superintendent, made to the Board of Education, supercede the necessity of any extended annual report. Besides, the Superintendent's report is not usually printed until six months after it is submitted, and by that time it is mostly ancient history.

SCHOOL ATTENDANCE.

The average attendance in all schools, including evening schools, last year was 31,809, a slight increase over 1890, but a decrease from the number in 1885—of 374. The fact that for the past seven years public school attendance has remained about stationary is mainly owing to the rapid development of parochial and church schools. There has been, during this period, a regular and moderate increase in the number of children, but owing to great irregularities in taking the census in the decade preceding 1888, it is impossible to tell what the increase has been.

In the month of July, 1891, the daily average attendance was reported as 34,494, an increase of 2,685 over the average attendance for the school year ending June 30, 1891. The attendance on evening schools is reported as 1,939—an increase over last year.

SCHOOL CENSUS.

The population of San Francisco, according to the United States Census returns of 1890, is 298,977. The School Census Marshal reported the number of children between 5 and 17 years of age for the school year ending June 30, 1891, as 62,456—an increase over 1890 of 1,312. The number of negro children was reported as 248; of native born Mongolian children as 934.

The number of children under 5 years of age was reported as 24,037—an increase over 1890 of 650. The total number of children under 17 years of

age is reported as 86,483—an increase over 1890 of 1,952 children. The children under 17 years of age constitute 29 per cent of the whole population. It is probable that these statistics are approximately correct, as the census was taken with unusual care. The taking of the last School Census was materially aided by school census blanks sent to the heads of families by means of the public schools, and also of the parochial, church and private schools. The number reported as having attended public schools at any time during the year is 38,145, which is approximately correct. The number reported as having attended parochial, church or private schools is 9,883, which is at least three or four thousand below the number known from other sources of information to be in attendance on such schools.

COMPARATIVE CENSUS STATISTICS.

A glance at the following tabular statements of the School Census returns since 1874 will show the great inaccuracies of the returns. It is now a well known fact that the returns were often not only inaccurate, but also fraudulent. In many cases it was proved that Census Marshals took the books of the preceding year, added one or two children to a family, and made up their returns without visiting houses at all.

| Year..... | No. of youths between 5 and 17 years of age reported to draw public money.... | Increase..... | Decrease..... | Average daily attendance..... |
|-----------|---|---------------|---------------|-------------------------------|
| 1874..... | 38,093 | | | 19,434 |
| 1875..... | 41,029 | 2,936 | | 21,014 |
| 1876..... | 46,233 | 5,209 | | 22,761 |
| 1877..... | 53,210 | 6,972 | | 24,889 |
| 1878..... | 55,839 | 2,689 | | 26,292 |
| 1879..... | 62,105 | 6,266 | | 27,075 |
| 1880..... | 58,492 | | 3,613 | 28,150 |
| 1881..... | 55,115 | | 3,377 | 29,092 |
| 1882..... | 55,880 | 765 | | 29,435 |
| 1883..... | 58,061 | 2,181 | | 30,827 |
| 1884..... | 63,029 | 4,168 | | 31,378 |
| 1885..... | 69,000 | 5,971 | | 32,183 |
| 1886..... | 74,079 | 5,079 | | 32,146 |
| 1887..... | 78,246 | 4,167 | | 31,316 |
| 1888..... | 59,713 | | 18,533 | 30,191 |
| 1889..... | 60,642 | 929 | | 31,609 |
| 1890..... | 61,144 | 502 | | 31,352 |
| 1891..... | 62,456 | 1,312 | | 31,809 |

From 1874 to 1885 the column of average daily attendance on public schools shows a regular increase year by year. From 1885 to 1891 there is no increase on account of the extension and development of the parochial and church schools. If the increased attendance on those schools were added to the public school attendance, the total would show a regular increase year by year. It is safe to assume, therefore, that since 1874 there has been a uniform annual increase in the number of children in this city.

Now, what do the census returns show ?

In 1875 there was a census increase of 2,936, and in 1876 a still greater increase of 5,209, both years showing an incorrect or a fraudulent increase.

In 1877 the increase was reported as 6,972, a still greater fraud. In 1878 the marshals were content with an increase of 2,689, but in 1879 they made amends for the previous year by running up the number by an increase of 6,206.

In 1880, while the school records show an increased attendance of over 1,000 pupils, the Census Marshals reported the number of children as 3,613 less than the returns of the previous year. The number reported, even with this falling off, was far in excess of the actual number. The number reported in 1880 was 58,492, while in 1888, eight years later, when an honest census was taken under the supervision of Superintendent Anderson, the number was only 59,713. In 1881 the number was reported as 55,115, a decrease over the previous year of 3,377. In 1882 the number was about the same. For 1881, '82 and '83, the census was evidently taken with some degree of fairness. In 1884 the frauds began again with a sudden jump of 4,168; 1885 was worse, 5,971; in 1886 5,090 more were added; in 1887, 4,167, when the bubble of fraudulent inflation was broken by Superintendent Anderson's census.

That census, correctly taken, showed a falling off of 18,533, which represented the accumulated frauds of the five preceding years.

Since 1888 the census has shown a regular normal increase of children; in 1889, of 929; in 1890, of 502; in 1891, of 1,312.

When it is considered that for every child thus fraudulently returned, this city drew from the State School Fund at least \$9.00 per child, the purpose becomes evident.

In the year 1887 the number of census children reported as entitled to draw public money was at least 18,000 in excess of the actual number, and this city by means of this fraud drew \$162,000 more than an equitable apportionment. These long continued census frauds, running through a period of 13 years, gave to this city nearly a million of dollars more than the schools were honestly entitled to.

It seems to me that the next Legislature should amend the School Law so as to prevent the recurrence of such unblushing effrontery in census returns. The remedy is exceedingly simple.

FINANCIAL.

The total receipts of school moneys, including the \$103,000 raised by special tax for the erection of a building for the Girls' High School, was \$1,053,609.79. Total expenditures \$999,322.88. The amount paid for salaries of teachers, \$810,919.54. The average annual salary paid to teachers was \$931 a year.

The cost of tuition per pupil in average daily attendance was \$25.49; the total cost per pupil \$29.32; including the cost of the Girls' High School building the total expenditure per pupil was \$32.00.

COMPARATIVE SCHOOL ATTENDANCE.

| Year..... | Average daily attendance..... | Number of teachers | Salaries of teachers | Increase of teachers salaries..... | Average daily attendance per teacher..... | Tuition per pupil.... |
|-----------|-------------------------------|--------------------|----------------------|------------------------------------|---|-----------------------|
| 1885..... | 32,183 | 734 | \$646,401 25 | | 44 | \$20 08 |
| 1886..... | 32,146 | 716 | 698,743 80 | \$52,342 55 | 45 | 21 75 |
| 1887..... | 31,316 | 799 | 726,175 65 | 28,431 85 | 40 | 23 19 |
| 1888..... | 30,191 | 806 | 741,951 45 | 15,776 80 | 37½ | 24 00 |
| 1889..... | 31,609 | 828 | 760,742 10 | 18,790 65 | 38 | 24 38 |
| 1890..... | 31,352 | 859 | 795,106 80 | 34,364 70 | 36½ | 25 36 |
| 1891..... | 31,809 | 871 | 817,989 54 | 15,882 74 | 36½ | 25 49 |

Average daily attendance—decrease, 374; number of teachers—increase, 137; salaries of teachers—increase, \$164,588 29; average daily attendance per teacher—decrease, 7½; tuition per pupil—increase, \$5 41.

The preceding table needs some explanation to show why, with a decrease in school attendance since 1885, there has been a steady increase of teachers and salaries.

In 1887-88, the existing schedule of salaries went into effect. The salaries of assistant teachers in the primary and grammar grades begin at \$50 a month, or \$600 a year, for the first year of teaching, \$53 for the second year, \$56 for the third year, and so on regularly to a maximum salary of \$80 a month, or \$960 a year. There are now 271 assistants that have reached a maximum of \$80 a month; there remains between three and four hundred below the maximum; so that if no additional teachers whatever were elected during the next four years, the amount paid for salaries would be increased between ten and twelve thousand dollars a year. The fact that the school attendance has remained about stationary during the past seven years, is owing

mainly to the organization and development of parochial and church schools. In these schools there are at least seven or eight thousand pupils.

The steady increase in the number of teachers during the same period may be traced to several causes. The main cause has been the reduction of the average number of pupils to a teacher to a standard below that of any other city in the United States. The large number of principals of small schools exempt from teaching a class, also swells the number of teachers. The number of substitute teachers has been increased by about twenty. Another cause is the increasing number of High School classes, in which the number of pupils per teacher is small.

It is a fact that in 1885 the lower primary grades were greatly crowded, often running up to 60 or 75 pupils to a class. There never ought to be a return to such numbers.

But there are now many very small classes in very small rooms, and some skeleton classes, and too many classes that number only from 40 to 45 pupils. Some consolidation has already been effected, and more is possible.

COMPARATIVE SCHOOL STATISTICS:

For the purpose of general information, I submit the following statistics, made up from the latest school reports to be found in this office. I have taken the average daily attendance of pupils as the basis of comparison. The "total enrollment" is unreliable and misleading.

| | Average daily attendance. | Number of teachers | Salaries of teachers | Average daily at tendance per teacher. |
|--------------------------|------------------------------|----------------------------|------------------------------|---|
| New York, 1888..... | 156,359 | 4,083 | \$2,824,327 69 | 39 |
| Philadelphia, 1889..... | 104,063 | 2,524 | 1,428,971 29 | 40 |
| Chicago, 1888..... | 66,826 | 1,663 | 1,254,857 02 | 40 |
| St. Louis, 1889..... | 44,000 | 1,107 | 677,520 35 | 39.7 |
| Cincinnati, 1889..... | 28,949 | 711 | 613,697 81 | 47 |
| Washington, 1890..... | 28,184 | 745 | 513,101 00 | 37.7 |
| Boston, 1889..... | 56,565 | 828 | 1,274,349 17 | 37.4 |

† \$1.00 a day when not detailed for duty, and \$3.00 a day when detailed for duty.

* \$1.00 a day when not detailed for duty; \$2.50 an evening when employed.

SALARIES OF PRIMARY TEACHERS.

| CITIES. | MINIMUM. | MAXIMUM. |
|-------------------------|----------|----------|
| Boston, Mass..... | \$456 | \$816 |
| Lowell, Mass..... | 450 | 600 |
| Springfield, Mass..... | 400 | 600 |
| Milwaukee, Wis. | 400 | 600 |
| Cincinnati, Ohio..... | 400 | 700 |
| St. Paul, Minn..... | 400 | 600 |
| Chicago, Ill..... | 400 | 750 |
| New York..... | 504 | 900 |
| Baltimore Md..... | 408 | 696 |
| Buffalo, N. Y..... | 400 | 600 |
| Cleveland, Ohio..... | 400 | 675 |
| Detroit, Mich..... | 350 | 725 |
| Indianapolis, Ind..... | 500 | 650 |
| Kansas City, Mo..... | 650 | 650 |
| Providence, R. I..... | 350 | 600 |
| San Francisco, Cal..... | 600 | 960 |
| Worcester, Mass..... | 450 | 600 |
| Brooklyn, N. Y..... | 300 | 575 |

It will be seen from a study of the preceding statistics that San Francisco in comparison with other cities in our country, pays the highest average salary to teachers, the highest salary to primary teachers, at the greatest cost per pupil in average attendance.

The maximum salary paid to primary teachers is in San Francisco \$960 a year; New York ranks second with \$900; Boston third with \$816.00.

The average maximum salary for 18 cities is \$782. The minimum salary in San Francisco is \$600 a year against an average in 18 cities of \$434.00.

The highest cost of tuition, that is, the cost of teachers' salaries exclusively, per pupil is in San Francisco, \$25.49; Boston comes next with \$22.52; Cincinnati third with \$21.20; Chicago fourth with \$18.77.

The total expenditures per pupil in average daily attendance in San Francisco is \$29.32; Chicago comes next with \$28.70; Boston third with \$28.23; Philadelphia lowest, \$13.74. In average number of pupils per teacher San Francisco ranks lowest, $36\frac{1}{2}$; Boston next, at 37.4; Chicago, 40; Cincinnati, 47.

It must be evident from these facts that San Francisco, in comparison with other older and larger cities, is making a liberal appropriation for the support of schools. But while the average annual salary of teachers is greater than is paid in any other large city, it must be borne in mind that wages in all other occupations are higher here than in the East. Moreover, the expense of living here is greater than in the East.

The existing schedule of salaries is not too high as a whole, but it ought to be readjusted and equalized.

SCHOOL VISITS.

During my six months term of office, from January to June, 1891, I visited 600 of the 760 classes in the School Department. My visits to each class were necessarily brief, varying in length from 10 to 30 minutes. During the same period I called 9 meetings of the teachers of the different grade, and two special meetings of principals. These meetings were for the purpose of discussing and voting upon points in the course of study.

In my visits of inspection I found the teachers generally doing their work earnestly and intelligently.

I failed to find the swarms of incompetent, old and worn-out teachers that had inspectors and place-hunting politicians have been howling about during the past four years. This wearisome plaint about "incompetent teachers" is a libel on the well-disciplined, experienced and competent men and women engaged in teaching in this city. It is time that these misrepresentations should be stopped.

CONDITION OF THE SCHOOLS.

My visits and examinations were confined mainly to the primary grades because they form the vital part of the school system.

The essential things to be learned by children in the five primary grades

are reading, writing, spelling, arithmetic and enough of language to write a letter correctly. All these things are well done in the classes I have visited.

The handwriting of the children is particularly good. Even in the "receiving classes" the little children from 5 to 6 years of age, that have attended school less than a year, write very neatly on slates, and in some classes write with pen and ink on paper.

In all the schools the children are quick at figures. In some schools they are very accurate. The main criticism to be made on the teaching of arithmetic in the primary grades is the general tendency to long, complex and tiresome operations with very large numbers, instead of simple, short, business drill on ordinary business forms of reckoning. But this is not so much the fault of the teacher as it is the faulty text-books and of interminable written examinations intended to worry and puzzle children instead of instructing them.

READING.

Reading is the most important thing to be taught in the primary grades, because it is the key that unlocks to the child the vast store-houses of the knowledge of the world. In the "receiving classes" the method of teaching beginners is good, but in the first, second, third and fourth grades there is a dearth of good reading matter. The children soon master the lessons found in the limited pages of the official State first and second readers, and then they need something new to read, instead of taking endless reviews on lessons which they know by heart. No one series of primary readers contains one-tenth of what an intelligent child ought to read in a year. A few schools have been partially supplied with supplementary reading matter, but many have not. The apparatus for teaching reading consists of good books. Books are so cheap that the children ought to be supplied with them. In this respect our city schools are ten years behind the times in comparison with the country district schools of California, or with the schools of cities, towns or villages in Massachusetts. This leads me to call your attention to the State School Law in relation to school libraries. The revised school law of 1866, which slightly amended, has remained in force ever since, provided that 10 per cent of the State apportionment of school moneys to each district, not to exceed \$50, should be set apart as a School Library Fund, to be expended exclusively in buying books for school libraries. In incorporated cities the amount so reserved is \$50 for every 1,000 census children.

This law has been strictly observed throughout the State except in this city, where, for the last ten years, either through ignorance or willful defiance of law, the library money has been diverted to other purposes. I trust that this Board will abide by the law. I think I am authorized and required by law, as City and County Superintendent, to insist upon it. Most of this money ought to be expended in buying suitable supplementary reading matter for the primary grades, in which the children are growing, this on the water-gruel diet doled out to them at present, which they swallow as reluctantly as did the boys in Dotheboys' Hall when treated to their morning dose

of treacle and brimstone. Some of this money ought to be expended in school dictionaries, with which not one class room in ten in the grammar grades is supplied. Perhaps I ought to state here that through the efforts of the Society for the Prevention of Cruelty to Animals, the schools have been partly supplied with one of their books, which is either given away or sold at cost of publication. "Black Beauty, or the Story of a Horse," has been read in nearly all of the schools with the most intense interest and delight. That book has supplied the most effective reading lessons of the whole year.

KINDERGARTEN WORK.

The free Kindergarten schools have had a marked effect on the appearance of the pupils in the lower primary grades. In the Stanford Primary School most of the pupils were trained in the Stanford Kindergarten on Brannan street. The clean, tidy, bright and well-mannered children of the present time form a pleasant contrast to the appearance of that school before the advent of the Kindergarten. The free schools of the Golden Gate Kindergarten Association, together with other similar associations, are in fact training establishments for the public schools. They form the structure of the work of free education. The Kindergarten songs are heard in all the primary grades. The Kindergarten work introduced two years ago into the receiving classes has been fairly done, though rather too much of it is required.

The most objectionable feature of the work is the clay-modeling; not because modeling in itself is of no value, but because it is out of place in the large classes and crowded rooms of the public school. It is the judgment of most of the principals, and the opinion of nearly every teacher who has handled the clay and taught the children, that clay modeling gives no results that compensate for the loss of time, the inconvenience, the dirt and the disorder that follow in its train.

The mothers of the children protest against it. They fear contagion from the filthy clay which their little girls are forced to handle. This clay is worked over week after week and month after month, handled by fifty children in a class, until it is in such a condition that the teachers handle it with gloves, and go home at night disgusted and nauseated. Teachers, children and mothers all stand in dread of this infectious dirt. There is no objection to the use of clean clay in making relief maps if teachers so desire to use it. In an art school, with a suitable room and clean clay, modeling forms a most valuable means of training. But it does not follow that, therefore, it should be crowded into every public school, irrespective of conditions and surroundings. This latest of educational "fads" has had its run, like the measles and whooping cough. It is time to stop it. Sweep out the school room, wash the hands and faces and clothes of the children, and wait patiently for some wild reformer to "introduce into the public schools" some new notion—say dancing, or Spanish, or washing and ironing, or French, or sewing machines, or entomology, or "How to Use a Jack-knife," or the only scientific method of spinning tops, or playing marbles, or flying kites.

SEWING.

Sewing in school is another vexed question. In the schools for girls exclusively—the Broadway, Denman and Lincoln—it seems to be a success. The only complaint is that there is too much of it, especially in the line of fancy work. But in the mixed schools, where classes are made up of boys and girls in the same class, the complaints are long and loud. It is exceedingly difficult for the teacher to keep the boys occupied while the girls are at work during the sewing hours. It is true, the boys might be ordered by the Board to take up the needle and thread and thimble, but then there would be a rebellion. The teachers have done their best, but the sewing is an admitted failure. I think it would be in accordance with good common sense to strike sewing out of the course, except in schools exclusively for girls; and even in those schools to leave the course optional instead of compulsory. The fact is, there is no use whatever in attempting to entirely eliminate mothers and homes from the existence of children. A better way of teaching sewing would be to cut off the assignment of too many, too long and too hard home lessons. If mothers could only be relieved of acting as assistant teachers to their children, if the girls could get rid of studying at home from two to four hours every day, the mothers could take care of the sewing question and the cooking question far better than the teachers or the Board of Education.

DRAWING.

I have said that the handwriting in the schools is excellent. I wish I could say the same of the drawing. I make no criticisms of the teachers. They have patiently done their best during the past two years to carry out an impracticable and irrational "system of drawing."

The fact is that two years ago all the pupils in all grades, from the lowest to the highest, were forced to begin exactly the same kind of work. They have been at it ever since. The only explanation that I have been able to find for this piece of educational barbarism is that at the time this "system of drawing books" was foisted upon the schools, Book I was the only book published. I wish I could convey to you the contempt which the pupils in the higher grades openly express to me in my official visits. Words fail to express the feelings of the long-suffering teachers. They bore it all in silence during the reign of terror for fear of the guillotine of "a head inspector's report," if they dared to protest. In behalf of thousands of children I ask you to substitute some kind of natural, sensible and useful drawing in place of the present work. In one school the drawing was all that could be desired, because the teachers, after running over the half dozen pages of baby-work required by the Board of Education, have let their pupils go to work on real drawing in a most delightful and useful way. The drawing in the Broadway Grammar School is an illustration of what might be possible in every school if the Board of Education would allow it. The

special teacher of drawing for the Girls' High School, who has been acting during the past three months as a supervisor of drawing in the grammar schools generally, should be requested to outline a reasonable, practicable and simple course in drawing, and that he be continued during the coming year to superintend the drawing in all the schools of the city. No system of "drawing books whatever need be adopted."

TRAINING IN POLITENESS.

In some schools a great deal of attention is given to training children in habits of politeness. One class in the Whittier School stands recorded in my note-book as the best trained class in manners to be found in the city. In the Jefferson School the formation of "Bands of Mercy" has led to excellent results.

The following is the pledge in the school, signed by over 300 names:

"We, the undersigned, do solemnly promise that we will Not Fight, and that we will do all in our power to prevent others from fighting.

"We do solemnly promise not to Stone Chinamen, and to try to prevent others from doing it.

"We do solemnly promise not to Abuse Animals, and to do all we can to protect them from the abuse of others."

A PUBLIC EXAMINATION DAY.

By order of the Board, on the recommendation of the Superintendent, near the end of the school year, the 21st day of May was set apart as a parents' visiting day. The exercises consisted of drill lessons in reading, writing, arithmetic, grammar, geography and other school work. The attendance of fathers and mothers was large and the experiment was in every way successful.

REVISED RULES.

The rules of the Board and the regulations of the schools have been revised, codified and published in a new volume.

Among numerous new rules the following are the most important:

1. Requiring children to attend the school nearest which they reside.
2. Limiting the number of pupils in receiving class—the first year at school—to 40.
3. Making 50 the maximum number in both primary and grammar grades and the minimum number 30.
4. Prescribing the manner of inflicting corporal punishment.

THE REVISED COURSE OF STUDY.

A revised course of study has been adopted and published.

Into the course have been incorporated many of the provisions of the new course in Boston.

The most distinctive features in the new course are the detailed direc-

tions, suggestions and topics relating to training in morals and politeness, also in health and patriotism. In this connection the remarks of Supt. Seaver of Boston in his latest report are so pertinent that I quote them as stating my own views :

"In the first place it will be well to remember that although the course is called new, there is really but little that is new in it, either in matter or in form. It is the same old tree, pruned here and there to improve its shape, or grafted a little by way of experiment. It is, as every course must be, a growth and not a manufacture. It has grown in our schools, gradually adapting itself to our needs and circumstances. The recent changes have been suggested partly by the teachers and partly by the supervisors, as in their different ways they have learned by experience how the old course of study could be improved. The new course will remain essentially unchanged, we may hope, until accumulated experience shall again show wherein improvements are needed. A course of study eternally fixed would be a bad thing, for it would mean no advancement, no improvement, no recognition of new conditions and new educational needs.

"On the other hand, a course of study constantly under revision would be a bad thing for a large system of schools like our own, because thereby the perplexities of administration would be needlessly multiplied. It is desirable, therefore, that the present course may remain unchanged long enough for teachers and supervisors to learn by actual experience what its merits or defects really are, or what changes, if any, may become necessary.

"Now, if the new course of study is to remain fixed for a few years, the next step for those who are concerned with administration—teachers, principals, supervisors and superintendent, is to undertake seriously and earnestly the work of carrying this course, just as it now is, into full effect. Doubtless criticisms on this new course could be made—I know I could make some myself—but the time for that is not now, but later. Let criticism be postponed until it can be given in the light of experience. Doubtless difficulties are going to arise out of the attempt to apply a fixed and uniform course of study to schools in divers circumstances, but the effort should be to solve the difficulties otherwise than by departing from the established course of study. Difficulties of this sort are sometimes magnified or allowed to continue unremitted until they become available as excuses for failure to meet requirements, but they are apt to vanish before an earnest determination to carry out the whole course of study as laid down. There is probably good need in Boston at the present time of preaching the doctrine of a close adherence to the course of study."

I am quite as ready as any one to subscribe to the declaration that schools do not exist for the purpose of carrying out courses of study, but courses of study are drawn up solely to aid schools in their work. There is, however, little need of insisting on this view just now. Our practice has been to play fast and loose with our courses of study in a fashion that is apt to astonish

doedle from other parts of the country. "I have been visiting your schools many days, but I have nowhere seen any 'oral instruction,' although I find it laid down in the course of study; may I witness some oral instruction in your schools?" So a visitor some years ago is said to have addressed the principal of a Boston school. And the reply is reported to have been, "No, you will not find much oral instruction in the schools; it looks well in the course of study and we allow the superintendent to keep it there for ornamental purposes chiefly, but few of us pretend to do much with it." The anecdote may not be true, but it suggests a deal of truth. Of late years there has been a widespread effort among the teachers to bring the work of the schools more nearly into accord with the courses of study; particularly since the astounding discoveries recently made by an investigation of teaching of arithmetic in our schools. There has been decidedly more care on the part of teachers to observe the authorized distribution of time, as well as an increased effort to teach hitherto neglected branches. Still it would be difficult to find schools or teachers suffering from undue subservience to the course of study, and easy to find those suffering from the opposite cause.

The present duty of each school principal seems clearly to be to make the work in his school agree closely with the requirements of the new course of study.

ELEMENTARY SCIENCE.

The important matter to which we all need to turn our thoughts is how shall the studies classes under "observation lessons" and "elementary science" be promoted in our schools. For it must needs be said that whatever may be the excellence of our schools in other respects, they are in respect to these nature studies gravely deficient both in method and in results. The late Miss Crocker, after years of most painstaking and faithful labor to promote these studies, patiently instructing the willing teachers in the best methods, and seeking to inspire the indifferent or unwilling with an interest in the matter, after all this was unable to point out more than a very few teachers who were doing satisfactory work, while the majority were making no attempts whatever. There has been, so far as I can learn, but little improvement since. The Normal School has never influenced its pupils in a way to interest them much in natural science. The so-called "teachers' school of science" has given interesting instruction in natural science to the teachers who chose to attend; but little of that instruction has been directly helpful to these teachers in their school-room work. And so it remains a fact that the sciences—particularly the natural history sciences—have very little lodgment in our current school work, notwithstanding the appropriation of time made for them in the course of study for some years past. And this statement must be made more than a generation after the great Agassiz began his work of promoting an interest in the study of natural history among all people, all schools and all teachers.

There is one excuse for not teaching natural history in our schools, which may have some force in some districts of the city. It is alleged that the ob-

taining of a proper supply of material for natural history lessons is either quite impossible or so extremely difficult that teachers cannot reasonably be expected to supply themselves. In this view of the case doubts arise at the Normal School as to whether the pupils there ought to be advised to attempt any natural history teaching when they come into the grammar and primary schools. The answer to such doubts is this: when teachers are once thoroughly interested in giving natural history instruction, these alleged difficulties to a great extent melt away. Not completely, however; and that is the reason why the matter needs consideration by the School Committee. Let the difficulty be recognized for what it really is, and let a moderate sum of money be appropriated each year for the purpose of supplying the grammar and primary schools with suitable material for natural history lessons. For we cannot reasonably require our teachers to make bricks without straw. On the other hand, it should not be forgotten that there is not a school-room in the city to which some good material cannot be brought by a teacher who has any wish to lead her pupils into nature study. A handful of peas, beans, wheat, corn, or other seeds is easily obtained. A few tubers or bulbs are not out of reach. Many teachers have quite extensive winter gardens in their school rooms, containing interesting and beautiful growing plants. The help of children is easily enlisted to form a school museum. The variety and the value of specimens in zoology, mineralogy and botany so collected, often surprise those who have not tried it. If voluntary efforts of this kind should be encouraged, and supplemented by the School Committee's action as above suggested, the natural history studies in our schools would soon rise out of their present state of inferiority."

SUPPLEMENTARY STATISTICS.

[UP TO DATE OF AUGUST 20, 1891.]

The reports of principals for the first school month of the present school year beginning July 1, 1891, show an average daily attendance of 34,494, an increase over the corresponding month of last year of 1,298, and over the average daily attendance of last year of 2,685. The whole number of pupils enrolled is reported as 37,916, an increase over the corresponding month of last year of 553. The daily average attendance in the evening schools is reported as 1,939, with a total enrollment of 2,647, or 7 per cent of the whole number of pupils attending school. The average attendance in the new Commercial Evening School is 409, with a total enrollment of 502.

The average attendance in the Commercial Day School is 447, with a total enrollment of 481, a large increase over last year.

The average daily attendance in the Boys' High School is 496, in the Girls' High School 433, Cogswell Mission High School 203—a total of 1,132. The total enrollment in these schools is 1,226.

The number of teachers employed in the Department at the present time, including substitutes, is 879, an increase of eight additional teachers since

the close of the last school year. Of the whole number, thirty-six are substitutes, fifty-two are employed in the evening schools, forty-one in the high schools, and twenty-four in the Commercial School.

The average daily attendance in all the schools is 34,494; divided by 879, the whole number of teachers, gives an average of thirty-nine pupils per teacher, or precisely the same as for the corresponding month of last year. From these statistics it appears that the consolidation or reduction of classes in some thinly attended schools has in no wise affected the general average. When the rainy season sets in, and towards the end of the year, there will probably appear the same number of skeleton classes as during the last year..

REPORT OF HIGH SCHOOLS FOR THE MONTH OF JULY, 1891.

| SCHOOLS. | Average daily attendance..... | Number of teachers..... | Average Number of pupils per teacher..... |
|----------------------------|-------------------------------|-------------------------|---|
| Boys' High..... | 496 | 13 | 38 |
| Girls' High..... | 434 | 16 | 27 |
| Cogswell Mission High..... | 203 | 12 | 17 |
| Totals..... | 1,133 | 39 | 2.727 |

REPORT OF COMMERCIAL SCHOOL.

| SCHOOLS. | Average daily attendance..... | No. of teachers... | Pupils per teacher |
|--------------------------|-------------------------------|--------------------|--------------------|
| Commercial, day..... | 447 | 15 | 29 |
| Commercial, evening..... | 409 | 10 | 41 |
| Totals..... | 856 | 25 | |

The statistics of the following exhibit are taken from the reports of principals for the month of May, 1891. It is an interesting table, as it shows at how early an age large numbers of pupils drop out of school, and how large a number of pupils are limited in their education to the primary grades of the first five years of school life.

| SCHOOLS. | NO. IN ATTENDANCE. |
|--|--------------------|
| Receiving Class Primary..... | 4,125 |
| First Grade Primary..... | 6,343 |
| Second Grade Primary..... | 4,920 |
| Third Grade Primary..... | 4,546 |
| Fourth Grade Primary.... | 4,127 |
| Fifth Grade Grammar..... | 4,504 |
| Sixth Grade Grammar..... | 2,624 |
| Seventh Grade Grammar..... | 1,910 |
| Eighth Grade Grammar.... | 1,196 |
| Junior Grade High Schools and Junior Grade Commercial School | 755 |
| Middle Grade High Schools..... | 283 |
| Senior Grade High Schools..... | 210 |

During the past ten years the attendance in our public schools has been about stationary, so that deductions from these statistics can be depended upon as correct. Out of 4,920 pupils in the second grade primary, only 210 reach the senior class of the high school, that is only one pupil in every 24, or 4 per cent.

FEW PUPILS IN THE HIGHER GRADES.

The falling off in school attendance begins at the end of the second year at school, when the number of pupils is reduced by 1,423; next year 374 disappear; at the end of the fourth year 419 fall out; next year 623, or 16 per cent; at the end of the sixth year 880, or 25 per cent; in the seventh year 734, or 28 per cent; the ninth year 472, or 62 per cent.

The total number of pupils in the five primary grades is 24,061; in the four grammar grades, 9,214; in the three high school grades 1,334.

Thus it appears that of the whole number in the primary grades, only 38 per cent reach the grammar grades. Of the 9,214 in the grammar grades, only 14 per cent reach the high schools and the Commercial School.

In the three high schools there were 1,042 pupils, or 11 per cent of the numbers in the four grammar grades. Of the number entering the high schools only forty per cent are graduated. In the Boys' High School the number in the middle grade, or second year, is only 63 per cent of the number in the junior or first year; and that number in the senior grade, or third year, is only 68 per cent of the middle year. The number of graduates from the three San Francisco high schools last year was 181, of whom 31 were admitted on recommendation to the University of California—thirty from the Boys' High School and one from the Girls' High School—that is, 17 per cent went to the State University, or one out of every six. The number admitted to the Normal Class or post-graduate class of the high school was 85, or 47 per cent of the graduates—nearly all from the Girls' High School.

Thus it appears that out of every 4,820 pupils in the third grade, only 30 remain to reach the State University, six-tenths of one per cent, or one pupil in every 164. One in every 161 enters the Normal Class.

The total number of undergraduates in the State University from the high schools of San Francisco is reported at 63, or 5 per cent of the whole number in high school attendance.

TEACHERS' SALARIES.

From a careful study of the salary schedule, and from the fact that thus early in the beginning of the year the number of teachers has been increased eight, I am absolutely certain that the \$825,000 set apart by the Board of Supervisors out of the annual appropriation as a reserve fund for the payment of teachers' salaries will be insufficient for that purpose. There will be the usual chronic deficit of half a month's salary for the month of June next. I therefore recommend that the remaining part of the State Grammar School Course moneys, amounting to \$22,844, be set aside as a Teachers' Salary Fund, and added to the sum reserved by the Supervisors. This will make altogether the sum of \$847,844, which may carry the Department through the year without a deficit.

NUMBER OF TEACHERS IN THE DEPARTMENT, AUGUST 20, 1891.

GRADUATED AND PROMOTED.

The total number of graduates from the three high schools, May, 1891, was 202. The number of pupils admitted into the Junior High School grade up to August, 1891, was 493; into the Commercial School, 410. Number of graduates from the Commercial Day School in December and May, 192. The number of pupils admitted into the Junior Class of the Boys' High School up to August 20, 1891, was 244; Girls' High School, 181; Cogswell, 68.

The number of pupils graduated from the eighth, or highest grammar grade, in May, was 1,100. The number promoted from the fourth or highest primary grade to the fifth, or lowest grammar grade, was 3,263.

The following table exhibits the promotion by schools.

GRADUATED AND PROMOTED.

| NAME OF SCHOOL. | Number of pupils graduated from the Grammar Schools | Number of pupils promoted from the Fourth Grade Primary to Fifth Grade Grammar..... |

NORMAL SCHOOL GRADUATES.

Of the 843 teachers in the School Department, 257, or 30½ per cent, are graduates of the Normal Department of the Girls' High School; 201, or 23½ per cent, are graduates of the Girls' High School, but not of the Normal Department; altogether 456 teachers, or 54 per cent, are graduates of the Girls' High School.

The number of teachers that are graduates of California State Normal Schools is 60, or 7 per cent. The number of teachers holding diplomas of graduation from the University of California is 8, or a little less than 1 per cent.

STATISTICAL REPORT.

I herewith submit the annual report of statistics compiled by the Secretary of the Board of Education, George Beanston.

JOHN SWETT,
Superintendent of Common Schools.

GENERAL STATISTICS.

| | 1890. | 1891. |
|--|------------------|------------------|
| Population of the city | 298,997 | |
| Number of youth in the city under 17 years of age..... | 84,531 | 86,493 |

HEALTH OFFICER'S REPORT.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

GENTLEMEN: I herewith most respectfully submit my report for the fiscal year ending June 30, 1891. It contains a synopsis of the principal transactions of my department.

The total number of deaths for the past year were 6,650, of which number 6,114 were whites, 512 Chinese and 24 blacks. The classifications are as follows: Zymotic diseases, 1,102; constitutional, 1,231; local, 3,241; developmental, 728; violent, 337; unascertained, 11.

I have based my calculations of the percentage on a population of 312,000 whites and 18,000 Chinese. The population of San Francisco is very fluctuating, and I think at the time the census was being taken there were at least some 30,000 of our residents out of the city or the census was not properly taken.

The percentage of deaths on our total population of 330,000 is 20.15; Chinese 18,000, 35.15; public institutions, 33.30.

The deaths were 272 in excess of the previous year. Yet according to the statistics of other large cities we can congratulate ourselves that we can show one of the lowest death rates. The reason that the Chinese death rate is so much greater than the white is that they are rarely ever attended by a physician and receive no care or attention. The death rate of our public institutions is also exceedingly heavy, because all the impecunious invalids of the State turn their faces to our city and crowd our hospitals. If we deducted the excessive death rate of our Chinese and public institutions from the total, we would exhibit our city as one of the most healthy on the globe, notwithstanding the deplorable condition of our sewers.

Early in the year we were threatened with a serious epidemic of small-pox. A man arrived here from Central America, where the most virulent and malignant type of this dreaded disease was epidemic. He was several days in port when it developed. Fortunately, it was reported to me. I immediately took the most extreme measures. I transferred the patient to the

Pest-house, and had the house where I found him thoroughly fumigated, having previously isolated all the other occupants. By constant watchfulness and great care I was enabled to effectually abort the serious epidemic. There were but four deaths from this disease during the year.

Diphtheria has been very prevalent in many Eastern cities, and, unfortunately, we have suffered here, notwithstanding every effort has been made to prevent its spread. The Sanitary Inspectors have been very diligent in fumigating the premises of those who were afflicted, and no expense has been spared in supplying them with the most powerful and best-known disinfectants. The restrictions and regulations made by your Honorable Board in governing the course to be pursued by the undertakers in contagious diseases has been of great assistance in arresting the spread of the disease. I am happy to inform you at present there are but few cases being reported.

All nuisances reported at the Health Office have received prompt attention, and where they were found to exist have been abated. The reports of the Inspectors will show their work thoroughly performed.

The Chief Market Inspector and his assistants have condemned large quantities of unwholesome food, and their untiring vigilance has brought consternation among the vendors of such material. They have also closely inspected all the dairies sending milk into this city, examining carefully the cows, their food and the water they drink, paying especial attention to the healthfulness of the milk-givers, and immediately condemning any cows found to be diseased. I am confident there is a better quality of milk being dispensed to our citizens at this time than heretofore.

The laws in relation to sanitary plumbing have been scrupulously complied with by the Chief Plumbing Inspector and his assistant; they have been very exacting in all instances. Rigid examinations are made of all applicants for the license of a master or journeyman plumber. The public may rely upon the qualifications of all plumbers holding proper certificates.

The enactment of the law imposing a penalty upon physicians and midwives for not reporting births has had a very beneficial effect, the returns being now about two-fold.

The inspectors of various districts are ordered to make careful search and inquiry for cases of leprosy, and when found are examined by me, then sent to the Leper Hospital.

In all instances where property owners or tenants have reported the necessity of sewers or sewer connections, I have promptly examined the same, and, if found necessary, have requested the Superintendent of Streets to give the matter immediate attention. I would request that your Honorable Board in future be more careful, and not allow protests when I recommend a sewer in a street as a sanitary measure. It is impossible for me to keep the city in a sanitary condition unless I have your help and protection.

The disposition of dead animals gives the Health Office much trouble and

annoyance. The contractors are very derelict in their duty. I would suggest your Honorable Board be careful in awarding contracts, or see they are properly carried out.

The laws in relation to infractions of the plumbing requirements, as also those for vending unwholesome food, should be rigidly enforced, and it is to be hoped that our Judiciary will severely punish those who are guilty.

Many complaints are lodged in the Health Office by citizens against people keeping chickens in their yards, especially so against those who keep them for sale. I would respectfully suggest that your Honorable Board pass an ordinance prohibiting the keeping of chickens, geese, etc., within certain districts. Many fruit dealers keep large quantities of live chickens, and I must say they are an intolerable nuisance, besides the liability of producing disease.

The laws in relation to the covering of garbage and butcher wagons are not fully complied with, and I think the police should be instructed to make arrests for the violation of the same.

The swill carts and wagons are a great nuisance, and I would suggest that all vehicles carrying the same should be water-tight and so covered that they would not be offensive to the public.

The reports of the various heads of this department will be fully set forth in detail the work performed by them.

I can assure your Honorable Board that the work of the Health Department has been as thoroughly performed as circumstances would permit, and I thank the members of the Board for your hearty co-operation.

I remain, most respectfully,

JAMES W. KEENEY, M. D.,

Health Officer.

HEALTH DEPARTMENT.

MEMBERS OF THE BOARD OF HEALTH.

HON. GEORGE H. SANDERSON, Mayor and ex-officio President.

HEALTH OFFICER'S REPORT.

ASSISTANT PLUMBING INPSECTOR'S REPORT.

SAN FRANCISCO, JUNE 30, 1891.

*James W. Keeney, M. D.,**Health Officer of the City and County of San Francisco*

SIR: I respectfully present my report as Assistant Inspector of Plumbing and Drainage for the year ending June 30, 1891.

I have during said period inspected thirty-six thousand eight hundred and eighty-three (36,883) feet of iron-stone, and thirty-five thousand one hundred and forty-nine (35,149) feet of cast-iron pipe, laid as house drains inside of building lines. I have also examined the setting of eight hundred and seventy-five (875) traps, as set under sidewalks inside of curbs.

Respectfully

JAMES J. BYRNE,

Assistant Inspector of Plumbing and Drainage.

MARKET INSPECTOR'S REPORT.

REPORT

OF THE

CITY PHYSICIAN.

To the Board of Health,

City and County of San Francisco:

I have the honor to submit herewith my report for the year ended June 30, 1891.

The sanitary conditions at the County Jail have been much improved, as evidenced by the accompanying statistics, though pulmonary tuberculosis is still the almost inevitable result of long confinement there.

Pending the decision as to the change of location of the Pest House, it is not advisable to make extensive repairs there, though the buildings are in serious need thereof.

Very respectfully, your obedient servant,

H. W. YEMANS,

City Physician.

| Received from State of California for support of orphan, half-orphan, and abandoned children, for year ending December 31st, 1890..... | 667 57 |

Amount paid into City and County Treasury..... \$40,172 23

The appropriation for Alms House expenses for 1890 and 1891 was \$80,000.00. According to the Auditor's figures the amount paid out from the City and County Treasury was \$79,251.30; consequently there was a balance of \$748.70 remaining at the close of the fiscal year.

From the opening of the Alms House to the present time 12,916 inmates have been admitted, and provided with a comfortable home through the generous charity of the people of the City and County of San Francisco.

The average age of the inmates admitted during the past year has increased. Owing to the large number of aged and infirm patients the hospital or sick wards are crowded with incurables, which department is now one of the strongest features of the institution and demands special care and attention. The women's department is in pressing need of classification; the worthy and unworthy are cast in together, causing needless distress. To remedy this evil a building is required surrounded by an enclosure, where we can segregate the moral lepers that come to us from the City Prison and streets, and the incorrigibles who are cast out of other institutions, and must inevitably gravitate to the Alms House.

Many necessary implements and repairs have been made during the past year.

The roof of the main building has been renovated, and we hope to thus escape the heavy leakage of last winter. An addition to the same building, fifty by twenty-six feet and two stories in height, has been completed, adding fourteen single rooms to the women's department.

On the lower floor of this addition is a butcher's shop, milk-room, store-room and vegetable room.

A tower four stories high has been erected carrying water-closets and bath-tubs for each floor of the men's department, corresponding to the tower built last year for the women's department. The hygienic condition of the three buildings has been greatly improved by the thorough overhauling and repair of the plumbing department.

Our water supply was also getting extremely bad from the accumulation of filth and debris for many years in the pumping reservoir. This has been thoroughly dug out and cleansed.

The great blessing of the year has been the hot-air furnace, which has added unspeakably to the comfort of the hospital wards in the main building. All honor to the good people of San Francisco, who so generously donated warmth and comfort to the aged and infirm.

Blessings are showered on them for their kind thoughtfulness by the inmates who linger about the registers on cold mornings.

Religious services have been conducted throughout the year by various denominations.

I am grateful to the priesthood of the Mission Dolores Church for their kind ministrations to the sick and dying.

To the Rev. W. C. Mills, the Rev. James Campbell, the Rev. Mr. Meserve, and their associate workers I would render thanks for their faithful and constant attention to the souls of "the poor who are within our gates."

To the unnamed workers who visit the sick I feel most grateful. In the name of the inmates I give heartfelt thanks to the donors of books, papers, magazines, clothing and fruit.

Mr. F. A. Gibbs deserves especial mention for his liberal and frequent donations of fruit.

I would also express my thanks to all those who so kindly remembered this institution at Christmas time.

The Daughters of the Good Shepherd have visited us with reading matter and encouraging words, restoring sight to dim eyes by a generous donation of ninety pairs of spectacles.

The Mission Circle of Plymouth Church deserves praise for the carefully prepared garments donated to the hospital department.

Thanking the taxpayers of our city for their cordial co-operation in the difficult task of combining and holding over eight hundred people, representing many nationalities, obedient to law and order, and caring for them in the spirit of humanity. Also thanking the Honorable Board of Supervisors, and the Honorable Board of Health for their kind support and attention to all our needs, making the year both pleasant and successful, this report is most respectfully submitted.

PHILIP L. WEAVER,

Superintendent City and County Alms House.

San Francisco, July 1, 1891.

HOSPITAL REPORT.

SAN FRANCISCO, September, 1891.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

GENTLEMEN:—I herewith submit the annual report of the City and County Hospital, for the fiscal year ending June 30th, 1891.

J. H. HEALY, M. D.,
Superintendent Physician City and County Hospital.

PATIENTS.

| | |

|---------------------------------------|-----------|-------------|-------------|--------------|-------------|-------------|--------------|-------------|------------|------------|----------|-----------|------------|
| | July..... | August..... | September.. | October..... | November... | December... | January..... | February... | March..... | April..... | May..... | June..... | |
| Diabetes..... | 1 | | 2 | 1 | | 1 | | | 1 | | | 1 | 7 |
| Diarrhoea..... | 1 | 1 | | 2 | 1 | 1 | 1 | | | | 1 | 1 | 10 |
| Diarrhoea, chronic..... | 1 | 1 | | 1 | 1 | | 1 | | 1 | 1 | | | 6 |
| Dislocation of clavicle..... | 1 | 2 | | 1 | 3 | | 1 | 1 | | | 1 | | 10 |
| Dislocation of humerus..... | 1 | 1 | 2 | | 2 | | 2 | 1 | 1 | | 1 | 1 | 11 |
| Dislocation of scapula..... | 1 | | | 1 | | | 1 | | | | 1 | | 4 |
| Dislocation of ulna..... | | | | | 1 | | | | | | | | 1 |
| Dysentery..... | | 2 | 3 | 1 | | 4 | | 3 | | 4 | 1 | 2 | 20 |
| Dyspepsia..... | 2 | | 2 | 1 | 4 | | 3 | | 2 | | 1 | 2 | 17 |
| Eczema..... | | 1 | | 2 | 1 | | 1 | | 1 | | 2 | | 8 |
| Epilepsy..... | 3 | | 1 | | 4 | | 3 | 1 | 2 | | 4 | 2 | 20 |
| Epithelioma of ear..... | | 1 | | | 1 | | | 1 | | | | | 3 |
| Epithelioma of penis..... | | | | 1 | | | | | | | | | 1 |
| Epithelioma of scalp..... | 1 | | | | | 1 | | | | | | | 2 |
| Epithelioma of rectum..... | | | | | | | | | 1 | | | | 1 |
| Erysipelas..... | 2 | | 3 | 1 | 2 | | 2 | 1 | | | 1 | 1 | 14 |
| Erysipelas of arm..... | | 1 | | 1 | | 1 | | | 2 | 1 | | | 7 |
| Erysipelas of head..... | 2 | | 1 | 3 | | 2 | | 2 | | | 1 | 1 | 13 |
| Fever, intermittent..... | 5 | 2 | | 7 | 3 | | 4 | 3 | | 8 | 1 | 7 | 40 |
| Fever, remittent..... | 1 | | 2 | | 3 | | 2 | 6 | | 5 | 1 | 4 | 24 |
| Fever, scarlet..... | | 1 | | | | | | | | | 1 | | 3 |
| Fever, typhoid..... | 5 | 3 | | 2 | 9 | | 8 | 4 | 10 | | 10 | 9 | 60 |
| Fistula in ano..... | 1 | | 2 | 1 | 3 | | 2 | 1 | 2 | | 2 | 1 | 15 |
| Fistula, of lachrymal sac..... | | 1 | | | 1 | | | | | | 1 | | 3 |
| Fistula, urinary..... | | | 1 | | | | | | 1 | | | 1 | 3 |
| Foreign body in rectum..... | | | | | | 1 | | | | | | | 1 |
| Fracture of clavicle..... | 2 | | 1 | | 1 | | 2 | | 1 | | 1 | | 8 |
| Fracture of coracoid process..... | | | | | | | | | | | | | |
| Fracture, Collis's..... | | 2 | | 2 | 1 | 1 | | 1 | | 2 | | 1 | 10 |
| Fracture of femur..... | 3 | | 3 | | 2 | 2 | | 1 | | 2 | | 2 | 15 |
| Fracture of femur, intracapsular..... | | 1 | | 1 | 1 | 1 | | | 1 | | 1 | 1 | 7 |
| Fracture of fibula..... | 2 | | 4 | 1 | | 3 | 2 | | 5 | | 1 | 2 | 20 |
| Fracture of finger..... | | 1 | | | | | | | 1 | | 1 | | 4 |
| Fracture of humerus..... | | 4 | 1 | 2 | 4 | | 3 | 1 | | 1 | 3 | 1 | 23 |
| Fracture of inferior maxilla..... | 3 | | 2 | 1 | 1 | 2 | | 1 | | 1 | 1 | 1 | 11 |
| Fracture of maxilla..... | 1 | 1 | | 1 | 1 | | | | 1 | | 1 | | 6 |
| Fracture of metacarpal bones..... | 1 | | 1 | | 1 | | 1 | | 1 | 1 | 1 | | 7 |
| Fracture of patella..... | | 1 | | 1 | | | | 1 | | | | 1 | 4 |
| Fracture, Pott's..... | 1 | | 1 | | | 1 | | 1 | | | 1 | | 6 |
| Fracture of radius..... | | 1 | | | 1 | | | | 1 | | | | 3 |
| Fracture of radius and ulna..... | | | | 1 | 4 | | 1 | | | | 1 | | 3 |
| Fracture of ribs..... | 3 | | 2 | | 4 | 1 | | 2 | | 4 | 2 | 2 | 20 |
| Fracture of scapula..... | | 1 | | | 1 | | | | 1 | | | | 3 |
| Fracture of spine..... | | | | | | 1 | | | | | | | 1 |
| Fracture of superior maxilla..... | | | 1 | | | | | | 1 | | | | 1 |
| Fracture of tarsus..... | | | | | | | | | 1 | | | | 1 |
| Fracture of tibia..... | 2 | 1 | 1 | | 2 | 1 | 1 | 3 | | 2 | | 2 | 15 |
| Fracture of tibia and fibula..... | | 1 | | | 1 | 1 | | 1 | | 1 | | 1 | 6 |
| Fracture of toe..... | 1 | | | 1 | | | 1 | | | | | | 3 |
| Fracture of ulna..... | | 1 | | | 1 | | | | 1 | | | | 3 |
| Fracture of wrist..... | 2 | | 1 | | 1 | 2 | | 1 | | | 1 | 1 | 9 |
| Fracture, compound of femur..... | | 1 | | 1 | | | 1 | 1 | | 1 | | | 5 |
| Fracture compound, of tibia..... | 1 | 1 | | | 1 | | | 1 | | | | 1 | 5 |
| Fracture, ununited, of tibia..... | | 1 | | 1 | | | 1 | 1 | | 1 | | 1 | 6 |
| Gangrene of finger..... | 1 | | | 1 | | | 1 | | 1 | | 1 | | 5 |
| Gangrene of foot..... | | | 1 | | | | | | 1 | | | 1 | 3 |
| Gangrene of hand..... | 1 | | | | | | | 1 | | | | | 2 |
| Gangrene of lungs..... | | 1 | | 1 | | | 1 | | | | 1 | | 4 |
| Gangrene of scrotum..... | | 1 | | | | 1 | | | | | | | 2 |
| Gastritis, acute..... | 2 | | 1 | | 4 | | 3 | | 2 | 1 | 1 | 2 | 16 |

TABLE No. IV—CONTINUED.

| DISEASES OF PATIENTS. | 1890. | | | | | | 1891. | | | | | | Total. |

| | July | August | September | October | November | December | January | February | March | April | May | June | |
| Gastritis, chronic..... | 1 | | | 1 | 1 | 1 | 2 | 1 | | | 2 | 1 | 10 |
| Gleet..... | | | | 1 | | | | | | | | 1 | 1 |
| Goitre..... | 1 | | | | 1 | | | 1 | | | | 1 | 4 |
| Gonorrhoea..... | 2 | 1 | 3 | | 2 | 1 | 2 | | 3 | 1 | 4 | 1 | 20 |
| Gout..... | 1 | 1 | | | | | | 1 | 1 | | 1 | | 4 |
| Heart disease, undefined..... | 5 | 4 | 6 | 8 | 3 | 2 | 6 | 7 | 14 | 2 | 12 | 10 | 83 |
| Heart, dilatation of..... | 2 | 1 | 2 | 3 | 2 | | 1 | 1 | 3 | 4 | 2 | 4 | 25 |
| Heart, fatty degeneration of..... | 1 | | 1 | | | | 1 | 1 | 1 | 1 | | 1 | 5 |
| Heart, palpitation of..... | | 1 | | | | | | 1 | | 1 | | 1 | 5 |
| Heart, valvular disease of..... | 3 | 2 | | 4 | 3 | | 3 | 3 | 1 | 2 | 1 | 1 | 25 |
| Hemorrhage, pulmonary..... | | 1 | 1 | 1 | 2 | | 1 | 1 | 1 | 1 | 1 | 1 | 10 |
| Hemorrhoids..... | 2 | 2 | 3 | 1 | 1 | | 3 | 1 | 4 | 4 | 1 | 5 | 25 |
| Hemiplegia..... | | 1 | | 1 | 2 | | | 1 | 2 | 1 | 1 | 1 | 10 |
| Hepatitis..... | 2 | 1 | | 3 | 1 | | 2 | | 4 | 1 | 2 | 3 | 18 |
| Hernia..... | | 1 | | 1 | | | | 1 | | | | 1 | 5 |
| Hernia, strangulated..... | | | | | | 1 | | | | | | | 1 |
| Hydrocele..... | 2 | 1 | | 2 | | 1 | 1 | | 1 | 1 | | 1 | 10 |
| Hypochondria..... | | 1 | | 1 | | 1 | | | | | 1 | | 5 |
| Hysteria..... | 1 | | 2 | | 1 | | 3 | | 1 | 3 | | 3 | 15 |
| Insanition..... | 1 | | 1 | | | 1 | | | | | 1 | 1 | 6 |
| Indigestion..... | | 2 | | 1 | | 1 | | 2 | | 1 | | 1 | 8 |
| Inflammation of foot..... | | 1 | | | 1 | | | | | | 1 | | 3 |
| Inflammation of knee..... | | | | 1 | | | | | | | | | 1 |
| Inflammation of lymphatic gland..... | | 1 | | | | | | 1 | | | | | 2 |
| Injury to ribs..... | 1 | | 1 | | 1 | | | 1 | | 1 | | | 5 |
| Injury to scalp..... | | 1 | | 1 | 1 | | 1 | | 1 | 1 | | 1 | 7 |
| Insanity..... | 1 | | 1 | | 1 | | 1 | 1 | 1 | 1 | | 1 | 8 |
| Insomnia..... | 1 | | 1 | | 1 | 1 | 1 | | | | | | 4 |
| Iritis..... | | | | | | | | | | | | | 20 |
| Laceration of cervix..... | | 1 | | 1 | | | 1 | | | 1 | | 1 | 5 |
| Laceration of perineum..... | | | 1 | | | 1 | | | 1 | | | | 4 |
| Laryngitis..... | 1 | 1 | | | 1 | 1 | | | 1 | | | | 6 |
| Lead palsy..... | | | 1 | | | 1 | | 1 | | 1 | 2 | | 5 |
| Leucæmia..... | 2 | 1 | | 1 | | 2 | 1 | | 1 | | 1 | 1 | 10 |
| Leucoma..... | | | | | 1 | | | | 1 | | 1 | | 5 |
| Leucorrhoea..... | 1 | | | 1 | 1 | | | 1 | 1 | 1 | | | 5 |
| Lipoma..... | | | 1 | | | | | | 1 | | | | 4 |
| Locomotor ataxia..... | | | 1 | | 1 | | 1 | | | | | 1 | 5 |
| Lumbago..... | 2 | | 4 | 3 | 6 | | 4 | 1 | | 3 | 1 | 2 | 26 |
| Luxation of hip..... | 1 | | 1 | | 1 | | | | 1 | | 1 | 1 | 6 |
| Lymphadenitis..... | | | | | | 1 | 1 | | | | | | 1 |
| Lymphangitis..... | | | | 1 | | 1 | | | | | | | 3 |
| Mania..... | 1 | | 1 | | 1 | | | 1 | | 1 | 1 | 1 | 7 |
| Mastodynia..... | | | | | 1 | | | | | | | | 1 |
| Measles..... | | | | 1 | | | 1 | | | | | | 2 |
| Meningitis..... | | | | | 1 | | | | 1 | | | | 2 |
| Metritis..... | 1 | | 1 | | | 1 | | | 1 | 1 | | 1 | 6 |
| Myelitis..... | | | | | | | | | | | | | 23 |
| Myopia..... | | 2 | | 1 | | 4 | | 2 | | | | | 10 |
| Necrosis of femur..... | 1 | | 1 | | 2 | | 1 | | 2 | 1 | 1 | 1 | 10 |
| Necrosis of humerus..... | | 1 | | 1 | | 1 | | | 1 | 1 | | | 2 |
| Necrosis, inferior maxilla..... | | | | 1 | | | 1 | | | | | | 2 |
| Necrosis of ulna..... | 1 | | 1 | | | | | 1 | | | | 1 | 4 |
| Nephritis..... | 1 | | 1 | 1 | 1 | | 1 | | 1 | 2 | 1 | 1 | 10 |
| Nephritis, interstitial..... | | | | 1 | | | | | | 1 | | | 2 |
| Nephritis, pyelo..... | | | | | | | | | | | | | 1 |
| Neuralgia..... | 1 | | 1 | | 1 | 2 | | 1 | | 2 | 1 | 1 | 10 |
| Neuralgia, facial..... | | 1 | | 1 | | | | | 1 | | | | 3 |
| Neuralgia, intercostal..... | 1 | | | 2 | 1 | 1 | 2 | | 2 | | 1 | | 12 |
| Neurosis..... | | | 1 | | | | | 1 | | | | | 2 |

DISTRICT ATTORNEY'S REPORT.

OFFICE OF DISTRICT ATTORNEY,

SAN FRANCISCO, July 15th, 1891. }

To the Honorable the Mayor and Board of Supervisors

Of the City and County of San Francisco :

GENTLEMEN: Pursuant to Resolution No. 5,268 (Third Series), adopted at a meeting of the Board of Supervisors held June 1, 1891, I have the honor to respectfully submit the accompanying Report of the District Attorney's Office, for the fiscal year ending June 30, 1891.

The first half of the year was in the closing term of my predecessor, James D. Page, Esq., my own administration not commencing until January 5, 1891. It will be perceived from the report that the volume of business of this department has greatly increased. During the year there were received 649 cases, of which 230 were received during my own administration, from January 5, 1891, until June 30, 1891. Of these, 122 have been convicted as charged, 26 convicted of lesser offenses, 3 convicted of murder in the first degree, 1 of murder in the second degree, 34 of burglary in the first degree, 63 of burglary in the second degree, 47 of misdemeanor, and 112 have been acquitted. Fifty informations have been dismissed against defendants who were sentenced on other charges, 2 indictments have been quashed, 9 persons have been discharged in furtherance of justice, 1 on account of the disagreements of juries, 1 on habeas corpus, and 82 on account of lack of evidence to convict. Informations are pending against 107 persons who are fugitives from justice, against 120 who are sentenced and serving time on other charges, 16 against insane persons, and 225 are awaiting trial. The defendant who was discharged on account of the disagreements of juries was one Carl Lundquist, who came to me as a legacy through two former administrations. He was tried five times for murder; was on his first trial convicted, and in all the others the juries disagreed. His trials cost the City and County in the neighborhood of ten thousand dollars, and as a conviction in his case was manifestly hopeless, I took the responsibility of requesting His Honor, Judge Hebbard, before whom he received his last two trials, to dismiss the information against him.

There were received during the year 104 appealed cases from the Police Court. Of these, 51 judgments have been affirmed, 37 reversed and cause dismissed, and 16 are now pending for hearing. There were received during the fiscal year 119 petitions for writs of habeas corpus. Of these, 52 were granted, 60 denied, and there were 7 in which no returns were made up to June 30, 1891.

When I took charge of this department on the 5th of January, 1891, I found in session a Grand Jury, of which Mr. Henry L. Davis was Foreman, and Mr. William B. Wilshire was Secretary. This Grand Jury remained in session until the 13th of April, 1891, when it was discharged by the Hon. Wm. T. Wallace, Presiding Judge of the Superior Court. The Grand Jury discharged its duties faithfully and efficiently, and I take pleasure in extending to it my thanks for the attention paid to official business. I am glad to have this opportunity of expressing my sincere thanks for the able and willing co-operation of Patrick Crowley, Esq., Chief of Police; Captain I. W. Lees, Chief of Detectives, and the various officers of their respective departments, who have always rendered this office their valuable assistance with alacrity, cheerfulness and the utmost efficiency. I would also fail in my duty did I omit to express my deep sense of obligation to Mr. John A. Hosmer, First Assistant District Attorney; Mr. Walter S. Hinkle, Second Assistant District Attorney, and Gen. John Lord Love, Third Assistant District Attorney, all of whom have on every occasion demonstrated their ability in the dispatch of public business and their fidelity to the people. To Messrs. Walter B. Blair, John B. Tungate and Thomas F. Dunn, of the clerical staff of this office, I desire to express my hearty thanks for their efficient and painstaking labors during my administration, while to Daniel Hannah, Esq., the officer detailed to this department by the Chief of Police, I am happy to return thanks for his experienced and valuable assistance.

Respectfully submitted,

WILLIAM S. BARNES,

District Attorney.

DISTRICT ATTORNEY'S REPORT.

DISPOSITION OF THE CASES IN THE DISTRICT

ATTORNEY'S OFFICE FOR FISCAL YEAR 1890-91—CONTINUED.

[illegible]

vessel, and these cases while pending are virtually against defendants on their own recognizance, and are so reported; and instead of two charges against each defendant there is really but one, and will be so reported.

***The defendant since last report was tried and found guilty of burglary in second degree, the case was appealed to the Supreme Court, a new trial was granted, and the case is now pending.

J. H. WIDBER,

City and County Treasurer.

San Francisco, July 15, 1891.

AUDITOR'S REPORT.

*To the Honorable the Board of Supervisors
of the City and County of San Francisco:*

GENTLEMEN: The Auditor's report for the fiscal year ending June 30, 1891, is hereby submitted for your consideration.

This report includes a *portion* of the official acts of two (2) of my predecessors, viz: Auditor Strother, from July 1, 1890, to January 6, 1891, and Auditor Stern, from January 6 to March 2, 1891. My official statement, therefore, includes the period from March 2 to June 30, 1891.

The Auditor's report, in conjunction with that of the Treasurer, should contain the elements by which the financial condition of the City and County, its expenditures, and liabilities, could exactly and definitely be determined. The most strenuous efforts on the part of the Auditor in order to accomplish this desirable result have been in vain. The Auditor's yearly report should have been made about ten (10) weeks ago; and yet, even at this late date, this report, at best, is but an approximation of the information which by law is required to be conveyed to your Honorable Body.

This is not a new condition of public affairs; for many years in many of the leading departments of the city government an unwise, unjust and unlawful habit of "*pigeon holeing*" demands on the Treasury has prevailed, apparently under the idea that concealment of the amount of liabilities was a speedy method of postponing the payment of just debts.

This concealment has resulted in conflicting statements regarding the debt of the city and greatly diminishes the value of the Auditor's report in regard to his or any statement of the city's finances.

The "*pigeon holeing*" of claims against the city and want of prompt action must and does result in a species of favoritism, by pushing the demands of favored creditors to the front, while the claims of less fortunate creditors are relegated to the rear. This statement is continually verified in the office of the Auditor by claims of six (6), seven (7), nine (9) and twelve (12) months' date being presented for auditing at the same time with claims of but a few days' standing. This system of holding back or burying de-

mands is not confined to one department alone, but pervades many of the departments, and in some instances, *as reported to me*, has been used as a means of oppression, by withholding demands for personal profit or to secure personal revenge.

RECORD BOOKS.

The Auditor, Tax Collector and Assessor are jointly and equally interested in the procurement of proper record books. These are a public necessity. In times past, as well as present, the expenditures for these books have been characterized by willful waste and extravagance. The growth of the city and subdivisions daily made in transfers of real estate, also the increase of numbers in the personal property roll, add progressively and greatly to the size and number of these records.

It has been the habit to order these books without consultation with the officers who might be presumed to have the best information as to what is required. The first successful effort in this direction resulted in the books of personal property being reduced by the Auditor to exactly one-half in size and to a minimum waste of unused leaves. The same system can be inaugurated in the real estate books of the current fiscal year, thus saving a large expenditure of money and a great saving in room occupied, this last item being of the greatest importance. The Tax Collector has already called on the City Hall Commissioners for extra room, and the present capacity of the Auditor's room being extremely limited, in a short time more space will be required.

A comparison of the weight, size and waste of some of the official books will illustrate fully the force of the above remarks:

ASSESSOR'S BOOKS.

| | | | |
|---------------------|---------------------|---------------------|------------------|
| 1881....Vol. 2..... | Weight, 57 lbs..... | 351 pages used..... | 250 blank pages. |
| 1881.... " 7..... | " 58 "..... | 243 " "..... | 376 " " |
| 1881.... " 13..... | " 50 "..... | 348 " "..... | 173 " " |
| 1891.... " 17..... | " 33 "..... | 273 " "..... | 43 " " |
| | | 1,215 | 847 |

AUDITOR'S BOOKS.

| | | | |
|----------------------|---------------------|---------------------|----------------|
| 1891....Vol. 17..... | Weight, 18 lbs..... | 137 pages used..... | 2 blank pages. |
| 1891.... " 14..... | " 23 "..... | 207 " "..... | 2 " " |

The above example is no reflection on the Assessor's administration; he was obliged to take that which was furnished. The Auditor ordered that which in his judgment was actually required. It will be observed that of 2,062 pages in old books, 1,215 pages were used and 847 pages were wasted. The labor of searchers handling over 40 per cent. of dead weight has in the past led to great destruction of books, and in future years with smaller books this waste will be greatly decreased.

Owing to the death of my lamented predecessor, Auditor Stern, and the circumstances attending my appointment to the office of Auditor by your

Honorable Body, no pledge of any kind has been demanded or taken by myself; but the pledge of my party is none the less binding on me; on the contrary, it should be more binding. For this and other reasons every exertion of the Auditor will be devoted to controlling wastefulness, extravagance and unlawful expenditures; but it is apparent that without the co-operation of all departments of the city government, the endeavor of the Auditor to accomplish this end will be in vain. When twelve Supervisors, twelve School Directors, or three Fire Commissioners, endorse enormous demands of subordinates in their respective departments, the Auditor is comparatively helpless, or, rather, heavily handicapped. The most that he can officially do is to call the attention of rulers to the acts of their subordinates, in the hope that the evil complained of may not again be perpetrated.

All of which is respectfully submitted.

THOMAS J. L. SMILEY,

City and County Auditor.

San Francisco, September 20, 1891.

DEMANDS AUDITED DURING THE FISCAL YEAR 1890-91,
ENDING JUNE 30, 1891.

REPORT OF WALTER H. LEVY, SPECIAL COUNSEL.

SAN FRANCISCO, October 12, 1891.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: In compliance with the requirements of the provisions of Resolution No. 5,268 (Third Series), of your Honorable Body, I have respectfully to present to you my annual report as special counsel for the collection of delinquent taxes for the fiscal year 1882-83.

I have collected and paid over to the Tax Collector of the City and County of San Francisco, less my five per cent commissions, the sum of \$188.43.

There are very few matters now in my hands that require attention, and I think that they can be settled and wound up inside of the next ninety or one hundred days; so that about that time I will be prepared to turn over my entire set of books and make a final settlement with your Honorable Body and close up the matter of the collection of delinquent taxes for the year I was appointed to collect.

Your Honorable Body will find a detailed statement of all collections made by me since the time of my appointment, showing the names of the persons who paid, the amount and the date, on file in the Clerk's office of your Honorable Board.

All of which is respectfully submitted,

WALTER H. LEVY,

Special Counsel for the Collection of Delinquent Taxes for the Fiscal Year 1882-83.

REPORT OF FISHER AMES, SPECIAL COUNSEL.

SAN FRANCISCO, July 14, 1891.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: In obedience to Resolution No. 5,268 (Third Series), I herewith submit my report for all taxes for city and county purposes, for the fiscal years 1872-73 and 1873-74, collected by me, as special counsel, from June 30, 1890, to and including June 30, 1891, pursuant to the provisions of Orders Nos. 1,185 and 1,197, adopted by your Honorable Board.

Detailed statements of all collections are on file in the office of the Auditor of said city and county, and in the office of the Clerk of your Honorable Board.

| | |

| Principal collected..... | \$101 21 |
| Advertising..... | 12 50 |
| Total collections..... | \$113 71 |

FISHER AMES,
Special Counsel.

REPORT OF P. F. DUNNE, SPECIAL COUNSEL.

SAN FRANCISCO, July 24, 1891.

*To the Honorable the Board of Supervisors**Of the City and County of San Francisco:*

GENTLEMEN: In compliance with your Resolution in this behalf adopted, I present my annual report as special counsel for the collection of delinquent taxes for the fiscal years 1887-88, 1888-89.

During the fiscal year just closed, I have collected and paid over to the Tax Collector as delinquent taxes for the above mentioned fiscal years, and after deducting five per cent commission, the sum of \$19,355.90. This large amount, at this somewhat advanced stage of my collection, is due to the fact that \$17,348.73 represents money recovered by me in the case of City and County of San Francisco v. Pacific Bank, to which I referred in my last annual report. The items of the aggregate amount reported by me here will be found in the periodical statements which I have regularly filed with your office.

Respectfully submitted,

P. F. DUNNE,

Special Counsel.

REPORT OF JOSEPH P. KELLY, SPECIAL COUNSEL.

SAN FRANCISCO, October 12, 1891.

*To the Honorable the Board of Supervisors**Of the City and County of San Francisco:*

GENTLEMEN: In compliance with the requirements of the provisions of Resolution No. 5,268 (Third Series) of your Honorable Body, I have respectfully to present to you my annual report as special counsel for the collection of delinquent taxes for the fiscal year 1883-84.

I have collected and paid over to the Tax Collector of the City and County of San Francisco, less my five per cent commissions, the sum of \$109.95.

There are very few matters now in my hands that require attention, and I think that they can be settled and wound up inside of the next ninety or one hundred days; so that about that time I will be prepared to turn over my entire set of books and make a final settlement with your Honorable Body and close up the matter of the collection of delinquent taxes for the year I was appointed to collect.

Your Honorable Body will find detailed statements of all collections made by me since the time of my appointment, showing the names of the persons who paid, the amount and the date, on file in the Clerk's office of your Honorable Board.

All of which is respectfully submitted,

JOSEPH P. KELLY,

Special Counsel for the Collection of Delinquent Taxes for the Fiscal Year 1883-4.

REPORT OF J. P. BELL, SPECIAL COUNSEL.

SAN FRANCISCO, September 5, 1891.

*To the Honorable the Board of Supervisors**Of the City and County of San Francisco:*

GENTLEMEN: In compliance with Resolution No. 2400 of your Honorable Body, I herewith respectfully submit to you my annual report as special counsel for the collection of delinquent personal property taxes for the fiscal years 1874 to 1878, both inclusive.

During the fiscal year just closed I have paid over to the Tax Collector, less my commissions, the sum of two hundred and sixty dollars and thirty-four cents (\$260 34). Statements showing the names of the persons who paid, together with the amounts, have been filed by me with the Tax Collector, to which reference is hereby made.

[Respectfully submitted,

J. P. BELL.

Special Counsel for the Fiscal Years 1874 to 1878 inclusive.

Per J. T. Bloomfield.

REPORT OF W. A. S. NICHOLSON, SPECIAL COUNSEL.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

GENTLEMEN: In compliance with the resolution of the Board heretofore adopted, I beg leave to submit my annual report as special counsel for the collection of the delinquent personal taxes for the fiscal years 1884-85, 1885-6 and 1886-7.

Some months ago your Honorable Body requested special counsel to report the total amount of delinquency on the rolls turned over to them with the total amount collected thereon; it is impossible to be exact in such a matter without a great deal of labor, but I will state that I have learned from the Auditor that at the end of the different fiscal years when the Tax Collector made his final statements to the Auditor, the total delinquencies in the three rolls of which I hold partial copies were about one hundred and forty or one hundred and fifty thousand dollars; of course the list was not turned over to special counsel until several months after the end of the fiscal year, and in these months the delinquency had been considerably reduced by payments to the Tax Collector direct by the persons assessed; of the delinquent lists for the three years I have collected and paid over to the Tax Collector between forty and fifty thousand dollars, for which I hold his receipts; a vast portion of the delinquent list is made up of worthless assessments on estates, duplicate assessments, assessments on persons who have died or moved away. I am still collecting small sums and am still sending out notices; I have three tax cases pending in the Supreme Court involving some eight or nine thousand dollars; two of them against the Western Union Telegraph Company will be argued in bank in the January term, 1892, by stipulation; another case, "The City and County vs. Pennie" was argued by me before Department No. 1 of the Superior Court over a year ago and submitted then, but the Court last month ordered it reheard in bank. It was argued again, and again submitted on briefs. I am confident of winning the cases, and have devoted a great deal of time and labor to them, as, outside of the money involved, there are vital principles and points involved which will be of great importance to the city in the matter of future assessments.

I have collected and paid over during the year to the Tax Collector after deducting my commissions, the following amounts:

| | |
|--------------------------|-------------------|
| Fiscal year 1884-5 | \$ 122 36 |
| Fiscal year 1885-6 | 206 29 |
| Fiscal year 1886-7 | 750 58 |
| Total | \$1,079 23 |

Itemized reports having been filed from time to time by me with the Tax Collector.

Respectfully submitted,

W. A. S. NICHOLSON.

Special Counsel for Years 1884, 1885 and 1886.

REPORT OF JOSEPH E. O'DONNELL, SPECIAL COUNSEL.

SAN FRANCISCO, JULY 13, 1891.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

GENTLEMEN: In compliance with Resolution No. 5,268 (Third Series), I herewith submit to you my report as special counsel for the collection of delinquent personal property taxes for the fiscal year 1889-90, collected during the year ending June 30, 1891.

I have collected the sum of five thousand and fifty-five and 58-100 dollars delinquent taxes for said fiscal year, and after deducting five per cent commission, have paid over to the Tax Collector the sum of four thousand, eight hundred and two and 81-100 dollars.

In October, 1890, the completed roll of delinquents was received by me; and since that time I have commenced ten thousand, five hundred suits in the Justices' Court, of which number service of

summons has been obtained in twelve hundred cases. I have received payments from five hundred and eight delinquents, aggregating the sum first herein mentioned. Detailed periodical statement of the amounts and also the names of the persons who paid are on file in the office of the Clerk of your Honorable Board, and reference is hereby specially made to the same.

In addition to the number served, more than four thousand summons could not be served by the men engaged for that purpose owing to the many changes in place of residence of delinquents. However, these cases will be followed with the aid of the new directory. In many cases it is impossible to collect owing to the extreme poverty of the delinquent who has been unreasonably and oftentimes ridiculously assessed. In other cases which have been brought to the knowledge of your Honorable Board the assessment is arbitrary and made after a sworn statement filed, the assessment on the basis of the latter having been paid, and the Tax Collector's receipt appearing therefor.

I have endeavored to use every effectual means in the matter of these collections, and have expended a considerable sum for printing and clerical labor. There are still about seven thousand suits to be filed, from which, in addition to the five thousand or more summons that have not as yet been served, a very considerable sum should be collected.

In the matter of the assessment of the seats of the San Francisco Stock and Exchange Board, a test case is now in progress in Department No. 6 of the Superior Court of this city and county. The point involved is the validity of the assessment—the brokers contending that it is in the nature of a double taxation. The case by stipulation has been submitted on a statement, the city's part of which I long ago prepared, and it now remains for the Board to present its amendments. This case involved the receipt or loss to the city yearly of about five thousand dollars.

Respectfully submitted,

JOS. E. O'DONNELL,

Special Counsel for Collection of Delinquent Taxes 1889-90.

REPORT OF JOSEPH E. O'DONNELL, SPECIAL COUNSEL.

SAN FRANCISCO, July 13, 1891.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: In compliance with Resolution 5,268 (Third Series), I herewith submit the following report, as attorney for the collection of forfeited bail bonds.

During my incumbency and up to June 30, 1891, that is to say, during one year, I have commenced thirty-nine suits on forfeited bail bonds. Thirty-four of those suits have been against Chinese bondsmen. In many of the latter cases it has been discovered by the party employed to give his special attention to the Chinese bondsmen, that the defendants have either gone back to China or that the names are fictitious. In one case there is evidence of forgery, which I purpose to bring to the attention of the Grand Jury as soon as that body convenes.

It occurs to me, as it has to my predecessors in office, that an expert should be appointed to examine into the qualifications of persons offering themselves as bondsmen. The salary paid to such official would be amply compensated for by the greater certainty the city would have of recovering the full amount of the respective forfeited bonds. Another advantage attained by the existence of such official might be the knowledge of all transfers made by sureties, so that, in case of suspicious conveyances by such bondsmen, the criminal might be required to give new bonds or be rearrested. However, it gives me pleasure to state that under the present administration of the District Attorney's office, in the matter of bonds in the Superior Court, all avenues to straw bondsmen are well guarded by the incumbent of that office and his corps of able assistants. To that office I am indebted for many courtesies in the discharge of my official duties.

The following record of the proceedings in the aforesaid cases will fully explain the work of the year, and you are respectfully referred to the records on file in the office of the County Clerk.

I.

The City and County of San Francisco vs. Quau Wy and Cum Fook.—Nos. 29,757, 29,758, 29,761, 29,762, 29,763, Superior Court. Actions brought to recover on five forfeited bail bonds, aggregating \$2,600. Complaint in respective cases filed June 16, 1890. Demurrer filed. Submitted on briefs.

II.

The City and County of San Francisco vs. Harm Hong and Jo Ah Hoy.—No. 24,760, Superior Court. Action brought to recover \$500 on a forfeited bail bond. Complaint filed June 16, 1890. Supposed that defendants have gone to China.

III.

The City and County of San Francisco vs. Yung Chow and Wong Sing.—No. 23,759, Superior Court. Action brought to recover \$600 on a forfeited bail bond. Complaint filed June 16, 1890. Demurrer filed.

IV.

The City and County of San Francisco vs. Hong On Tong and Yin On Hong Too Kee.—Nos. 29,772, 29,773, 29,774, 29,775, 29,776, Superior Court. Actions brought to recover on five forfeited bail bonds, aggregating \$1,500. Complaint in each case was filed June 17, 1890. Demurrer filed. Demurrer submitted. Answer filed. Ready for trial.

V.

The City and County of San Francisco vs. Ham Wah and Cheong Kim Fook.—No. 29,770, Superior Court. Action brought to recover \$500 on a forfeited bail bond. Complaint filed June 17, 1890. Demurrer filed. Demurrer overruled. Judgment for plaintiff. Appeals taken by defendants to Supreme Court. Motion to dismiss appeal granted. Execution levied and returned unsatisfied. Motion for judgment against sureties on appeal bond granted. Judgment satisfied by one of the sureties in the sum of \$500, which sum, less \$150 commission, was deposited with the Treasurer.

VI.

The City and County of San Francisco vs. Lee Chong and Chang Dip Ching.—Nos. 29,797, 29,798, 29,799, 29,800, 29,807, 29,809, Superior Court. Actions brought to recover on six forfeited bail bonds aggregating \$2,500. Complaints filed June 19, 1890. Whereabouts of defendants not known.

VII.

The City and County of San Francisco vs. Tom Dong and Ah Hong.—Nos. 29,801, 29,802, 29,803, 29,805, 29,806, 29,808, Superior Court. Actions brought to recover on six forfeited bail bonds aggregating \$3,000. Complaints filed June 19, 1890. Both defendants are at present in China.

VIII.

The City and County of San Francisco vs. Ham Wah and Cheong Kim Fook.—No. 29,771, Superior Court. Action brought to recover \$500 on a forfeited bail bond. Complaint filed June 17, 1890. Judgment for plaintiff.

IX.

The City and County of San Francisco vs. Foong Put and Low Jack.—No. 29,823, Superior Court. Action brought to recover \$500 on a forfeited bail bond. Complaint filed June 20, 1890. These defendants, so far, cannot be found. Supposed to be fictitious.

X.

The City and County of San Francisco vs. Jane Sullivan and Elizabeth Quint (as administratrix of the estate of Leander Quint, deceased).—No. 29,865, Superior Court. Action brought to recover \$1,000 on a forfeited bail bond. Complaint filed June 25, 1890. Summons served on Elizabeth Quint January 17, 1891, and on Jane Sullivan April 13, 1891. Quint demurrer overruled. Motion to strike out complaint denied. Quint answer filed June 1, 1891. Demurrer of Sullivan overruled. Judgment by default against Jane Sullivan, June 25, 1891.

XI.

The City and County of San Francisco vs. F. L. Jones and John H. Burns.—No. 30,036, Superior Court. Action brought to recover \$2,000 on a forfeited bail bond. Complaint filed July 17, 1890. Demurrers filed and overruled. Answers filed. Case tried May 20, 1891. Submitted on briefs. Property of defendants attached at commencement of suit.

XII.

The City and County of San Francisco vs. Chew Nom Sing and Woo Mee.—Nos. 32,141, 32,145, 32,146, 32,147, Superior Court. Actions brought to recover \$1,200 on four forfeited bail bonds of \$300 each. Complaint filed February 19, 1891. Impossible to find either defendants.

XIII.

The City and County of San Francisco vs. Lee Chong and Lay Yuen Shong.—Nos. 32,143, 32,144, Superior Court. Actions brought to recover \$1,000 on two forfeited bail bonds of \$500 each. Complaints filed February 19, 1891.

XIV.

The City and County of San Francisco vs. Ham War and Hoey Ah Poo.—No. 32,142, Superior Court. Action brought to recover \$500 on a forfeited bail bond. Complaint filed February 19, 1891.

XV.

The City and County of San Francisco vs. B. Mendelsen and George A. Frederich.—No. 32,516, Superior Court. Action brought to recover \$2,000 on a forfeited bail bond. Complaint filed and summons and attachment issued March 25, 1891. Answer filed. Case ready to be set for trial.

XVI.

The City and County of San Francisco vs. Jurgen Von Staden and Samuel Meyer. Nos. 33,317, 33,318, Superior Court. Actions brought to recover \$4,000 on two forfeited bail bonds of \$2,000 each. Complaint filed in each case and summons and attachment issued June 15, 1891.

In view of the fact that it is found almost impossible to recover on the bonds of Chinese on account of the perjury and forgery prevalent among them, it becomes all the more necessary that a person thoroughly familiar with the property status of the Chinatown residents be appointed to pass upon the eligibility of all Chinese offering themselves as bondsmen. The bond expert hereinbefore suggested might be required to have a knowledge of such status.

Respectfully submitted,

JOS. E. O'DONNELL,

Special Counsel for Collection of Forfeited Bail Bonds.

POUNDKEEPER'S REPORT.

SAN FRANCISCO, June 30, 1891.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

GENTLEMEN: I herewith submit my report as Poundkeeper for half year ending June 30, 1891.

RULES OF PROCEEDINGS.

1. In case the President does not attend, the Clerk, on the appearance of seven members, shall call the Board to order, when a President *pro tem.* shall be appointed by the Board for that meeting, or until the appearance of the President.

2. In case the Clerk should be absent, the Board shall appoint a Clerk *pro tem.*, provided such substitution shall not continue beyond the day on which it was made.

3. Whenever it shall be moved and carried that the Board go into a Committee of the Whole, the President shall leave the Chair, and the members shall appoint a Chairman of the Committee of the Whole, who shall report the proceedings of the Committee.

4. The Rules of the Board shall be observed in the Committee of the Whole, except the rules regulating a call for the *ayes* and *noes*, and limiting the time of speaking.

5. On motion, in Committee, to rise and report the question, it shall be decided without debate.

6. No amendments shall be allowed in the Board, on any question which has been decided in the Committee of the Whole, unless by consent of two-thirds of the members present.

7. The Clerk shall make a list of the Orders, Resolutions, or Reports on the table, which shall be considered the "general orders of the day."

THE ORDER OF BUSINESS,

which shall not be departed from, except by the consent of seven members. shall be as follows :

- 1st. Calling the Roll.
- 2d. Reading the Minutes of the last Meeting.
- 3d. Quarterly. The requisitions of Sec. 66, Art. V, of the Consolidation Act.
- 4th. Presentation of Petitions.
- 5th. Communications and Reports from City and County Officers.
- 6th. Reports of Committees, except Finance Committee.
- 7th. Disposition of Street Work.
- 8th. Unfinished Business.
- 9th. Presentation of Bills and Accounts.
- 10th. Report of Finance Committee.
- 11th. Orders, Motions, or Resolutions.
- 12th. Special Orders of the Day.
- 13th. General Orders of the Day.

RULES OF PROCEEDINGS.

8. If any question under debate contains several points, any member may have the same divided.

9. When any question has been put and decided, it shall be in order for any member who voted in the majority to move for the reconsideration thereof; but no motion for the reconsideration of any vote shall be made after the Order, Resolution, or Act shall have gone out of the possession of the Board; and no motion for reconsideration shall be made more than once upon the same question.

10. A motion to refer or lay on the table, until it is decided, shall preclude all amendments to the main question.

11. It shall be the duty of the Clerk to issue such certificates as may be directed by Orders or Resolutions, and to engross all Orders, Resolutions, or Acts, requiring the signature of the President, to the end that they may be placed on file, in addition to the records required to be kept by the Act creating this Board.

12. All accounts and bills presented shall be referred to Committees, that they may report upon the same before action is taken by the Board.

13. The President shall preserve order and decorum, and shall decide questions of order, subject to an appeal to the Board.

14. Every member, previous to his speaking, shall rise from his seat and address himself to the President; and no motion shall be in order if made while the mover is seated or out of his place.

15. When two or more members shall rise at once, the President shall name the member who shall speak first.

16. No member shall speak more than twice on the same question without leave of the Board; nor more than once until every member choosing to speak shall have spoken; nor more than five minutes, except by permission of the President.

17. No question, on a motion, shall be debated or put, unless the same be seconded. When a motion is seconded, it shall be stated by the President before debate; and every such motion shall be reduced to writing, if any member desires it.

18. A motion having been stated by the President, it shall be deemed to be in possession of the Board; but it may be withdrawn at any time before decision or amendment, with the assent of the second.

19. When a question is under debate, no motion shall be received unless:

- 1st. To adjourn.
- 2d. To lay on the table.
- 3d. The previous question.

- 4th. To postpone to a day certain.
- 5th. To commit or amend.
- 6th. To postpone indefinitely.

Which several motions shall have precedence in the order in which they are arranged.

20. A motion to adjourn, and a motion to fix the time of adjournment, shall be decided without debate.

21. The previous question, until decided, shall preclude all amendments and debate to the main question, and shall be put in the form, "Shall the main question be now put?"

22. Every member who shall be present when a question is put, shall vote for or against the same, unless the Board shall excuse him, or unless he be immediately interested in the question, in which case he shall not vote; but no member shall be permitted to vote upon a division when a division is called, unless present when his name is called in the regular order.

23. A member called to order shall immediately take his seat, unless permitted to explain, and the Board, if appealed to, shall decide on the case, but without debate. If there be no appeal, the decision of the Chair shall be submitted to.

24. Upon a decision of the Board, the names of those who voted for and those who voted against the question shall be entered upon the minutes, not only in the cases required by law, but when any member may require it; and in all appropriations of the public moneys the *yeas* and *nays* shall be called by the Clerk and recorded.

25. All appointments of officers shall be by *ballot*, unless dispensed with by the unanimous consent of the Board; and a majority of all the members of the Board shall be necessary to a choice.

26. No member shall leave the Board during its session without permission from the President.

27. All Committees shall be appointed by the Board, unless otherwise ordered. Committees appointed to report on any subject referred to them by the Board shall report a statement of facts, and also their opinion thereon, in writing; and no reports shall be received unless the same be signed by a majority of the Committee.

28. Every remonstrance, or other written application, intended to be presented to the Board, must be delivered to the President, or any member, not later than 12 o'clock on the day on which the Supervisors convene, except on extraordinary occasions; and the President, or member to whom it shall be given, shall examine the same, and endorse thereon the name of the applicant, and the substance of the application, and sign his name thereto, and deposit the same in the office of the Clerk of the Board, so that the members

may examine the same before meeting; *only* the endorsement of such remonstrance or application shall be read by the Clerk, unless a member shall require the reading of the paper, in which case the whole shall be read.

29. The members of the Board shall not leave their places, on adjournment, until the President leaves the chair.

30. Members, in speaking of each other, shall designate them by the number of their respective Ward.

31. Seven members shall constitute a quorum to transact business; and no Regulation, Resolution, Ordinance or Order of the Board shall pass without the concurrence of at least that number of members; but a smaller number may adjourn from day to day.

32. Should there arise any questions or points of order not embraced in the *Rules*, the Board shall be governed by the rules of the Senate, and the authorities set forth in Cushing's Manual.

33. Every Order shall embrace but one subject, and the same shall be expressed in its title.

34. The ordaining clause of the City Orders shall be: "The People of the City and County of San Francisco do ordain as follows:"

35. Two-thirds of the members of the Board shall be required to alter, suspend, or repeal any of the foregoing Rules.

BOARD OF SUPERVISORS.

The Board of Supervisors held a meeting on Monday afternoon, January 5, 1891, at 2 o'clock, for the purpose of introducing their successors.

The credentials of the present members of the Board elected on the 4th day of November, 1890, were presented, received and placed on file, and after appropriate remarks by the retiring members, were introduced, except Supervisor Evans (who was absent by reason of sickness), and took their seats, Supervisor Ellert, who was re-elected, retaining his seat.

The members being all introduced, His Honor Mayor Pond then introduced his successor, the Hon. Geo. H. Sanderson, Mayor, as presiding officer of the Board, in the following words :

GENTLEMEN OF THE BOARD OF SUPERVISORS—In retiring from the government of our city after eight years of service, I desire to take this opportunity to render my sincere thanks for the repeated honors which have been conferred upon me by this city, and to say that I look back over that long period of time, with its responsibilities and duties, and I feel that I have no apology to make nor regrets to express, save that I would like to have accomplished more, as I have earnestly endeavored to fulfill all my duties, and my only desire has been to serve best the people of this municipality. I take pleasure now in retiring, and in doing so make way for a gentleman whom I have known long and well and in whose fidelity, integrity and industry our people may implicitly rely. I bespeak for him your kind indulgence, as well as that of all our citizens. To the members of the old Board, I thank you for your courtesy and wish you all future prosperity. To those of you, gentlemen, who are about to assume the cares and responsibilities of office, in saying that we expect and are looking for a wise, beneficent and practical administration of public affairs, I hope and believe that none will be disappointed. Mr. Mayor, I welcome you as Chief Magistrate of this city. May your administration be abundantly successful, and your most ardent hopes fully realized.

His Honor Mayor Sanderson responded as follows :

Mr. Mayor, it is with no ordinary feelings that I address you. We have been friends for nearly a quarter of a century. During that time we have never lost confidence in each other. I have always found you an honest, conscientious, faithful, painstaking man. I never had reason to doubt it. Until this hour I have been strengthened in that belief. In retiring from your duties you will carry with you my friendship, and I hope that I shall also retain yours. Friendships for the length of years that ours have been never should be sundered, and while you are retiring, I know you will go with an honest conscience. I know you have been an honest, energetic, conscientious Mayor. I know you have done, under all circumstances, everything that could have been done, and I believe that the community in general express the same belief. You retire a man unspotted. There is not a spot on the ermine that you have worn, and I only hope that when I retire, I may retire as pure, honest and conscientious as you are.

The roll of members was then called and the Board declared duly organized.

His Honor Mayor Geo. H. Sanderson thereupon addressed the Board as follows :

GENTLEMEN OF THE BOARD OF SUPERVISORS:—For the first time in many years, the political party by which we were elected has obtained control of the affairs of this municipality.

This change in the political complexion of its government is largely due to the dissatisfaction of the people with the acts of your immediate predecessors, and the general belief that you will prove

faithful to your pledges to carry out the promises of economy, reform and progress laid down in the platform upon which you have been elected.

I feel confident that it is unnecessary for me to suggest that we now enter upon the discharge of our duties, not as the representatives of any political organization, but as the guardians of the best interests of the whole city, and obligated to act with entire impartiality and justice towards all, and your personal declarations to me in this regard warrant my unqualified confidence in assuring the people of this city that this Board will be actuated by the sole desire to afford them a good government, free from partisan or other influences inconsistent with that end.

With the deficiencies bequeathed to us by the retiring Board, it will be necessary for you during the coming year, to practice the most rigid economy, and to scan with greatest care the expenditures of each department, being governed in your efforts by business rather than political methods.

I feel assured that it is the desire of each of you that this Board shall make a good showing in the accomplishment of needed reforms, the stopping of leakages in the various branches of the city government, and in giving to the city, public improvements at moderate cost; in other words, to carry on this municipality on a strictly business basis and not as a political machine.

The fate of our party is in your hands. A fearless, progressive, economical, business like administration of the affairs of this city during the next two years, should insure its continuance in power, and win for yourselves the gratitude of an appreciative public.

In assuming the duties and responsibilities of Mayor of San Francisco, I call your attention to a few of the many questions which will be brought before you for consideration and settlement.

THE STREET DEPARTMENT.

Of the many departments of our city government, none will require more careful consideration at your hands than that of the Streets. On all sides it is admitted that a poor showing has been made for the large sums annually expended for the improvement and repairs of our streets. The want of confidence in the management of our highways is largely due to the lack of proper supervision of the work performed upon them. It will be your duty to correct this. The same honest competition and honest work should be exacted in every branch of the Street Department as would be required in a private enterprise.

Another evil which should claim your immediate attention is the manner in which Street Advertising is done. This class of printing should be open to competition and awarded to the lowest bidder.

With my present limited knowledge as to the comparative merits of asphalt and basalt block pavements, I am not prepared to express a decided opinion upon their respective merits; I will say, however, that legitimate competition between these pavements should, in my judgment, be restored by an amendment to the present law requiring a concrete foundation under basalt blocks, so as to require it only on streets in the business center of the city.

I also call your attention to the many commissions appointed by your predecessors to extend and lay out new streets. A careful investigation may warrant the conclusion that many or all of them should be discontinued; certainly a restriction should be placed upon them as to the time allowed for the fulfillment of their duties, and they should also be limited as to the amount of their compensation, so that no unnecessary expense may be forced upon the property holders.

THE FIRE DEPARTMENT.

The highest efficiency of the Fire Department is a matter of the greatest importance; in my judgment, this desired result can not be secured so long as it is made an instrument for political purposes. The experience of other cities would seem to demonstrate the necessity for a full-paid Department for our protection.

We are experiencing a rapid growth. Outlying districts are being improved and populated, rendering necessary the extension of water mains and the erection of many more hydrants. Increased territory to be protected calls for additional appliances for the extinguishment of fires.

Our city is largely constructed of inflammable material, requiring extraordinary precautions against great conflagrations.

I suggest, whether it is not our duty to exercise every power which we possess under the law, to so increase the facilities for the extinguishment of fires as to render such a conflagration impossible.

If the powers now vested in the city government are not sufficient to accomplish this result, then I recommend that further authority be sought through legislation.

THE POLICE DEPARTMENT.

The Police Force is one of the most important branches of our city government. Upon its vigilance and competency our lives and property are dependent. It is, therefore, very necessary that the highest efficiency be attained, and that our aid should be extended at all times to promote that end. The rapid addition to our population during the past few years has greatly enlarged the area to be guarded, while the increase of patrolmen has not kept pace with this extension; as a result, many of our resident streets are comparatively unguarded. Economy in a matter of this kind is extravagance in the long run. An increase of the Force is most earnestly demanded, and I trust the Legislature will come to our relief, if necessary, to insure us this much needed protection.

It gives me great pleasure to recognize the general efficiency and trustworthiness of the present Police Force, and to commend the ability and vigilance of its Chief, and the conscientious regard of duty on his part which has kept the administration of this branch of the city government free from the political influences and methods which have in the last few years so effectually permeated and demoralized many of the others.

THE PUBLIC SCHOOLS.

Our public schools ought to be the pride of our city, and should receive your fostering care. Our edifices of learning should be an ornament and an honor to this growing city. Our citizens have always been willing to contribute liberally to the support of our schools. It will, therefore, be incumbent upon those charged with this duty, to watch carefully this bounty, and see that it shall be disbursed with wisdom and economy.

THE MORGUE.

The present Morgue is entirely inadequate for the wants and requirements of a city of the size of San Francisco. Its location is exceedingly bad, and the creation of a better and larger one in a more central and convenient locality is demanded.

In connection with this subject I would suggest, that the present method of holding autopsies be changed, and that they be held by at least two of the Police Surgeons, so as to avoid all suspicion of secrecy.

MARKET INSPECTORS.

I would suggest the appointment of additional Market Inspectors, as the city at present has but one, who has imposed upon him the impossible task of guarding the health of a city of three hundred thousand inhabitants from the danger of diseased meats and unhealthy foods.

THE PUBLIC POUND.

This institution has been for years conducted in a manner that has caused it to become a blot upon our city's name and a disgrace to humanity and civilization. I hope that a transfer of its management will be among the first of your official acts. Once under the control of the Society for the Prevention of Cruelty to Animals, this scandal will be wiped out, and humane methods of treatment will supplant the cruelties now practiced.

I call your special attention to the portions of our party platform bearing upon the exclusion of the Chinese; the abolition of extra and unnecessary expenses in street work; also, the granting of franchises to street railroad companies, with the fullest confidence that these and all other principles enunciated therein will be strictly adhered to during our term of office.

In entering upon the discharge of our duties, I desire to express the hope that our relations towards each other may always be of the kindest nature; that dignity and harmony may characterize your deliberations, and that we may ever be actuated by a desire to give to the people an honest, progressive and economical administration.

His Honor the Mayor, at the request of the Board, then designated the members of the several Standing Committees of the Board, which were confirmed and approved by Resolution No. 4504 (Third Series) to wit:

RESOLUTION No. 4504 (THIRD SERIES).

RESOLVED, That the appointments made by his Honor the Mayor of the members of the respective Standing Committees of the Board be and the same are hereby approved and adopted as the action of this Board, the first named member of each committee to be the Chairman thereof.]

The committees and the members thereof being as follows:

THE BOARD OF SUPERVISORS.

PERSONAL PROPERTY ASSESSMENT

IN THIS CITY AND COUNTY.

Under an Act of the Legislature of 1873-74, the Assessment Book of Personal Property was required to be completed on or before the first Monday of June in each year. The Act was passed for the purpose of collecting the city and county portion of the tax on personal property prior to the first Monday in August, to enable the city and county to defray the expenses of the government as they accrued.

These provisions have been materially altered by amendments to the Political Code passed at the last session of the Legislature (1891) and the statute authorizing the collection of personal property taxes in this city and county, between the second Monday in July and the first Monday in August of each year, set aside by the provisions of Section 3,746 of the Political Code.

The taxes on personal property unsecured by real property are made (by Section 3,756 of the Political Code) due and payable immediately after the assessment of personal property is made while the taxes on all personal property secured by real property are made payable between the first Monday in October and the last Monday in November in each year.

The levy of the county taxes must be made under Section 3,714 of the Political Code, on the fourth Monday in June of each year as heretofore provided in the Act regulating the collection of personal property taxes in this city and county.

Under Section 3,652 the Assessor must complete his assessment book on the first Monday in July in each year, and as soon as completed deliver the same to the Clerk of the Board of Supervisors, under Section 3,654 of the Political Code, the Board of Supervisors being required to meet on the first Monday in July in each year to examine the Assessment Book and equalize the assessment of property, continuing in session for that purpose until the business of equalization is disposed of but not later than the third Monday in July.

The tax on assessments of personal property unsecured by realty, are due and payable immediately after the assessment is made, and the assessment must be made between the first Mondays of March and July of each year to the person by whom the property was owned or claimed or in whose possession it was at twelve o'clock of the first Monday in March next preceding the first Monday of July in each year.

Notwithstanding the provisions of Section 3,820 of the Political Code that the Tax Collector shall at any time after the assessment collect the taxes on all personal property when in his opinion said taxes are not a lien upon real property sufficient to secure the payment of the taxes, sounds well but will be rather difficult, for the only Assessment Book to be received by the Tax Collector is the Duplicate Assessment Book from the Auditor on or before the first Monday in October, and therefore he cannot make any collections until the receipt of said Duplicate Assessment Book.

In effect, therefore, taxes on personal property unsecured and taxes on personal property secured by realty will be due and payable on the first Monday in October and will be delinquent on the last Monday in November next thereafter, at six o'clock, P. M.

In the matter of the collection of taxes on Real Estate, one-half of the taxes on real property will be due and payable on the first Monday in October, and delinquent on the last Monday in November next thereafter, at six o'clock P. M.; the remaining one-half of the taxes on all real property will be payable on and after the first Monday in January, and will be delinquent on the last Monday in February next thereafter, at six o'clock P. M.

PERSONAL PROPERTY ASSESSMENT.

The revenue provisions as amended at the last session and at present existing in relation to the collection of taxes prior to delinquency may be summarized as follows :

1st. Taxes on all personal property unsecured by real property are due and payable immediately after the assessment of said property is made.

2d. Taxes on all personal property secured by real property and one-half the taxes on all real property are due and payable on the first Monday in October and are delinquent if not paid prior to the last Monday in November next thereafter, at six o'clock, P. M.

3rd. The remaining one-half of the taxes unpaid on all real property are due and payable on the first Monday in January, and are delinquent if not paid prior to the last Monday in February next thereafter, at six o'clock P. M. The privilege is given the taxpayer to pay the entire tax on any real property at the time the first installment is due.

The deductions to be made from this change in the Revenue Laws are that the Act of 1873-74, providing for the assessment and collection of taxes upon personal property in this city and county, is repealed by implication, the mode and manner in which personal property taxes are to be levied and collected being prescribed by the provisions of the Code (a general law relative thereto); also that hereafter there will be but one Assessment Book, which will contain the assessments of all real and personal property in this city and county, and will, under appropriate headings as may be prescribed by the State Board of Equalization under the provisions of Section 3651 of the Political Code, describe the property, etc.

The other important features showing errors by prescribing different percentages for delinquency in the payment of taxes, must operate to secure the lesser percentage designated as the charge for delinquency of the taxpayer which the Tax Collector can enforce and collect, on the principle that where two different percentages are designated as a penalty to be charged for delinquency, the lesser can only be enforced.

While a different per centage is imposed for delinquency in the payment of taxes in cities and counties of over 250,000 inhabitants from other cities and counties of less population (as shown by Sections 3663, 3746 and 3756 of the Political Code) also from railroads, the presumption is that the law must be complied with and enforced until the Courts construe and pass upon the questions which undoubtedly will be raised.

The following extracts from Sections 3746 and 3756 of the Political Code, which go into effect on July 6, 1891, show the important changes made so far as this city and county is affected in the collection of taxes, to wit:

3746. * * * * * in counties, or cities and counties, containing a population of over two hundred and fifty thousand inhabitants, within ten days after the receipt of the "Duplicate Assessment Book," the Tax Collector must publish a notice specifying: That the taxes on all personal property secured by real property, and one-half of the taxes on all real property, are due and payable on the first Monday in October, and will be delinquent on the last Monday in November next thereafter, at six o'clock P. M., and that unless paid prior thereto *fifteen* per cent will be added to the amount thereof, and that if said one-half be not paid before the last Monday in February next, at six o'clock P. M., an additional *five* per cent will be added thereto. That the remaining one-half of the taxes on all real property will be payable on and after the first Monday in January next, and will be delinquent on the last Monday in February next thereafter, at six o'clock P. M., and that unless paid prior thereto, *five* per cent will be added to the amount thereof.

2. That all taxes may be paid at the time the first installment as herein provided is due and payable.

3756. * * * * * In counties, or cities and counties, containing a population of over two hundred and fifty thousand inhabitants, on the last Monday in November of each year, at six o'clock P. M., all the unpaid portion of the personal property taxes and the unpaid portion of one-half the taxes on all real property are delinquent, and thereafter the Tax Collector must collect, for the use of the county, or city and county, an addition of *five* per cent thereon; provided, that if they be not paid before the last Monday in February next succeeding, at six o'clock P. M., he shall collect an addition of *five* per cent thereon. On the last Monday of February of each year, at six o'clock P. M., all the unpaid portion of the remaining one-half of the taxes on all real property are delinquent, and thereafter the Tax Collector must collect, for the use of the county, or city and county, an addition of *five* per cent thereon; and provided further, that the entire tax on any

real property may be paid at the time the first installment as above provided is due and payable; and provided further, that the taxes on all personal property unsecured by real property shall be due and payable immediately after the assessment of said personal property is made.

The effect of these amendments is to undo the system dictated by experience of making collection of the personal property taxes due the city and county between the second Monday in July and the first Monday in August of each year to defray the current expenses of the government, the fiscal year commencing July 1st of each year.

Under the present amendments no revenue can be collected until between the first Monday in October and the last Monday in November of each year, so that no payments can be made of the city's obligations during about the first four months of each fiscal year, and for that period the city government will be required to be conducted on credit, and all parties doing business for or with the city will require to resort to the money broker, or wait until sufficient collections are made and apportioned to the several accounts before their demands on the treasury can be paid.

The Assessment Roll of Personal Property for the Fiscal Year 1891, embracing seventeen volumes, was received on June 1, 1891, from the Assessor John D. Siebe, accompanied by the following communication stating that the aggregate assessment amounted to the sum of \$67,482,478, to wit:

COMMUNICATION FROM ASSESSOR

OFFICE OF THE CITY AND COUNTY ASSESSOR, }
SAN FRANCISCO, June 1, 1891. }

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN—I beg to inform your Honorable Body that I have this day delivered to John A. Russell, Clerk of your Board, seventeen (17) volumes, containing the assessment on the Personal Property of this City and County for the year 1891, amounting to \$67,482,478.

The roll as compared with last year shows an increase of \$1,245,953.

JOHN D. SIEBE, Assessor.

The Board of Supervisors met on Monday, June 8, 1891, and examined the Assessment Book, and continued in session from time to time until Monday, June 22, 1891, and heard all applicants who had filed sworn applications for correction of assessments, who appeared for examination.

The action of the Board on the applications, and the clerical errors presented by the Assessor, resulted in reducing the Assessment Book \$386,698.

STATISTICS—ASSESSMENT BOOK OF PERSONAL PROPERTY OF 1891.

WATER RATES.

The Board of Supervisors, pursuant to the requirements of the statute and in compliance therewith, obtained annual statements from persons or corporations engaged in the business of supplying water during the year 1890, and fixed the rates to be collected for that service during the year commencing July 1, 1891, and ending June 30, 1892.

The following Article of the Constitution of the State, adopted in 1879, and which went into effect on January 1, 1880, made it the duty of the Board of Supervisors, in the month of February of each year, to fix the rates or compensation to be collected by any person, company or corporation engaged in the business of and supplying water for the use of the City and County or the inhabitants :

ARTICLE XIV.

WATER AND WATER RIGHTS.

SECTION 1. The use of all water now appropriated, or that may hereafter be appropriated, for sale, rental or distribution, is hereby declared to be a public use, and subject to the regulation and control of the State, in the manner to be prescribed by law ; provided, that the rates or compensation to be collected by any person, company or corporation in this State for the use of water supplied to any city and county, or city or town, or the inhabitants thereof, shall be fixed annually by the Board of Supervisors, or city and county, or City or Town Council, or other governing body of such city and county, or city or town, by ordinance or otherwise, in the manner that other ordinances or legislative acts or resolutions are passed by such body, and shall continue in force for one year and no longer. Such ordinances or resolutions shall be passed in the month of February of each year, and take effect on the first day of July thereafter. Any Board or body failing to pass the necessary ordinances or resolutions fixing water rates, where necessary, within such time, shall be subject to peremptory process to compel action at the suit of any party interested, and shall be liable to such further processes and penalties as the Legislature may prescribe. Any person, company or corporation collecting water rates in any city and county, or city or town in this State, otherwise than as so established, shall forfeit the franchises and water works of such person, company or corporation to the city and county, or city or town where the same are collected, for the public use.

SEC. 2. The right to collect rates or compensation for the use of water supplied to any county, city and county, or town, or the inhabitants thereof, is a franchise, and cannot be exercised except by authority of and in the manner prescribed by law.

The following Section of Article XI of the Constitution as amended in 1884 also granted the right to persons and corporations to use the public streets for supplying water or illuminating light to the inhabitants on condition that the municipal government should have the right to regulate the charges:

ARTICLE XI.

RIGHT OF WATER AND GAS COMPANIES TO USE PUBLIC STREETS.

"SECTION 19. In any city where there are no public works owned and controlled by the municipality, for supplying the same with water or artificial light, any individual, or any company duly incorporated for such purpose under and by authority of the laws of this State, shall, under the direction of the Superintendent of Streets, or other officer in control thereof, and under such general regulations as the municipality may prescribe for damages and indemnity for damages, have the privilege of using the public streets and thoroughfares thereof, and of laying down pipes and conduits therein, and connections therewith, so far as may be necessary for introducing into and supplying such city and its inhabitants either with gas light or other illuminating light, or with fresh water for domestic and all other purposes, upon the condition that the municipal government shall ve the right to regulate the charges th ereof."

The Legislature of the State, at the session of 1881, passed the following Act, providing for carrying out the objects of Article 14th of the Constitution by imposing upon the Board of Supervisors the duty of requiring all persons or corporations engaged in supplying water to file statements in the month of January of each year, showing the names, residence and the amount paid by each ratepayer during the year, the revenue derived from all sources and an itemized statement of expenditures made for supplying water during the same time :

AN ACT TO ENABLE THE BOARD OF SUPERVISORS, TOWN COUNCIL, BOARD OF ALDERMEN, OR OTHER LEGISLATIVE BODY OF ANY CITY AND COUNTY, CITY OR TOWN, TO OBTAIN DATA AND INFORMATION, FROM ANY CORPORATION, COMPANY OR PERSON SUPPLYING WATER TO SUCH CITY AND COUNTY, CITY OR TOWN, REQUIRING SUCH BOARDS, TOWN COUNCIL OR OTHER LEGISLATIVE BODY TO PERFORM THE DUTIES PRESCRIBED BY SECTION 1 OF ARTICLE 14 OF THE CONSTITUTION, AND PRESCRIBING PENALTIES FOR THE NON-PERFORMANCE OF SUCH DUTIES.

Approved March 7, 1881.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

(Municipal corporations to fix water rates.)

SECTION 1. The Board of Supervisors, Town Council, Board of Aldermen, or other legislative body of any city and county, city or town, are hereby authorized and empowered and it is made their official duty, to annually fix the rates that shall be charged and collected by any person, company, association, or corporation for water furnished to any such city and county, or city or town, or the inhabitants thereof. Such rates shall be fixed at a regular or special session of such Board or other legislative body, held during the month of February of each year, and shall take effect on the first day of July thereafter, and shall continue in full force and effect for the term of one year, and no longer.

(Annual statements to be made by water companies. etc.)

SEC. 2. The Board of Supervisors, Town Council, Board of Aldermen or other legislative body, of any city and county, city or town, are hereby authorized and it is hereby made their duty, at least thirty days prior to the fifteenth day of January of each year, to require by ordinance or otherwise any corporation, company or person supplying water to such city and county, city or town, or to the inhabitants thereof, to furnish to such Board or other governing body, in the month of January in each year, a detailed statement, verified by the oath of the President and Secretary of such corporation, or company, or of such person as the case may be, showing the name of each water-rate payer, his or her place of residence, and the amount paid for water by each of such water-rate payers during the year, preceding the date of such statement, and also showing all revenue derived from all sources, and an itemized statement of expenditures made for supplying water during said time.

WATER RATES.

(Additional statements to be made by water companies, etc.)

SEC. 3. Accompanying the first statement made as prescribed in Section 2 of this Act, every such corporation, company or person shall furnish a detailed statement, verified in like manner as the statement mentioned in Section 2 hereof, showing the amount of money actually expended annually since commencing business in the purchase, construction and maintenance, respectively, of the property necessary to the carrying on of its business, and also the gross cash receipts annually, for the same period, from all sources.

(Refusal by water companies to make statement a misdemeanor.)

SEC. 4. Every corporation, company or person who shall refuse or neglect to furnish the statements mentioned in sections two and three of this Act, or either of them, or who shall furnish any false statement in relation thereto, within thirty days after having been required or requested to furnish the same, as prescribed in sections one, two and three of this Act, shall be deemed guilty of a misdemeanor.

(Copies of statements to be made and filed with County Recorder.)

SEC. 5. Upon receiving the statements provided for in sections two and three of this Act, the Board of Supervisors, Town Council, Board of Aldermen, or other legislative body, shall cause a copy thereof to be made and filed in the office of the County Recorder of such city and county, or of the county wherein such city or town is situated.

(Water rates to be equal and uniform—Proviso.)

SEC. 6. Rates for the furnishing of water shall be equal and uniform. There shall be no discriminations made between persons, or between persons and corporations, or as to the use of water for private, and domestic, and public or municipal purposes; provided that nothing herein shall be so construed as to allow any person, company, association or corporation to charge any person, corporation or association anything for water furnished them when, by any present law, such water is free.

(Excess in charging rates forfeits franchise, etc.)

SEC. 7. Any person, company, association or corporation, charging or attempting to collect from the persons, corporations or municipalities using water, any sum in excess of the rate fixed as hereinbefore designated, shall, upon the complaint of the said Board of Supervisors, Town Council, Board of Aldermen, or other legislative body thereof, or of any water rate payer, and upon conviction before any court of competent jurisdiction, shall forfeit the franchises and water works of such person, company, association or corporation to the city and county, city or town, wherein the said water is furnished and used.

(Penalty to Supervisors for neglecting to enforce provisions of Act.)

SEC. 8. Any Board of Supervisors or other legislative body of any city and county, city or town, which shall fail or refuse to perform any of the duties prescribed by this Act, at the time and in the manner hereinbefore specified, shall be deemed guilty of malfeasance in office; and upon conviction thereof, at the suit of any interested party, in any court of competent jurisdiction, shall be removed from office.

(Act in effect.)

SEC. 9. This Act shall take effect and be in force from and after its passage.

On Dec. 29, 1890, the following resolution was adopted by the Board of Supervisors calling for water statements to be filed as required by law; to wit:

RESOLUTION No. 4459—(THIRD SERIES).

Providing for statements being filed by companies, corporations or persons engaged in the business of supplying pure, fresh water for use of the inhabitants of this city and county.

RESOLVED, That the Spring Valley Water Works, a corporation, and every other corporation, company or person, if any there be, supplying water to the City and County of San Francisco, or to the inhabitants thereof, be and hereby are required to furnish to the Board of Supervisors of the said city and county, in the month of January, in the year of our Lord one thousand eight hundred and ninety-one, a detailed statement, verified by the oath of the President and Secretary of such

corporation or company, or of such person, as the case may be, showing the name of each water-rate payer, his or her place of residence, and the amount paid for water by each of such water-rate payers during the year preceding the date of such statement, and also showing all revenue derived by such corporation, company or person from all sources, and an itemized statement of expenditures made for supplying water during said time; and that such statement be accompanied by a further and detailed statement, verified by the President and Secretary of such corporation or company, or of such person, as the case may be, showing the amount of money actually expended annually since commencing business in the purchase, construction and maintenance, respectively, of the property necessary to the carrying on of the business of such corporation, company or person, and also the gross cash receipts annually for the same period from all sources, in accordance with the provisions of an Act of the Legislature, approved March 7, 1881 (Statutes 1881, page 54).

RESOLVED, That the attention of every corporation, company or person engaged in supplying water is hereby called to the provisions of Section 4 of the Act of the Legislature heretofore referred to, as the same will be strictly enforced, to wit: "Section 4. Every corporation, company or person who shall refuse or neglect to furnish the statements mentioned in Sections 2 and 3 of this Act, or either of them, or who shall furnish any false statement in relation thereto, within thirty days after having been required or requested to furnish the same, as prescribed in Sections 1, 2 and 3 of this Act, shall be deemed guilty of a misdemeanor."

RESOLVED, That the Clerk of this Board is hereby directed to forthwith serve a certified copy of this resolution upon the President and Secretary, respectively, of the said corporation, the Spring Valley Water Works, and every other corporation or company, and upon every person so supplying water to the City and County of San Francisco, or to the inhabitants thereof.

On December 30, 1890, certified copies of the foregoing resolution, with blank forms of statements required under the statute, were served upon the following persons and corporations, to-wit: The Spring Valley Water Works, the Visitacion Water Company, John Center, Geo. T. Pracy and Behrend Joost, (parties engaged in supplying water).

The following are extracts from statements filed in response to such notice:

John Center, Water Works situated at the Northwest corner of Sixteenth and Folsom streets. Expenses: coal, labor and repairs, \$1,307 80; receipts from water rates, \$2,172.

Geo. T. Pracy, Water Works situated on Twenty-fourth street near Noe street. Expenses: coal, labor and repairs, \$108 58; receipts from water rates, \$78 50; receipts from sale of old pump and boiler, \$75.

Spring Valley Water Works, San Francisco and San Mateo Counties. Receipts from water rates for water furnished in the year 1889, \$584,852 48. Receipts from water rates for water furnished in the year 1890, \$1,494,961 84. Receipts from other sources, \$16,628 24. Total receipts for the year 1890, \$1,511,590 08. Expenditures: operating expenses, \$432,912 90. Interest, \$527,235 67. Taxes, \$83,446 37. Dividends, \$700,000. Gross amount expended on permanent improvements, \$637,454 18.

Visitacion Water Company, Bay View, South San Francisco. Receipts from Water rates, \$17,025 13. Receipts from other sources, \$1,024 45. Total receipts for the year 1890, \$18,049 58. Expenditures: cost of works, tanks, meters, coal, labor and repairs, \$11,587 25. Taxes, \$243 20. Total expenditures for the year 1890, \$11,830 45. Gross amount expended for purchase, construction and maintenance, from the year 1883, \$172,371 03.

Behrend Joost, Mountain Spring Water Works, Blocks 3, 4 and 9 in Market street Homestead. Receipts from Water rates, \$679 25. Receipts from other sources, \$325. Total receipts, \$1,004 25. Expenditures for labor and repairs, \$1,560. Cost and construction of works, \$25,672.

The report of Behrend Joost, Mountain Spring Water Works, for the year 1889, showed receipts from water rates, \$659. Receipts from other sources, \$70. Total receipts, \$729. Expenditures for labor and repairs, \$325. Cost and construction of works from the year 1889, \$16,482.

STATEMENT—SPRING VALLEY WATER WORKS.

Showing all the revenue derived by the Spring Valley Water Works from all sources, for the year preceding January 1st, 1891, and an itemized statement of all expenditures made for supplying water during said time.

RECEIPTS.

| From water rents (for water furnished in year 1890)..... | <u>1,494,961 84</u> | \$2,079,813 52 |
| From other sources..... | <u>16,628 24</u> | |
| Total receipts..... | | \$2,096,441 76 |

DISBURSEMENTS.

| | | |
|-----------------------------|-------------------|--------------|
| For interest..... | \$527,235 67 | |
| For taxes..... | 86,446 37 | |
| For operating expenses..... | <u>432,912 90</u> | 1,046,594 94 |

NOTE.—The operating expenses for the year 1890 have been largely increased by the following unusual and unavoidable expenditures, mainly caused by floods:

| | |
|---------------------------------------|------------|
| Repairs on Bald Hill pipe line..... | \$5,397 65 |
| Repairs on Lobos flume..... | 10,095 35 |
| Repairs on main pipe..... | 10,385 33 |
| Repairs on Pilarcitos reservoir..... | 4,313 17 |
| Repairs on San Andreas reservoir..... | 2,660 57 |

In addition to the foregoing there was also a new item of expense, viz: Expense Account of the Alameda pipe line..... 5,149 19

| | |
|---|-------------------|
| | \$1,049,816 82 |
| Dividends paid..... | <u>703,000 00</u> |
| Showing a gain for the year of..... | 349,846 82 |
| Which deducted from the loss of..... | 465,117 66 |
| (As shown in our statement for 1889), | |
| Makes the loss for two years..... | <u>115,270 84</u> |
| Which would have been increased to \$265,270 84 had the Company paid its usual 6 per cent dividends for the two years ending January 1st, 1891. | |
| Paid on account of permanent improvements during the year..... | 637,454 18 |

The Committee on Water and Water Supplies, consisting of James W. Burling (chairman), Washington Ayer, Geo. A. Carnes, D. D. Hunt and Jno. B. Curtis, on the filing of the foregoing report, commenced an investigation

into the same with the view of determining upon the rates to be allowed for water supplied to consumers during the year ending July 31, 1892, and in the progress of said investigation took the testimony of all persons who appeared, relative to the subject. The following persons appeared and were heard : Messrs. C. L. Bigelow, George E. Booker and Hermann Schussler, on Wednesday, February 11th. Hermann Schussler, P. B. Quinlan, Geo. E. Booker and W. F. Herrin, on Tuesday, February 17th. Margaret A. Cordy and Hermann Schussler on February 18th, 1891. During these sessions various complaints made were heard and adjusted. On February 24th, 1891, the Committee on Water and Water Supplies presented a report of which the following is a copy :

REPORT OF COMMITTEE ON WATER AND WATER SUPPLIES.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: Your Committee on Water and Water Supplies in the matter of fixing rates to be paid by consumers of water to persons, companies and corporations furnishing the same, would respectfully report :

That the Constitution of the State and statutory enactments require the Board in the month of February of each year to fix the rates of compensation to be collected by any person or corporation engaged in supplying water to the inhabitants for all uses for each year commencing July 1st to June 30th of the succeeding year.

That being the duty imposed, your committee has held open meetings at which all testimony offered has been taken to determine what action should be had in recommending to your honorable Board a schedule of water rates to be adopted for the coming year, the object in the performance of this duty being necessarily to ascertain if the existing rates were in excess of what just and reasonable rates should be, and, if so, to recommend such adjustments or reductions as might be in consonance with a conscientious discharge of this trust alike fair to the rate-payers and the corporation that furnishes water to the greatest number of consumers.

The annual statement of the company, which has been corroborated by the testimony of its officers under oath, shows the following receipts and expenditures for the past year :

| | | |
|--|----------------|----------------|
| Receipts from water rents for year 1890..... | \$1,494,961 84 | |

The company paid during the last year \$700,000 in dividends to its stockholders, and in the year previous \$350,000, making a total of \$1,050,000 in dividends for the years 1889 and 1890, which on the par value of the stock of \$10,000,000 would be 5½ per cent annual dividends for the last two years.

The company makes the following estimates of its receipts and expenditures for the year 1891,

WATER RATES.

the receipts to be estimated upon the assumption that the present water rates shall be continued in force :

| | | |
|--|----------------|-----------------------|
| Receipts from water rents..... | \$1,530,000 00 | |
| Receipts from other sources..... | 17,000 00 | |
| Total receipts..... | | \$1,597,000 00 |
| EXPENDITURES. | | |
| Interest on bonds and floating indebtedness..... | \$550,000 00 | |
| Taxes..... | 86,500 00 | |
| Operating expenses..... | 410,000 00 | |
| Total expenditures..... | | \$1,046,500 00 |
| Leaving net income..... | | \$551,500 00 |

The increased expenditures for interest is explained by the fact that the company will have more bonds issued and drawing interest during 1891 than in 1890; also, that it must increase its interest-bearing indebtedness, in procuring the necessary funds for new construction.

It is estimated that the company will expend in 1891, in new construction, about \$329,000.

During 1890 the company expended in new construction \$637,454 18, according to the evidence produced before us.

The particulars of these items of receipts and expenditures, actual and estimated, have been examined in detail by us, and will fully appear in the testimony taken before your committee, which accompanies this report. We are forced to make the conclusion, from this testimony, that the estimated receipts and expenditures for 1891 are substantially correct. It thus appears that the principal question is whether the probable net income of \$551,500 for 1891 is not larger than should be allowed to the company. This income is to be devoted by the company to paying dividends to its stockholders, and will produce about 5½ per cent per annum on the par value of the stock. The company insists that it should be allowed at least 6 per cent on this par value, and we are of opinion that this rate is not excessive, provided the actual value of the stock is equal to the par value. The actual value of the stock, therefore, is an important element in determining what the income of the company should be. The stock represents the value of the company's property in excess of its bonded and other indebtedness. Bonds to the amount of \$9,475,000 are now issued, and there is about \$910,000 floating indebtedness, making a total indebtedness of \$10,385,000. From the testimony before your committee it appears that this money has been used in new construction--in extending and enlarging the works during the last fifteen years. We may assume, therefore, that the property produced by these expenditures, provided they were made upon correct business principles, should equal in value the amount of such expenditures. If we deduct this amount from the total value of the company's property, the remainder would represent the value of the stock. It is a very difficult matter to arrive at any satisfactory valuation of the company's property. The methods of arriving at such value are as diverse as the estimates of such value which are offered. There ought not to be much difference of opinion, however, as to the capacity and character of the water works owned by the company. It appears from the testimony, in addition to the various reports and documents contained in the municipal reports, that these works will now afford a daily average supply of about 30,000,000 gallons. This gives a safe margin beyond any immediate possible demands, and shows that the city has an ample water supply for fire, domestic and sanitary purposes. Besides, it appears that these works are so situated that their capacity may be enlarged at a comparatively small expenditure to keep pace with the growing demands of the city. It appears from the testimony of competent engineers that a daily supply exceeding 100,000,000 gallons may be obtained by enlarging these works. Undoubtedly the company has appropriated or controls substantially all the available water supplies and reservoir sites upon the peninsula. It has also the control of what is known as the Calaveras supply, the property of which is situated in Alameda and Santa Clara counties. Alameda creek is a part of this system, and is now furnishing the city with about one-third of its water supply. This Calaveras property was valued last year, by an expert engineer employed by the city, at \$5,000,000. The company paid, according to the information furnished

this committee, \$1,000,000 for this property. This estimate evidently allows for an increase in the value of this property since it was purchased by the company. Undoubtedly if we apply the same rules for estimating values that are usually applied to land and property held in private ownership, we must allow for an increase in value of the lands and water rights purchased by the company years ago. On the other hand, it is apparent that such of the property of this company as consists of pipe lines, flumes and aqueducts will deteriorate and depreciate in value by age. It is claimed, however, that the money has been expended, will improve dams on which much and become more permanent by age.

Taking this property as a whole and considering all the facts which are accessible to us, we are inclined to the opinion that \$20,000,000 is not an excessive value to be placed upon this property, and we are disposed to accept that valuation as a basis for the fixing of rates. This would give the stock of the company a value of something less than \$10,000,000. We are aware that objections may be made to this valuation by some who will insist that the lowest possible valuation should be placed by us upon this property; that the company is not entitled to equitable consideration because of its course in the past in buying up all available property, to shut out competitors and to prevent the city itself from acquiring its own supply cheaply; in other words to maintain a monopoly of furnishing water to the city and its inhabitants. This course upon the part of this corporation is but an incident to the policy of allowing the business of furnishing a water supply to a city to be conducted by private capital for profit. It must be expected that capital will make the most of its opportunities, and these considerations make it obvious that the city should have long since acquired its own water supply and conducted it entirely in the interest of the people. But the city cannot allow private capital to engage in such business and deny it the right to a fair income upon the value of the property in use. Until the city enters upon the business of furnishing its people with a water supply it must, as we understand the law, allow the private capital engaged in such business a fair return.

There can be no question that the people should have the cheapest and best water supply attainable. To lower the price of this necessity is to earn the favor of those who are taxed for it, and this would be so of any other commodity in use by all the people. But some point must be fixed between the conflicting interests of the water consumers on the one side and the water company on the other. We are to arbitrate and judge fairly between these interests and not to act from prejudice or merely to earn popularity or favor. If we accept the valuation above stated it must follow that no reduction in the present rates should be made, and this conclusion is the more readily accepted in view of the fact that there is no popular or general demand for a reduction of these rates. It appears that nearly all the consumers acquiesce without objection in paying the present regular fixed rates, and the complaints to this committee have been wholly confined to cases where these rates have been increased by charges for waste, although an opportunity has been afforded to all ratepayers to appear before the committee and offer any complaints or suggestions they might feel disposed to make.

Your committee has fully investigated these complaints concerning waste, to see what change, if any, should be made in the provisions of the present order upon this subject. In this investigation it was very clearly shown that water is and has been abundantly used, in fact has been excessively used, a large quantity being wasted wantonly or carelessly, and which, if not checked, would have severely taxed the resources of this company and led to very large expenditures in utilizing other sources of supply, to keep pace with the demand and provide a surplus for contingencies.

To illustrate this phase of the question, the average daily supply for the last four years was shown to be as follows:

| | Gallons. |
|------------|------------|
| 1887 | 19,117,000 |
| 1888 | 18,888,000 |
| 1889 | 18,819,000 |
| 1890 | 20,436,000 |

The waste and excessive use of water was so excessive in 1887 that the company, after various experiments by a house-to-house inspection, without effecting any perceptible reduction, actively increased the use of meters; and while their use was a source of great irritation and annoyance, yet the result was that in 1888 and 1889 the waste was sensibly checked and the consumption kept within a reasonable margin, and it has so continued. It is evident from this testimony that but for the use of meters the consumption of water, through waste and excessive use, would by this time have reached nearly 30,000,000 gallons per day (the present maximum capacity of the works), and this

would have necessitated large expenditures to furnish a supply to keep pace with this extravagant use, and necessarily an increase of rates, which have been thus avoided.

The present average daily consumption is about 22,000,000 gallons, and this, it appears, if paid for by meter measurement, at very low rates, would net the company about all the revenue desired. That amount of water at 19½ cents per thousand gallons would, if all paid for, net the company \$1,585,925 for the year, a little more than the estimated receipts under the rates now in force.

This makes it evident that with the present meter rates at 30 cents per 100 cubic feet, with the natural increase in patrons, taken into consideration, yielding a total estimated revenue of \$1,580,000, that a large amount of water is wasted and excessively used, and corroborates the statements made by the officers of the company that the use of meters is not a source of revenue, but a necessary means for preventing undue waste.

The policy of the company during the last year seems to have been to harmonize its differences with rate payers and to avoid the friction which has heretofore existed, mainly through the efforts to stop waste and excessive use. This friction and the litigation in reference to the rates of a prior year have been annoying and have demonstrated the necessity of wise concessions to mitigate the charges made for waste, when through unforeseen causes the same has occurred.

Your committee is satisfied from the investigation that this prudent and conciliatory course has done much to remove the ill feeling engendered by a stubborn inclination to compel payment of sums for waste or excessive use, no matter what the cause might have been.

The custom adopted by the company of remitting charges for waste when, after notification, the rate payer remedies the matter by stopping the waste, is commendable, and is evidenced by the fact that the total charge during the year for waste, continued after notice was \$7463 07, of which \$5483 10 was accepted in full settlement.

Your committee has ascertained that 90 per cent of the consumers, with or without a meter, have more than sufficient water for all purposes, and that the remaining ten per cent waste water more or less, but always in excess of the 20 per cent allowed for, over and above the amount fixed by the order. While this indicates that the fixed rates allow in general an abundant supply of water to the consumer before he can be charged with waste, we have concluded that 40 per cent excess should be allowed before waste is charged for, so that the consumer shall have a wider margin upon the amount heretofore allowed and no reasonable cause for complaint.

Your committee, therefore, in recommending the accompanying order fixing water rates at the same figures as those of last year have, to carry out the views expressed, altered the said rates by increasing the 20 per cent to 40 per cent, as the amount of water that can be used over and above the amount allowed by the fixed rates before incurring a penalty, and when in excess, that waste or excessive use can be charged for; we have also provided that no charge or collection can be made to exceed \$3 for the first month or \$5 for any following month. We have therefore stricken out the \$10 charge allowed by the present order in cases of waste for the third and succeeding months, which charge we think unnecessary to prevent waste, besides it bears heavily upon the smaller ratepayers. This course your committee believes will be satisfactory to all fair-minded ratepayers, the purpose being to afford every consumer an abundant supply and at the same time allow the company every just means for checking the wasteful use of water.

The question of what rates should be established upon the showing made before us seems susceptible of but one conclusion, and that was to allow such just compensation as will not retard the necessary operations of the company or embarrass its credit in obtaining the funds necessary to enlarging its works, and at the same time secure to ratepayers even a more liberal supply than heretofore, at rates that under all circumstances are not unreasonable or unjust to such ratepayers.

Your committee, in conclusion, submits the order fixing water rates for the year commencing July 1, 1891, as stated, having exercised its best judgment in determining the rates so proposed, and considering the same under all the circumstances to be fair and reasonable, and believing that the prosperity of the company and a fair allowance upon its investment is the best security to insure a bountiful supply of water or the use of this city and county and its inhabitants.

JAMES W. BURLING,

WASHINGTON AYER,
D. D. HUNT,
GEO. A. CARNES

The Order fixing Water Rates, as submitted by the Committee on Water and Water Supplies, was at the same meeting passed to print, Supervisors Ellert and Heyer voting against the passage of the Order; Supervisor Evans being absent. The Order was finally passed on March 3, 1891, and numbered 2,351, Supervisors Ellert and Heyer voting against the final passage of said Order, Supervisor Evans being absent. The Order was submitted to and approved by His Honor Geo. H. Sanderson, Mayor, on March 9, 1891, of which the following is a copy :

ORDER No. 2351.

DETERMINING WATER RATES AND FIXING THE COMPENSATION FOR WATER FURNISHED FOR FAMILY USES, FOR PRIVATE PURPOSES, FOR MUNICIPAL USES AND FOR ALL PUBLIC PURPOSES.

The People of the City and County of San Francisco do ordain as follows :

The monthly rate or compensation to be collected by any person, company or corporation engaged in the business of supplying water to the inhabitants of the City and County of San Francisco for family uses, for private purposes, for municipal uses and for all public purposes of said city and county, for the year commencing July 1, 1891, and ending June 30, 1892, are hereby fixed as follows :

GENERAL RATES.

SECTION 1. For buildings occupied by a single family, covering a ground surface of—

| SQUARE FEET. | 1 Story. | 2 Stories. | 3 Stories. | 4 Stories. | 5 Stories. |
|-------------------|----------|------------|------------|------------|------------|
| 500 to 600..... | \$0 65 | \$0 75 | \$0 85 | \$0 90 | \$1 00 |
| 600 to 700..... | 0 75 | 0 85 | 0 90 | 1 00 | 1 10 |
| 700 to 800..... | 0 85 | 0 90 | 1 00 | 1 10 | 1 20 |
| 800 to 900..... | 0 90 | 1 00 | 1 10 | 1 20 | 1 30 |
| 900 to 1000..... | 1 00 | 1 10 | 1 20 | 1 30 | 1 40 |
| 1000 to 1200..... | 1 10 | 1 20 | 1 30 | 1 40 | 1 50 |
| 1200 to 1400..... | 1 20 | 1 30 | 1 40 | 1 50 | 1 60 |
| 1400 to 1600..... | 1 30 | 1 40 | 1 50 | 1 60 | 1 70 |
| 1600 to 1800..... | 1 40 | 1 50 | 1 60 | 1 70 | 1 80 |
| 1800 to 2000..... | 1 50 | 1 60 | 1 70 | 1 80 | 1 90 |

NOTE.—The foregoing rates also apply to public buildings. No single rate less than sixty-five (65) cents.

For all houses one story in height covering a greater area than two thousand (2,000) square feet there shall be added ten and one-half (10½) cents for each additional two hundred (200) square feet or fractional part thereof, and the further sum of ten and one-half (10½) cents for each additional story.

Where a house or building is occupied by more than one family, there shall be charged in addition to the foregoing rates three-quarters (¾) of said rates for each additional family.

NOTE.—The general rate includes water for general household purposes, but does not include any of the following specified items:

SPECIAL RATES.

SECTION 2. Bathing-tubs in private houses:

| | |
|--|--------|
| For each tub..... | \$0 40 |
| In public houses, boarding-houses, lodging-houses, hotels and bathing establishments, where meters are not used, each tub..... | 0 90 |

SECTION 3. For horses, including water for washing one vehicle:

| | |
|------------------------------|--------|
| For one horse..... | \$0 40 |
| Each additional horse..... | 0 20 |
| Each additional vehicle..... | 0 20 |
| For one cow..... | 0 20 |
| For each additional cow..... | 0 10 |

SECTION 4. Boarding and lodging-houses, not including water for baths, water-closets and urinals, or for water without the house, shall be charged for each boarder and lodger within the same, in addition to the rates for private families.\$0 10

SECTION 5. Irrigation for gardens and grounds, one-half ($\frac{1}{2}$) of a cent per square yard, no monthly charges to be less than twenty-five (25) cents.

SECTION 6—

WATER-CLOSETS.

| | |
|--|--------|
| For each valve-closet for use of public building..... | \$0 85 |
| For each valve-closet for use of private dwelling..... | 0 25 |

Privy vaults (connected with sewer):

| | |
|---|--------|
| For use of public building, each seat..... | \$0 50 |
| For use of private dwelling, each seat..... | 0 25 |

All drain closets to be charged at the same rates as privy vaults.

SECTION 7—

URINALS.

| | |
|---|--------|
| For use in public buildings, each..... | \$0 20 |
| For use in private dwellings, each..... | 0 10 |

SECTION 8. Water furnished for building purposes:

| | |
|-----------------------------|--------|
| Each barrel of lime..... | \$0 18 |
| Each thousand of brick..... | 0 12 |

Stores, banks, bakeries, offices, warehouses, saloons, groceries, eating-houses, barber shops, butcher shops, book binderies, blacksmith shops, confectioneries, hotels, lodging-houses, boarding-houses, churches, halls, laundries, photograph galleries, printing offices, steam engines, green-houses, markets, market stalls, horse troughs, soda fountains and other places of business, each to be charged according to the estimated quantity used, from one dollar (\$1) to seven dollars (\$7), or by meter at meter rates.

SECTION 9—

FIRE-PIPES.

Meters shall be applied to all pipes used specially for fire protection, and monthly bills shall be charged for the same at the following rates:

For pipes of 2 inches in diameter, or less size, 30 cents per 100 cubic feet, provided the monthly bill shall not be less than \$2 50.

For pipes of 2½ inches in diameter, 30 cents per 100 cubic feet, provided the monthly bill shall not be less than \$3.

For pipes of 3 inches in diameter, 30 cents per 100 cubic feet, provided the monthly bill shall not be less than \$3 50.

For pipes of $3\frac{1}{2}$ inches in diameter, 30 cents per 100 cubic feet, provided the monthly bill shall not be less than \$4.

For pipes of 4 inches in diameter, 30 cents per 100 cubic feet, provided the monthly bill shall not be less than \$4 50.

METER RATES.

SECTION 10. Water furnished for any and all purposes not embraced in the above shall be supplied by meter at the rate of 30 cents per 100 cubic feet. No monthly meter bill to be less than \$4.

Provided, however, that any consumer may, by making personal application and contract therefor, obtain water at the following meter rates: Twenty-five (25c.) cents per 100 cubic feet, provided the regular monthly bill shall not be less than \$10; 20 cents per 100 cubic feet, provided the regular monthly bill shall not be less than \$50; 16 cents per 100 cubic feet, provided the regular monthly bill shall not be less than \$100.

METER RATES FOR SHIPPING.

Water shall be furnished and delivered by meter measurement to shipping lying alongside the bulkhead or any of the wharves on the water front where water pipes or mains are laid, between the hours of 6 o'clock in the morning and 6 o'clock in the evening, daily, upon application being made therefor, at the following rates:

One dollar and seventy-five cents per 1000 gallons, and for any less quantity at the rate of \$2 50 per 1000 gallons.

Water shall be supplied and delivered to water boats at the bulkhead or any of the wharves on the water front, as above mentioned, between the hours of 6 o'clock in the morning and 6 o'clock in the evening, daily, for the purpose of supplying shipping in the bay of San Francisco, upon application being made therefor, at the rate of \$1 per 1000 gallons, provided the quantity supplied is not less than 5000 gallons.

No water boat furnishing and supplying water to shipping lying at anchor within the limits of the wharves of the City and County of San Francisco shall charge a rate to exceed five (\$5) dollars per 1000 gallons.

SECTION 11. The rates or compensation to be collected for water supplied by and through hydrants to the city and county of San Francisco shall be two dollars and fifty cents (\$2 50) per month for each hydrant, for fire purposes and flushing of sewers.

PREVENTION OF WASTE OR EXCESSIVE USE.

SECTION 12. In no case where the fixed rates above provided, other than meter rates, are applicable, shall any charge for water be made by meter rates, it being the purpose of this order to provide for all dwelling houses a fixed monthly rate, which shall not be increased by the person, company or corporation supplying water.

Provided, however, that for the purpose of discovering and repressing waste or excessive use, all persons, companies or corporations shall have the right in all cases to apply and maintain meters to measure the water used or consumed, and to charge and collect for waste or excessive use under the conditions and to the extent hereafter provided in this section, and not otherwise.

No consumer shall be deemed guilty of waste or excessive use unless the water used or consumed upon his premises in any month shall exceed by 40 per cent the number of cubic feet which at regular meter rates amounts to his rated bill, in which case such excess shall be deemed waste or excessive use.

Immediately after the discovery of any waste or excessive use the consumer shall be notified thereof by the person, company or corporation supplying water by notice mailed to his address or to the agent or person to whom his water bills are presented for collection. After such notice the consumer may be charged and there may be collected from him for any waste or excessive use thereafter occurring upon his premises at regular meter rates, but such charge or collection shall not exceed for the first month the sum of three dollars (\$3) or for the second or any following month the sum of five dollars (\$5).

It shall be the duty of the Gas Inspector and ex-officio Water Inspector of this city and county to inquire into all cases of complaints by water consumers as to charges made against them for waste or excessive use under the foregoing provisions of this section, and to adjust said charges as follows:

Any water consumer against whom a water bill is presented containing a charge for waste or excessive use of water may, within five (5) days after such bill is presented to him (provided that he first pay the fixed rate charged in said bill, exclusive of the charge made for said alleged waste or excessive use), make complaint to said Water Inspector that such charge is incorrect, whereupon said inspector shall promptly inspect the premises of the consumer so complaining and cause a test to be made of the water meter upon said premises, and from such inspection and test and such subsequent inspection and tests as said inspector may see fit and proper to make, shall determine, as near as can be, the amount of water used, consumed or wasted upon said premises during the period covered by said bill. As soon as such determination is made, and within twenty days after the said complaint is made, said inspector shall make his certificate, stating said amount of water so determined to have been used, consumed or wasted, and showing the true and correct amount, if anything, which may be charged against and collected from said consumer under the foregoing provisions of this section for waste or excessive use, and shall immediately transmit such certificate to the person, company or corporation supplying water, and also a copy thereof by mail to the water consumer.

The said certificate shall be conclusive between the water consumer and said person, company or corporation as to the amount, if anything, the said person, company or corporation shall be entitled to collect from the consumer for waste or excessive use of water during the period covered by the bill of which complaint is made.

The said Water Inspector shall keep in his office a proper record or records showing the date of each complaint made to him, the name of consumer complaining, the location of his premises, and stating briefly the inspection made by him of the premises and the tests applied to the meter, the time or times of such inspection and tests, and the results thereof, with the reading of the meter at each test or inspection, and all other material facts connected therewith, such record or records so kept, to be open for public examination in his office.

SECTION 13. All water rates, except meter rates and city and county rates, are due and payable monthly in advance, and when not so paid shall be subject to an addition of 5 per cent.

Meter and city and county rates are due and payable at the end of each month, and upon meter rates a deposit not exceeding three-fourths ($\frac{3}{4}$) of the value of the estimated quantity of water to be consumed may be required.

Meter rates, if not paid within ten days after becoming due, shall be subjected to an addition of 5 per cent.

SECTION 14. This order fixes the maximum, beyond which no person, company or corporation shall be permitted to charge for water supplied.

In Board of Supervisors, San Francisco, March 3, 1891.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Jackson, Burling, Curtis, Ayer, Carnes, Coffee, Hunt, Taber, Wilkinson.

Noes—Supervisors Ellert, Heyer.

Absent—Supervisor Evans.

JNO. A. RUSSELL, Clerk.

App oved, San Francisco, March 9, 1891.

GEO. H. SANDEKSON,

Mayor and ex-officio President Board of Supervisors.

Reorganization of the Fire Department

On February 16, 1891, Supervisor Burling introduced an Order in relation to the Fire Department, which, on his motion, was passed to print and referred to the Committee on Fire Department. On February 24th the committee reported that at a special meeting called on Friday, the 20th instant, to which were invited Messrs. D. J. Staples, Robert Dickson, Edward Brown, Isidore Gutte, Rudolph Harrold and Charles S. Story of the Board of Fire Underwriters, for the purpose of obtaining their views as to the contemplated changes proposed, the gentlemen named failed to respond. The committee, therefore, carefully read and scrutinized the various provisions of the proposed Order and had made various amendments thereto, which Order, as amended, was recommended for passage.

The Order appointed Henry L. Dodge, Louis Sloss, Henry Cowell, D. V. B. Henarie and Thomas J. Parsons, as Fire Commissioners, and provided for establishing full paid companies in order to render the Fire Department more efficient to cope with fires. The Board of Supervisors passed the Order to print on February 24, 1891, and finally passed the same on March 3d, receiving the Mayor's approval on March 9, 1891.

The following is a copy of the Order, to wit :

ORDER No. 2352.

IN RELATION TO THE FIRE DEPARTMENT OF THE CITY AND COUNTY OF SAN FRANCISCO.

The People of the City and County of San Francisco, State of California, do ordain, as follows:

SECTION 1. The Fire Department of the City and County of San Francisco shall be under the supervision and management of five Commissioners, to be known as the Board of Fire Commissioners, who shall be appointed by the Board of Supervisors of said city and county and shall hold office for the term of four years, provided that those first appointed shall so classify themselves by lot at their first meeting that three of them shall go out of office on the first Monday in July, 1892, and the remaining two at the end of said four years. The vacancies occurring by expiration of term of office in July, 1892, shall be filled by the appointment of three Commissioners by the Board of Supervisors of said city and county, to serve thereafter for the term of four years, and all appointments thereafter of Commissioners by said Board of Supervisors shall be for the full term of four years, except that in filling a vacancy caused by death, resignation or other inability or disability to act, such appointment shall only be for the unexpired term in which such vacancy was created. No Fire Commissioner shall be eligible to any elective office under the city and county government during the term for which he was appointed.

REORGANIZATION OF THE

This Board hereby appoints Henry L. Dodge, Louis Sloss, Henry Cowell, D. V. B. Henarie and Thomas J. Parsons, as the first Board of Fire Commissioners of said city and county, to have the control and management of the Fire Department, as provided in this order.

Immediately after the qualification of the Commissioners they shall organize by electing one of their number President, who shall hold such office for one year, and said Board shall also elect a Secretary.

Said Board shall meet at least once in each week, and may meet and adjourn from time to time, as the business of said department may require, and all their meetings shall be public. Said Secretary shall also be the Secretary of the Chief Engineer of the said department, and shall perform such duties as said Board of Commissioners may prescribe.

SECTION 2. Said Board of Commissioners shall supervise and possess full power and authority over the organization, government and discipline of said Fire Department, and shall, subject, however, to the laws and ordinances governing said department, prescribe the duties of the officers, members and employees, and a uniform and badge of office to be worn by them, and shall also have control of all the property and equipments belonging thereto. All officers, members and employees of said department shall be appointed by said Board of Commissioners, and said officers, members and employees shall retain their positions during good behavior. Every person appointed must be a citizen of the United States, of good character for honesty and sobriety, able to read and write the English language, and a resident of said city and county for at least three years next preceding his appointment, and except those in service in said department at the time this ordinance takes effect, every appointee hereafter shall not be less than twenty-one years of age, nor more than forty, and must, before his appointment, pass a medical examination under such rules and regulations as may be prescribed by said Board of Commissioners, and be found, on such examination, to be in sound health. No officer, member or employee of said department shall be appointed or removed for political reasons, or removed at all except for cause.

Said Board of Commissioners must see that the officers, members and employees of said department faithfully discharge their duties, and that the laws, ordinances and regulations relating thereto are observed and carried into effect, and make and enforce all rules and regulations necessary to secure discipline and efficiency in said department; and, to enable it to enforce such rules and regulations, it may impose reasonable fines and forfeitures upon the officers, members and employees for a violation thereof, and for neglect of duty or misconduct, and enforce the collection thereof.

All fines and forfeitures so collected shall be paid to the Treasurer of "The Fireman's Relief Fund," who shall keep the same in a fund to be known as the Fireman's Relief Fund, which said fund shall be under the control of said Board of Commissioners. All drafts upon said fund must be signed by the President and Secretary of said Board.

SECTION 3. No article whatever shall be delivered to said department except upon the requisition of the Chief Engineer, and the Clerk of the Fire Department Yard shall not deliver any stores or supplies pertaining to said department to any officer, member or employee, except upon an order signed by the Chief Engineer and the Secretary of said Board; provided, that pending a conflagration, such material or apparatus as may be required for the purpose of extinguishing such conflagration may be withdrawn from the Fire Department Yard on an order by the Chief Engineer.

SECTION 4. Every claim against said department shall be subject to approval by said Board of Commissioners, and no claim of any character whatever, which should be charged to the "Fire Department Fund," shall be allowed or ordered paid by the Supervisors until the same has been approved by the said Board of Commissioners in open session, on a call of the ayes and noes, which approval shall be entered in the minutes of said Board. A certificate that the claim has been so approved shall be indorsed on the claim and signed by the President and Secretary of said Board of Commissioners before the same shall be allowed or ordered paid by the Supervisors.

SECTION 5. Said Board of Commissioners shall determine and report to the Supervisors as to the necessity of constructing cisterns and erecting hydrants in particular localities; also, as to the necessity for new and additional apparatus and fire-boats, and for materials, supplies, engines, horses, hose, hooks and ladders, and also as to the alteration and repairs, and as to the material required for the efficient working of the Fire Alarm and Police Telegraph, and also as to the number of companies, officers, members and employees of the Fire Department and Police Telegraph; but the action of the Board of Commissioners with respect to the necessity of these matters shall only be advisory to the Supervisors, and no increase in the apparatus, material, houses, companies, officers, members or employees, or other matters, shall be made until the same shall have been authorized by the Supervisors by ordinance. All contracts let and work ordered for said department shall be let and ordered by the Supervisors, and said Board of Commissioners must supervise all work done.

for the Fire Department and Fire Alarm and Police Telegraph, and shall see that all contracts awarded and work done are faithfully performed.

SECTION 6. Said Board of Commissioners, with the consent and approval of the Board of Supervisors, may increase or diminish the number of companies, officers, members and employees of said Fire Department, and of the Fire Alarm and Police Telegraph. On the recommendation of the Board of Commissioners, showing the necessity for the work, supplies or material referred to in Section 5 hereof, the Supervisors shall award contracts therefor.

The Supervisors shall provide and furnish, for the use of the said Board of Commissioners, suitable rooms in one of the public buildings as an office, and for the transaction of the business of said department.

The Secretary and Janitor shall be in attendance at such office during office hours.

The Chief Engineer and his assistant shall make it their headquarters daily during office hours, when not otherwise engaged in official duties.

The Supervisors shall furnish the Chief Engineer, the Assistant Chief Engineer and the District Engineers each with a horse and buggy, and provide for the keeping of the same.

The Board of Commissioners is also authorized to establish and maintain at the Fire Department Yard a workshop for making repairs and improvements upon apparatus for said department, under such rules and regulations as the Board of Supervisors may prescribe.

The Supervisors shall allow and order paid out of the amount allowed to be expended for repairs and other expenses of said department the necessary expenses of said workshop, and in addition to the sums herein referred to, shall appropriate and cause to be paid such sums as may be necessary to pay the salaries of the Superintendent, operators and repairers of the Fire Alarm and Police Telegraph, and for the maintenance, repair and extension of the same, and to defray the cost of instruments and machinery therefor, and for such horses and vehicles as may be necessary for the use of said branch of the department, but no expenditures of any kind for or on account of said Fire Department shall be made or incurred until the same shall have first been presented to the Board of Supervisors for allowance and approval.

SECTION 7. Until otherwise provided by the Supervisors, there shall be attached to the Fire Department seventeen steam fire engines, seven hose and five hook-and-ladder companies.

Chemical or other fire extinguishers may be purchased and employed, if said Board of Supervisors deem it advisable and expedient.

The companies of said department shall be organized as follows: Each steam fire engine company shall consist of one foreman, one engineer, one driver, one fireman, and eight hosemen, one of whom shall act as assistant foreman and one as clerk.

Each hook-and-ladder company shall consist of one foreman, one driver, one tillerman and twelve hook-and-ladder men, one of whom shall act as assistant foreman and one as clerk.

Each hose company shall consist of one foreman, one driver, one steward and six hosemen, one of whom shall act as assistant foreman and one as clerk.

All paid members of said Fire Department, except the veterinary surgeon, shall give their undivided attention to their respective duties; but the foreman, assistant foreman, company clerks, hosemen and hook-and-ladder men shall only perform such duties as may be prescribed from time to time by said Board of Fire Commissioners and ordered to be executed by the Chief Engineer.

The Chief Engineer shall appoint one member of each company to act as assistant foreman and one as clerk.

SECTION 8. The Board of Fire Commissioners shall divide said city and county into districts, and assign one of the District Engineers to each district. Each District Engineer shall reside in the district to which he has been assigned, and he shall be responsible for the condition of the apparatus and the discipline of the men in said district.

SECTION 9. The Chief Engineer shall be the Executive Officer of said Department, and it shall be his duty and that of the Assistant Chief Engineer and District Engineers to see that the laws, orders, rules, regulations and ordinances concerning the same are carried into effect, and to attend to such duties as Fire Wardens as may be prescribed by said Board of Commissioners. and to see that all laws, orders and regulations established in said city and county to secure protection against fire are enforced.

The Chief Engineer may suspend any subordinate officer, member or employee for incompetency or for any violation of the rules and regulations of the Department, and shall forthwith report in writing such suspension, with his reason therefor, to the said Board of Commissioners for its action.

He shall diligently observe the condition of the apparatus and the workings of the Department and report in writing thereon at least once in each month to the said Board of Commissioners, and

REORGANIZATION OF THE

make such recommendations and suggestions respecting it as he may deem proper; and in the absence or inability to act of the Chief Engineer the Assistant Chief Engineer shall perform the duties of the Chief Engineer.

SECTION 10. The Chief Engineer, or, in his absence, the Assistant Chief Engineer, or, in the absence of both, any District Engineer, may, during a conflagration, cause to be cut down or otherwise removed any building or structure for the purpose of checking the progress of such conflagration.

SECTION 11. The storekeeper of the Fire Department Yard must receipt in duplicate for all articles placed in his charge and immediately enter the same in a book kept in his office for that purpose. One of said receipts shall be filed with the Secretary of said Board of Commissioners. Said storekeeper shall take duplicate receipts for all articles delivered by him for use in the Department and file one of the said receipts with the Secretary of said Board of Commissioners. On the first day of each month said storekeeper shall file in the office of said Board a statement of the articles received during the preceding month, a list of the articles delivered for use in the Department during the same time, with the names of the officer and company to whom delivered, a full inventory of the articles remaining in his custody and a list of the articles that will probably be required to enable him to supply the Department during the ensuing month.

SECTION 12. There shall be maintained by the Supervisors a Fire Alarm and Police Telegraph, which shall be in charge of the Board of Fire Commissioners and managed and carried on by the Superintendent, four operators, one foreman of construction and three repairers.

All electric light and electric power and telegraph and telephone wires erected and maintained in said city and county must be subject to the supervision and inspection of said Superintendent, and must be so located, laid, erected and maintained as not to endanger the wires or apparatus of said Fire Alarm and Police Telegraph, under such rules and regulations as the Board of Supervisors may prescribe.

The Supervisors, upon recommendation of said Board, shall appropriate such sum as may be necessary, not exceeding fifteen thousand dollars a year, for the maintenance, repair and extension of said telegraph, and to defray the cost of instruments and machinery therefor, and for such horses and vehicles as may be necessary for the use of said Superintendent.

SECTION 13. In all investigations or trials conducted by said Board of Fire Commissioners, the President thereof shall have power to issue subpoenas for the attendance of witnesses before it. Subpoenas issued by the President shall be served by any policeman. Any member of said Board may administer oaths and affirmations in the conduct of said investigations or trials.

SECTION 14. The Chief Engineer, Assistant Chief Engineer, the District Engineers and Superintendent and Assistant Superintendents of Steam Fire Engines, while on duty, shall be vested with all the powers of arrest and detention, and other constabulary authority vested in police officers.

SECTION 15. The Fire Commissioners shall not, nor shall either of them, or any officer, member or employee of the Fire Department, directly or indirectly receive any gratuity or advantage from any contractor, laborer or person performing labor for, or furnishing materials or supplies to said Department.

A violation of the provision of this section shall be cause for removal of the officer, member or employee guilty of such violation.

SECTION 16. No member of said Board of Fire Commissioners shall, during his term of office, be a member of any convention held for political purposes, nor shall any of the officers members or employees of said Department take any part whatever in any convention held for political purposes, or be a member of any political club or like organization; nor shall any member of said Board, directly or indirectly, control or attempt to control or influence the action of any officer, member or employee of said Department, at any primary or other political election.

No officer, member or employee of said Department shall appear at the polls of any election, except for the purpose of depositing his vote; or levy, collector pay any money as an assessment or as a voluntary contribution for political purposes.

Any member of said Board or Department violating any of the provisions of this section shall forfeit his position and be removed therefrom.

No person belonging to the Fire Department of said city and county shall hold more than one position in said Department, nor any other position under the municipal government of San Francisco, or Federal Government, to which there is a salary attached, except that the clerk of engine, hose and hook-and-ladder companies shall have five dollars per month extra for acting as clerk.

SECTION 17. When any officer, member or employee of said Department shall become disabled by reason of injuries received at any fire so as to be unable to perform his duties, the Supervisors, upon the recommendation of the Fire Commissioners, shall allow, out of the General Fund, said disabled man a sum not exceeding fifty dollars a month for a time not exceeding three months, to be passed and audited as other lawful claims against the city and county.

SECTION 18. When ten days after the organization of the Board of Fire Commissioners provided for in this ordinance, said Board shall reorganize the Fire Department of the city and county so as to conform to the provisions of this ordinance, and in so doing said Board shall appoint as such officers, members and employees those persons now in the employ of said Department, provided that said Board of Commissioners are authorized to discharge from said Department those persons whose discharge, in their judgment, shall be most conducive to the efficient reorganization of the Department, and appoint others in their places; and until such reorganization is made, said Fire Department shall remain organized according to the laws in force at the time this ordinance takes effect.

CHAPTER II.

OF SUSPENSION AND REMOVAL.

SECTION 1. Any officer or member of the Fire Department, other than the Fire Commissioners, guilty of any neglect of duty, violation of rules, or neglect or disobedience of orders, or absence without leave, or conduct injurious to the public peace or welfare, or immoral conduct or breach of discipline, shall be liable to be punished by reprimand, withholding pay for a specified time, or dismissal from the Department; but not more than thirty days' pay shall be forfeited or withheld for any one offense.

SECTION 2. Such officers or members shall be subject to removal or punishment only upon trial before the Commissioners; charges, when presented by any officer of the Fire Department, or in a verified complaint by a citizen of said city and county, setting forth the specific acts complained of, shall be received, considered and determined by said Board of Commissioners.

The accused shall be furnished with a written copy of the charges against him, at least three days previous to the trial, and he shall have an opportunity to examine witnesses in his defense. The Board shall furnish the accused with all reasonable facilities for the conduct of his defense, and secure to him, free of charge, the attendance of all witnesses necessary therefor. All witnesses shall be examined on oath, and all trials shall be public.

CHAPTER III.

OF OFFICERS, MEMBERS AND EMPLOYEES.

SECTION 1. The officers, members and employes of the Fire Department (including the Fire Alarm and Police Telegraph) shall be as follows:

Five Fire Commissioners, a Secretary, a Chief Engineer, an Assistant Chief Engineer, six District Engineers, seventeen Foremen of Engine Companies, seventeen Engineers of Engine Companies, seventeen Drivers of Engine Companies, seventeen Firemen of Engine Companies, and one hundred and thirty-six Hosemen of Engine Companies; five Foremen, five Drivers and five Tillermen of Hook and Ladder Companies, sixty Hook and Ladder men; seven Foremen, seven Drivers, seven Stewards and forty-two Hosemen of Hose Companies; a Storekeeper of the Fire Department Yard, a Fire Department Yard Drayman, a Janitor and Messenger of the Fire Department, a Superintendent of Steam Fire Engines, an Assistant Superintendent of Steam Fire Engines, a Substitute Engineer and Machinist, a Night Watchman of the Fire Department Yard, two Hydrantmen, a Veterinary Surgeon, a Carpenter, a Hostler, a Superintendent of the Fire Alarm and Police Telegraph, four Fire Alarm and Police Telegraph Operators, a Foreman of Construction of the Fire Alarm and Police Telegraph, three Fire Alarm and Police Telegraph Repairers.

REORGANIZATION OF THE

CHAPTER IV.

OF SALARIES.

The officers, members and employees of the Fire Department and Fire Alarm and Police Telegraph hereinafter named, shall respectively receive the following annual salaries, until otherwise ordered by the Board of Supervisors, viz :

Fire Commissioners, each twelve hundred dollars.
 Secretary Board of Fire Commissioners, eighteen hundred dollars.
 Chief Engineer Fire Department, thirty-six hundred dollars.
 Assistant Chief Engineer Fire Department, three thousand dollars.
 District Engineers, each eighteen hundred dollars.
 Foremen Engine Companies, each five hundred and forty dollars.
 Engineers of Engine Companies, each fifteen hundred dollars.
 Drivers of Engine Companies, each one thousand and eighty dollars.
 Firemen of Engine Companies, each one thousand and eighty dollars.
 Hosemen of Engine Companies, each four hundred and twenty dollars.
 Foremen of Hook and Ladder Companies, each five hundred and forty dollars.
 Drivers of Hook and Ladder Companies, each one thousand and eighty dollars.
 Tillermen of Hook and Ladder Companies, each one thousand and eighty dollars.
 Hook and Ladder men, each four hundred and twenty dollars.
 Foremen of Hose Companies, each five hundred and forty dollars.
 Stewards of Hose Companies, each nine hundred and sixty dollars.
 Drivers of Hose Companies, each one thousand and eighty dollars.
 Hosemen of Hose Companies, each four hundred and twenty dollars.
 Storekeeper of Fire Department Yard, fifteen hundred dollars.
 Superintendent of Steam Fire Engines, twenty-four hundred dollars.
 Assistant Superintendent of Steam Fire Engines, eighteen hundred dollars.
 One Substitute Engineer and Machinist, fifteen hundred dollars.
 Hydrantmen, each one thousand and eighty dollars.
 Veterinary Surgeon, twelve hundred dollars.
 Carpenter of Fire Department Yard, twelve hundred dollars.
 Corporation Yard Drayman, one thousand and eighty dollars.
 Night Watchman Corporation Yard, one thousand and eighty dollars.
 One Hostler, one thousand and eighty dollars.
 One Janitor and Messenger, nine hundred dollars.
 Superintendent of Fire Alarm and Police Telegraph, twenty-four hundred dollars.
 Fire Alarm and Police Telegraph Operators, each fifteen hundred dollars.
 Foreman construction of Fire Alarm and Police Telegraph, twelve hundred dollars.
 Fire Alarm and Police Telegraph Repairers, each one thousand and eighty dollars.
 All salaries to be paid monthly out of the General Fund.

CHAPTER V.

Every person appointed a Fire Commissioner shall, before entering upon his duties as such, give a bond in the sum of five thousand dollars, with two sureties, for the faithful performance of his duties, to be approved and filed in the same manner as bonds of other city and county officials, and said Commissioners shall hold office for the term of four years from and after the date of their appointment, except as hereinbefore provided.

The President of said Board of Commissioners shall have power to convene said Board at such times and upon such reasonable notice as he may deem fit, and the concurrence of three members shall be necessary to any decision or order of the Board.

The Secretary of said Board shall have the custody of all the records and official documents of said Board.

It shall be the duty of said Board of Commissioners to report annually, on or before the first day of May, to the Supervisors, an estimate of the amount of money that will be required to pay all

salaries and expenses of every kind of said Department for the ensuing fiscal year, specifying in detail all items for which the same will be required.

Said Board of Commissioners are hereby authorized to exact bonds, with sufficient sureties, in such amount as they may see fit, from officers, members and employees of said Fire Department for the faithful discharge of their respective duties. No bond to be given shall be less than the sum of five hundred dollars.

The Board of Supervisors of said city and county shall appropriate, allow and order paid annually out of the general fund of said city and county, all salaries hereinabove specified, and allow salaries at similar rates to the several officers and men of any additional companies that may be created under this ordinance.

The Mayor of said city and county, upon the recommendations of the Board of Fire Commissioners, is hereby authorized to sell at private or public sale, from time to time, with the approval of the Board of Supervisors, any or all of the engines, hose carriages, engine houses, lots on which said houses stand, or parts of lots (or to exchange any of said lots when, in their judgment, demanded by the public good), or other property which shall not be required for the use of the Department, and to execute, acknowledge and deliver good and sufficient deeds or bills of sale for the same, paying the proceeds of such sales into the County Treasury, to the credit of the Fire Department Fund.

The Board of Supervisors, upon the recommendation of said Board of Commissioners, shall make any one or more of the present fire companies as now organized and existing, or that may be hereafter established, a full paid company or companies, and in like manner, on such like recommendation, said Supervisors shall also continue to make full paid companies from time to time, whenever the same shall, in the opinion of the said Board of Commissioners, be for the better protection of the said city and county against fire, and to render said Fire Department more efficient in that behalf.

The object and intent of this ordinance is to establish and maintain a full paid Fire Department in and for the City and County of San Francisco, complete in all its parts, and its provisions, wherever the words "must" or "shall" appear, shall be taken and construed as mandatory as to the said Board of Fire Commissioners, officers and employees thereof, and not as directory.

This ordinance shall take effect from and after its passage, and shall supersede all existing laws and ordinances relating to the Fire Department of said City and County of San Francisco, and all such laws and ordinances as are in conflict herewith are hereby repealed.

In Board of Supervisors, San Francisco, March 3, 1891.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Jackson, Burling, Curtis, Ayer, Carnes, Coffee, Hunt, Taber, Wilkinson.

Noes—Supervisors Ellert, Heyer.

Absent—Supervisor Evans.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, March 9, 1891.

GEO. H. SANDERSON,

Mayor and ex-officio President Board of Supervisors.

The incumbents of the office of Fire Commissioners under the provisions of the Act of the Legislature of 1877-78, refused to surrender their offices to the appointees of the Board under Order No. 2352, and up to the close of the fiscal year no action was taken looking to an enforcement of said order.

FIRE DEPARTMENT CHARITABLE FUND.

On May 11, 1891, a communication was received from the Board of Fire Commissioners requesting the Board of Supervisors to investigate the condition and affairs of the Charitable Fund of the department and report what action was necessary to keep said fund for the purpose for which it was organized. The character and status of this fund and the disposition of the moneys belonging thereto was investigated, as requested by the Finance Committee of the Board on May 16, 1891.

Messrs. E. B. Vreeland, Samuel Newman, Geo. F. Maxwell, E. T. McKittrick, M. J. Dolan, D. T. Sullivan, Wm. Kilday, Wm. Kelly, John Dougherty and Samuel Rainey were called, sworn and examined as to the rules and regulations imposed for the collection and the custody and disbursements made of the moneys received for charitable purposes.

The Finance Committee, on May 18, 1891, presented to the Board of Supervisors a report as to the investigation had, accompanied by an order providing regulations for the care and disposition of

the monies collected for charitable purposes of the Fire Department, the following being a copy of the report, to wit:

REPORT OF FINANCE COMMITTEE.

*To the Honorable the Board of Supervisors
Of the City and County of San Francisco:*

GENTLEMEN: Your Finance Committee, in the matter of the examination of the San Francisco Paid Fire Department Charitable Fund, ordered by your honorable Board at the request of the Fire Commissioners, would respectfully report that the examination has disclosed that this fund is not used as originally intended, but in its arrangement and direction has been so diverted that it appears to be a voluntary or enforced collection of \$1 per month from members of the Fire Department, to be used solely as the majority of the members of the Board of Foremen of the different companies deem best.

The original design of the institution of this fund was for the relief of sick and disabled firemen, and entitles such to a weekly allowance of \$10 during sickness or disability by reason of accidents or injuries received. As shown by a manuscript copy or original of the by-laws or regulations prepared, it is said some nineteen years ago, it was provided that this fund should be managed by a Board of Directors consisting of seven members of the department, who were to hold office for one year, and were to be elected by the votes of the members of each company. It was further provided that in case of a person ceasing to be a member of said department, his interest in said Charitable Fund lapsed. This was so far carrying out a beneficiary purpose, as it invited the charitable and well-disposed to make donations to and contribute to said fund to relieve the distress incident to sickness or injuries to members, and in that view various donations were made to assist this laudable purpose.

This fund, however, has assumed a strange relation. It has become not alone charged with that duty, but by reason of the \$1 per month collected from each member of the department, has become practically the property of the so-called Board of Foremen of the several companies, who, while carrying out the original purpose of paying benefits to sick and disabled firemen, control and dispose of this fund, and assume and declare that it is a fund belonging to and can be used for such purposes as in their judgment may be for the benefit of the members of the department, and that the individuals who contributed \$1 per month are the owners of the fund.

The illustration of this assertion of ownership is, that while the Board of Foremen have meetings and pass upon the claims for beneficiary assistance to the members of the department, and keep minutes of those proceedings, yet on an order signed by the Board of Foremen the Treasurer of this fund, M. J. Dolan, drew out of the San Francisco Savings Union and the Savings and Loan Society moneys of this fund therein deposited and drawing interest, and paid the sum of \$7,000 over to John Dougherty (who has had no connection with the Fire Department for the last year) for safe-keeping and legal expenses. No entry in the minutes of the Board of Foremen; no action taken and recorded; simply the exercise of what is an act of ownership on their part to dispose of funds which ought to be held sacred and devoted to the sole purpose for which they were raised—that is, the payment of aid to the sick.

Out of this money Mr. Dougherty paid to Samuel Rainey the sum of \$930, and for the balance of \$6,070 he holds certificate of deposit in the Bank of California, and this is subject to such legal expenses as may be considered proper in insuring the retention in office of such Commissioners as they may elect to serve. The expenditure of this \$930 was in payment to Samuel Rainey, who advanced this amount to retain Messrs. McEnerney and Spenser and for expenses in the suit brought by appointees of the Governor to oust Messrs. Edwards and Mahoney from their positions as Fire Commissioners.

The whole control and disposition of this fund is one of the most singular and perplexing enigmas that ever characterized the charge of a charitable and trust fund. Not an officer of the Fire Department could swear positively as to the rules and regulations governing this fund, but simply had an opinion. Not one could positively swear he had ever read the by-laws or positively that he had ever seen them; the copy sent to the committee in manuscript by Mr. Maxwell, the Secretary, being about nineteen years old, and in so far as their recital goes, the conditions have not been observed.

The control and disposition of this fund has simply been on the assumption that the Board of Foremen could dispose of this money as they saw fit, and their ipse dixit was the rules and regulations, by-laws, etc., established. This fund is looked upon and treated as belonging to the members of the department, and in case of their being discharged through a reorganization of the

department the money belongs to them, and anticipation of such a change as a reason has led to this diversion of the funds in the best interests of the department, as stated by Mr. Dougherty.

The facts were that the transfer of this money was certainly ill-advised, wholly without authority and of no benefit to the funds, as its removal from well-known and responsible savings banks where it was earning interest to the custody of Mr. Dougherty (who is under no bonds) without considering the illegality of such an action, is of itself a suspicious and censurable disposition of moneys raised to be devoted to charitable purposes outside of the question of the ownership of said moneys.

The city recognizing the importance of aiding and assisting a fund for the relief of sick and disabled firemen, provided for paying one-half the fines collected for violation of the Fire Order and one-half of the permits for sale of fireworks, etc., into this fund, so that a sufficient amount might accrue to provide for all contingencies and meet all obligations and demands for relief to sick or disabled firemen.

The question as to whether this is a voluntary or enforced payment from the members of the department is not very clear, the evidence being somewhat contradictory, but the necessity of such a fund and of dues being imposed upon each member who desires to be a recipient of its relief is very clear, while the vague and unsatisfactory method of dealing with this fund without well-defined rules and regulations would indicate the very pitfall in which it has fallen, namely, into the Dash-away Sink, to be divided up among the survivors, or, which is the same thing, to be used for any purpose whatever.

Your committee submit the testimony and express their regret at the want of management, evinced in the care and custody of this fund, as the assumption made that the funds are the property of the members of the Fire Department and that their disposition rests solely with the Board of Foremen, at the oversight of the Board of Fire Commissioners in not enforcing means by which this fund should have been properly supervised and expended.

Your committee cannot indorse the proposition that money raised in this manner can be used for the purpose named, or can be placed in the custody of any person or persons without security and for objects not commendable or in keeping with the trust, and deprecate the creation of any fund in any municipal department from the earnings of its employees in part to be used for improper purposes.

Your committee do not desire to undervalue a charitable fund of this character; on the contrary, it is one that is to be commended and fostered when used exclusively for charitable aid, and therefore, recommend that the Board of Fire Commissioners take such action as is necessary to form a charitable fund under proper rules and regulations as may be deemed suitable to protect it, by providing for the membership the payment of dues and its control and disposition. Also, to require that all moneys heretofore received and in the charge and control of the Board of Foremen, the Treasurer, John Dougherty, or any other person belonging to the present fund, shall be paid to said Board of Fire Commissioners for said fund so created and for its investment, so that some benefit in the shape of interest may be derived therefrom.

There can be no doubt that the moneys used for other than charitable purposes can be recovered. There is no authority for such disposition of these moneys, and if the moneys now diverted are not paid into the fund to be created, then it will be the duty of this Board, on notification from the Board of Fire Commissioners, to request the Mayor to call the attention of the Grand Jury to this diversion of trust funds, and for such other action as may convince all parties that the obligations imposed must be fulfilled in the disposition of moneys raised in this manner.

The Charitable Fund must be a continuing fund, as it is designed to be for members of the Fire Department, whoever or whatever they may be, and must not be used or tampered with for political or other uses foreign to its mission.

The members of the Fire Department are employees of the city and are amenable to just and reasonable requirements in their interest and for their protection, and it is the duty of this Board to insure the safety and the proper use of all moneys contributed by or collected for the purposes of a Fire Department Charitable Fund, to extend relief to those who become sick or disabled while in the service of the department. On this basis and for this purpose the city and county has provided a portion of the revenue, and it becomes, for that additional reason an inchoate right to require that all proper precautions be taken and enforced to secure its safety, and in case of a diversion of the moneys or any portion, to institute proceedings to require the return of said moneys to the custody of the proper persons, and when so returned to be so invested as to insure not alone its security but its increase from dividends for use.

Your committee, therefore, report that the amount delivered by M. J. Dolan, treasurer of the fund, to John Dougherty, on an order from the Board of Foremen of the various companies of the

Fire Department, was wholly without authority and was an unwarranted and indefensible violation of duty on the part of said Board of Foremen and of said treasurer, subversive of the rights of the members of the Fire Department.

Your committee recognizing the importance and great necessity for such a Charitable Fund, and assuming that the desire of all parties is to acquiesce in any just settlement to preserve the same, will introduce an order for its reorganization and care, believing that this measure will insure its perpetuity and its usefulness for the laudable purpose for which it was instituted.

In this view your committee trust that no further action will be needed on the part of this Board, and, therefore, in the hope that this adjustment will be amicably and speedily made and the fund turned over without delay to the Board of Fire Commissioners, no further action will be recommended, as, undoubtedly, the good judgment of the persons attempting to control and use this money will appreciate the fact that they have misconceived the purpose of this trust.

As expressed by the representatives of the Fire Department, the precarious holding of their positions, if a change in the personnel of the Commission were made, was the reason why the largest portion of the Charitable Fund was given to John Dougherty to hold for safe keeping and legal expenses. This is all wrong. The statute of the State and the desire of the people of San Francisco is that every officer or employee of the Fire Department shall retain his position as long as he is competent, attentive and vigilant in the performance of his duties. Unless this was the case, no one could expect to find this department efficient, and whatever changes may hereafter be made, no Commission would have the right or dare to make any changes in said department unless for incompetency or improper conduct. The fact that the people of this city and county have been under the impression that designing persons have been controlling, or attempting to control, the members of the Fire Department for political purposes, is pretty well demonstrated from the general dissemination of the belief that members of the department would be removed in case of a political change. This idea is wholly erroneous, no such power exists, and it has been propagated for personal or political purposes in the opinion of your committee, and is subversive of the efficiency of the Fire Department.

As an evidence of the desire of the people to keep this department non-partisan and that no member should be removed except for incompetency or improper conduct, this Board, acting under a statute of the State, has provided pensions for members of this department who, after fifteen years' service, are relieved from further duty, through age, infirmity or disability; also, for members who are permanently disabled while in the performance of their duties, regardless of their length of service. The amount of these monthly pensions equals one-half the amount of the salary attached to the position which a member held prior to his disability, etc.

The Fire Department is, therefore, required to be non-partisan, and must be so kept, no matter who the Commissioners are or to what political party the Commissioners belong. The security of the lives and property of our citizens is a paramount consideration, and it is time every member of the Fire Department should be informed that his position is not to be held by the favor of, or the service done for any political party, but is held by him just as long as he is competent and efficient in the performance of his duties, and that being his status no power can remove him. Acting upon this principle, as required and provided for by statute, your committee as an additional reason have provided for the Board of Fire Commissioners taking charge of this fund to secure it for purposes of affording relief to sick and disabled firemen who are not permanently disabled and are temporarily relieved from duty.

The importance of this regulation is to prevent any Mafia organization in our midst making use of funds raised for charitable purposes to impede or defeat the people in the control of this department in their own interest and prevent a diversion of this fund from the charitable purposes for which it was raised.

L. R. ELLERT,
JAMES W. BURLING,
D. B. JACKSON.

The order recommended was introduced and passed to print at the same meeting. On May 25, 1891, when the order came up on final passage, it was on motion of Supervisor Jackson referred to the City and County Attorney for his opinion as to the power of the Board to provide for and legislate in the matter proposed to be regulated.

At the meeting of the Board held on July 20, 1891, Supervisor Ellert called attention to the order relative to the Fire Department Charitable Fund which had been passed for printing at a former meeting, and subsequently referred to the City and County Attorney for his opinion thereon, which he had up to that time been unable to furnish, owing to the pressure of business in his office; also stated that the order was an important one, necessary for the proper regulation of the fund

and tending to the benefit of the members of said department; whereupon, on his motion, the order was taken up, finally passed by a unanimous vote, and numbered 2418. The following is a copy of the order, which was duly approved on July 21, 1891.

ORDER No. 2418.

PROVIDING REGULATIONS FOR THE SECURITY OF THE FUND FOR THE RELIEF OF MEMBERS OF THE FIRE DEPARTMENT, TO BE KNOWN HEREAFTER AS THE PAID FIRE DEPARTMENT CHARITABLE FUND.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. The Board of Fire Commissioners of the City and County of San Francisco are hereby authorized, empowered and required to take charge of all moneys belonging to the San Francisco Paid Fire Department Charitable Fund, and to make a demand for and receive all moneys from any and all officers or members of the Fire Department who may have the same under their charge or control, or from any other person or persons who may have received moneys of said fund other than as an allowance for sickness or disability, and to which said person or persons were entitled to by reason of being members of said department.

The said Board of Fire Commissioners are hereby empowered to require the speedy payment of said moneys, and when received to safely deposit the same in one or more of the savings banks of this city and county, or make such other safe and proper investment as may not jeopardize the security and safe custody of said moneys.

SECTION 2. The said Board of Fire Commissioners shall organize a Board of Trustees of said Paid Fire Department Charitable Fund, and shall appoint one of their members as Chairman, one as Treasurer, and the Clerk of said Board as Clerk of said Paid Fire Department Charitable Fund.

The said Board of Trustees shall adopt such rules and regulations as may, in their judgment, be proper for the safety and security of the said fund, to be known and designated as the Paid Fire Department Charitable Fund, and the amount, manner and mode in which and to whom expenditures shall be made.

The said Board shall hold meetings on the first and third Mondays of each month to hear the reports of the Treasurer and Secretary on the condition and disposition of all moneys belonging to said fund, and shall make allowances and draw orders for such amounts as may be allowed by the Board of Foremen of the various paid fire companies, as hereinafter provided.

SECTION 3. Each and every member of the Paid Fire Department shall have the right to be a member and a beneficiary of said fund on the payment to the Secretary of said fund of the sum of \$1 per month for each and every month in which he has been employed and in the service of said department. The fund so created by the transfer of the funds of the San Francisco Paid Fire Department Charitable Fund, by dues or from donations from charitable and philanthropic persons or contributions of public moneys, as provided for in the orders of this Board, shall be known as the Paid Fire Department Charitable Fund, and out of which shall be paid to sick or disabled firemen the sum of \$10 per week, as hereinafter provided, provided such sickness or disability was not caused by immoral or intemperate habits or practices, in which case no aid from the Paid Fire Department Charitable Fund shall be paid.

The said Board of Trustees, by and with the consent of the Board of Foremen of the different companies, shall also have power in case of the death of a member in good standing to provide for the collection of such an assessment as may be sufficient for the purpose of defraying the expense of the funeral of such decedent or such relief as may be deemed proper to the family of said decedent, provided such assessment shall not in any one case exceed \$1 on each member of the Fire Department who is entitled, by reason of being a beneficiary of said Paid Fire Department Charitable Fund, to pay the same.

Each and every member of the Fire Department who has contributed to the San Francisco Paid Fire Department Charitable Fund by the payment of his monthly dues on the passage of this order shall be and is hereby constituted a beneficiary of the Paid Fire Department Charitable Fund under the conditions imposed in this order.

SECTION 4. The foreman of each fire company of the Paid Fire Department shall constitute a Board of Foremen, they shall organize and appoint a Chairman and Secretary and said Board shall under such rules and regulations as may be adopted by the Board of Trustees of the Paid Fire

Department Charitable Fund pass upon all claims of members of the department who may through sickness or disability not caused by immorality or intemperance be entitled to relief from the Paid Fire Department Charitable Fund, and all claims made, certified to as being correct by said Board of Foreman through its President and Secretary, shall be allowed and paid by the Trustees of said fund.

SECTION 5. No person not a member of said Fire Department in good standing shall be eligible or entitled to sick benefits. No monthly dues shall be received from any person not a member of said department, and on the resignation or removal of a member of said department all his interest in said Paid Fire Department Charitable Fund shall cease and determine.

SECTION 6. It is hereby made the duty of all members of the Fire Department, and of any other person or persons having in their possession or control moneys belonging to the San Francisco Paid Fire Department Charitable Fund, immediately on the passage of this order, to pay the said moneys to the Board of Fire Commissioners, taking their receipt therefor.

SECTION 7. The said Board of Fire Commissioners shall inhibit any member of the Fire Department, on and after the passage of this order, from paying dues to or contributing to the support of any other fund, for charitable or other purposes, of said department than to the Paid Fire Department Charitable Fund hereby created.

No member of the Fire Department shall collect any money from the members of the said department for charitable purposes, except under authority and by direction of the trustees of the Paid Fire Department Charitable Fund hereby created.

No member of the Fire Department shall hereafter collect, disburse or authorize the disbursement of any moneys except for charitable purposes as herein provided, and not then until the provisions of this order are complied with.

SECTION 8. The failure, neglect or refusal of any member of the Fire Department to carry out and comply with the requirements of this order, shall be sufficient cause for removal, and the said Board of Fire Commissioners are hereby required to dismiss any such members so offending, and the person so removed shall not be eligible to and shall be thereafter debarred from reappointment to or holding any position in said Fire Department.

SECTION 9. The said Board of Trustees shall cause the Rules and Regulations by them adopted for the care, management and disposition, etc., of this fund, with a copy of this order and an exhibit of the amount of money on hand, with the collections and disbursements of the year preceding the 30th day of June of each year, to be published in pamphlet form, and a copy thereof delivered to each member of the Fire Department in the month of July in each year.

In Board of Supervisors, San Francisco, July 20, 1891.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Evans, Jackson, Burling, Curtis, Ayer, Ellert, Carnes, Coffee, Heyer, Hunt, Taber, Wilkinson.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, July 21, 1891.

GEORGE H. SANDERSON,

Mayor and ex-officio President Board of Supervisors.

Financial Exhibit and Revenue Orders.

The Committee on Finance and Auditing, consisting of Supervisors Colin M. Boyd, Chairman C. S. Bush and D. Becker, at a meeting of the Board of Supervisors held on Friday, January 2, 1891, presented a report showing the condition of the various funds and accounts which to some extent were under the control and disposition of the Board. The report was made at that date for the purpose of showing the amounts expended for various municipal purposes and the appropriation therefor, so as to present the status of the accounts for the information of the incoming members, the members elected, who took their seats on January 7, 1889, retiring by expiration of their terms of office on January 5, 1891.

The following is a copy of the report made on January 2, 1891 :

REPORT OF FINANCE COMMITTEE.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: Your Finance Committee, recognizing the propriety of presenting a statement of the funds and accounts over which your Honorable Board has control up to the date of the retirement of the members of this Board, their terms of office being about to expire, beg to state that, notwithstanding every possible effort has been made to obtain outstanding bills, many have not been received. In justice to the members of this and the incoming Board, estimates have been made of outstanding liabilities for the purpose of showing as near as can be the status of the said funds and accounts.

The deficiencies that exist in the several subdivisions of the General Fund, estimating outstanding bills up to January 5, 1891, aggregating \$40,715 15, while balances in other subdivisions aggregate \$10,712 96, making an estimated deficiency for the six months of \$30,002 19. These deficiencies have arisen mainly because of insufficient appropriations, the principal of which are reported on as follows:

The Fire Department, with an appropriation of \$110,000 per annum, is overdrawn \$11,290 the first six months. This was the result of more hose being required by the fire companies for the protection of property in case of conflagrations. The bills unpaid are: W. F. Bowers & Co. for 5,000 feet of Carbolized Rubber Hose, Maltese Cross brand, weighing 65 pounds to the length, at \$1 15 per foot, with couplings complete, \$5,750; W. T. Y. Schenck, for 5,000 feet of Paragon Cotton Hose, with couplings complete, \$5,000, and a bill of H. Washburn for rent of premises for Engine Co. No. 6 for six months ending December 11th, at \$90 per month, \$540.

At the beginning of the fiscal year a much greater indebtedness was incurred, but the same has been gradually liquidated. If the present expenses are controlled to the same extent as during the last two months, the indebtedness reported will be paid in about four months. The increased accommodations required for the Fire Department may, however, prevent this result, as demands are being made for the erection and reconstruction of buildings, putting additional companies into service for Water Towers, Chemical Engines, etc.

The fuel for public buildings has an appropriation of \$5,000. The sum of \$2,555 has been allowed, and \$3,058 is the amount of outstanding bills, or a total of \$5,613 for six months; the total expense during the last fiscal year aggregating \$3,321. The presumption is that the cost of fuel will not exceed that of last year, as the quantity of fuel required falls off during the spring and summer months.

FINANCIAL EXHIBIT AND

HOSPITAL.

The outstanding obligations show the amount of \$3,017 to be provided for. This arises in part from an increase in the number of employees by the Board of Health to meet pressing demands for extra attention to patients, etc. Under the provisions of the Political Code the Board of Health as you are aware, appoints officers named in said Code and such other attendants and employees as may be deemed necessary. In addition, some improvements have been made; for instance, a new steam boiler, pipes, etc., have been furnished, at a cost of \$2,400; new floors in three wards, at a cost of about \$1,500.

HOUSE OF CORRECTION.

The estimated obligations are in the aggregate \$3,000. This deficiency arises from an insufficient appropriation. The large number of inmates, aggregating 384, has added to the estimated expenditures, and notwithstanding the payment of some demands with the consent of the Superintendent of Public Streets this deficit remains. The recommendation heretofore made by your committee strongly advocated the taking of steps to procure legislative action for the abolishment of this institution as a useless and onerous expense to the city and county without any benefit or advantage to persons sentenced to such institution, is referred to with the hope that our successors may take the action recommended.

INDUSTRIAL SCHOOL.

The appropriation for this institution is overdrawn, it is estimated, about \$3,570, and this is in part due to an insufficient appropriation. It may be well to state that the Industrial School proper is limited to the confinement and education of boys alone. The girls, while committed to that institution, are taken care of by the Magdalen Asylum, under the charge of the Sisters of Mercy, who have shown great aptitude in reforming and elevating most of those girls committed to their charge to a realizing sense of their duty to themselves, their parents and the community.

It might be well to revert to the State institution for a Reformatory, the corner-stone of which building has been recently laid at Ione, so that when completed it may be availed of and boys at least sent there. The custom of making the Industrial School a place of punishment in a sense for boys, the Police Court sending youthful vagrants and criminals there for terms of imprisonment three and six months, is not conducive to their reformation, and, in effect, is detrimental to the other inmates. The State institution so located, with a systematic corps of teachers, versed in the treatment of juvenile offenders, will effect the reformation which is impossible under the present system at the Industrial School.

LIGHTING PUBLIC BUILDINGS.

The outstanding demands aggregate \$4,007. This arises simply from an insufficient appropriation, and makes the total expenditure for the purpose \$13,007 for the six months in lieu of the appropriation for the six months of \$9,000. The expenditures for the last fiscal year aggregated \$24,735 96, which indicates clearly that the expenditure for this year will not exceed that of last. The bills for gas so consumed generally decrease after February in each year.

SMALLPOX HOSPITAL.

The appropriation of \$3,000 for the year has been expended in addition to the sum of \$1,130 by the Board, in providing care and accommodation for inmates and for the prevention of the propagation of this disease. The Board, on the appropriation being exhausted, empowered the Auditor to audit demands for these purposes deemed necessary by the Board of Health out of the unexpended balance in the treasury provided for the payment of judgments.

SUBSISTENCE OF PRISONERS.

This appropriation of \$20,000 was inadequate to provide for the large increase in the number of prisoners. The estimated outstanding bills aggregate \$2,350. The expense for subsistence last fiscal year aggregated \$26,382 16; from the present outlook the expenditure will not reach that figure the present year.

URGENT NECESSITY.

The appropriation of \$16,865 to January 5, 1891, has been expended, while unpaid bills aggregating \$2,754 have been drawn against this fund. This appropriation is chargeable with all obligations not otherwise provided for by law, and when other funds become depleted this fund has to meet those demands when practicable.

WATER FOR MUNICIPAL PURPOSES.

This fund has unpaid liabilities against it for \$1,027 up to January 5, 1891. As the appropriation was insufficient to meet the obligations devolving upon it, provision must be made for the payment of outstanding amounts at the close of the fiscal year. The demands for water furnished have been allowed so as to keep within the appropriation.

The above embrace the principal overdrafts or estimated liabilities in the subdivisions of the General Fund.

GENERAL FUND.

| | |
|---|-------------|
| Estimated excess of expenditures | \$40,715 15 |
| Balances to credit of subdivisions..... | 10,712 96 |
| | <hr/> |
| Total excess of expenditures..... | \$30,002 19 |

SPECIAL FEE FUND.

The estimated liabilities on outstanding bills against this fund aggregate \$3,895 26 over and above the proportion of the appropriation to January 5, 1891. This is claimed to have been principally incurred by the unauthorized purchase of supplies of stationery, etc., without requisition from the Committee on Printing and Salaries. These expenditures seem to be excessive, but the demands aggregating this amount will have to be examined and passed upon as to their correctness before being allowed.

STREET DEPARTMENT FUND.

The appropriation up to January 5, 1891, has been expended. The outstanding liabilities are estimated to aggregate, including the demand for street sweeping, about \$9,387. This is subject to a deduction of some \$2,000 received by this department from the sale of old cobbles and paid into the credit of said fund. In addition the Superintendent of Streets has allowed a portion of the funds to be used for other purposes in connection with street matters; the sum of \$1,500 for removing the remains of decedents from Sixteenth street, which was intended to be provided for at the close of the last fiscal year out of the General Fund, and various other demands to assist in the utilization of the labor of prisoners on the public ways. While this is an apparent overdraft over the estimate, this expenditure is within the appropriation, as the levy made will be ample to provide for this expenditure, as more than the estimated amount will be received into said fund for taxation.

STREET LIGHTS.

This appropriation, up to January 5, 1891, has been expended. The estimated liabilities outstanding aggregate \$6,235 80. This, however, is more apparent than real, as an additional amount in excess of that estimated will be received into said fund from taxation. This fund is chargeable with gas and electric lights and repairs, and the service at no time could be reduced, but on the contrary ought to be increased to afford additional lights, particularly on the outlying portions of the city which are rapidly being built up. The demands have been allowed so as to keep within the appropriation. The amount of estimated liabilities up to January 5, 1891, may be recapitulated as follows:

| | |
|----------------------------------|-------------|
| General Fund..... | \$30,002 19 |
| Special Fee Fund..... | 3,895 26 |
| Street Department Fund..... | 9,387 00 |
| Street Light Fund..... | 6,235 80 |
| | <hr/> |
| Total estimated liabilities..... | \$49,520 25 |

In the consideration of this amount heretofore explained as to the principal items, the annexed table will show the various subdivisions and funds, with the estimated liabilities, over and above the appropriations up to January 5, 1891.

As an offset to this showing the Board provided in the levy for the payment of judgments the sum of \$18,924. The actual amount of final judgments due and paid amounted to—as shown in a former report of your committee—the sum of \$10,094 70, since which time a further judgment of M. Conniff, amounting to \$325 68, has been paid. This shows a total payment of \$10,420 38, leaving a balance of \$8,503. As stated in this report, owing to the necessity of providing means for small

pox purposes, the Auditor was instructed to audit from this amount such expenditures as might be deemed advisable by the Board of Health, which was done, and up to this date the sum of \$1,130 has been allowed and audited. This leaves an unexpended balance of \$7,373 62, which amount undoubtedly can be used for urgent purposes, as in the case of any other or further judgment—which is not probable—they will be required to be provided for in the next levy. This amount then, if credited to, will reduce the estimated deficiency up to January 5, 1891, to the sum of \$42,146 63.

The municipal government and its efficiency must be maintained, and all lawful demands therefore must be provided for and paid; and if for any cause the appropriations made are insufficient and legal obligations remain unsatisfied at the close of the fiscal year, provision must be made for their payment the succeeding year.

However desirable it might be to make a statement showing no deficiencies, the fact remains that the appropriations made for the several uses and purposes of the government were insufficient, and these were caused by the pledges made as to the limit of taxation. This year being as termed in the journalistic vocabulary, the "off year," the sum of \$100,000 being provided for election purposes necessitated the cutting down of other appropriations so as not to exceed in the aggregate the limit of taxation. These expenditures, by the way, have been largely exceeded by the Board of Election Commissioners, and will, to the extent of the expenditures over the amount provided for that purpose, trench upon the resources of the government when the settlement and adjustment of the liabilities are made at the close of the fiscal year.

Your Finance Committee in reporting upon the estimated deficiencies in the shape of demands presented and outstanding, have not, except in the case of the Smallpox and Urgent Expenses, passed upon or approved the same. These demands will be subject to the examination and approval of the successors of the members of this Board.

Your Committee desires to state that our successors will not be so hampered in providing revenue for the support of the government, the platform on which they have been elected being such as will enable sufficient funds to be raised to conduct the various departments in a creditable and efficient manner in the next fiscal year, and your committee from experience appreciates this considerate concession to the increasing wants of our growing city.

Under the direction of your committee, the expert, Mr. Cyril Williams, has made monthly examinations of the books and accounts of the various municipal offices and departments, and this system tends to prevent the improper retention or disposition of the public moneys by attention being called from time to time, and the opportunity afforded to rectify mistakes when made, which may occur from an improper conception of the law or through clerical errors. It is creditable to the departments to state that but few errors or omissions in their accounts were made, and these, purely clerical and trivial, were at once corrected and accounted for, and in no way reflect upon the conduct or administration of the departments. The only office in which there has been any difference of opinion and a refusal to comply with what, in the judgment of the Mayor, the City and County Attorney and your committee, was the proper disposition of certain fees received, is that of the County Clerk. These fees embrace amounts received for comparing transcripts on appeal to the Supreme Court, which comparison was made by persons employed by the County Clerk at a compensation not exceeding four cents per folio, which amounts were collected from the party requiring the same and paid to the persons performing the service, or when done by the deputies or copyists, was performed by them out of office hours, the sum of \$1 for the official certificate being the only amount in these cases paid into the treasury. Also, in cases where copies of decrees of the Probate Court submitted to the County Clerk were compared by him, and when found correct the official certificate was appended to each, for which he received the sum of fifty cents, which was paid into the treasury, in addition to the amount received for comparison, which amount was retained by him. In addition, the sum of ten cents on each insolvency case received was retained by the County Clerk.

The County Clerk claims to have acted in good faith and in accordance with the practice of his predecessors, and in the insolvency notice fees refers to the opinion of the City and County Attorney in the year 1880, authorizing the then County Clerk to retain said fees. The question has been relegated to the courts, and the decision will settle the controversy, and your committee believes its construction of the law will be justified.

The last report of the experts on the Chinese cases in the Police courts shows some very interesting particulars since January 1, 1890, as to the amount of fines, bonds, etc., the worthlessness of the bonds taken and the impunity with which the Chinese violate and trample upon our laws, and avail themselves of every legal resource without any liability, no matter what the decision may be. This of itself might in the opinion of your committee impress our citizens with the conviction that

the officers of the law must violate their duty, either ignorantly or corruptly (the latter might have the greatest number of believers), to allow such a state of things to go on day after day.

In former reports of the expert these cases are extensively shown and enumerated. The following extract from the last monthly report shows the aggregate amounts and the results of the pernicious system now in vogue in Chinese cases :

POLICE COURTS—CHINESE CASES.

Fines affirmed, bonds forfeited, \$7,530 ; secured by Chinese bonds for \$29,400.

Fines affirmed, bonds not forfeited, \$3,710 ; secured by Chinese bonds for \$10,300.

Due, \$11,240 ; secured by Chinese bonds for \$30,700.

Fines on appeal, not decided, \$13,850 ; secured by Chinese bonds for \$31,200.

The expert reports in connection therewith as follows :

"There is nothing new to report regarding Chinese bondsmen. All forfeited bonds remain unpaid as usual. The last cases appealed were on October 22d, when Hong How, 829 Dupont street, and Jay Tuck Hong, 809 Dupont street, made themselves each responsible for \$6,000 on appeal bonds given in the cases of Ah Cheong and five others, fined in all \$2,400. I can suggest no remedy ; the bonds appear to be absolutely valueless when sued on ; the same Chinese get their bonds taken in each of the three Police Courts and then begin over again, and it is maintained that Chinese bonds must be accepted."

The responsibility of taking worthless bonds rests with the officers of the court, and this iniquitous system of taking worthless bonds should be ventilated, so that the officer, whoever he may be, shall be known and his conduct or judgment attacked. Although it is an axiom that "all persons are equal before the law," the converse is true in the case of the Chinese. They are the privileged class, and no magician ever performed his trick so marvelously and deftly as do the Chinese, who seem to control the officers of our Police Courts and defy by evading all punishment for their crimes or misdemeanors.

Your committee, in conclusion, beg to acknowledge that its labors have been much facilitated by the expert Cyril Williams, who through familiarity with the laws governing and the system of accounts kept in the various public offices, has rendered very valuable service. His accuracy, ability, industry and integrity are unquestioned and have never been equalled by any other gentleman employed in that capacity by the city and county in the examination of the books and accounts of the public officers.

COLIN M. BOYD,

C. S. BUSH,

D. BECKER.

On January 5, 1891, the newly elected members took their seats, the members of the Finance Committee appointed on said date consisting of Supervisors L. R. Ellet, Chairman; James W. Burling and D. B. Jackson, who entered upon the discharge of their duties.

On March 2, 1891, the Auditor, David Stern, who assumed the duties of his office on January 5, 1891, died, and on the following day the Board of Supervisors appointed T. J. L. Smiley to fill the vacancy.

The Auditor, Thomas J. L. Smiley, on June 1, 1891, filed his estimate of the amount of revenue and expenditures required for the fiscal year 1891-92, based upon the demands of the various municipal departments as adjusted by the Auditor.

The estimated expenditures were \$4,873,029; the revenue derived from taxation was estimated at \$3,416,000, while from other sources the revenue was estimated at \$1,457,029. The valuation of real and personal property subject to taxation was estimated at \$305,000,000, necessitating a tax of \$1 12 on each \$100 valuation of property.

The revenues to be derived from other sources than taxation being as follows:

FINANCIAL EXHIBIT AND

To General and Special Fee Funds—

| | |
|--|----------|
| Alms-house, support of aged persons by State | \$40,000 |
| Assessment expenses, State..... | 40,000 |
| Fees of City and County officers..... | 230,000 |
| Fines imposed in Police Courts..... | 40,000 |
| Fines imposed in Superior Courts..... | 4,000 |
| Licenses, City and County..... | 395,000 |
| Licenses, Municipal..... | 70,000 |
| Licenses, Stock Certificate Tax..... | 500 |
| Quarantine Fees..... | 4,500 |
| Subsistence of United States prisoners..... | 1,000 |
| Sundries..... | 7,529 |

School Fund—

Sinking Fund and Interest Account Funded Debt—

| | |
|-------------------------|-------|
| From Interest, etc..... | 8,500 |
|-------------------------|-------|

Total estimated receipts from other sources than by taxation.. \$1,457,029

The following is a copy of the communication accompanying the Auditor's estimates, to-wit :

COMMUNICATION FROM THE AUDITOR.

AUDITOR'S OFFICE, }
June 1, 1891. }

To the Honorable Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: Herewith you have a detailed statement of amounts deemed necessary by the heads of all the departments of the municipal government, also the Auditor's estimate of the amount required.

Your attention is called to the following statement of amounts of increase of former allowances, now rendered obligatory by recent Legislative enactments :

| | |
|--|-----------|
| District Attorney's office. | \$3,300 |
| City and County Attorney's office..... | 7,800 |
| Tax Collector, by reason of new revenue law..... | 20,000 |
| Registrar of Voters..... | 5,000 |
| County Clerk..... | 3,000 |
| Police department on the basis of 100 additional police..... | 134,300 |
| Total | \$173,400 |

The estimates for an increased supply of water and gas were not presented to the Auditor in time for mature consideration, but, in the Auditor's opinion, the immense growth of the city in directions poorly supplied, or not supplied at all, by gas and water, will warrant an appropriation in these items greatly in advance of amounts expended in former years.

In several instances (schools, streets and public squares) the proposed estimates have been segregated. This plan is recommended in making appropriations. If specific sums are appropriated for school salaries, for cleaning streets, for each public square, in the future, the usual annual deficiencies and extravagance may be guarded against.

Very Respectfully,

THOMAS J. L. SMILEY,

City and County Auditor.

The estimates were reported to the Finance Committee, who, while engaged in the review of the estimate of expenditures, heard all parties who presented themselves and submitted their views as to allowances for the municipal departments. On June 15, 1891, the Finance Committee presented their report, accompanied with an order fixing the levy for City and County purposes, of which the following is a copy :

REPORT OF FINANCE COMMITTEE.

To the Honorable Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: Your Finance Committee, to whom was referred the estimate of the revenue and expenditure required for the fiscal year commencing July 1, 1891, would respectfully report, that in common with all persons nominated to the public office for years past pledges were exacted not directly regulating public expenditures, but limiting the amount to be raised by taxation for the expenditures of the government.

In the determination, therefore, of the amount which by this practice has become a well defined and settled principle, your committee have been governed and controlled by the declarations of the platform under which the present administration was chosen by the people as their representatives.

Imbued solely with the desire to ascertain clearly the powers to be exercised without any strained construction of the meaning of the various annunciations as to the particular and special duties incumbent upon the administration contained in the platform, the various articles have been carefully considered, and the true intent and meaning as to the taxing power is clearly manifest and obligatory, all the purposes of the government are carefully covered and provided for, and that guarantee and pledge given to the people must be faithfully observed.

The declaration of the Republican Municipal Convention which has been fully discussed and approved by all the members of your honorable Board as the limit of the taxing power, is as follows :

"We recognize the fact that the growth of our city during the last two years demands an increased expenditure over that now provided; and since Republicanism is synonymous with progress we pledge our nominee for Mayor and for the Board of Supervisors that the tax levy for the running expenses of the City Government, exclusive of the City Hall, debt and Park provisions shall not exceed \$1 on each \$100 valuation of property, said assessment to be based on the estimated valuation of \$250,000,000 for the first year and of \$275,000,000 for the second year."

That is the specific pledge, plain and unmistakable, and for all the purposes of the government as set forth in the said platform, that limit so fixed was declarative of what amount should be levied as a just and proper burden to be imposed upon the people and no more.

The various uses to which the funds so raised were to be applied in addition to the other purposes of the government recited in the platform are summarized as follows :

"First—That physical culture is an important element of education and should be taught by special and competent teachers in our public schools.

"Second—That the debt due the teachers of the public schools for one-half of one month's salary should be provided for and paid.

"Third—That substantial and modern school houses should be provided and maintained.

"Fourth—That well-paved, well-lighted and well-kept streets and clean and adequate sewers should be provided and maintained.

"Fifth—That the Fire Department should be thoroughly reorganized, and that it should be fully equipped and paid.

"Sixth—That the Fire Department should be provided with the latest improvements and appliances for contending against fire.

"Seventh—That as rapidly as possible cobbles should be removed from accepted streets and be replaced with better pavement.

"Eighth—That an equitable and adequate expenditure of money should be made wherever required upon the thoroughfares leading to and from the suburbs of this great and growing metropolis.

"Ninth—That the Police Force should be strengthened and increased to meet the demands of our rapidly increasing population.

FINANCIAL EXHIBIT AND

"Tenth—That the present Morgue facilities are inadequate to the requirements of the city and should be corrected.

"Eleventh—That the County Clerk should limit the expenses of his office to \$6,000 per month, and all other officers be pledged to strict economy in the administration of their offices."

These are the various provisions and requirements to be observed in the imposition of the tax, and, as required, have been duly considered and provided for, in consonance therewith.

It must be observed, however, that the purpose evinced in these pledges was to secure an economical administration of the various public institutions and departments, by so regulating and determining the general expenses as to bring about needed reforms in that respect, which by no other means could be accomplished.

In a careful review of public expenditures, it is simply wonderful how ingenious the reasons and how indispensable the wants are that require to be supplied, which expenditures, in a private business under the control of the same persons, would be looked upon as unwarranted and wholly uncalled for, and all but criminal. The supplies, and the number of employees, competent and otherwise, simply aggregate for political purposes and patronage and grow from year to year until the people, tired of seeing official after official following the same beaten paths, resolve that the only method to curb this insidious disease is to declare that beyond a certain specific amount no additional revenue shall be given to aggravate and increase this evil, so that by this means some reform may be expected or hoped for.

Your committee are of opinion that the platform does not flavor of parsimony, but is redolent of economy, and to carry out that important reform every officer, no matter whom, is pledged to strict economy in the administration of his office. There is no ambiguity about these pledges; they are clean cut, and the officers of this city and county must live up to them. The reason of their selection and the meaning of their pledge is to reduce, not to increase former expenditures; to institute needed and proper reforms in their respective offices to bring about that result. Your committee feel satisfied that if this contemplated change is effected the levy and the various appropriations made under the pledge will be demonstrated to be ample and sufficient, and be not alone a source of pleasure and gratification to the officers of this administration, but equally so to the taxpayers whose interests will then have been subserved.

The Auditor, as the financial officer of this city and county, submitted his estimate of the revenue and expenditures required for the fiscal year 1891-92, the same being \$1,873,029. The revenue to be derived from other sources than taxation, namely, from licenses, fees, fines, etc., aggregating \$1,457,029, while the revenue to be raised by taxation was estimated at \$3,416,000, necessitating a tax of \$1 12 on each \$100 valuation of real and personal property on a total valuation of \$305,000,000.

Your committee, taking the estimated requirements for the various municipal purposes, as submitted by the Auditor, have carefully revised the same to conform to the obligations imposed, and have so apportioned the same as to be consistent therewith, and respectfully submit for your consideration and approval the following changes, to-wit:

ADVERTISING FOR MUNICIPAL OFFICES.

The estimate of \$3,000 was reduced to \$4,000—the same amount was appropriated for the past year. There can be no reason why, under the existing conditions, the expenditure for this purpose should exceed that amount.

This advertising should be given by competition to the lowest bidder. It is contemplated that all advertising shall be given out when the Board has power to act; in that event this amount will be sufficient.

COPYING ASSESSMENT AND MILITARY ROLLS.

The estimate of \$19,000 was reduced to \$15,000, that amount being ample. This work can be done and the compensation determined at fair rates so as to come within the estimate.

BURIAL OF INDIGENT DEAD.

The estimate of \$2,500 was reduced to \$2,000, the same amount as the last year. As the contract for this fiscal year is at a less rate this appropriation ought to be sufficient.

REVENUE ORDERS.

139

CORONER'S INCIDENTAL EXPENSES.

The estimate of \$2,000 was reduced to \$900, all that the statute allows for that purpose. The committee, however, apportioned the appropriation for repairs to and furniture for public buildings so as to allot for increasing and improving the present Morgue the sum of \$2,000.

EXAMINATION OF INSANE.

The estimate of \$4,000 was reduced to \$3,630, certainly a sufficient sum for that service. The Superior Judges appoint two physicians to examine persons who are alleged to be insane; and with all due deference, if the same care and judgment were exercised in the appointment and allowance for compensation therefor, this service could be performed within that amount.

It is true that under the statute physicians are allowed \$5 for each examination of insane persons, but it has been so construed and so allowed for every person examined whether insane or not. While this is the construction and allowance, abuses and large expenditure may occur; it is therefore, competent and advisable for some attention to be paid to this matter to the end that this expenditure may be controlled. The physicians are regularly employed, and in no event should their bills be allowed to exceed \$15 each per month. There is certainly no lack of competent, experienced physicians who would esteem this service well paid at those figures if selected and appointed for that duty. The estimated expenditure for the past year, ending June 30th, for this service was \$4,790.

FINANCE COMMITTEE'S EXPENSES.

The estimate of \$3,600 was reduced to \$3,000. This expenditure is principally for the payment of an expert accountant who is constantly employed at a monthly compensation of \$150 to examine the books and accounts of all officers who have the collection, custody, or disbursement of public moneys, and is a most effective means to check mistakes and insure the collection and payment to the Treasury of the fees, fines, etc., collected in the different departments. The services of this expert is supplemented as occasion requires by others in order to facilitate and keep the surveillance constant so as to be productive of good results. These services lead directly to reform in the management of the departments and are of service to the incumbents.

FIRE-ALARM AND POLICE TELEGRAPH EXTENSION AND REPAIRS.

The estimate of \$15,000 was reduced to \$10,000, the statutory allowance, and is undoubtedly sufficient, taking into consideration the fact that the salaries in addition aggregate \$8,100, while the Police Patrol system augments the facilities of communicating alarms of fire, etc.

HOUSE OF CORRECTION.

The estimate of \$50,000 was reduced to \$47,421, which is deemed adequate for the support of this institution. It is to be regretted that no action was taken by the last Legislature to amend the statutes to prohibit further commitments of criminals to this institution, as heretofore recommended by our predecessors, who justly stigmatized this institution as a State prison pure and simple, maintained at the expense of this city and county. It serves no good purpose, but is one of those institutions which originated in a mistaken conception of redeeming criminals by imprisonment other than in the State Prison. The State provides and compels labor on the part of its prisoners; they are enabled to learn a trade and perform other duties which are not and never can be inaugurated at this institution except at an enormous expense.

Until the Legislature takes action this city and county is powerless to abolish the useless and unjust expenditure incurred in the maintenance of this institution. It is true that while some work is performed on the county roads by the inmates and all that is possible is done, yet no substantial benefit accrues to the taxpayer or to the prisoner, the scope of the institution being limited to the imprisonment and safe-keeping of the prisoners, which can best be accomplished by the State, the only self-evident purpose of the institution being one of the avenues through which public money can be expended without adequate return.

JURY EXPENSES—CRIMINAL CASES.

The estimate of \$1,000 was reduced to \$500.

LAW LIBRARY.

The estimate of \$600 was reduced to \$500. This, with the salaries amounting to \$3,300, should suffice for all the wants of this institution. This department is supported in addition principally from the fees collected on the filing of suits, and is liberally fostered and supported.

FINANCIAL EXHIBIT AND

PENSIONS FOR RELIEF OF AGED AND DISABLED FIREMEN.

The estimate of \$5,000 was reduced to \$2,000. As no demands were made upon this fund during the present fiscal year, there appears to be no reason for making any larger appropriation. In case of a greater amount being required, it can be met from the subdivision set aside for urgent necessity purposes.

POLICE CONTINGENT EXPENSES.

The estimate of \$7,200 was reduced to \$5,000. The liberal allowances made for various purposes of the Police Department will offset any reduction made in this contingent expense account.

PRINTING TRANSCRIPT IN CRIMINAL CASES.

The estimate of \$3,000 was reduced to \$1,800, a sufficient amount, it is believed, to enable the County Clerk, under Section 1,246 of the Penal Code, in criminal cases after a notice of appeal is filed to transmit to the appellate court, within twenty days, fifteen printed copies of the notice of appeal, the record, the bills of exception, also to serve copies on the defendant's attorney and Attorney-General. This is one of the additional burdens imposed by the Legislature of 1886.

REPORTERS' EXPENSES—CRIMINAL CASES.

The estimate of \$30,000 was reduced to \$20,000. This expenditure is solely controlled by the courts without check, and the compensation under the decisions of the Supreme Court is paid by the Treasurer upon orders drawn by the respective Judicial Departments. The compensation for transcribing has been lately reduced from 20 cents to 15 cents per folio, and this reduction, although probably in excess of what might be considered reasonable, will effect a marked decrease in this expenditure, particularly if the work that is absolutely required is only performed.

SMALLPOX HOSPITAL.

The estimate of \$5,000 was reduced to \$3,000. If unforeseen circumstances should occasion a larger expenditure it could be met by payment from the subdivision set aside for urgent necessity purposes.

STATIONERY FOR MUNICIPAL OFFICES.

The estimate of \$25,000 was reduced to \$15,000, a decrease of \$5,000 from the appropriation for the last fiscal year. In addition to this appropriation allowances have been made for rebinding and recopying records in the following-named departments: County Clerk, \$750; Recorder, \$750; Tax Collector, \$1,650. The work in these offices must be performed speedily to preserve the records, the books in the Tax Collector's office especially being in a condition that necessitates their immediate rebinding and the necessary expense incurred.

In this connection it appears to be a practice (which was believed to be characteristic only of a retiring State Legislature) upon the retiring officers of an administration vacating their offices for their successors, that all articles of stationery, of whatever nature or kind, disappear, and this is evidenced from the supplies of stationery required by the incoming officers. In addition, there appears to be a perfect recklessness in requisitions and demands for stationery wholly irreconcilable with the actual wants. Extravagance and carelessness are the only reasons for enormous supplies demanded. Your committee are of opinion that the sum of \$1,250 is more than adequate to supply the various departments with all the required stationery, and in that view recommend that the Committee on Printing and Salaries be instructed to devise and enforce some method by which the expenditures from this fund can be controlled and the supplies furnished and their disposition accounted for from time to time.

URGENT NECESSITY.

The estimate of \$36,000 was reduced to \$34,000 in making adjustment of other expenditures. This subdivision of the General Fund is available for all purposes not otherwise provided for, and is drawn upon and used in the payment of all demands which are urgent and which are not by law chargeable to other accounts. From this subdivision deficiencies are met and the control as to its disposition is vested in the Board for such purposes as may be deemed essential and desired for public purposes.

WATER FOR MUNICIPAL PURPOSES.

The estimate of \$80,000 was reduced to \$75,000, an increase of \$5,000 over the amount appropriated last year. In case of any deficiency in this allowance it will be trivial, and can be met without any great tax on the subdivisions of the General Fund set aside for urgent necessity purposes at the close of the fiscal year.

ASSESSOR'S DEPUTIES.

The estimate of \$50,000 was reduced to \$40,000, a reduction of \$20,000, being \$10,000 less than the amount appropriated last year. This amount should be more than sufficient, taking into consideration the amount expended the past year in this department. It is well known that the latitude exercised year after year in the employment of extra deputies to the full extent of the appropriation, and even beyond that limit, seems to be a custom which has grown by what it fed upon. The experience gained by an incumbent of this office the first year seems to have no practical results in the reduction of expenses the succeeding year, for it seems the greater familiarity with the duties simply leads to increased demands for extra deputies. Among many of the departments where retrenchment is imperative, this is one that the people expect will be conducted on something like a business basis. Every incentive is given to this officer to ignore demands for places, but patronage seems to control its operations, and every incumbent is impressed with the great amount of labor and the number of hours which, under the system, the deputies have to work to perform their duties. This persistency in urging increased appropriations if it was not expensive would be amusing, but it is the reiteration of statements like this alone that form the basis for extravagance and uncalled for expenditures.

The present Assessor is pledged to an economical administration of this department, and from his well known popularity and reputation there can be no doubt that if his business tact is used in the conduct of this department the amount allowed will not be all expended. The assessment of personal property can be conducted on a simple basis by competent, energetic deputies allotted to their duty and constrained to perform good and faithful service; or, failing in that, forfeit their places. It is understood and expected that under the present administration of this office the compensation allowed the Assessor of 15 per cent on the collection of poll taxes will be used in part in the payment of poll tax collectors and not be made the business of deputies paid by the city to perform that service.

This custom of the city paying for this service, it is alleged, has been a practice of Assessors for years past, until it has become by precedent an established rule, and it is time that a change was made in a custom not sanctioned by law or justified by any precedent. The facts are that the Assessor in this allowance of 15 per cent for the collection of poll taxes after paying the cost of collection embracing poll tax collectors, postal card notices or other books or stationery required, will net a handsome income from this source independent of his salary. Your committee, impressed with this interpretation of the law, will aid the Assessor in the enforcement of this much needed reform, and when effected, this Board and the public will hear no more complaint that this appropriation is not enough to allow the employment of sufficient deputies.

A proper system, with competent and reliable employees, will effect a radical reduction in the expenditure of this office, and we have no doubt that the Assessor will demonstrate his ability in inaugurating a system against all precedent to bring about the reform which the people demand.

The appropriation for this department is as follows:

| | |
|--------------------------------------|----------|
| Salary of Assessor | \$4,000 |
| Salaries of Assessor's Deputies..... | 24,300 |
| Salaries of Extra Clerks..... | 40,000 |
| Total..... | \$68,300 |

The regular office force has monthly salaries which aggregate \$24,300 per annum. That force alone should, if intelligently directed and employed, accomplish the principal portion of the work.

The expense of stationery, independent of the assessment books, aggregate a large amount and calls for retrenchment.

COUNTY CLERK'S DEPUTIES AND COPYISTS.

The estimate of \$80,000 has been reduced to \$72,000, the amount at which the present incumbent stands pledged to maintain his office. This is somewhat a peculiar office; this pledge has been exacted from candidates of both political parties, and with but two notable exceptions appears to have been totally disregarded. As it happened, one of the incumbents, a Democrat, and the other a Republican, kept this pledge and were not favored with re-election; one received a renomination but was defeated, and the other did not succeed in securing the nomination. These incidents are mentioned, as they are taken advantage of to extenuate a violation of the pledge, for the reason that while the law sanctions and warrants an expenditure greatly in excess, which can be exercised and imposed, there is no appreciation of the official who confines the expenditures to the limit imposed and further, that the passage of any general statute by which the Legislature subsequent to the

FINANCIAL EXHIBIT AND

pledge absolves compliance therewith. These assumptions are so puerile, so unworthy, so devoid of any sentiment of public probity or honor, that they are simply alluded to as showing the expedients resorted to to justify the violation of a solemn pledge, so untenable that it is a violation of the principle for ages established as an edict more binding than any legal statute, that the pledge given by a person which could not be enforced by law was such an obligation that if disregarded and not kept to the letter stamped the person forever after as dishonored and unworthy. The person who desires a nomination is not constrained to take the nomination if a pledge is exacted which in his judgment is improper or cannot be kept. It is taken of his own free will, and when he performs his duty in conformity with that pledge, it is duty well done and he has simply justified the public confidence in his selection to administer the affairs of the office. No man or set of men can violate their solemn pledges and maintain their reputation on any pretense.

JANITORS OF CITY HALL AND HEAD PORTER.

The estimate of \$23,900 was reduced to \$23,000, the same amount allowed last year. Your committee are informed that the Committee on Public Buildings are endeavoring to reduce the large force of janitors now employed. If practicable a very commendable proceeding and if accomplished with a due regard to the public service will be a creditable example in the work of retrenchment.

POLICE OFFICERS.

The estimate of \$550,000, embracing an increase of one hundred officers with additional sergeants and detectives, was reduced to \$561,600, on the assumption that while the Legislature at its last session had given this Board discretionary power to increase the force, yet the power was to be exercised from time to time as exigencies might require. This question of additional police protection was carefully considered, the result being that your committee were impressed with the fact that an addition of fifty men would be fully adequate, twenty-five to be appointed at the commencement of the fiscal year and the remaining twenty-five on January 1, 1892.

This addition has been provided for and doubtless will be found to be the correct procedure to gradually increase the force to an extent that will increase its efficiency without imposing an unnecessary burden on the taxpayers. A further reference will hereafter be made as to the expenditures and the means appropriated for police service.

RECORDER'S FOLIO CLERKS.

The estimate of \$30,000 was reduced to \$20,000, the same appropriation as that of last year. Your committee fail to see why this amount is not a liberal allowance. Under the system at present adopted the books for recording of mortgages are printed in blank. The body of the mortgages of the various blanks similar in form, being all printed, only require the filling in of names, dates, consideration and description of property, etc. This serves a double purpose—prevents mistakes and saves copying the major part of the instrument. It is a question whether the city is entitled to pay for the printed matter of this character, and while it has been the custom, this does not as a precedent justify its continuance. The Recorder, like other officers, being pledged to an economical administration, cannot fail to retrench the expenditures of this department by a conscientious consideration and determination of this matter in the interests of the tax-payers, which your committee expect will be done.

SUPERINTENDENT OF PUBLIC STREETS DEPUTIES.

The estimate of \$25,000 was reduced to \$19,200, the same amount allowed last year. It is confidently assumed that the present incumbent, also pledged to an economical administration, will conform to this appropriation and second the efforts to demonstrate the fact that retrenchment in expenditures can be effected without impairing the efficiency of the department.

TAX COLLECTOR'S EXTRA CLERKS.

The estimate of \$50,000 was reduced to \$35,000, an addition of \$5,000 over the amount allowed last year. The extra duties imposed in the change of the revenue laws by the last Legislature will undoubtedly increase the labors of the Tax Collector, but to what extent is not clear until the status of the amendments are ascertained and judicially interpreted. It was hoped that the City and County Attorney would have been enabled ere this time to have given his opinion on the question submitted to him or suggested some action to obtain a decision of the Supreme Court as to the force and effects of said amendments.

SECOND STREET BRIDGE, \$15,000—FOURTH STREET BRIDGE, \$30,000.

The estimates for these bridges have been stricken off. It is a question whether the first named

bridge, owing to contemplated improvements, will have to be constructed, and with ordinary repairs the latter bridge will not require to be replaced this fiscal year.

SIXTH STREET BRIDGE.

The estimate of \$25,000 for the construction of a steel drawbridge has been stricken off and the cost of said structure transferred to the Street Department fund, to which it is properly chargeable.

WITNESSES EXPENSES IN CRIMINAL CASES.

The estimate of \$3,000 was reduced to \$2,000, a sum deemed adequate. This expenditure without any check is solely within the control of the judges of our criminal courts on whose order, under a decision of our Supreme Court, the Treasurer is compelled to pay the sums named in the respective orders.

BOARD OF EQUALIZATION CLERKS.

The estimate of \$1,500 was reduced to \$1,201, a sufficient compensation for the service to be rendered.

ENGINEER, FIREMAN, ELEVATOR CONDUCTORS AND WEIGHER.

The estimate of \$4,500 was reduced to \$4,450, a sum sufficient to pay the salaries.

HOSPITAL.

The estimate of \$80,000 was increased to \$82,000, being \$10,000 more than was appropriated last year. It does not appear to be somewhat of a task to criticise a public institution devoted to the assistance of the unfortunate and sick, but it is undoubtedly the desire of the people to have this institution maintained creditably and to have every person appointed to any position, whether officer or employee, devote his time and energies to carry out the beneficent purpose of this institution, in carefully attending and ministering to the wants of the inmates. This institution is under the charge of the Board of Health, who appoint the officers and employees and define their duties, and your committee are of opinion that this board will aid the Hospital Committee by carrying out and enforcing any measures to improve its condition or insure the comfort and proper treatment of inmates that may be suggested. It is confidentially believed that a careful and judicious enforcement of proper rules will regulate the expenditures and demonstrate the amount to be a sufficient allowance.

INDUSTRIAL SCHOOL.

The estimate of \$40,000 was increased to \$42,000, a sum deemed necessary to meet the expenses of this institution. This arises principally from the large number of girls who are committed to this school for leading idle and dissolute lives, and for which through an imperative arrangement are transferred to the Magdalen Asylum under the care of the Sisters of Mercy, and for whom the city is required to pay \$15 per month for each girl, aggregating the sum of \$15,602 for the year. This action was judicious and expedient, in view of the fact that the building owned by the city would not admit of proper care and scrutiny being exercised, and the separation of the sexes with the limited accommodation was practically impossible. The general results, so far as the girls are concerned, show a great and marked improvement, a large percentage, owing to the care and education received, are reclaimed, and while the expenditures are large, the results are gratifying. This is not the case, unfortunately, with the boys. Many of them are committed to the school for limited periods as a punishment, in many instances, for petty crimes, and, notwithstanding the greatest care, the association of the boys, as a general rule, debases and degrades. While there are some notable exceptions, yet, it must be acknowledged, the purpose, so far as reclaiming the boys, is a failure. This institution, like all others that fail of their mission, should be abolished. It is a disgrace to the city and an injury to the boys, and it is the duty of this Board, as soon as the State Reform Schools are in operation, to have the boys committed to one or the other of those institutions. These Reform Schools, when instituted, are modeled after those now in operation in the East, and are conducted so as to enforce education and military discipline, with means of learning trades, etc., so that the boys committed to those institutions are so trained, educated and disciplined to become a credit instead of a disgrace to the State.

Your committee have corresponded with the Superintendent of the Whittier State Reform School, and will soon be advised as to the completion of that building, and the time, terms and conditions under which boys who are a public charge can be received.

JUDGMENTS AND OUTSTANDING INDEBTEDNESS.

The amount of \$47,289 is provided for the payment of judgments and outstanding indebtedness. The expenditures not under control of this Board have far exceeded the appropriation.

FINANCIAL EXHIBIT AND

made therefor, as for instance: the election expenses exceeded the appropriation \$28,454; short-hand reporters, \$3,626; witnesses' expenses in criminal cases, \$970; while in addition the estimates made so far show a larger expenditure in some of the public departments creating additional indebtedness, the hospital indebtedness of \$12,500; the Fire Department, \$8,267; subsistence of prisoners, \$5,276; while water and street lights aggregate \$17,000. This will, it is anticipated, be met partially by balances, and by this appropriation, as all legal indebtedness of the city and county must be met.

SPECIAL COUNSEL.

The estimate of \$500 was increased to \$1,000, that amount, in lieu of the \$5,000 provided by the statute, being deemed sufficient owing to the increase in the staff of the City and County Attorney's office, which office is now so organized as to be enabled, with the exercise of diligence and assiduity, to attend to all the legal business of the city and thus dispense with the services of special counsel. The appropriation of \$1,000 was made to pay for special counsel for services required to support the validity of the general orders of the Board which were lately jeopardized by an erroneous interpretation of a decision of the Supreme Court entertained by the law officers of the Criminal Departments of our courts, which resulted in a loss of revenue through the omission to impose fines commensurate with the offenses. This state of affairs has been remedied by special counsel and a great saving secured in a late decision of the Supreme Court which has settled the question raised as to invalidity of the ordinances.

MARKET INSPECTORS.

The estimate was increased \$2,700 to allow the appointment of three Market Inspectors by the Board of Health at a monthly compensation of \$75. The representations made by Dr. Le Tourneux of the Board of Health, that the proper inspection of meat, fish, fruit, etc., could not be performed by one Market Inspector; and that a due regard for the public health required at least four competent persons, was so apparent, that your committee conceded the justice of the demand. In addition to inspection of slaughter houses and markets where meats, fish, game, fruit, etc., are offered for sale, the various wharves require constant attention to prevent the sale and secure the seizure and condemnation of supplies of food unfit for human use.

REBINDING BOOKS, ETC., IN COUNTY CLERK'S, RECORDER'S AND TAX COLLECTOR'S OFFICES.

The estimate of \$2,500 was increased to \$3,150 by the addition of \$650 to the amount for rebinding books in the Tax Collector's office, the necessity for which is reported upon.

CITY CEMETERY SUPERINTENDENT.

The estimate of \$451 was increased to \$900, the annual salary of the Superintendent appointed by the Board of Health. Whatever may be the disposition of the City Cemetery, it is probable that the services of a Superintendent will be required during the entire fiscal year. It is anticipated that the United States Government will condemn the property. In that case the service of the Superintendent will be required to supervise the removal of the remains of decedents therein interred.

HOSE, HYDRANTS AND APPARATUS FOR THE FIRE DEPARTMENT.

And additional appropriation of \$29,958 has been made outside of all statutory requirements to aid in equipping this department for effective service; a further reference will be made to the appropriations allotted to the Fire Department. The Auditor's estimate for the

| | | |
|---|-----------|-------------|
| General fund is..... | | \$2,476,600 |
| The foregoing reductions aggregate..... | \$275,329 | |
| While the additions amount to..... | 86,087 | |
| Which results in a reduction of..... | | 189,242 |
| Estimated General fund..... | | \$2,287,358 |

LIBRARY FUND.

The estimate of \$40,000 was reduced to \$35,000, making the same appropriation as that of last year. This fund is for the support of the Free Public Library and its several branches. While this institution is one to be encouraged and fostered, it is believed that this amount will be ample for the present fiscal year. Your committee were constrained to fix this appropriation with the understanding that a more liberal allowance will be made to assist in its development the next fiscal year.

when a larger amount will be available. Owing to the additional burdens imposed by the Legislature no greater concession could be made.

SCHOOL FUNDS.

The estimate of \$1,000,000 for the support and maintenance of the common schools was increased to \$1,066,241 to pay the teachers of the public schools for one-half of one month's salary, due in June, 1889; also, another one half of one month's salary due in June, 1891, aggregating the increase allowed. A further reference to this matter will be made.

NEW CITY HALL.

The estimate of \$305,000 was reduced to \$198,250 while the statute allows a levy of 10 cents on each \$100 valuation of taxable property, your committee are of the opinion that the amount allowed will afford all the funds needed in the prosecution of the work of fitting up the unfinished portions of the building that can be accomplished during the year. It does not follow that as a reasonable proportion even if the law permits, a levy should be made to increase the burden of the tax payer unnecessarily, when a less sum is sufficient and a reasonable allowance. The legislation that contemplates an expenditure of public money on the assumption that a certain sum must be spent is simply a legislative encouragement of extravagance. The taxing power conferred upon the Board to complete the City Hall Building is more than ample, and while every citizen desires to see so far as that is now possible, its completion in a creditable manner, so as to become an ornamental as well as useful structure, there can be no doubt that the people are beginning to be surprised at the large amounts that are yearly swallowed up in the construction of and alterations in this building.

In this connection your committee are impressed with the conviction that a just and reasonable construction of the powers of the Board of City Hall Commissioners in fitting up the rooms for occupancy, imposes the duty upon said Board to construct all the permanent fixtures required for the officer or department for which they are designed in a manner corresponding to the character of the building; this view is believed to be the opinion and determination of the present Board.

The foregoing embrace all the alterations made in the estimates of the Auditor, and the results are herewith presented:

| | AUDITOR'S ESTIMATE. | ESTIMATE OF BOARD. |
|---|---------------------|--------------------|
| General Fund..... | \$2,476,600 | \$2,287,358 |
| Library Fund..... | 40,000 | 35,000 |
| Park Improvement Fund..... | 183,000 | 183,000 |
| School Fund..... | 1,000,000 | 1,066,241 |
| Street Department Fund..... | 400,000 | 400,000 |
| Street Lights..... | 315,000 | 275,000 |
| Sinking Fund and Interest accounts..... | 153,429 | 153,429 |
| New City Hall Funds..... | 305,000 | 198,250 |
| Totals..... | \$4,873,029 | \$4,598,278 |

The reduction effected aggregates \$274,751, and a reduction of the estimated tax from \$1 12 to \$1 03.

FINANCIAL EXHIBIT AND

The levy being determined at that figure, it is proper to demonstrate that it is in consonance, and not in conflict, with the line of duty marked out for the Board to adopt. The result, therefore, is as follows :

| | | TAX. | REVENUE FROM TAXATION. |
|---|-----------|------|---------------------------|
| Running Expenses of City Government..... | | .82 | \$2,501,000 |
| New City Hall..... | \$198,250 | | |
| Sinking Fund and Interest Accounts—Debt..... | 145,180 | | |
| Deficiencies, Teachers' Salaries..... | 66,241 | | |
| Judgments and Outstanding Debts..... | 47,829 | | |
| Park Improvement..... | 183,000 | .21 | 640,500 |
| Total levy raised by taxation.... | | 1.03 | \$3,141,500 |
| Estimated revenue from other sources..... | | | 1,456,778 |
| Total estimated revenue and expenditures..... | | | \$4,598,278 |

A reduction of \$251 was made in the Auditor's estimate of the revenue to be derived from other sources than taxation from the Park Improvement Bonds of 1872-73 to offset that amount provided by levy in the interest accounts in excess of the estimated amount. The various funds, estimated and actual receipts from taxation, and the amount of levy are herewith shown :

| | ESTIMATED RECEIPTS. | RATE OF TAX. | ACTUAL RECEIPTS. |
|--------------------|------------------------|-----------------|---------------------|
| General | \$1,454,829 | .4770 | \$1,454,850 |
| Library..... | 35,000 | .0115 | 35,075 |
| Park | 183,000 | .0600 | 183,000 |
| Schools..... | 476,241 | .1561 | 476,105 |
| Streets | 374,000 | .1226 | 373,930 |
| Street Lights..... | 275,000 | .0902 | 275,110 |
| Funded Debts..... | 145,180 | .0476 | 145,180 |
| City Hall..... | 198,250 | .0650 | 198,250 |
| Totals..... | \$3,141,500 | \$1 03 | \$3,141,500 |

These receipts will be augmented, the actual exceeding the estimated valuation of the taxable property.

The foregoing shows that the pledge as to taxation has been complied with and your committee believe that all the subsidiary recommendations and instructions have been as fully met as provided for and intended.

FIRST—THE SCHOOL FUND :

The amounts provided for the School Department are as follows :

| | |
|--|-------------|
| Teachers salaries..... | \$325,000 |
| Maintaining common schools..... | 175,000 |
| Total..... | \$1,000,000 |
| Superintendent, Deputy Superintendent and Secretary's salaries.... | 9,400 |
| Deficiencies in teachers' salaries..... | 66,241 |
| Total..... | \$1,075,641 |

This does not represent all the expenditures, as this Board provides for the payment of water rates out of the General fund, and for all street work chargeable to school lots out of the Street Department fund.

This being the most important branch of our Government, it is especially desirable to aid it in all efforts to extend and secure the benefits and advantages of a common school education to all our children. This department is one hard to control, for its influence is mighty and far reaching, but something must be done for the advancement of education. Our primary schools and grammar schools must be adequate for all requirements, and sufficient accommodation provided therefor in different portions of the city, where demanded.

This, we believe, is what our citizens expect and demand, and some retrenchment must be brought about to remedy the existing complaints. The ability and experience of the present Superintendent would be of valuable assistance in remodeling the whole system, and, without doing injustice to anyone, secure a radical reform and economical administration, if his views were indorsed and enforced.

The amount of \$825,000 (the Auditor's figures) is specially set aside and designated for teachers' salaries, but that in no way authorizes that expenditure if, by consolidation of classes, or otherwise, that amount is more than sufficient. While it is the duty of the Board of Education to apportion the amount allowed for the different expenditures, and not to draw on one subdivision for the purpose of paying a demand properly chargeable to another, yet this duty has been neglected, year after year. The teachers are made to suffer by being deprived of a portion of their salaries; the money being, without warrant or authority, diverted from, and used for other purposes.

Your Committee is pleased to know that the present Board of Education, also pledged to reform and economy, will set aside the amount provided for salaries of teachers, and for other purposes, by establishing the amount of the various subdivisions for expenditures as required by law. As the Auditor has declared this to be his purpose in auditing demands on the School Fund, the Board will have valuable assistance.

It is possible that the sum of about \$30,000 will be received from the State, in addition to the amount estimated (as anticipated by the Superintendent) from the distribution of the moneys in the State Treasury from the Grammar School Fund.

There seems, therefore, to be no reason that with the appropriation (an increase of \$40,000 over that of last year) all the additional requirements imposed under the pledge can be attained.

SECOND—THE FIRE DEPARTMENT :

The remarkable pertinacity with which the demands of this department are presented is not characterized by good judgment, for while this Board is aware of the propriety of furnishing additional fire protection, there is nothing attempted to be done to reduce the present expenditures, and it does not clearly appear but that, with the present means and a desire to stop extravagant expenditures, all reasonable wants could be met.

The appropriations made are as follows :

| | |
|---|-----------|
| Fire Department material..... | \$30,000 |
| Fire Department, running expenses..... | 80,000 |
| Fire Department employees salaries..... | 270,000 |
| Hose, hydrants and apparatus, additional..... | 29,953 |
| Total..... | \$409,953 |

As indicated, the salaries have been increased \$20,000, and for additional hose, hydrants and apparatus \$29,958 has been provided in addition to the \$30,000 provided by statute. This ought to be sufficient to afford additional protection to the outlying districts, especially if the affairs of this department are vigilantly watched and extravagance checked.

The question in abeyance, of the reorganization of the Fire Department, has been relegated to the courts, this Board having passed an order and appointed Commissioners to that end, but the incumbents refused to recognize the appointees of this Board, and thus the matter stands until a final decision of the courts. This action, when taken, will also test the question of the power and authority of this Board to make fully paid fire companies in certain districts, for unless the appointment of Commissioners can be made by the Board no legal power exists to make any increased appropriations for the Fire Department, or to enlarge the number of employees, or make fully paid companies. The statute of 1877-78, under which the present department is operating, defines the power and the manner in which it can be exercised in the maintenance of said department. The peculiar condition and relation of the employees of the Fire Department and the results of the combination for political purposes by means of the so-called Charitable Fund, has heretofore been reported upon by your committee, and if the order heretofore presented and recommended is passed by your honorable Board, an important change will be made to aid in rendering great service to the department in increasing its efficiency.

THIRD—THE POLICE FORCE :

The expenditures for this branch of our government are rapidly increasing, and while a necessity exists to afford this protection to our citizens in all parts of the city, considerable progress has been made in so utilizing the services of our present force as to equal an increase of about fifty men. This was claimed to be the effect of instituting the Police Patrol, which under the direction of the Chief of Police and the Superintendent of the Police Telegraph is being rapidly extended, and when completed it will almost be equivalent to an increase of one-third the number of the present officers. The appropriation for the fiscal year is as follows:

| | |
|--|-----------|
| Salaries of Commissioners and Chief of Police..... | \$9,400 |
| Police officers | 561,000 |
| Police contingent expenses..... | 5,000 |
| Police Department rents..... | 3,250 |
| Police Patrol..... | 40,000 |
| Total..... | \$619,250 |

Your committee, within the pledge, believed that an increase of fifty men in all, this fiscal year would answer every reasonable demand.

FOURTH—THE PARK IMPROVEMENT FUND :

This, under the pledge, was to be provided outside the limit for the improvement of this one popular resort of our people and one of the properties which every citizen and stranger within our borders can enjoy. It is about the only municipal property of which our citizens feel proud, and it seemed to your committee that the tax required of 6 cents (or \$183,000) would find a hearty indorsement in the heart of every taxpayer who loved his fellow-man. It is the people's park, for their enjoyment and recreation, and a source of pride to every citizen.

Some further duties, however, are imposed upon the Park Commissioners as charges against this fund, and that is to perform the duties consequent upon having jurisdiction of Point Lobos avenue (Statutes 1877-78, page 967). The question of the improvement of this avenue and the specifications were duly approved and recommended by the Board of Park Commissioners, the property-owners assuming the expense of the work, and this improvement should be protected and kept in order out of the Park Improvement Fund.

Your Committee require that at least four mounted Park police be appointed and paid out of said fund, two of said officers to patrol Point Lobos avenue in the daytime and two during the night time, to afford protection to the residents and travelling public; also, to keep in repair that portion of Point Lobos avenue which has been improved; also, to extend that service when any additional and continuous portion is improved; also, to keep said avenue sprinkled. This is essentially a Park road, and that was the design of the Legislature in conferring jurisdiction upon the Park Commissioners, the language of the statute being as follows: "Said road is hereby placed under the control and management of the Park Commissioners having charge of Golden Gate Park, who shall have all the powers, and be subject to the same duties respecting said road, as if the same had

been originally part of said Park, and all acts relating to said Park, so far as the same may be applicable, are hereby extended to said road."

STREET DEPARTMENT.

The operations of this department are necessarily so diversified as to be practicably invisible as to the amount of work done. The repairs of the various streets and sewers and the keeping of the same in good order and repair, is a pledge that, like others, must be kept. That a large amount of money can be frittered away to very little purpose is true, and therefore the economical administration of this department requires probably more care and scrutiny than any other.

The present Superintendent, having some municipal experience, will undoubtedly justify his selection and discountenance all efforts to influence him to select his officers and employees other than for their competency to fulfill their varied duties. A great deal depends upon the efficiency of this department in securing the comfort and health of our citizens and in protecting property-owners against designing contractors, who to carry out their purposes, resort to all artifices to compel property-owners to submit to their dictation in the matter of street work.

The power is vested in the Superintendent to employ men, horses and carts to repair the streets and sewers which require to be kept in order at the public expense; to direct the cleaning of the streets and sewers; to supervise the manner of and the work to be performed in repairs to the county roads and the public squares under the direction of this Board. All these duties, unless in charge of competent and trustworthy deputies and employees who use the greatest vigilance, are apt to be improperly done, to the great discredit of the administration, and result in an unwarranted expenditure of the public moneys. The position of the Superintendent is no sinecure if his mind and energies are devoted to insure the public good streets and sewers, and to perform his manifold duties so as to show the best results for the money expended. The appropriation of \$400,000 made for the department, in addition to salaries, has been apportioned to and for the following purposes, all of which are deemed of sufficient importance to require specific mention, as follows:

| | |
|--|-----------|
| For repairing and cleaning streets and sewers..... | \$263,500 |
| For completing the Channel-street intercepting sewer on Brannan street, from Fourth street to Potrero avenue..... | 60,000 |
| For repairing county roads..... | 10,000 |
| For construction of the Sixth-street bridge..... | 26,500 |
| For improving Alta Plaza..... | 10,000 |
| For improving other squares..... | 30,000 |
| For salaries of Superintendent and deputies..... | 23,200 |
| Total for Street Department..... | \$423,200 |

The appropriation for completing the Channel-street intercepting sewer in Brannan street, from Fourth street to Potrero avenue, has become an indispensable precaution to afford an outlet for a very large district. The failure to complete this sewer after an expenditure of about \$350,000 in the purchase of land, and the construction of the sewer in Channel street, from Ninth to Eighteenth streets, and in Brannan street, from Fourth to First streets, is unaccountable. Nothing calls for more speedy action than this improvement, as the health, lives and property of thousands of our citizens are in jeopardy from the want of drainage facilities.

The other subdivisions speak for themselves, and are all for improvements that demand and merit consideration and attention. The sweeping of the streets, also, invites close attention; the large monthly demand, if the work is well done, ought certainly to suffice to provide clean streets and be sufficient to thoroughly clean and keep clean all the streets that are paved and planked.

The power of appointing inspectors, vested in the Superintendent, to supervise all work done on the streets, whether under public or private contract, at the expense of the property owners, also demands close scrutiny. The appointment of reliable and intelligent men who understand something about the character of the material to be used, and the work to be performed, is imperative; for these, or other public positions, are not created, or should not be used, solely for personal or political reasons.

STREET LIGHTS.

The necessary concomitant of civilization is lighted streets. This our citizens are and have been clamorous for, in consequence of the large increased area which has been built upon and im-

proved. The demands are just and your committee have increased the appropriation \$25,000 over that for the last year, making the total appropriation \$275,000.

This sum, if equally divided between gas-light and Electric-light, will enable an increase of 321 gas lamps and seventy electric lights of 2,000 candle-power on masts forty feet in height. This increase, judiciously placed, will no doubt be satisfactory. In case of a reduction in the rates now charged, in the near future further additions can be made. A recapitulation of the appropriations to carry out the pledges given the people show that they have been fully complied with :

| | |
|------------------------|--------------------|
| Common Schools..... | \$1,075,641 |
| Fire Department..... | 409,958 |
| Police Department..... | 619,250 |
| Park Improvement..... | 183,000 |
| Street Department..... | 423,200 |
| Street Lights..... | 275,000 |
| Total..... | <u>\$2,986,049</u> |

This is the exhibit ; out of a revenue of \$4,598,278 the sum of \$2,986,049 is required and appropriated for the purposes deemed imperative. These figures are the strongest argument that could be presented to show that the people are right in limiting expenditures, and that their representatives, as honorable men, are bound to carry out their views. It does seem that this large amount of money properly expended, will result in giving all the advantages and making all the improvements demanded by the people. The citizens, who subsequent to the meetings of the political conventions that nominated candidates for the suffrages of the people, have, in and out of season, declared it to be the duty of this Board to raise the limit of taxation, have not appreciated the sanctity of the pledge and are mistaken as to the mode in which the rate of taxation can be better defined or increased.

In order to obtain the people's views, let them apply to the conventions and have inserted in the platforms fixed amounts for each of the departments as well as the limit of the tax to be imposed—the people will then decide.

In conclusion, without entering into details, the increased amount placed at the disposal of the Board is fully accounted for, and your Committee trusts that the apportionment so made of the revenue will be satisfactory, as it is designed to promote the best interests of the people.

Your Committee submit the order prepared fixing the levy at \$1 03 in each \$100 valuation of taxable property for the fiscal year 1891-92, and recommends its passage.

Also, an order fixing the levy at \$14 35 on the enhanced values of property liable for the widening of Dupont street, to pay the interest and five per cent of the principal, and the interest of the Dupont Street Bonds for the fiscal year 1891-92, and recommends its passage.

L. R. ELLERT,
JAMES B. BURLING,
D. B. JACKSON.

The report presented was read and adopted by the Board. The Order fixing the tax levy at \$1.03 on each \$100 valuation of property, for city and county purposes, was passed for printing by a unanimous vote ; also, an Order fixing the levy at \$14 35 on each \$100 of the enhanced values of the property benefited by the widening of Dupont street, to pay the interest and five per cent of the Dupont street bonds.

The following is a copy of Order No. 2398, passed by the Board and approved by His Honor Mayor Sanderson, fixing the levy for municipal purposes at \$1.03 on each \$100 valuation of assessable property for the fiscal year 1891-92, to wit:

ORDER No. 2398.

PROVIDING REVENUE FOR MUNICIPAL PURPOSES FOR THE FISCAL YEAR
ENDING JUNE 30, 1892.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. Under and in pursuance of Acts of the Legislature of the State of California, and in conformity thereto, and under and in pursuance of various municipal orders and ordinances and in conformity thereto, there is hereby levied a tax for city and county purposes for the fiscal year ending June 30, 1892, on all property, both real and personal, in the City and County of San Francisco, excepting such property as is by law exempt from taxation, the sum of one dollar and three cents (\$1 03) on each one hundred (\$100) dollars valuation of said taxable property upon the assessment book for said fiscal year, which sum of one dollar and three cents (\$1 03) on each one hundred (\$100) dollars valuation as aforesaid, is hereby apportioned to the funds and accounts known and designated as follows:

| | |
|--|--------------|
| General Fund..... | 4953 |
| Street Light Fund..... | 0902 |
| Street Department Fund..... | 1226 |
| School Fund..... | 1561 |

| New City Hall Fund..... | 0650 |
| Park Improvement Fund..... | 0600 |
| Interest Account, Park Improvement bonds, 1874-75..... | 0049 |
| Interest Account, House of Correction bonds..... | 0033 |
| Interest Account, City Hall Construction bonds..... | 0043 |
| Sinking Fund, City Hall Construction bonds..... | 0110 |
| Sinking Fund, House of Correction bonds..... | 0024 |
| Sinking Fund, Park Improvement bonds of 1874-75..... | 0034 |
| | <hr/> 1.0300 |

In Board of Supervisors, San Francisco, June 22, 1891.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Burling, Curtis, Ayer, Ellert, Carnes, Coffee, Heyer, Hunt, Taber, Wilkinson.

Absent—Supervisors Evans, Jackson.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, June 22, 1891.

GEO. H. SANDERSON,
Mayor and ex-officio President Board of Supervisors.

The following classification of the estimated expenditures of the municipal government, aggregating \$4,598,278 for the fiscal year 1891-92, is herewith presented.

ESTIMATED EXPENDITURES

PROVIDED FOR MUNICIPAL PURPOSES—FISCAL YEAR 1891.

| MUNICIPAL PURPOSES. | AMOUNT. | TOTAL. |
|--|----------|-------------|
| COURTS AND LAW DEPARTMENTS. | | |
| Attorney and Counselor's Department..... | \$18,800 | |
| Court Reporters in Criminal Cases..... | 20,000 | |
| District Attorney's Department..... | 21,200 | |
| Grand Jury Expenses..... | 1,000 | |
| Interpreters in Criminal Cases..... | 7,500 | |
| Jury Expenses in Criminal Cases..... | 500 | |
| Justices Court..... | 18,000 | |
| Police Courts..... | 22,800 | |

| WATER. | | |
| Water for Municipal Purposes..... | 75,000 | 75,000 |
| Total Estimated Expenditures..... | | \$4,598,278 |

FINANCIAL EXHIBIT AND

The Board of Supervisors finally passed Order No. 2,400 on, June 29, 1891, in pursuance of the statute regulating and limiting the monthly public expenditures to one-twelfth part of the annual appropriations for the fiscal year ending June 30, 1892, of which the following is a copy, to-wit :

ORDER No. 2400.

Regulating and designating the limit of expenditure of the various offices and departments of the City and County of San Francisco for the fiscal year ending June 30, 1892.

The People of the City and County of San Francisco do ordain as follows :

SECTION 1. That each and every Board, officer and department of the City and County Government shall be and is hereby limited in their respective expenditures during each fiscal year to the actual amount of money estimated as sufficient for such Board, Officer or Department at the time of making the annual tax providing funds for the maintenance of the City and County Government for such fiscal year, and to one-twelfth part thereof each month.

SECTION 2. The amount of such estimate provided by the Board of Supervisors for the various Boards, Officers and Departments for the fiscal year ending June 30, 1891, is as follows :

| PURPOSES. | AMOUNT. |
|---|------------|
| SALARIES | |
| Advertising for municipal officers | \$4,000 00 |
| Almshouse..... | 80,000 00 |
| Burials of indigent dead..... | 2,000 00 |
| City Cemetery improvement..... | 200 00 |
| Coroner's incidental expenses..... | 900 00 |
| Coroner's chemical analyses..... | 600 00 |
| Examining insane..... | 3,600 00 |
| Finance Committee expenses..... | 3,000 00 |
| Fire Alarm and Police Telegraph extension and repairs..... | 10,000 00 |
| Fire Department material..... | 30,000 00 |
| Fire Department relief..... | 1,500 00 |
| Fire Department running expenses..... | 80,000 00 |
| Gas Inspector's expenses | 200 00 |
| Health Department..... | 5,000 00 |
| Health Department quarantine launch..... | 5,500 00 |
| Health Department, jail and prisons, medicine, etc..... | 4,000 00 |
| Horse keeping for prison purposes..... | 600 00 |
| Hospital expenses..... | 82,000 00 |
| House of Correction..... | 47,421 00 |
| Industrial School..... | 42,000 00 |
| Law Library expenses..... | 500 00 |
| License Collectors' tags, numbers and blanks..... | 1,000 00 |
| Mayor's contingent expenses..... | 1,800 00 |
| Police contingent expenses..... | 5,000 00 |
| Police patrol..... | 40,000 00 |
| Police Department rents..... | 3,250 00 |
| Poundkeeper's expenses..... | 500 00 |
| Prisoners, subsistence of..... | 25,000 00 |
| Public buildings, fuel | 5,000 00 |
| Public buildings, furniture and repairs \$13,000, Morgue \$2,000..... | 15,000 00 |
| Public buildings, lighting..... | 25,000 00 |
| Publishing law and motion calendars..... | 2,400 00 |
| Recorder's newspapers..... | 100 00 |
| Registration and election expenses..... | 5,000 00 |

In Board of Supervisors, San Francisco, June 29, 1891.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Jackson, Burling, Curtis, Ellert, Carnes, Coffee, Heyer, Hunt, Taber, Wilkinson.

Absent—Supervisors Evans, Ayer.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, June 30, 1891.

GEO. H. SANDERSON,
Mayor and ex-officio President Board of Supervisors.

The Finance Committee presented the following report at a meeting of the Board of Supervisors on July 27, 1891, showing the condition of the Funds and Accounts of the fiscal year 1890-91, reporting amount of deficiency existing; the amount required to meet outstanding obligations, and recommending transfers of certain moneys to meet a portion of the liabilities of the City and County, to wit:

REPORT OF FINANCE COMMITTEE.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN:—Your Finance Committee, in the matter of the expenditures of the funds of the fiscal year 1890-91, which are under the control of your Hon. Board, and other expenditures of the municipal government, of which your Hon. Board has no knowledge as to the amount until the close of the fiscal year,

Would respectfully report, that notwithstanding persistent efforts to procure the presentation of all outstanding demands against the Treasury during the first week of the present month, many demands were not presented by Departments and individuals, causing annoyance to your Committee and the consequent delay in the presentation of this report as to the financial outcome of the fiscal year ending June 30, 1891.

The unfortunate custom of changing officers at the expiration of one half of the fiscal year necessarily complicates questions affecting the expenditures, for while one administration in the exercise of its judgment contracts for or authorizes liabilities involving a larger expenditure than may be warranted by the condition of various special funds, but which would necessarily be provided for, if the practice was to have one administration conduct and complete the business of the entire fiscal year, it follows that a succeeding administration does not and cannot take any other guide upon which to base its operations than the fixed allowance, particularly when the wants and necessities of the government require in its opinion such expenditure.

This is very evident from the fact that various liabilities are incurred to promote in the best manner the interests of the government, the expenditure for which does not fall due until the work is performed or the supplies furnished, which in some cases is months and years afterward, and in such instance, the estimate of the expense to be incurred cannot be accurately determined.

The Finance Committee of the preceding administration made a report showing the condition of the various appropriations and funds under the control of the Board, and after making such deductions on account of balances to offset overdrafts on other subdivisions and funds, reported the estimated deficiency up to January 5, 1891, to be the sum of \$42,146 63. The same difficulties in the presentation of outstanding demands was experienced, and as a result, many of the liabilities incurred were not and could not readily have been ascertained, as many including large amounts were not presented until the last month of the fiscal year—notably the demand for the grading of Steiner street from Fulton to Hayes street, in front of Alamo Square, amounting to \$12,324 70, the work being only completed during the last month of the fiscal year, although the contract therefor was awarded on May 19, 1890 (being in the fiscal year 1889-90). Expenditures of this character are inseparable from the administration of public business, and while the liabilities are created by a former Board, the work—as in this case—is mainly performed, completed and paid for under a succeeding Board. Such expenditures, therefore, must be charged to the Board which authorized and contracted the liabilities. For that reason, in addition to the expenditures shown, the subsequent expenditures of the present Board made in settlement of the liabilities so created, are charged to the preceding administration, as shown in detail in the schedule accompanying this report, the amounts being as follows:

REVENUE ORDERS.

159

Expenditures made and liabilities incurred in excess of appropriations up to January 5, 1891—

| | |
|---|-------------|
| Estimated expenditures in excess of allowances after credit with bal- ances unexpended, as reported by Finance Committee January 2, 1891 | \$42,146 63 |
| Liabilities incurred prior to Jan. 5, 1891, and subsequently paid— | |
| General and Special Fee Funds..... | \$7,733 05 |
| Street Department | 21,601 09 |
| | 29,334 14 |
| Total expenditures and liabilities | \$71,480 77 |

The expenditures made and liabilities incurred during the fiscal year in excess of appropriation are as follows—

| | |
|---|--------------|
| General and Special Fee Funds | \$120,629 02 |
| Street Lights | 6,292 84 |
| | \$126,921 86 |
| Less balance in Street Department Fund after payment of all liabilities.. | 1,989 45 |
| Excess of expenditures over appropriation for fiscal year | \$124,932 41 |

The expenditures and liabilities incurred in excess of appropriations were as follows :

| | |
|---|--------------|
| From June 30, 1890 to January 3, 1891. | \$71,480 77 |
| From January 5, 1891, to June 30, 1891. | 53,451 64 |
| Total excess of expenditures over appropriations. | \$124,932 41 |

The foregoing shows the exact amount expended during the fiscal year just closed, in excess of the appropriations under the control of the Board of Supervisors ; but while presenting that feature it does not exhibit all the credits that might be shown by so-called balances of appropriations unexpended for the purposes for which they were provided, while full credit is given to our predecessors by taking their figures, which undoubtedly they had a right to assume, yet at that time, if a settlement could have been made it would have shown that a portion of the balances claimed had been appropriated for other purposes: as for instance, the unexpended balances of appropriations aggregate \$20,913 19, which if deducted on the same principle would reduce the expenditure of the present Board to \$32,538 45 in excess of the appropriations, but the funds have been depleted and the amounts absorbed for other purposes of the government.

The estimated receipts for the General and Special Fee Funds from taxes, fees, fines, etc., were \$2,192,800 00
While the actual receipts as per Auditor's statement aggregate 2,187,856 73
Making a deficit of \$4,943 27
in the estimated revenue of fiscal year 1890-91.

In response to a request of your committee, the Auditor on June 9, 1891, furnished the following statement of the condition of the following funds at that date, to wit:

AUDITOR'S STATEMENT—CONDITION OF FUNDS JUNE 9, 1891, OF THE FISCAL YEAR 1890-91.

| FUND. | OUTSTANDING AUDITED DEMANDS. | CASH ON HAND. | OUTSTANDING. | CASH. |
|-------------------------------------|------------------------------------|------------------|--------------|------------|
| General | \$155,995 04 | \$84,271 58 | \$71,723 46 | |
| Special Fee | 7,783 59 | 13,073 07 | | \$5,289 48 |
| Street Department | 1,090 16 | 36,446 53 | | 35,356 37 |
| Street Light | | 15,552 24 | | 15,552 24 |
| Police Relief and Pension | 3,958 00 | 26,432 61 | | 22,474 61 |
| Disinterment | 200 00 | 3,910 60 | | 3,710 00 |

FINANCIAL EXHIBIT AND

The liabilities of the city and county for the fiscal year 1890-91 are represented and determined by the unpaid demands, and as shown by the statement annexed are as follows:

Unpaid demands fiscal year 1890-91—

| | |
|---|--------------|
| General and Special Fee Funds | \$120,629 02 |
| Street Light Fund | 6,292 84 |
| | <hr/> |
| | \$126,921 86 |
| Less balance in Street Department Fund after payment of all liabilities.. | 1,989 45 |

| | | |
|-----------------|-------|--------------|
| Total | <hr/> | \$124 932 41 |
|-----------------|-------|--------------|

| | | |
|--|--|----------|
| Unpaid demands, other departments, as per schedule, not under control of the Board | | 3,739 42 |
|--|--|----------|

Auditor's Statement, July 9, 1891—General and Special Fee Funds—

| | |
|---------------------------------------|--------------|
| Audited demands outstanding | \$163,778 63 |
| Cash on hand | 97,344 65 |

| | | |
|--|--|-----------|
| Total unpaid audited demands | | 66,433 98 |
|--|--|-----------|

| | | | |
|--------------------------------|--|-------|--------------|
| Total unpaid demands | | <hr/> | \$195,105 81 |
|--------------------------------|--|-------|--------------|

This is the showing, and from the data furnished makes the deficiency a startling one. It is evident, however, that unless departments can be bound down all alike, deficiencies will occur when the limited amounts provided are exceeded. The large amounts expended annually under decisions of the Supreme Court based on existing statutes sweep away all the restrictions which at one time appeared to be ample to confine the expenditures of the government within the appropriations.

The expenditures referred to, of which this Board has no cognizance until the close of each fiscal year, and for which no responsibility can attach to the Board, either directly or indirectly, are as follows:

| | |
|---|--------------|
| Registration and Election Expenses | \$28,473 17 |
| Witnesses' Expenses | 1,010 90 |
| Reporters' Expenses | 11,291 35 |
| County Clerk's Department | 9,754 54 |
| Recorder's Copying Clerks | 11,124 40 |
| District Attorney's Deputies Salaries | 841 65 |
| City and County Attorney's Deputies Salaries | 2,233 31 |
| Health Expenses | 268 36 |
| Miscellaneous—Salaries, etc. | 824 88 |
| Street Department—Salaries | 4,350 84 |
| | <hr/> |
| Expenditures not under the control of Board | \$70,173 40 |
| Expenditures and liabilities in excess, under control of the Board for the fiscal year | 124,932 41 |
| | <hr/> |
| Total deficiency | \$195,105 81 |

As all legal indebtedness of the city ought to be met and paid, the duty devolves upon this Board to make such provision as will liquidate this indebtedness without interfering with the payment of other obligations incurred, and this can only be accomplished by the strictest scrutiny into all expenditures, and so regulating the same as to prevent extravagance, and as this Board and the various municipal officers are so pledged, unison in this endeavor will accomplish this purpose without impairing the efficiency of the various departments.

The available resources to meet a portion of this deficiency, and which must be utilized for that purpose in order to prevent serious inroads on the appropriations of the fiscal year 1891-92, are as follows

REVENUE ORDERS.

161

1st. A transfer of \$15,000 from the Police Relief and Pension Fund to the General Fund of fiscal year 1890-91. This will leave a balance of \$11,432 61, a sum which, with the additions received from fines, licenses, etc., during the fiscal year will be more than ample to meet all demands.

2d. A transfer of \$3,500 from the Disinterment Fund, which leaves a balance of \$210 in the fund to meet the expenditures for the salary of the Inspector of Disinterments until additional fees are received.

3d. The appropriation of \$47,829 made for the fiscal year 1891-92 for judgments and outstanding indebtedness will be used as intended to meet outstanding obligations.

4th. The sum of \$10,000 out of the appropriation specially made for hose, hydrants and apparatus of the Fire Department for the fiscal year 1891-92, to pay in part the expenditures made during the fiscal year 1890-91 in excess of the appropriation.

5th. A transfer of the sum of \$12,318.20 from the Sinking Fund, Montgomery avenue bonds, and a transfer of 95 cents from Coupon Account, Montgomery avenue bonds to the General Fund of the fiscal year 1890-91, being the balances remaining in said Fund and Interest Account. As all the proceedings in reference to Montgomery Avenue are void, the Supreme Court having passed upon the question and decided no jurisdiction had been acquired to inaugurate this proceeding, no other disposition of this money can be made; it can't be recovered by the persons who paid it in, nor can it be expended for the purpose for which it is purported to be raised. It may be incidentally stated in addition that the City and County holds twelve bonds received for damages awarded by reason of land taken out of lots owned by the city in the projection of said avenue.

6th. The following transfers are also recommended to be made of funds and deposits which belong to the city and county, or are not available for any other purpose.

| | |
|--|----------|
| From Montgomery avenue fund..... | \$317 51 |
| From street assessment fund, old..... | 11 52 |
| From taxes on money paid out of the fund collected for the widening of Kearny street..... | 203 31 |
| From taxes of 1863-64 paid under protest..... | 44 60 |
| From deposit on purchase of City Slip Lot sold February 24, 1866. | 337 50 |
| | <hr/> |
| | \$914 44 |

The money in the Montgomery Avenue Fund of \$317.54 belongs to the city and county, the city holding a warrant against same for over double that amount. The amount credited as taxes for widening of Kearny street, and for 1863-64, also belongs to the city and county, as does the balance of the deposit on account of the purchase of a City Slip Lot.

Thus the sum provided will aggregate :

| | |
|--|-------------|
| From the Police Relief and Pension fund..... | \$15,000 00 |
| From the Disinterment fund..... | 3,500 00 |
| From judgments and outstanding indebtedness..... | 47,829 00 |
| From Fire Hose and Hydrants..... | 10,000 00 |
| From Montgomery avenue fund..... | 12,319 15 |
| From miscellaneous funds and deposits..... | 914 44 |
| | <hr/> |
| Total amount available | \$89,562 59 |

This leaves the sum of \$105,543.22 to be provided for. Your Committee have therefore provided to transfer, as shown, the amount of \$31,733.59 to the General Fund, of the fiscal year 1890-91, to meet obligations. Of that amount, \$6,292.84 to be transferred from the General Fund to the Street Light Fund of 1890-91, to meet the obligations on that Fund. The remaining liabilities when examined and approved, to be allowed from time to time as funds may accumulate and be spared for their liquidation. The amount of \$57,829 being provided under the tax levy for judgments and outstanding indebtedness, and for expenditures of Fire Department of the fiscal year 1890-91, to be expended in payment of the same in the fiscal year 1891-92. The outstanding demands, as stated, embrace all the liabilities of the city and county as presented, but as yet not passed upon or adjudicated. In the estimate of outstanding demands, the sum of \$15,000, for payment for what is known as Shag Rock, and other demands which may or may not be necessary to pay, are included.

Your Committee further recommend that a special deposit in the treasury amounting to \$29, as a contribution for the purchase of a piano made many years ago, is also recommended to be transferred to the School Department Fund.

It is scarcely necessary to particularly recite the expenditures and the unpaid demands included in the deficiency, the amounts of which are shown in the annexed schedule, but it is proper to state that all of these demands before being passed by the Board, will be thoroughly examined, and such as are from the amount of supplies purported to be furnished out of all proportion to the requirements of the institution or department, will be reduced to a reasonable figure or rejected, particularly if the same have been furnished without proper authority.

The gross amount of all demands have been included in the statement of the total deficiency, and therefore as yet have not been investigated or passed upon either as to their correctness or as to the authority under which the liabilities were contracted, and this of itself may make considerable reduction in the sum total.

Your Committee are of the opinion that no legal demand on the treasury can be refused audit or payment, and therefore, it is the duty of the Auditor to audit all legal demands properly passed and allowed, and of the Treasurer to register and pay the same in the order of their presentation. Any other action would inevitably lead to litigation and judgments against the city for the amounts due, with added costs, which would largely increase the liabilities besides injuring the credit of the city and unnecessarily putting creditors to uncalled for delay and expense in obtaining their just dues, a course of action which every good citizen would reprehend. The litigation in respect to claims for services performed and supplies furnished has been for years past determined by the Supreme Court in favor of the claimants, and the city has been compelled to pay the same with costs and interest, so that the principle once annunciated by the Supreme Court that each year's expenditure should be met and paid for out of the revenue of said year, has been abandoned and a new principle established.

This is just, that a municipal government, like an individual, should be bound to pay all its just legal obligations. The appropriations made some years ago for various purposes with a view to limit expenditures in various departments in the matter of salaries in the Superintendent of Streets, County Clerk's Department, Shorthand Reporters, etc., were of no avail, for the Supreme Court held that the salaries and compensation should be paid, notwithstanding the same were in excess of the appropriations—those decisions, therefore, to the extent of the amount so drawn in excess of the several appropriations, created a deficiency, and debarred the payment of other claims which were provided for, but could not be paid out of the funds of that year, because the amounts had been used in the payment of other claims under the decision of our highest judicial tribunal. This, therefore, as is the case every year, would not, and did not render other demands illegal, because there were no funds of that fiscal year for their payment. These claims were passed, audited and paid out of the surplus, if any, or the revenue of the succeeding fiscal year.

As in the case of expenditures made by this Board, contracted over one year ago, amounting in the aggregate to a considerable sum, the work was performed, the claims were just, and, notwithstanding the lapse of time, were paid, because the work was performed within the time allowed.

In conclusion your Committee desire to state that it is the duty of this Board—as of all Boards—to control and limit the expenditures, within the amounts provided, but exigencies occur and expenditures are made or liabilities are created that are justifiable, and investigation demonstrates their propriety. In addition, mistakes and errors of judgment occur from inexperience, and what is true of a business-house in its management is equally true in the management of municipal affairs that many transactions take place that with experience will not again occur. These are incidents inseparable from the management and direction of private or public affairs.

Your Committee can appreciate no reason, legal or otherwise, for the assumption that those demands for services and supplies furnished, which make up the deficiency, have now no legal standing, and are therefore debarred from being allowed until their status is judicially determined.

The disposition of this indebtedness of the fiscal year 1890-91, by its gradual allowance from time to time during the present fiscal year, commends itself as being proper and judicious action alike fair and honorable to the city and county and its creditors, as well as an especial reason for the practice of economy and retrenchment.

The annexed schedules are herewith submitted as a part of this report:

June 9th, 1891.

L. R. ELLERT, Esq., Chairman Finance Committee.

DEAR SIR:—Above you have statement, as requested. If this does not convey the information desired, the books of this office will give you full details at a moment's notice, and on your request will be furnished without the least delay.

Respectfully yours,

THOMAS J. L. SMILEY,
Auditor.

L. R. ELLERT,
JAMES W. BURLING,
D. B. JACKSON.

The foregoing report of the Finance Committee was adopted as the action of the Board on the adjustment and settlement of the liabilities from time to time of the fiscal year 1890-91, the gross amount of all demands received being taken as the actual deficit. The recommendations of the Finance Committee as to the transfers of money were embodied in the following resolutions adopted by the Board on July 27, 1891, to wit:

TRANSFER RESOLUTIONS.

RESOLUTION No. 5545 (Third Series).

RESOLVED, That the Treasurer be and he is hereby empowered and required to transfer the sum of \$29 from special deposit made to provide a piano for a public school to the School Department Fund of 1890-91.

The attention of the Auditor is hereby called to the provisions of this resolution.

RESOLUTION No. 5546 (Third Series).

RESOLVED, That the Treasurer be and he is hereby empowered and required to make the following transfers from the following funds and accounts of the fiscal year 1890-91 to the General Fund of said fiscal year:

The sum of \$15,000 from the Police Relief and Pension Fund.

The sum of \$3,500 from the Disinterment Fund.

The sum of \$1,989 45 from the Street Department Fund.

The sum of \$12,318 20 from Sinking Fund of Montgomery avenue bonds.

The sum of 95 cents from interest account of Montgomery avenue bonds.

The sum of \$317 51 from the Montgomery Avenue Fund.

The sum of \$203 31, being the taxes of 1872-73 and 1873-74 on money paid out of fund for the widening of Kearny and Third streets.

The sum of \$44 60, being taxes of 1863-64 paid under protest.

The sum of \$337 50, deposit on account of the purchase of a city slip lot on February 24, 1866.

RESOLVED, That the Treasurer is further empowered and required, on making said transfers to the General Fund, to re-transfer from the General Fund out of said moneys the sum of \$6,292 84 to the Street Light Fund to meet outstanding obligations for the fiscal year 1890-91.

The attention of the Auditor is hereby called to the provisions of this resolution, and he is hereby required to take such action as may be necessary to carry out its provisions.

In order to carry out the intention of the Board to provide for the payment of the outstanding indebtedness, the following resolution was also adopted on the above date, to wit

RESOLUTION No. 5544 (Third Series).

RESOLVED, That the Auditor be and he is hereby empowered and required to audit and the Treasurer to register and pay all lawful demands upon the Treasury representing outstanding indebtedness of the city and county prior to July 1, 1891, out of the respective funds of 1891-92 to which the same may be chargeable, as allowed and ordered paid by this Board.

At a meeting of the Board held on July 18, 1891, for the purpose of hearing applicants for correction of assessments on the Assessment Book of Real Estate and Improvements for the fiscal year 1891-92, Messrs. L. C. Morehouse, R. H. Beamer, J. R. Hebborn and Jabez S. Swan, members of the State Board of Equalization, appeared and were heard as to the assessments made in comparison with the appraisal of estates; also as to other differences which appeared in the assessment of personal property. Further, as to the value and assessments of real estate, etc., in comparison with the amount of mortgages and the failure to assess mortgages held by savings banks up to the full amount loaned, and represented that it was the duty of the Board of Supervisors to investigate every assessment made without waiting for sworn applications, and equalize and adjust the same according to the cash value. In order to give the Board of Supervisors the opportunity, on request the State Board of Equalization extended the time for one week to enable the Board to take such action.

At a meeting of the Board of Supervisors held on July 27, 1891, the Finance Committee presented a report of which the following is a copy, relative to the expressed views of the State Board of Equalization in reference to individual assessments and the aggregate amount of the Assessment Roll of the City and County, of which the following is a copy, to wit:

REPORT OF FINANCE COMMITTEE ON ASSESSMENT OF 1891-92.

To the Honorable Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: Your Finance Committee, in the matter of the action recommended to be taken in the matter of assessments on personal property and on real estate by the State Board of Equalization, would respectfully report that the action recommended to be taken as to the assessments contained in the assessment-book is impracticable, and while every disposition exists on the part of this Board to assist in the equalization of the separate assessments contained therein, it has been the purpose of the Assessor to so adjust the assessments rateably and equitably as to afford no just cause for complaint, and it was so conceded by the members of the State Board that for the limited period of time the present Assessor had been in office that he had been doing all in his power to make proper assessments, but that nothing more could be reasonably expected this fiscal year.

That being the case, it could not follow that the Board of Supervisors should act as Assessors and go over the assessment on real estate and improvements as contained in fifty volumes, and ascertain and determine the exact assessable values, in a period of two weeks as allowed by the Political Code, or in an extension of an additional week as granted by the State Board.

The question of the assessments of personal property for the fiscal year 1891-92 is not within the purview of the Board, the assessment of personal property under the Act of 1873-74 in this city and

county being made and completed on the first Monday in June, the Board having passed upon the assessments contained in the Assessment Book of Personal Property and completed their labors on the fourth Monday in June; this Board has, therefore, no jurisdiction now to inquire into said assessments. In this connection, however, it is well to state that the attention of this Board was called to the assessment upon estates, the appraisal showing a great disparity between the assessments and appraisements made of estates. While such is the case it must be taken into consideration that the parties having charge of estates wherein a large amount of personal property figures make it their especial province, by converting the assets of said estates into Government securities and gold notes, to evade taxation for the very purpose of defeating any attempt to impose an assessment to cover its appraised value, and such is the case in the estate cited by the members of the State Board. The Assessor requires sworn statements to be made of large estates, and these show the fact of the personal property and assets being so converted.

That incongruities may occur in making assessments of personal property is undoubted, but this is inseparable from the fact that every effort is made to defeat the Assessor in making assessment valuations, and the assessment roll in San Francisco is not, and cannot in any respect be, different from other counties in that particular.

That the Assessor has endeavored, in the limited time he has occupied the office, to assess personal property, is shown by the increase of \$1,328,903 in the Assessment Book of Personal Property this year over that of last year.

If increased labor and a vigilant endeavor to find out and assess all personal property fairly and equitably is only desired, this result ought to show to unprejudiced persons that the Assessor is earnestly striving to perform his duty in this particular.

In the matter of the assessment of real estate and improvements, that also shows an increase of \$9,296,217 over last year. What more can be reasonably expected; that increase alone speaks volumes as to the vigilance of the Assessor in making assessments conform to the increase of values that are now being claimed to land, etc., in this city and county.

The large increase of values upon which these assessments are based, may or may not be legitimate, and outside property has undoubtedly assumed enhanced values more from the energetic efforts of real estate speculators than by reason of a healthy and warranted appreciation of values, and are subject from the slightest cause to materially fluctuate and decrease in value.

In the matter of the assessment of land and mortgages referred to by members of the State Board of Equalization as being somewhat lower in cases where the loans are made by savings banks this is a disparity that may be explained in this, that the Assessor has not had sufficient time to thoroughly go over and examine the properties referred to, the principle in this city and county heretofore being to assess all property, incumbered or otherwise, proportionately, and it is believed at a much higher rate than prevails in other counties of this State.

It is well known that while 60 per cent is loaned on city property by these institutions, not to exceed 40 per cent is loaned on property in other counties, and on this basis property is assessed higher in this than other counties.

These objections seem to be concentrated on this county as regards our assessment, and instances are cited which, from a superficial standpoint, are assumed to represent the basis on which our assessments are made.

This is wrong and unjust. This city and county has no desire or intention to evade, but insists upon a just assessment of all property, and, as stated, while examples may be cited as showing some assessments are too high and others too low, yet the grand total of the assessed value of the property of this city and county of \$312,062,960 is, if anything, a higher assessment than the real values warrant, and in so far as the increase of \$10,624,920 this year in the valuation over that of last year, it shows conclusively that whatever errors there may be, the only injustice that has been done is the excessive total valuation of the real and personal property of this county for the fiscal year 1891, the truth of which can be verified by an intelligent and experienced inquiry into the value of the property of this city and county.

The amendments to the revenue laws only provide hereafter for one Assessment Book, comprising personal property and real estate, so that all subsequent inquiries and investigations will be re-

quired to be made by this Board in the period allowed by law, namely, two, and not to exceed three, weeks, if the time should be extended by the State Board.

This limited time shows conclusively that some power should be vested in the Board to inquire into and ascertain the basis upon which the assessments are made prior to the time when the Board meets to examine assessments contained in the Assessment Book, so that some definite information should be in possession of the Board to pass upon individual assessments.

While some alterations may, by this means, be made to separate assessments, either by raising or lowering the same to the cash value, and remove some of the objections by showing that the impressions as at present voiced by members of the State Board of Equalization do not, and could not, affect the aggregate valuation, yet it would tend to the benefit of the individual tax payer.

Our representative on the State Board, as shown by the position taken and enunciated by him at a meeting of the Board of Supervisors, shows that he has been earnestly endeavoring to do justice to the entire State, and he deserves commendation for that endeavor to perform his duty without any other than an honest and conscientious motive. While giving our representative full credit for his expressed intentions, in all fairness we desire this gentleman to consider that a cursory examination of our assessment and assessment values will not warrant him in making up his mind and basing his action on any assumptions or prejudices that he may entertain, originating from instances in which he is of opinion that proper assessments have not been made, without facts and investigations to warrant these assumptions, and that, therefore, the aggregate assessment does not represent the total values of the property of the city and county.

Your committee are aware that, with a little more time and experience to deal with and investigate a matter of this importance, he will ascertain clearly and conclusively that the aggregate valuation of the property of this city and county is comparatively higher than that of the property of any other county in this State, and that to carry out his purpose of dealing out fair and exact justice he will honestly and energetically endeavor to effect at least 10 per cent reduction of the aggregate assessment of this county by the State Board of Equalization, of which he appears to be an earnest and eloquent member.

In 1886 lands and improvements thereon were assessed at \$175,409,145. In 1891 lands and improvements are assessed at \$244,651,885, showing an increase of \$69,242,720. This is 40 per cent increase during the last five years, our population in the meantime increasing but 12 per cent. These figures call for the thoughtful attention of all, and it is well to consider what can be the motive of the State Board of Equalization in even suggesting an intent to increase the burden of taxes upon this community.

L. R. ELLERT,
JAMES W. BURLING,
D. B. JACKSON.

The following communication from the State Board of Equalization was received, stating that said Board proposed to increase the entire assessment roll of San Francisco; also that the Board would consider all objections which might be made to such increase on August 18, 1891, to-wit:

OFFICE OF STATE BOARD OF EQUALIZATION, }
SACRAMENTO, August 11, 1891. }

*To Jno. A. Russell Esq., Clerk of the Board of Supervisors
Of the City and County of San Francisco:*

SIR: Please take notice and inform the Board of Supervisors of the City and County of San Francisco that the State Board of Equalization, having examined the assessments upon the Assessment Book or Roll for the year 1891, for said county, proposes to increase the entire Assessment Roll or Book of said county for said year, except property exempt from increase, for the purpose of making the assessments conform to the true value, in money, of the property contained on said roll, so as to equalize the value of the taxable property of the several counties in the State for the purpose of taxation.

The Board will consider all objections which may be made to such increase, at its office in the Capitol, at Sacramento, on Tuesday the 18th day of August, 1891, between the hours of 9 A. M. and 5 P. M.

Respectfully yours,

CHAS. M. COGLAN,

Clerk State Board of Equalization.

At the request of Supervisor Ellert, who telegraphed and wrote to the State Board, the hearing of the case of San Francisco was postponed until Tuesday, the 25th day of August, at which time representatives of the city, comprising His Honor Mayor Sanderson, L. R. Ellert and James W. Burling of the Finance Committee, Assessor John D. Siebe and F. C. Siebe, Deputy Assessors Miesagaes, Tyrell and Maloney; also Messrs. Wendell Easton and Thomas Magee, real estate dealers, presented the case of San Francisco to the State Board of Equalization, giving data on which their objections were based to any increase of the assessment roll.

The Assessor presented various statistics obtained from other counties to show the basis upon which the assessments had been made therein, with similar statistics of San Francisco, from which it was shown the assessment of San Francisco was in excess of the same.

The following is a table of said comparisons as furnished by the Assessor :

TABLE

SHOWING REAL ESTATE SALES FROM THE FIRST MONDAY IN MARCH, 1890, TO
NIA, TOGETHER WITH THE ASSESSMENT PLACED THEREON BY THE
ASSESSMENT AND COMPARING IT WITH

The State Board of Equalization (consisting of L. C. Morehouse, Chairman; R. H. Beamer, J. R. Hebborn, Jabez S. Swan and E. P. Colgan), notwithstanding the able presentation of the case of San Francisco by its representatives, ordered on September 2, 1891, that the entire assessment roll of the City and County of San Francisco for the fiscal year 1891-92 be increased by adding thirty per cent. to equalize the assessment of the property, and to make the same conform to its true value. On September 8, 1891, the Auditor received the notice of said increase by the State Board, of which the following is a copy:

OFFICE OF STATE BOARD OF EQUALIZATION,

SACRAMENTO, September 7, 1891. }

To Thomas J. L. Smiley, Esq.,

Auditor of the City and County of San Francisco:

SIR: Please take notice that on the 2d day of September, 1891, the State Board of Equalization ordered that the entire assessment roll or book for 1891 of the City and County of San Francisco be increased by adding thirty per centum to the valuation of all the property listed therein, exclusive of the apportionment made by this Board of the assessment of railways to said county, so as to equalize the assessment of the property contained on said assessment roll, and make the assessment conform to the true value, in money, of the property contained on said roll; provided, that neither moneys, solvent credits, nor mortgages, deeds of trust, contracts, or other obligations by which a debt is secured, are raised above their face value. When the property to be raised is not subject to a deduction, by reason of a mortgage or deed of trust, the per centum may be added to the amount of the total column valuation.

In all cases where the property is subject to a mortgage or trust deed, the percentage must first be added to the assessment of the property affected, and the deduction made from the increased assessment, and the change must correspondingly be made in the total value column, otherwise there will be a less amount of taxes raised than is necessary for State purposes.

To illustrate: Suppose "A" is assessed for a tract of land valued at \$1000, subject to a mortgage for \$500, the remainder assessed to "A" would be \$500, and the percentage, say 10 per cent., added would be \$50, and the amount upon which taxes would be levied upon "A's" property would be \$550. But as the increase by the State Board is based upon the theory that "A's" property has been so undervalued as to need an addition of 10 per cent. to bring it to an approximate true value, it is evident that the 10 per cent. should be added to such property.

The addition of the 10 per cent. would increase its assessed value to \$1100, and the remainder, after deducting the mortgage, would be \$600, subject to taxation.

Where a mortgage, deed of trust, contract, or other obligation by which a debt is secured, appears to have been assessed below the amount due thereon, as is often done by Assessors to scale it down to the low assessment of property affected, you will add the per centum to the valuation of the property affected, and then to the value of the mortgage, deed of trust, etc., and also to the amount to be deducted, provided such addition does not raise such instrument above its face value.

L. C. MOREHOUSE,

Chairman State Board of Equalization.

CHARLES M. COGLAN,

Clerk of the State Board of Equalization.

Upon the receipt of the foregoing communication from the State Board of Equalization, the Auditor, Thos. J. L. Smiley, Esq., submitted the question as to whether the addition of thirty per cent to the assessed valuation of property applied to the assessment for the City and County. The following is a copy of the opinion received:

OPINION OF THE CITY AND COUNTY ATTORNEY.

Hon. T. J. L. Smiley,

Auditor of the City and County of San Francisco:

SAN FRANCISCO, September 10th, 1891.

DEAR SIR: You request my opinion as to whether the late increase by the State Board of Equalization of 30 per cent on the assessed valuation of property in the City and County of San Francisco applies to the assessment roll for the purposes of City and County taxation, as well as for the purposes of State taxation.

My response is that this matter has been passed upon by the Supreme Court of this State.

Baldwin vs. Ellis, 68 Cal., 495.

It was expressly adjudged that any increase made by the State Board of Equalization in the assessment roll of a county was an increase for the purposes of county taxation as well as for those of State taxation.

There is and can be but one assessment roll. That roll is the roll as increased or diminished by the action of the State Board of Equalization.

The State Board of Equalization having increased the county assessment, and the Auditor having received the proper notice thereof, it becomes that officers imperative duty under Section 3730, Cal. Pol. Code, to make the requisite corrections in the whole assessment roll, and to compute the taxes payable for the several purposes.

People vs Strother, 67 Cal., 624.

Respectfully submitted,

JOHN H. DURST,

City and County Attorney.

Various consultations were had by His Honor Mayor Sanderson, the Chairman of the Finance Committee, the City and County Attorney and the Auditor, in reference to the action of the State Board of Equalization in making the 30 per cent. addition to the Assessment Book, whether applicable to the assessment made for the city and county, and the proper action to be taken.

These and other matters in connection therewith were considered, and it was decided to obtain the opinion of the Hon. E. W. McKinstry on the status of said raise, and to what applicable, was requested.

In the meantime, on Monday evening, September 14, 1891, the Finance Committee, having considered and investigated the question of the tax levy for city and county purposes, based on an assessment of the property of the city and county to raise the estimated revenue required to meet expenditures of the fiscal year 1891-92, were of the opinion that the action of the State Board had no effect upon said assessment except for State purpose, and therefore made the following report to the Board, to wit :

REPORT OF FINANCE COMMITTEE.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco :

GENTLEMEN: Your Finance Committee, in the matter of the action taken by the State Board of Equalization increasing the entire assessment of this city and county 30 per cent. for State purposes for the fiscal year 1891-2, would respectfully report that, notwithstanding the presentation on the part of this city and county to the State Board of Equalization of facts and figures relative to the assessment of real and personal property in this city and county, together with data obtained from and relative to assessments of property in other counties, showing the basis adopted and the higher valuation of property in San Francisco than in said counties, the result has been to disappoint every person who took an interest and believed that good judgment, untrammelled by bias and prejudice, would actuate the State Board of Equalization in their determination of this matter.

It is to be regretted that the power vested in the State Board of Equalization has been exercised in the arbitrary and unjust imposition of 30 per cent. to the assessed valuation of the property in this city and county for State purposes.

As indicative of the increase in the valuation of the assessable property in this city and county since the year 1881-2, the following table is presented, showing, in connection with the data furnished, the peculiar action of the State Board of Equalization in the crowning act of making the assessment of property in this city and county for State purposes largely in excess of its true value. and this action, in the judgment of your Committee, is utterly irreconcilable with the duties and obligations imposed upon the State Board :

FINANCIAL EXHIBIT AND

| YEAR. | AMOUNT OF ASSESS- MENT ROLL. | ACTION OF STATE BOARD. | STATE TAX |
|-------------|---------------------------------|-----------------------------|-----------|
| 1881-2.... | \$222,433,400 | 8 per cent. increase..... | .655 |
| 1882-3.... | 202,162,007 | No action..... | .596 |
| 1883-4. . . | 221,225,245 | 15 per cent. increase..... | .497 |
| 1884-5..... | 223,509,560 | 10 per cent. increase..... | .452 |
| 1885-6..... | 227,609,348 | 12½ per cent. increase..... | .544 |
| 1886-7..... | 230,151,009 | No action..... | .560 |
| 1887-8..... | 251,746,111 | No action..... | .608 |
| 1888-9..... | 273,389,616 | No action..... | .504 |
| 1889-90.... | 306,040,405 | 5 per cent. decrease..... | .722 |
| 1890-91.... | 301,444,140 | No action..... | .580 |
| 1891-2..... | 311,509,034 | 30 per cent. increase..... | .446 |

The question at issue, as to whether or not any relief can be obtained, seems somewhat doubtful, although if such an arbitrary power is not subject to review in order to obtain relief, then if 30, 50 or 100 per cent. can be similarly added, according to the whims and prejudices of the members of the State Board.

Without dwelling upon the legal aspect of the case, in so far as the State Board is concerned, the proper action to be taken will undoubtedly be determined by the opinion of Counsel, who will give attention to this phase of the problem, and to whom the matter has been submitted. In this connection, however, another most important feature presents itself, wholly unlooked and un-called for, and that is the assumption that the entire valuation of property for City and County, as well as for State purposes, must be increased thirty per cent. This, in the judgment of your Committee, is all wrong, and the decision of the Supreme Court in the case of *Baldwin vs. Ellis* (68 Cal. 495), which is claimed to be the authority for this procedure, is not germane to, and has no bearing upon the assessment of property in this City and County.

It is applicable to counties where the rate of county taxes is fixed on the first Monday in October of each year, at a subsequent date to the action of the State Board of Equalization, when the rates can be adjusted to raise the required revenue, and in said counties the valuation fixed by the State Board of Equalization must be the valuation of property for county as well as for State purposes. In that event no one is injured, no lesser or greater amount of revenue is collected by the action of the State Board than is estimated to carry on the government, the tax-payer is not oppressed and no revenue is collected for which there is no use.

In the City and County the situation is entirely different, for, by the provisions of the Act of the Legislature of 1873-4 (Statutes 1873-4), relative to the collection of taxes upon personal property, this City and County is expressly exempted from the provisions of the Political Code. The levy of taxes must be made for City and County purposes on the fourth Monday of June in each year. Thus the Board of Supervisors under the Statute estimate the revenue required for city and county purposes and fix the levy upon the valuation of property as then determined (prior to any action by the State Board of Equalization) to provide the necessary revenue for the support and maintenance of the City and County Government. That being done, the powers of the Board of Supervisors cease, and in so far as the valuation of property for city and county purposes is concerned, that is final and conclusive, and that assessed valuation cannot be decreased or increased, because no power exists under the law to adjust or alter the levy made on the fourth Monday in June of each year, or

to increase or decrease the assessed value of the property upon which the levy was made, or the amount of taxes to be collected based thereon, for city and county purposes.

The scope of the decision in the case of *Baldwin vs. Ellis* is predicated on the fact that no injustice can be done by the imposition of greater burdens than contemplated, in determining that there can be but one valuation of property for State and County purposes, because the power is vested in the County Boards to fix the tax rate subsequent to the action of the State Board, as the following extract from said decision shows, to wit:

"If it was not the scheme of the law that there should be but one true valuation, and that the 'one fixed by the State Board, why the enactment that the County Board shall fix the rate of taxation after the former Board has acted? It would seem as if this was the true rule of law in the 'matter, as then only can it be definitely known, upon what total amount the rate of taxation is to 'be based, and a taxpayer cannot be damaged under this construction of the statutory enactment, 'for if the valuation were less the percentage of taxation would be of necessity larger, and if by the 'action of the State Board the valuation be higher, the percentage to meet County and State expenses would be less."

This logical reasoning is very plain, there can be but one valuation, because the taxpayer cannot be damaged, as the statute in these cases provides a remedy, the levy for county purposes not being fixed until after the action of the State Board the revenue for county purposes is adjusted either by a reduction or an increase in the levy, according as the assessment roll is reduced or increased by the State Board.

The law and this decision, therefore, show clearly that the taxpayer must be protected and the purpose for which taxes are levied kept in view, so that no unjust burden be imposed, for it must be definitely determined upon what total amount of valuation the rate of taxation is to be based, and so in counties, where the levy is made after the action of the State Board, there can be but one valuation of property, and that the one fixed by the State Board.

In this city and county the converse is true, the levy for city and county purposes is fixed on the fourth Monday in June of each year on the total valuation of assessable property, and the levy and assessment so far are conclusive of the power, and, therefore, inhibits the collection of a greater or less amount than that levied, or any increase or decrease of the assessed valuation of property upon which the levy was based for city and county purposes. There must necessarily be in this city and county in all cases where the State Board of Equalization increase or decrease the entire assessed valuation of property, two valuations: one for the city and county and one for the State, upon which collections must be made, and this is but a correct interpretation of the decision in the case of *Baldwin vs. Ellis* in its applicability to this city and county:

First.—The taxpayer must not be damaged.

Second.—This is the only remedy provided for the protection of the taxpayer.

Under the assessment for city and county purposes the levy is made; the revenue estimated is collected. Who is damaged? Who has a right to complain? The assessment for State purposes is thirty per cent higher than that for the city and county, the State collects upon this enhanced valuation, the State, therefore, has no interest whatever in the moneys raised or to be raised for city and county purposes. There is no relation existing as between the State and this city and county or statute requiring that the taxpayer be compelled to pay moneys in the shape of taxes for city and county purposes into the treasury for which there is no use and for which no levy or assessment was authorized or made by this city and county, simply because the State has increased the valuation of the entire Assessment Book for State purposes.

In the case of the *People vs. Pittsburg Railroad Company*, filed October 30, 1885, wherein the Assessor, by the Act of 1873-74 in relation to personal property tax collections, was empowered to make, subsequent to the equalization of the personal property roll, a supplemental assessment list of persons and property that had escaped taxation, and on its completion to deliver said Supplemental Tax Roll for collection to the Tax Collector; it was held by the Supreme Court that this provision of the law which attempts to provide for an assessment by the Assessor which is arbitrary and absolute, without the possibility of equalization by the Board of Supervisors, as it provides for assessments to be made after the time within which the Board can act, is violative both of the Constitution of the State and of the Fourteenth Amendment of the Constitution of the United States, in that it deprives the person assessed of an opportunity to appear before the Board for the purpose of contesting the amount assessed against him.

It follows that if an increase of the assessment is made for city and county purposes the taxpayer is deprived of his opportunity to be heard, and the action would be in violation of his constitutional rights and render said increase of the assessment void and of no effect.

In the matter of the increase of the entire assessment roll for State purposes, the same reasoning does not apply in view of the decision of the Supreme Court in the case of Wells, Fargo & Co. vs. State Board of Equalization, filed September 18, 1880, wherein it was held that while the State Board had no power to increase individual assessments, it had power to increase the entire assessment so as to make it conform in the judgment and determination of said Board to the true value of the property. This power has been exercised and for State purposes the assessment Roll has been increased thirty per cent, and to that extent the State Board has imposed that additional value to the entire assessment, but further than that no power exists. The assessment for city and county purposes cannot be increased, the property owner must have his day in court, that is, before his assessment can be increased, he must be heard and the Board of Supervisors must pass upon his application. Whatever injustice the individual taxpayer may suffer as to this increase in valuation for State purposes, he cannot be mulct in the same amount for city and county purposes without being heard. As the power has been exercised by the Board of Supervisors, and the time has passed under the statute, the assessment for city and county purposes cannot be disturbed without jeopardizing in whole or in part the validity of the assessment.

That the tax levy and the assessment for city and county purposes cannot be disturbed is conclusively shown, in the opinion of your committee, from the following extract from the decision of the Supreme Court in the case of the People vs. Dunn, filed October 8, 1881, to-wit:

"We must accept an artificial system, whose evident intent is that the equalization by the Board of Supervisors shall conclusively determine that all individual assessments within the county have been made, relatively to each other, equal and uniform, leaving to the State Board simply the task of equalizing assessments as between the several counties."

This position has been always assumed and the city and county assessment maintained inviolate notwithstanding any action of the State Board in increasing or decreasing the Assessment Roll, for while it affected the assessment of property and increased the amount to be raised for State purposes, no attempt was ever made to force collections for city and county purposes in excess of the revenue estimated and required, to the injury and damage of the taxpayer. To illustrate the enormity of any such attempted extortion, take the

| | | |
|---|---------------|---------------|
| Assessed valuation of property at..... | \$311,509,634 | |
| And deduct the assessed valuation of money and solvent credits..... | 17,366,084 | |
| | <hr/> | \$294,143,550 |
| Thirty per cent increase..... | | 88,243,065 |
| This increase at \$1 03, the levy for city and county purposes would increase the revenue | | 908,903 |

These figures show without comment the enormity of any such attempt to provide such amount in excess of what this Board has provided for the expenditures of the city and county. The idea of imposing such a burden is simply farcical, and although it has made its advent as if sanctioned by law, the bubble is so easily dissipated that if it were not for the seeming sanction it has received by those in authority, it might be treated as the vagary of some enthusiast who believes in collecting all the means in the possession of the taxpayer for a general pro rata distribution per capita.

Your Committee beg leave to report that various consultations have been had relative to this matter and while the Hon. E. W. McKinstry has been requested by his Honor the Mayor for his opinion on this phase of the action of the State Board, your Committee feel that the importance of relieving our citizens from any impression that the assessed value of property would be increased for city and county purposes because of the action of the State Board, demanded some immediate steps on the part of this Board to dissipate any such impression.

In the case of the People vs. Fleet F. Strother, Auditor, in which the Supreme Court issued a writ of mandate to compel the Auditor to enter on his books an increase of the assessment by adding a percentage in accordance with the direction of the State Board of Equalization. The action of the Auditor in this case was a refusal on his part to make the increase by adding to the assessment the percentage for State purposes. No attempt was made to cause any increase to the assessment for city and county purposes. This case and the decision were solely in reference to and required the Auditor to add the percentage to the assessment for State purposes; and no other action was had or taken by said Auditor under the writ issued.

Your Committee, therefore, report in consonance with the views of the members of this Board that the Auditor be directed not to add to the valuation of property for city and county purposes

on the Assessment Book of this city and county for the fiscal year 1891-2, as such action would be without authority, therefore illegal and void, and jeopardize the validity of the assessment.

L. R. ELLERT,
D. B. JACKSON.

At the same meeting of the Board of Supervisors, the following copy of a resolution introduced by Supervisor Ellert, and adopted by a unanimous vote, directed the Auditor not to add to or increase the valuation of property for city and county purposes.

RESOLUTION No. 5682 (Third Series)

WHEREAS, This Board, pursuant to its obligations and as required by law, fixed the levy on the assessed valuation of property on the fourth Monday in June, 1891, for City and County purposes for the fiscal year 1891, to raise the revenue required to carry on and meet the expenditures of the municipal government; and

WHEREAS, In conformity to and with the decision of the Supreme Court, and the provisions of Section 4 of an Act of the Legislature of 1873-4 entitled "An Act in relation to the assessment and collection of taxes upon personal property in the City and County of San Francisco," under which said levy was made, this city and county is expressly exempted from the provisions of the Political Code, thus making the said levy and the assessed value of property as so fixed and determined, the basis upon and the amount on which city and county taxes shall be collected; therefore

RESOLVED, That the Auditor be and he is hereby directed not to add to or to increase the valuation of property for city and county purposes on the assessment book for the fiscal year 1891-2, as such action would be wholly unauthorized, and therefore illegal and void.

And the Clerk is hereby directed to advertise this resolution as required by law.

In Board of Supervisors, San Francisco, September 14, 1891.

Adopted by the following vote:

Ayes—Supervisors Jackson, Burling, Curtis, Ayer, Ellert, Carnes, Coffee, Heyer, Hunt, Taber, Wilkinson.

Absent—Supervisor Evans.

JNO. A. RUSSELL, Clerk.

At a meeting of the Board of Supervisors, convened by his Honor Mayor Sanderson on Friday afternoon, September 18, 1891, the following opinion of the Hon. E. W. McKinstry was presented and read, reiterating with authorities the action recommended by the Finance Committee and taken by the Board at its last meeting, whereby it was declared that no power existed to increase the assessment roll for city and county purposes for the fiscal year 1891-92, to wit:

OPINION OF THE HON. E. W. MCKINSTRY.

To the Hon. Geo. H. Sanderson, Mayor:

SIR: Since our conversation further reflection has strengthened my conviction that the State Board of Equalization has no power to increase the assessment roll of San Francisco, so as to affect taxation for city and county purposes; and that the city and county officers, in their several acts leading to the collection of taxes for city and county purposes, must be guided and controlled by the assessment roll, unaffected by any increase of the valuations therein by the State Board, for purposes of State Taxation.

The order of the State Board does not in terms increase the valuations for purposes of city and county taxation. If it did, it would be invalid to that extent, in the absence of power, constitutional or statutory. Any attempt, therefore, by a local officer to add to the valuations of property for city and county purposes could be justified only by some provision of the Consolidation Law, and there is no such provision.

In this State all general taxes (as distinguished from licenses and local assessments) are levied upon the ad valorem principle. The high power of taxation can only be employed by the Legislature of the State, or by county or by municipal legislatures—in the last cases only for local purposes, and within the limits prescribed by the law of their creation. The fixing of the amount to be raised by taxation and the fixing the rate or percentage upon the valuation of property, so as to cover the amount of the burden imposed, may be by the same or by different acts. The former—the determination of the amount to be imposed—being strictly legislative, cannot be delegated; the latter, in case the rate is not directly fixed by the legislature, being a mere matter of calculation, may be confided to ministerial officers, to be exercised by them after the valuation of the taxable property has been fixed or estimated. It is obvious, however, that the whole power may be employed by the

State or local legislative body (if authorized thereto) in a single Act, as by declaring a tax of a certain part or portion of each \$100 of taxable property, leaving the valuation to be subsequently fixed or ascertained by proper officers.

As to State taxation: Prior to the Codes the power was exercised by statute, declaring that a tax of a certain number of cents on each \$100 of taxable property should be levied—the Legislature itself fixing the percentage. Since the Codes, the course has been for the Legislature to declare the amounts of taxation imposed for State purposes, and to direct the State Board of Equalization to fix such rate of taxation upon each \$100 in value of the taxable property in the State as (after allowing a certain percentage for delinquencies, etc.) will raise the amount imposed, this rate to be fixed after the property of the State has been finally assessed; that is, after the State Board has acted upon the assessment rolls of the several counties. The Political Code provides that the State Board of Equalization must determine the rate of State taxation between the first and third Mondays of September, after the action of the State Board as equalizers.

As to City and County taxation: In accordance with the Consolidation Law and the Act of 1874 (part of the Consolidation Law), the Supervisors of San Francisco determined the amount necessary and proper to be raised for city and county purposes, and on the fourth Monday of June "fixed the rate" of city and county taxes for the current year. This was strictly in compliance with the Consolidation Law, after the assessment of personal property was completed and while the assessment of real property was being made, and was capable of being estimated and appraised with reasonable certainty.

Let it be conceded (as I think it must be) that the State Board of Equalization has power to increase the entire assessment roll of the City and County of San Francisco, so far as State taxation is concerned; that the intention of the Constitution is that all parts of the State shall be under the supervision of the State Board with reference to State taxation, and that the territory of San Francisco is not withdrawn from that supervision by the consolidation of the county with the city.

Under the Constitution the State Board has power to increase or lower the entire assessment roll of a county, for purposes of State taxation; under the Political Code (as interpreted) that Board has power to increase or lower the entire assessment roll of a "county" for purposes of County as well as State taxation.

But the Consolidation Law furnishes the only guide for and is the sole source of the powers and duties of the city and county officers. If the entire scheme of the Consolidation Law, for the levying and collection of local taxes, is, and always has been, void; or if it has been repealed by the provisions of the Political Code which relate to the effect of the action of the State Board of Equalization, then all that has been done by the local officers goes for naught, and the Supervisors in the city and county, like the Supervisors in the counties, must fix the rate of local taxation on the first Monday of October next. (Political Code, 3714.)

It is to be borne in mind that the fact that certain officers in the city and county are designated by the same name (Supervisors) as that given to certain county officers, is not important. The Consolidation Law might have named them the "Council of the City and County of San Francisco," or designated them otherwise. To reach the result, however, that what has been done by the local officers is of no avail, it must be held that for every purpose of taxation, local as well as State, San Francisco is simply and only a "county."

It would be impossible to dovetail the law prevailing in the counties, as to county taxation, into the complicated machinery of this municipal government, and it would seem absurd to say that the money raised in San Francisco for the manifold purposes, differing widely from those for which counties are organized, is raised for "county" purposes.

But the statutes of the Consolidation Law which relate to the raising of revenue in San Francisco for local purposes, are part of the Charter of the city and county, and their validity cannot be questioned. No attempt has been made to repeal these statutes; the provisions of the Political Code relating to the State Board of Equalization, and the effect of its action, do not mention nor refer to "cities and counties." I may add that these statutes could not be repealed by an Act not relating to all cities or all cities of a class, or to cities and counties, but to counties only.

The constitutional function of the State Board is discharged when it has raised or lowered assessment rolls, so as to equalize State taxation between the several counties. (*Wells Fargo vs. State Board*, 56 Cal., 194). It is said the object of the State Board is to fix the "true value" of property. It may be assumed they seek to attain that end according to their best judgment; and that, in the absence of fraud or gross abuse, the law supplies no mode for revising their judgment. So far as they, and the legal effects of their judgment are concerned, it is conclusive. But if a like power is

Invested in some other independent officers, whose judgment the State Board has no power to revise, then their judgment is equally final and conclusive, although they may arrive at a different result as to the value of the same property from that of the State Board of Equalization.

Take the case of a city pure and simple. The City Assessor prepares his roll, which is equalized, as between individuals, by the City Council. The property within the city is taxed for city, for county and for State purposes. The City Assessor (and City Council), the County Assessor (and County Supervisors), and the State Board of Equalization, all being presumed to be seeking the true value, may appraise the same property differently. For purposes of State taxation, in case, in the opinion of the State Board, all the properties within the county have been undervalued by the county authorities, the State Board may increase the entire assessment roll of the county. But the State Board cannot interfere with the city assessment, because it has no constitutional or statutory power to do so. The determination of the city authorities, for city purposes, is just as conclusive as that of the State Board for State purposes.

I am told it has been supposed that, in *Baldwin vs. Ellis* (68 Cal., 495) the Supreme Court decided the State Board could add to assessments of property in San Francisco for all purposes. I do not so understand that case.

There the Supreme Court held, that when the State Board has increased the assessment roll of a county, it is increased so as to affect taxation for county as well as State purposes. This decision is based upon the proposition that such is the intention of the Political Code. No question was made in that case (nor is it necessary to make it here) as to the power of the Legislature, under the Constitution, to provide that when the assessment roll of a county shall be increased by the State Board, it shall operate on county as well as State taxation. The sole question was, what had the Legislature said in that regard? Sections of the Code were cited in support of the conclusion to which the court arrived. But there is nothing in the decision which intimates, that, while the action of the State Board, under the provisions of the Political Code, in raising the assessment of a county raises it for purposes of county taxation; the same thing is true of the assessment roll for municipal purposes, prepared in that species of municipality designated as "city and county." The provisions of the Political Code referred to (with a single unimportant exception) say nothing of such municipalities.

In *Baldwin v. Ellis*, the Court was the more inclined to hold as it did, because the complaining party there had no real cause of complaint. As has been seen, by the Political Code (3714), it is made the duty of the County Board to fix the rate of county taxes on the first Monday of October, after the assessment roll has been acted upon by the State Board of Equalization.

In *Baldwin v. Ellis* the Court said that taxpayers could not be damaged by the construction there given to the "statutory enactments," since the County Board may adapt the rate or percentage to the increased valuation of property in the county, after it has been raised by a State Board of Equalization. "If the valuation were less the percentage of taxation would of necessity be larger, and if by the action of the State Board the valuation be higher, the percentage to meet county (and State) purposes would be less." This view of the result, that the taxpayer would not be injured, entered into the reasoning of the Court, in interpreting the provisions of the Political Code, and influenced its judgment. And in support of the proposition that the Political Code intends but one assessment both for purposes of State and County taxation, the Court says: "If it was not the scheme of the law that there should be but one true valuation, and that the one fixed by the State Board, why the enactment that the County Board shall fix the rate of taxation after the former Board has acted?" It is manifest that the argument based on the fact that the County Board is to fix the rate after the State Board has acted, has no force as applied to the city and county, where the rate is fixed before the State Board has acted.

By the Consolidation Law, the whole matter of local taxation is placed in the city and county government, and the system is one peculiar to the city and county. The city and county officers were justified in acting in obedience to the provisions of the Consolidation Law—indeed they derive their powers solely from it, as city and county officers; although, in the collection of State revenue they act for the State and as subordinate agents of the State. At the time required by the Consolidation Law, they fixed the rate of taxation, with reference to the amount they determined to raise for city and county purposes (conclusively presumed to be the necessary and proper amount), and with reference to valuation of property made or estimated by the proper officers of the city and county. All this before the State Board had acted.

If now the city and county must adopt for purposes of city taxation the increased valuation of the State Board, and collect taxes thereon at the rate legally fixed as required by the charter, the citizens of San Francisco will be mulcted in a vast sum—estimated at nearly \$1,000,000—which the

city does not need; and which has been determined not to be needed by the representatives of the people in the local government. So far then as the question of injury to the taxpayer is concerned the case now presented is entirely different from that considered in *Baldwin vs. Ellis*.

Cities and counties are not counties. They are declared to be different by the Constitution "city and county governments may be merged into one municipal government. * * * The provisions of this Constitution applicable to cities, and also those applicable to counties, so far as they are not inconsistent (with) or not prohibited to cities, shall be applicable to said consolidated government." (Const. Art 11, Sec. 7.)

If this means anything it would seem to mean that the provisions of the Constitution relating to counties, or laws passed under them, shall not be applicable to a city and county, when inconsistent with the provisions of the charter, which grants its powers to the "one municipal government." The Constitution commands the Legislature to establish "a uniform system of county governments." (Art. 11, Sec. 4.) Would anyone contend this uniform system of county government can be extended within a city and county, so as to supplant entirely the charter of the city and county?

A city may occupy part of a county. In such case the county government may exercise powers of taxation, for county purposes, and other county powers, as well within as beyond the limits of the city, without in anyway disturbing the city government, its organization or conduct. But in the case of a city and county, the revenue is collected for the support of a single government. There can be but one law regulating that matter, and that law must be found in the acts incorporating the municipality—the city and county. There can be no county government within the municipality, which is inconsistent with the organization or powers of the city and county, as defined in its charter. The city and county partakes of the nature of a city government, and, to the extent of its participation in the nature of city government, necessarily excludes the machinery of county government.

And if there be anything appropriate to a city government it is the levy and collection of taxes for city purposes from the citizens by their representatives, who are selected by the citizens for the discharge of this and other appropriate duties in the manner prescribed by the city charter.

Counties have sometimes been called quasi public corporations or municipalities, but the distinction between counties and pure municipalities is recognized by the constitution. The city and county of San Francisco is a municipality—it is "one municipal government."

The foregoing would be true had the city and county of San Francisco been formed under the present Constitution. But this municipality was created prior to the present Constitution, and its organization and continued existence is protected by that instrument. True, it is "subject to general laws." And it has been decided that the laws to which it is subject are not only general laws, in the sense that they apply to all portions of the State, and not to particular localities, but that included in "general laws" are those which apply to all cities in the State, or to all of a class, population being regarded in the classification. Thus in *Thomason vs. Ashworth*, (73 Cal.) the street laws of 1883 and 1885 were upheld, because, by the first section of each, it was made applicable to all the municipalities of the State. But it has never yet been held that a statute, merely declaring the effect of the action of State officers upon the action of county officers, operates upon the action of city or city and county officers.

To this it may be added, that statutes of a general nature (except in certain cases where they are made to apply to all or a class of municipalities) do not repeal or affect by implication the charter or special acts passed for the benefit of a particular municipality—as San Francisco (Wood vs. Board of Election, 58 Cal., 561). Finally the Political Code itself provides (Section 19): "Nothing in either of the four Codes affects any of the provisions of the following statutes, but such statutes are recognized as continuing in force, except so far as they have been repealed or affected by subsequent laws: 1. All acts incorporating or chartering municipal corporations, and acts amending or supplementing such acts. 2. All acts consolidating cities and counties, etc."

It is clear, therefore, that the sections of the Political Code referred to in *Baldwin vs. Ellis* repeal neither directly nor by implication, or in any way affect provisions contained in the Consolidation Law, relating to the matter of city and county taxation.

I think that Section 7 of the Act of 1874 (Statutes 1873, 4, p., 477) does not demand of the Auditor to add to or deduct from the valuation of real property, for the purposes of city and county taxation. It has been suggested that he has no duty to perform (which can affect the local tax) with reference to personal property, enumerated in the assessment book, mentioned in Section seven, the tax whereon has been collected, or is in process of collection, but that he must, for every purpose, add to the assessments of real property the percentage required by the State Board. But

REVENUE ORDERS.

Section Seven of the Act makes no reference to real property. It directs the Auditor "at the time" required in the Political Code for computing and entering the State and county taxes, to add to or deduct from the valuation of property "enumerated in said assessment book" any percentage which may have been required by the State Board of Equalization, "and compute the State taxes to be paid on said personal property." The additions or deductions are to be made in the "Assessment Book of Personal Property" (Sec. 4). If there is one assessment book for real and personal property, it is the assessment book of personal property in so far as it enumerates personal property. The direction to add to or deduct from the valuations of personal property, and to compute the State taxes on such enhanced or reduced valuations does not, by any implication, make it his duty to add to the valuations of real property, for the purposes of City and County taxation.

It is my opinion that the State Board of Equalization has no power to increase, and has not increased, the valuations of property upon the assessment roll in San Francisco for purposes of city and county taxation; that in providing for the collection of and collecting taxes for city and county purposes, the local officers should be governed by the assessment roll, without regard to any increase thereof by the State Board of Equalization, but that State taxes should be collected with reference to the increased valuations made as directed by the State Board.

Respectfully,

E. W. MCKINSTRY.

NOTE.

It may be suggested, that, if the Act of 1874 be construed as above, there is no law for collecting city and county taxes on real property, since the mode of collecting such taxes is found only in the Political Code.

But the Consolidation Law requires the levy of taxes on all property, and the Consolidation Law, to a certain extent, adopts the provisions of the Code.

The Consolidation Law does not furnish a detailed system, in all respects, for the assessment and collection of city and county taxes. To the extent it provides a peculiar system, that system it exclusive. To the extent it adopts the general law of the State, relating to the subject, that law has become part of the Charter.

Section 71 of the original "Consolidation Act," (Stats. 1856, p. 145) provided: The Board of Supervisors shall have power to levy and collect, in the manner prescribed by law for the assessment and collection of taxes, such amount as they may deem sufficient," etc.

And, by section 77, the Tax Collector was to collect city and county taxes "in the mode prescribed by law," etc.

Other like sections might be cited from the Consolidation Act.

I am aware some of these sections have been amended, but throughout all the changes may be traced the enactment that, to the extent it harmonizes with the direct provisions of the Consolidation law, the method of assessing and collecting local taxes in San Francisco shall be that prescribed in the general law for the assessment and collection of taxes.

Of course, however, the general method is part of the Charter only to the extent it is incorporated in it by the Consolidation Law. The manner prescribed by the general law is to be followed (with reference to city and county taxation) only so far as it does not conflict with specific provision of the Charter.

It is obvious the provisions of the Political Code, as to the effect on county assessments of an increase or reduction by the State Board, and as to the time when the County Boards shall fix the rate of county taxation, cannot be made to apply to the city and county officers, so as to affect municipal taxation, without setting aside the specific provision of the charter that the rate of city and county taxation shall be fixed in June. While then the procedure of the Political Code for the assessment and collection of taxes is made part of the charter by the Consolidation Law, in many respects, the provisions as to the effect of raising or lowering the roll by the State Board, upon county assessments for county purposes, are not incorporated in the charter. It might indeed be contended that there is no absolute conflict; that the city and county officers might fix the rate in June, apply it to the enhanced valuation by the State Board in September, and proceed to collect a large sum not originally levied or declared necessary for municipal purposes. But as a question of construction, and as to the intention of the law makers, the meaning of the statutes seem sufficiently plain.

The general laws with respect to the collection of taxes have varied, finding expression finally in the Political Code. Each general law when passed was a substitute for that which preceded it.

and became operative in San Francisco (so far as it became operative therein), simply by reason of the provisions of the Consolidation Law making the existing general law of the State, prescribing the mode of levying, assessing and collecting taxes, a part of the charter, except as limited by special or peculiar provisions of the charter in respect to the same matter.

I conclude, therefore, there is a legal method of levying, assessing and collecting city and county taxes on all property within the city and county; that method is provided for in the Consolidation Law.

E. W. McK.

The Board of Supervisors fixed the rate of State taxes as levied by the State Board of Equalization on September 28, 1891, by Order No. 2453, of which the following is a copy, to-wit:

ORDER No. 2453.

PROVIDING FOR REVENUE FOR STATE PURPOSES FOR THE FISCAL YEAR ENDING JUNE 30, 1892.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. Under and in pursuance of the Political Code and of the statutes of the State of California and in conformity thereto, and in pursuance of the action of the State Board of Equalization, and in conformity thereto, there is hereby levied a tax for State purposes for the fiscal year ending June 30, 1892, on all property, both real and personal, in the City and County of San Francisco, except such property as is by law exempt from taxation, the sum of forty-four cents and six mills (44.6 cents) on each one hundred (\$100) dollars valuation of said taxable property upon the assessment roll for said fiscal year, which sum of forty-four cents and six mills (44.6 cents) on each one hundred (\$100) dollars valuation as aforesaid is hereby apportioned to the funds and accounts known and designated as follows:

| | |
|--|------------|
| For the General Fund..... | 23.4 cents |
| For the School Fund..... | 17.6 c e |
| For the Interest and Sinking Fund . | 1.0 cents |
| For the Special Mendocino Insane Asylum Fund ... | 1.6 cent |
| For the support of the University of California..... | 1.0 cent |
| <hr/> | |
| • Total rate of State tax..... | 44.6 cents |

• In Board of Supervisors, San Francisco, September 23, 1891.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Jackson, Burling, Curtis, Ellert, Carnes, Coffee, Heyer, Hunt, Taber Wilkinson.

Absent—Supervisors Evans, Ayer.

JNO. A. RUSSELL, Clerk.

Approved, San, Francisco, September 28, 1891.

GEO. H. SANDERSON,
Mayor and ex officio President Board of Supervisors.

In connection with the changes made at the last session of the Legislature in the collection of taxes owing to the amendments of the Revenue Code, the Finance Committee transmitted the following request to the City and County Attorney for his opinion as to the duties devolving upon the several officers in the making of the assessment and the collection of taxes, to-wit:

COMMUNICATION OF FINANCE COMMITTEE.

SAN FRANCISCO, APRIL 13, 1891.

Jno. H. Durst, Esq.,

City and County Attorney:

DEAR SIR: The Finance Committee of the Board of Supervisors desire, in view of the action had at the last session of the Legislature, in the passage of an Act, approved March 31, 1891, amending Sections 3668, 3696, 3714, 3746, 3756 and other Sections of the Political Code, request your

opinion as to the time for the collection of the tax on personal property, also on personal property secured by real property and one-half on real property, the amount of percentage that will require to be paid on taxes remaining unpaid, also the amount of percentage that will require to be paid on the remaining one-half of the taxes on real property remaining unpaid.

Also, request your opinion as to whether or not the provisions of the Act of 1873-4 (Statutes 1873-4, page 447) entitled "An Act in relation to the assessment and collection of taxes upon personal property in the City and County of San Francisco" is affected or repealed by said action of the Legislature in amending said Sections of the Political Code.

Further, to call your attention to the difference in the percentage to be added to delinquent taxes remaining unpaid due from railroads by Section 3668 of the Political Code, payable to the State from other counties, by Sections 3746 and 3756 of the Political Code, also from this city and county by said Sections 3746 and 3756 of the Political Code (which designate different percentages).

Further, whether or not it is the duty of the Assessor to designate all assessments of personal property on said assessment roll which are secured by realty, also those which are not so secured.

Further, at what time shall the levy for State and county taxes be made by the Board of Supervisors, vide Sections 3696 and 3714, Political Code, and Act of 1873-4.

Very respectfully

JNO. A. RUSSELL, Clerk.

In addition the Tax Collector, Thos. O'Brien, Esq., requested an opinion on the revenue provisions of the Code and his duty in the premises, these questions were fully considered and the opinion of the City and County Attorney was given the last named officer on Sept. 1, 1891, of which the following is a copy, to wit:

OPINION OF THE CITY AND COUNTY ATTORNEY.

SAN FRANCISCO, September 1, 1891.

Hon. Thomas O'Brien, Tax Collector:

DEAR SIR: In compliance with your request concerning the "so-called new tax law," I have examined the Act with care, with a view to determining its validity, and its proper construction and operation.

I consider the question presented the most important, and at the same time the most delicate that has ever been presented to me in my official capacity for determination. It is the most important, because upon the proper determination of the question presented depends the receipt by the city and county and State of any revenue during this fiscal year from the assessable property of the city and county of San Francisco. Should you proceed under the new law, and should it subsequently be adjudged unconstitutional, the result might be the invalidity of the tax levy for this year. Should you, on the contrary, proceed under the old law, and should the judgment of the Supreme Court sustain the new enactment, the city and county might likewise be without revenue during this fiscal year.

It is the most delicate, because it involves the anticipation of the decision of the Supreme Court of this State on unsettled questions of constitutional law, questions whose determination involves, not so much the following of adjudicated cases, as the application of principles of constitutional construction in the light of considerations drawn from the very structure and theory of our system of government. It would be presumption to pass, beforehand, upon such matters, whose proper determination must rest with that tribunal, were it not inevitable for the guidance of the administrative authorities of the municipality.

The so-called new tax law is not properly a new revenue law. It is not a new statute, dealing with a single subject matter, and making provision therefor as an entirety.

It is but an Act amending certain dispersed and more or less disconnected and independent sections of the Political Code, viz: Sections 3665, 3666, 3667, 3668, 3669, 3670, 3672, 3692, 3696, 3714, 3728, 3732, 3746, 3750, 3751, 3756, 3758, 3764, 3797, 3800, 3816, 3866.

Two hundred and three (203) sections of the Political Code (from Section 3627 to Section 3839) deal with the subject matter of the assessment and collection of taxes for county and State purposes, and provide a complete scheme therefor. This new Act does not pretend to provide a new scheme in whole or in part. It simply amends twenty-one (21) of those sections. It, in other words, merely alters the details of a system created by and embodied in the Political Code.

A portion of the section amended fall naturally into two groups. First, those dealing with the assessment and collection of taxes upon railroads operated in more than one county, viz: Section

3665 to 3670 inclusive. Second, those dealing with the assessment and collection of taxes generally for county and State purposes throughout the State.

The several sections of the first group and a part of the second are respectively more or less independent; but the groups themselves are unconnected, except by the circumstance of being contained in the same amendatory legislative enactment. Many of the sections of the second group stand complete in themselves, and are in no way dependent upon or inseparably connected with any other section contained or amended in the statute, noticeably Sections 3672, 3682, 3696, 3714, 3726, 3728 and 3732.

It follows that several independent sections and groups of sections, might, with propriety, have been the subject of separate and distinct amendatory statutes. They are embodied in the same statute for convenience in legislation only.

One or more of these sections may be infected with unconstitutionality, and may be void without rendering other individual sections unconstitutional.

It may be, therefore, that some of the several sections contained in the Act in question are unconstitutional and void, and the residue valid and operative.

The general object of the statute is to alter the times when the taxes become due and delinquent, respectively; to provide for the payment of taxes on installment, and to increase the penalty for delinquency. The amended Sections 3665 to 3670 are substantially a re-enactment of the corresponding sections of the Political Code as to the assessment of railroads operating in more than one county.

They make but three changes. They provide, first, that the taxes upon railroad realty shall be paid in two installments, and not in one payment. Second, that the taxes upon the personality belonging to such roads and the first installment of taxes upon the realty thereof, shall be payable after the second Monday in October (and notice to be published within ten days thereafter by the Controller), instead of after the fourth Monday in October (under the old law), and delinquent on the last Monday in November (instead of December, under the old law); and that the other installment of the taxes on realty shall be paid on the first Monday in January, and delinquent on the last Monday in April; and third, that instead of the old penalty of 5 per cent in all cases, a penalty of 5 per cent on the first installment if not paid by the last Monday in November, and an additional penalty of 5 per cent (making a total of 10 per cent) if not paid prior to the last Monday in April, and 5 per cent on the second installment if not paid before the last Monday in April.

The other amended sections (excepting those not necessarily involved in the object of the Statute) apply generally throughout the State to taxes collected by the county authorities for county and State purposes.

They also change the old law in the same three particulars. First, they make the taxes on real property, other than real property, forming part and parcel of railroads operated in more than one county, payable in two installments. Second, they make all secured personal property taxes, and the first installment of taxes on real property, payable on the first Monday in October and delinquent on the last Monday in November next thereafter, and the second installment of realty taxes payable on the first Monday in January and delinquent on the last Monday in April.

Third, they impose a penalty of 15 per cent if the personal property tax and the first installment of the tax on realty is not paid before the first Monday in January, and an additional penalty of 5 per cent (making 20 per cent), if the same is not paid before the last Monday in April; and a penalty of 5 per cent upon the second installment of real property taxes if the same is not paid before the last Monday in April.

These several sections last named, applicable generally throughout the State, contain provisos, by way of exception, prescribing in the case of counties and cities and counties having a population of over two hundred and fifty thousand, a different time for certain of the several acts to be performed in the assessment and collection of taxes, also a different time of delinquency in the case of the last installment of real property taxes, and a lesser penalty for delinquency.

The last installment of real property taxes is to be delinquent on the last Monday in February instead (as in other counties) on the last Monday in April (Section 3746, proviso). The Board of Supervisors must fix the rate of county taxes and make the annual levy on the fourth Monday of June, whereas in all other counties this must be done on the fourth Monday in September (Sec. 3714).

Different times are also prescribed for the joint meeting of the Auditor and Tax Collector for the comparison of the assessment books (Sec. 3764, 3797).

Finally, whereas in all other counties a penalty of 15 per cent must be collected upon the personal property taxes secured upon real estate, and on the first installment of real property taxes if not paid on or before the last Monday in November, in such counties and cities and counties only 5 per cent must be collected. (Section 3756 proviso.)

First—Do these amendments to the Political Code operate to repeal the act of 1873-74, regulating the collection of personal property taxes for city and county purposes in the City and County of San Francisco?

Second—Are the amended sections (Sections 3665-3670) relating to railroads situated in more than one county, constitutional?

Third—Are the sections (amended) regulating generally the assessment and collection of taxes throughout the State constitutional?

Fourth—Are the provisos referred to, to certain sections, making special provision as to counties and cities and counties containing over two hundred and fifty thousand inhabitants consistent with the provisions of the constitution?

My conclusions as hereinafter stated dispense with the necessity of any extensive consideration of the apparent conflicts in the so-called new revenue law in matters of detail.

Is the Act of March 18, 1874, entitled "An Act in relation to the assessment and collection of taxes upon personal property in the City and County of San Francisco," (See Worley's Consolidation Act, p. 406) repealed by the enactment under consideration amending the several twenty-one sections of the Political Code?

On the first day of the month of July, I verbally stated to you my conclusion, that no such repeal was or had been accomplished, and directed you to proceed, as in prior fiscal years, so far as the collection of property taxes for city and county purposes was concerned. The reasons for my conclusion I shall now proceed to state.

The Political Code was enacted in the year 1872. It provided a uniform system for the assessment and collection of taxes, both State and county, for every county throughout the State.

The Political Code required the completion of the assessment book, and its delivery by the Assessor to the Clerk of the Board of Supervisors, on or before the first Monday in July. (Cal. Pol. Code, Sec. 3652.)

The Board was authorized to sit as a Board of Equalization between the first Monday, and, at the utmost, the last Monday in July. (Cal. Pol. Code, Sec. 3672.)

The assessment book, after equalization, was to be delivered by the Clerk of the Board of Supervisors to the County Auditor on or before the first Monday in August. (Cal. Pol. Code, Sec. 3682.)

The delivery of the said book to the Tax Collector was not incumbent upon the Auditor until the fourth Monday in October. (Cal. Pol. Code, Sec. 3732.) The taxes, both personal and real, and for county as well as for State purposes became due and payable after the fourth Monday in October and notice given by the Tax Collector, (Cal. Pol. Code, Sec. 3746) and became delinquent on the last Monday in December. (Cal. Pol. Code, Sec. 3756.)

Under this system, thus embodied in the Political Code, equalization could not take place until after the first Monday in July, and no taxes become collectable until after the fourth Monday in October.

No revenue could come into the county treasury until four months after the beginning of the fiscal year. In the City and County of San Francisco it was found that this system left the city and county without funds for several months in the beginning of each fiscal year.

The revenues of the preceding fiscal year having been exhausted by the demands of that year the treasury remained depleted until the new revenue began to come in during the last days of October or the beginning of November. Great expense and inconvenience resulted to the city, its officials and its creditors.

To remedy this state of things, and to enable the receipt by the City and County of San Francisco of a revenue shortly after the opening of the fiscal year, the Statute of 1873-4 was enacted.

Section 1 (of that Act) provided: "The City and County of San Francisco is hereby exempted from the provisions of the Political Code relating to the assessment and equalization of personal property for taxation and the collection of taxes thereon, but only so far as to give force and effect to the provisions of this Act hereinafter contained.

(Worley's Consolidation Act, p. 406); (Statutes 1873-4, p. 447).

The subsequent provisions of the Act provided that the Assessor should complete a separate assessment of personal property on or before the first Monday in June, and thereupon deliver the same to the Clerk of the Board of Supervisors (Section 2).

The Board was to equalize the personal property assessment between the second and fourth Mondays of June (Section 3), and to fix the rate of county taxation on the fourth Monday in June (Section 3).

The Auditor was required to deliver to the Tax Collector the "Duplicate Assessment Book of Personal Property" on or before the second Monday in July (Section 4).

The Tax Collector was required to immediately publish the usual notice; the taxes became immediately due and payable (second Monday in July) and became delinquent on the first Monday in August.

This statute operated solely upon the levy of the tax upon personal property for city and county purposes (as distinguished from the levy upon personal property for State purposes). This is apparent, first, from the fact that the only levy provided for was that for city and county purposes (Section 4), whereas the levy for State purposes is not made until September (Cal. Political Code, Section 3696) by which time the taxes on personal property for city and county purposes should have been collected.

And, second, from Section 7 of the Act of 1873-4, providing for the correction, after the fourth Monday in September, of the Duplicate Assessment Roll of Personal Property by the Auditor to conform to the changes made by the State Board of Equalization, and for the extension thereon of the State tax upon personal property, all to be done, and all proceedings and results as to collection and delinquency to be governed by the general provisions of the Political Code.

The effect of the Act was to withdraw the City and County of San Francisco, so far as the assessment and collection of taxes upon personal property for city and county purposes was concerned, from the operation of the Political Code.

As a result of this statute, the province and scope of the Political Code in the City and County of San Francisco was confined to the assessment and collection of taxes upon real property for both city and county and State purposes, and upon personal property for State purposes only. The scheme or system for the assessment and collection of taxes, created by the Political Code, extended within the City and County of San Francisco, to taxes upon realty, for city and county purposes, and taxes upon personalty for State purposes only.

Taxes upon personalty for city and county purposes were outside that system, and not subject to the provisions thereof. It follows that the general sections of the Political Code, so far as this city and county was concerned, spoke only as to taxes upon personalty for State purposes.

Taxes upon personalty for city and county purposes were not within their review and were not subject to their operation.

This Act of 1873-4 being in force as a part of the charter of the City and County of San Francisco at the time of the adoption of the Constitution of 1879, continued in force notwithstanding the provisions of that Constitution up to the present date, it has governed the collection of taxes upon personalty within the City and County of San Francisco for city and county purposes. It is now, still in force, unless expressly repealed by the enactment of the late Legislature, or unless necessarily inconsistent with that enactment.

There is certainly no express repeal by the so-called new revenue law. That act purports merely to amend several certain sections of the Political Code.

Nor is there anything in the so-called new revenue law inconsistent with the Act of 1873-4.

The new law does not purport to broaden the operation of the Political Code. It does not assume to enlarge the field within which the scheme of assessment created by the Code shall be applicable. It does not, either by implication or in express terms, assume to make the Political Code so far as the subject matter upon which it operates is concerned, more comprehensive. It is not a blanket act to drag within the operation of the Code a species of tax not previously within the scope of that Code. Its only object is to change, in certain particulars, the details of the scheme for the assessment and collection of taxes, contained in the Code.

It makes a certain class of taxes upon which the Code is operative, viz., taxes upon realty for county and State taxes, payable in installments. It varies the penalty and alters the time for the performance of the various acts prescribed by the Code. This is the sole function of the so-called new revenue law. It, therefore, leaves the Code, so far as its scope is concerned, as it existed prior to the new enactment.

This conclusion becomes more apparent, when the nature of the new Act is considered. As before stated, it consists of amendments to twenty-one different and more or less independent sections of the Political Code. Many of these amendments might be made the subject of separate enactments. But were one or each of these sections the subject matter of separate enactment, it

would not be questioned but that neither one nor all would or could be construed to enlarge the scope of the Code.

Were the sections of the new enactment, amending and re-enacting the sections providing a system for the assessment of railroads situated in more than one county (Sec. 3665 to 3670) contained in an independent special statute, no one would contend that they had any tendency to repeal the Act of 1873-4.

Were the sections abridging the time in which the Board of Supervisors might act as a Board of Equalization from three to two weeks (Sec. 3672), or prescribing the duties of the State Board of Equalization and changing the time of its meeting at the State Capitol, from the third to the first Monday in August (Sec. 3652), or requiring the Board of Supervisors to fix the rate of county taxes earlier by one week than under the unamended section (Sec. 3714), the subject matter of an independent enactment, no one could with any plausibility contend that either or any of such amendatory statutes were inconsistent with the Act of 1873-4.

Were the few sections making the real property taxes payable in installments the subject matter of a distinct statute, they would have no tendency to enlarge the operation of the Political Code, or to cause the personal property taxes for city and county purposes in the City and County of San Francisco, to be governed by the provisions of that Code, from whose operations such taxes have been withdrawn by the statute of 1873-4.

For these reasons I conclude that the so-called new revenue Act is consistent with the Act of 1873-4, and does not repeal or effect the same.

The authorities of the City and County of San Francisco must continue to levy and collect the taxes upon personal property for city and county purposes under the provisions of that special Act. The revenue therefrom, coming into the municipal treasury, as heretofore, in the months of July and September.

CONSTITUTIONAL QUESTIONS.

I have stated that there are three constitutional questions relating to the validity, respectively, of those portions of the new enactment, providing a system for the assessment and collection of taxes upon railroads situated in more than one county, of the sections applicable generally throughout the State as to taxes generally; and of the provisos to certain sections making special provision for counties and cities and counties having a population of over two hundred and fifty thousand.

It is perhaps questionable whether the amended sections of the first description (Sections 3665 to 3670) are valid, and whether there is now any law for the taxation of railroads situated in more than one county, in view of the decision of the Supreme Court of this State in the late case of *People vs. The Central Pacific R. R. Co.*

85 Cal., 393; S. C. 25, Pac. R., 303.

The new law substantially re-enacts the old system for the collection of taxes on railroads contained in the same sections as they stood prior to the late enactment. That system and those sections were declared unconstitutional in the case referred to.

But the county authorities have no concern with these sections. The State authorities will be duly guided in the matter by the Attorney-General.

For the present inquiry it is only material to consider whether, assuming such sections (3665 to 3670) to be unconstitutional, they infect with unconstitutionality the sections of the new enactment relating to taxes generally throughout the several counties of the State. In my opinion, such result is not to be worked. There is no connection between those sections (3665 to 3670) and the sections making provision for the payment of taxes generally in installments (3746, 3756 and others) other than the casual association in one sweeping amendatory enactment. The latter are not dependent in any way upon the former. It is not a case in which the general scheme of the Legislature involves the upholding or overthrow in its entirety of the entire enactment.

Were the contrary conclusion law, then it would follow, that by reason of the unconstitutionality of the corresponding sections (3665 to 3670) of the Code as unamended, adjudged in *People vs. The Central Pacific R. R. Co.* to be void, the whole of the two hundred odd sections of the Political Code providing for the assessment and collection of taxes generally, were unconstitutional. The absurd result would follow that at least since the year 1886 there never has been a valid tax levy in this State.

We may therefore exclude from consideration the question whether the amended sections 3665

to 3670 are valid or otherwise, and, if invalid, whether because special in their nature or unlawfully discriminating in favor of a class.

The next question arises, as to whether the provisions of the amendatory Act amending the sections of the Political Code, as to taxation generally, and making real property taxes payable in installments, varying and increasing the penalties for delinquency and the time of delinquency, are subject to any constitutional objection. The said several sections make such provision and enact the incidental changes in the law necessary to carry the system into execution. I can see no constitutional objection to the legislation.

The enactments are general in their nature. There is nothing unconstitutional in the provisions for the payment of taxes in installment or for increased penalties. It is certainly within the power of the Legislature to regulate the time and manner of the payment of taxes, and to prescribe such penalties as it shall deem adequate for the enforcement of their payment.

Nor will the provisos making different provisions as to matters of delinquency and penalties in the case of counties having more than two hundred thousand inhabitants, if unconstitutional on the ground that they are special in their nature, and in violation of Section 25, Subdivision 10 of the Constitution, prohibiting the passage of any local or special law for the collection of taxes, invalidate the residue of the new enactment.

If those provisos be unconstitutional, then those provisos fall, and the Act—or rather the Code as amended in certain sections by the enactment—operates without exception in all counties and cities and counties throughout the State.

Those provisos can be separated from the several sections, and the latter may be allowed to stand, without defeating the general scheme and paramount intention of the Legislature as embodied in the enactment.

I conclude, therefore, that the sections of the so called new revenue law making provision for the payment of taxes, generally, throughout the State, in installments and for increased penalties for delinquency, are constitutional and are operative in the several counties of the State.

It follows also that they are, as a consequence, operative in the City and County of San Francisco unless the provisos referred to be unconstitutional.

EXCEPTION IN CASE OF COUNTIES AND CITIES AND COUNTIES HAVING A POPULATION OF MORE THAN TWO HUNDRED AND FIFTY THOUSAND, UNCONSTITUTIONAL.

The provisos in the several sections divest the system created by the Political Code for the assessment and collection of taxes of its uniformity.

The Code, and the new Act amendatory thereof, is dealing with the assessment and collection of taxes in the several counties of the State for State and county purposes. It has taken these taxes for county and State purposes, and distinguishing them from the class of taxes within cities and other municipalities for municipal purposes, has erected them into a class for separate legislation.

A general and uniform system for their assessment and collection, applicable generally in every county throughout the State, has been embodied in the provisions of the Political Code (as amended by the new Act).

But, by the provisos to Sections 3746, 3756, 3758, 3797, 3764 and 3714 as (amended in the new Act) it is sought to withdraw all counties and cities and counties having a population of over two hundred and fifty thousand from the operation in certain particulars of that general and uniform system. In other words, these provisos create a special class of counties—those named above—and attempt to make therein the mode of the assessment and collection of taxes for county and State purposes variant from that established for all counties by the general provisions of the law.

The breach thus sought to be made in the uniformity of the general law consists in this:

First—That whereas the second installment of real property taxes becomes delinquent under the general law on the last Monday in April, under the special proviso for counties and cities and counties having a population of over two hundred and fifty thousand, it becomes delinquent therein on the last Monday in February (Section 3756 Political Code, as amended by Act of 1891)

Second—A different notice is to be published by the Tax Collector in the case of the latter class of counties (Section 3746 Political Code, as amended by Act of 1891).

Third—Whereas, under the general law, and in consequence in all counties other than the special class above mentioned, in event of delinquency on the first Monday in November in the payment of personal property taxes and the first installment of real property taxes, the Tax Collector

must collect a penalty of 15 per cent under the provisos in counties and cities and counties of the class above specially named he must collect but 5 per cent penalty (Section 5756 Political Code, as amended by Act of 1891).

Fourth—Different times are prescribed for the joint meeting of the Auditor and Tax Collector for the comparison of the original and duplicate assessment books (Sections 3753, 3797, Political Code, as amended by Act of 1891), and for the publication of the delinquent list (Section 3764 Political Code, as amended by Act of 1891). Also for the county tax levy (Section 3714 Political Code, as amended by Act of 1891).

This amounts to creating a special class of counties, to wit: those counties and cities and counties having a population of over two hundred and fifty thousand, and to making special provisions with reference to the assessment and collection therein of taxes for county and State purposes.

The provisos are equivalent to an independent statute making such provision. Would such a statute be constitutional?

Section 25, Subdivision 10th of Article IV of the Constitution provides that "the Legislature shall not pass local or special laws for the assessment or collection of taxes."

Can the Legislature, when dealing with the assessment and collection of taxes in the several counties of the State for county and State purposes, enact counties having a certain population into a special class, make special provision with reference to such assessment and collection within the limits of such counties and thereby escape the objection that the Act is special and not general?

In other words, can the Legislature by classifying counties according to population, and by making a statute upon the subject of revenue applicable to a particular class thereof, only give the statute the character of a general as distinguished from a special Act?

Certainly, counties and municipalities may be classified according to population for certain purposes; and statutes dealing with certain matters may be applicable to certain counties or municipalities having a certain population and yet be general as distinguished from special laws. Such classification for certain purposes is provided for by the Constitution,

(Constitution California, Article XI, Sections 5 and 6.) It recognizes the necessity for certain purposes of distinguishing between different municipalities (Constitution California, Article XI, Section 7). And generally, without violating the prohibition against special laws in certain cases an enactment may be made applicable to a certain class of municipalities.

Fellows vs. Walker, 59 Fed. R. 651.

Wheeler vs. Philadelphia, 77 Pa. St., 338, 349.

Killgore vs. McGee, 85 Pa. St., 401.

McConihe vs. ex rel McMurray, 17 Florida, 238, 268.

This follows, as a consequence of the doctrine, that a statute to be general in its nature, need not apply to all men or objects within the State. The requirement of generality is satisfied when it applies to all men or things of a class, having characteristics sufficiently distinct to separate them from the mass, and so situated as to give rise to legislative exigencies peculiar to themselves.

For the purpose of legislation prescribing the powers (Fellows vs. Walker, 39 Fed. R. 651) or structural organization, and perhaps for the purposes of legislative regulation of certain affairs peculiarly internal to municipalities, legislation may be directed to classes of municipalities determined by population.

But a statute dealing with other matters cannot be made general by making it applicable to cities or counties, or cities and counties having a certain population.

If it could, and if a statute regulating the collection of taxes for county and State purposes could be made general by being made applicable to such a class of municipalities, or quasi municipalities, then a statute "exempting property from taxation" could be made general by being made applicable to counties, or counties and cities having a population over two hundred and fifty thousand, or a law changing county seats applicable only to such counties.

Yet special laws in such cases are forbidden by the Constitution, Art. IV. Sec. 25, Sub. 20th and 21st.

The above Article and Section of the Constitution, forbidding in Subdivision 10th, the passage of special laws for the assessment and collection of taxes, forbids also the passage of special laws

Regulating the practice of courts of justice (Sub. 3d).

For the punishment of crimes and misdemeanors (Sub. 2d).

Extending the time for the collection of taxes (Sub. 15th).

Giving effect to invalid deeds, wills or other instruments (Sub. 14th).

Regulating the rate of interest on money (Sub., 23d).

Remitting fines, penalties or forfeitures (Sub. 26th).

Authorizing the creation, extension or impairing of liens (Sub. 24th).

If the creation of a class of counties or cities and counties, and the confining of the operation of the law concerning the assessment and collection of taxes to that class satisfies Sec. 25th, Sub. 10th, Art. IV of the Constitution, and makes the law general as distinguished from special in any of the above cases, legislation may be enacted to be confined in operation to such a class of municipalities and by that test the law is made general.

An Act may prescribe a special practice in courts of justice within such municipalities, or a special punishment for certain crimes when committed within their limits, or a different rate or rates of interest therein, or different regulations as to liens within such municipalities or quasi municipalities. Such a conclusion would be manifestly absurd.

The fact is, that the classification which the Legislature is at liberty to make without depriving a statute of its character as a general law, must be of the subject which it is regulating.

If it is dealing with the powers of internal structure or municipalities, it may make a statute applicable to a particular class having a certain population.

If it is dealing with the matter of liens, it may make a separate class of each variety of liens, i. e. loggers, laborers, material men, liens for stud services, upon crops, etc.

So it may make different classes of crimes, and enact different regulations as to each.

In none of these cases is the subject of legislation, counties or municipalities, their powers, organizations or internal arrangements.

The requirement of generality is satisfied when the Legislature selects a certain distinct class of the object or matters to be regulated, and affects every individual of that class alike.

So in the matter of revenue, the Legislature for the purpose of legislation may make a special class of taxes for county purposes, another for State and another for municipal purposes.

It may classify the subject matter of taxation. For instance, it may make mortgages subject to a different rate and mode of taxation from other property. This it may equally do in the case of personality and realty, and of arable, mineral and timber lands.

Wheeler vs. Philadelphia, 77 Pa. St., 349.

In all these cases the Legislature takes, as the subject of legislation, a class of a subject matter upon which it is about to operate.

That class has characteristics distinguishing it from all other classes of that general subject matter, and requiring and warranting special regulation. The requirements of generality is satisfied when all individual cases coming within that class are affected alike.

The Legislature of this State has selected as the class for or subject of legislation, the assessment and collection of taxes upon personality and realty for county and State purposes. It was bound to make its regulations concerning such class or subject general and uniform throughout every county in the State.

Other considerations bring the present case within the reason and authority of the case of

The People vs. The Central Pacific R. R. Co., 83 Cal. 393.

The Legislature attempts by the provisos referred to, to provide for a different penalty and a different time of delinquency, in the case of taxes for county and State purposes, within the limits of counties and cities and counties having a population of over two hundred and fifty thousand inhabitants.

But if it can do this, it can make different provisions in other particulars to be applicable within such counties and cities and counties.

It has made real property taxes payable generally in installments. It might, by proviso, have excepted such counties and cities and counties from that provision.

It might provide that taxes upon realty shall not be a lien upon realty in such cities and counties. It might provide as to such counties, and cities and counties, that the payment of taxes upon realty should not be enforced by tax sale, but solely by suit and attachment.

In other words, it might provide a procedure for the collection of taxes upon the general class of real and personal property, within counties and cities and counties having a population of over two hundred and fifty thousand, different from the procedure applicable to such class in other counties.

To put the case otherwise, the procedure for such collection would be different as to a part of that class—the property situated without the limits of such counties and cities and counties, from the other portion—the portion situated within their limits.

The result is condemned in the case above referred to.

It is to be noticed that if it is held competent to thus vary the law for the assessment and collection of taxes according to the class of counties, or cities and counties in which assessments and collections are to be made, an infinite variety may be introduced into the law upon the subject. The law may be made to vary as to the time of payment and delinquency, mode of payment in installments or not, penalties, liens, mode of enforcement of payment; by forced sale or otherwise, and in other particulars in the different classes of counties classified according to population. It was to prevent such a result, and it was to render impossible just such a breach in the generality of

a revenue law as was attempted by the late Legislature, that the prohibition against special legislation was introduced into the Constitution.

The scope and operation of a provision in the Constitution of Nevada, identical with Sec. 25, Sub 10th of Art. IV of the California Constitution was under consideration by the Supreme Court of that State

State of Nevada vs. Cal. Min. Con., 15 Nev. 250,

Justice Beatty, then Chief Justice of that Court, in rendering the opinion therein announced the doctrine there and here applicable, in the following language (see p. 251):

"Revenue law must, as we have seen, be general and of uniform operations throughout the State; it must have the same operation in one county that it has in every other county under similar circumstances."

Applying this doctrine, a revenue law, and what is equivalent, a series of provisos to the general law, making taxes upon real and personal property situated within the limits of a certain class of counties, and taxed for county and State purposes, and not differing in situation or circumstances from similar property situated and similarly taxed in other counties, payable and delinquent at an earlier date from the latter, is in its character a special law, and void under the Constitution.

My conclusions for the foregoing reasons is that the provisos to the amended Sections 3746, 3756, 3758, 3797, 3764 and 3714, providing different times of maturity and delinquency, and for the performance of certain acts in the course of the assessment and collection of the taxes, and a different penalty in the case of taxes levied for county and State purposes, within counties and cities and counties having a population of over two hundred and fifty thousand, are void, as repugnant to Sub. 10th of Sec. 25 of Art IV of the Constitution of California.

Those provisos are separable from the general provisions of the Code as amended in the Statute of 1891, and not necessarily or inseparably connected with the general purpose and object of the Legislature embodied in that enactment.

As a consequence they fall, and the general provisions, as appearing in the new revenue law divested of those provisos, now stand as the law of this State, applicable without exception to every county and city and county of this State.

To resume, my conclusions are: First—that the Act of 1873-4 for the assessment of and collection of personal property taxes in the City and County of San Francisco for city and county purposes is consistent with the Code as amended by the so-called new "revenue law," and is not repealed or abrogated.

Second—That the new revenue law is valid except in so far as it attempts to make special provisions for counties and cities and counties having a population of over two hundred and fifty thousand inhabitants. The sections of the Code as amended by the said new law (but divested of the provisos) stand in place of the sections of the Political Code thus amended.

Third—The provisos to certain of the amended sections purporting to make a special provision for counties and cities and counties having more than two hundred and fifty thousand, are unconstitutional and void.

It is the duty of the various officers of the City and County of San Francisco having charge of matters connected with the assessment and collection of taxes, to conform to the general provisions of the Political Code as amended by the so-called new revenue law, and applicable to all counties throughout the State.

The result of the foregoing is that the uniformity in the revenue laws heretofore existing still continues, while the object of the Legislature, the payment of taxes in installments, is accomplished.

Respectfully submitted,

JOHN H. DURST, City and County Attorney.

The assessment of real estate and personal property, after revision by the Auditor, was as follows:

For City and County Purposes—

| | | |
|--|---------------|---------------|
| Real Estate | \$167,220,396 | |
| Improvements | 77,294,935 | |
| | | \$244,515,331 |
| Personal Property | \$49,684,664 | |
| Money and Solvent Credits | 17,366,084 | |
| | | 67,050,748 |
| Total assessment for City and County | | \$311,566,079 |

For State Purposes—

| | |
|------------------------------------|---------------|
| Real Estate and Improvements | \$317,878,643 |
| Personal Property | 81,960,018 |

Total assessment for State

\$399,838,661

Public Contracts Awarded

Under the Act of the Legislature of April 3, 1876 (Statutes 1875-6, page 854), the Board of Superintendence has the honor to announce that the following contracts have been awarded for the period of two years.

The following Schedule comprises a list of all the contracts awarded (annually, except where the different institutions enumerated, which are all required to be of the best quality; material for etc.; with the names of the contractors and the duration of the contracts. The Forage and Fuel enumerated and noted with a star are to be delivered by the contractors at the respective Engine, be delivered upon requisition approved by the proper standing committees of the Board of Superintendence.

OPENING STREETS

THROUGH

THE LAGUNA SURVEY.

In consequence of the difficulty of providing sewage facilities in the northwestern portion of the city and county, the attention of the Committee on Streets was called to the necessity of opening and extending Green, Union, Filbert, Greenwich, Lombard and Chestnut streets, Polk street, Van Ness avenue and Franklin street, through the Laguna Survey.

A former commission performed the service of appraising the benefits and damages resulting from the opening of said streets. What was then done is given, as it may be of interest for reference. Under an Act of the Legislature of 1869-70 (Statutes 1869-70, page 386), providing for opening streets through the Laguna Survey, the Board of Supervisors was empowered, within sixty days after the passage of such Act, to order to be opened there portions of Green, Union, Filbert, Greenwich, Lombard, Chestnut, Polk and Franklin streets; also Van Ness avenue through said survey under which the Board inaugurated the proceedings by the passage of Order No. 923, approved May 30, 1870; Order No. 937, approved July 25, 1870, and Order No. 956, approved October 6, 1870, the two last-named orders defining the duties of the Commissioners appointed, etc. The Act referred to, making it the duty of the County Court to appoint three Commissioners to assess the benefits and damages to each separate lot of land materially affected by the condemnation and opening of said streets.

The County Court (Delos Lake, Judge) appointed, on June 1, 1870, Scott Tidball, Matt Cannavan and C. L. Weller as the Commissioners. On January 31, 1870, C. L. Weller resigned, and on February 1, 1871, C. M. Hitchcock was appointed to fill the vacancy. He, in turn, resigned on May 8, 1871, and on August 29, 1871, Thaddeus R. Brooks was appointed to fill the vacancy. The officers of the Commission were James H. Reynolds as Secretary, and on his resignation Silas A. Stone was appointed; William P. Humphreys was engineer, C. T. Botts was attorney, and C. A. Sumner was phonographic reporter.

Under the Orders recited the compensation of the Commissioners was fixed at \$300 each per month, and said Commission were authorized to employ a clerk, an attorney, surveyor, draftsman and short-hand reporter; also, to rent a room at an expense not to exceed \$50 per month; also, to incur all necessary contingent expenses required in the discharge of their duties. The compensation allowed was not to extend over a period of ten months, and all unpaid warrants were to bear interest at the rate of one per cent. per month until paid.

The time in which to make the report of the Commission was extended one month from April 1, 1871, by Order No. 989, to enable the compensation for services rendered during that time to be also paid.

The Legislature, by an Act passed at the session of 1871-72, approved April 1, 1872 (Statutes 1871-72, page 949), repealed the Act of 1869-70, under which these proceedings were taken, and directed the City and County Attorney to file in the County Court a petition praying said Court to order dismissed the proceedings pending in said Court for a confirmation of the report made by the Laguna Survey Commissioners; also requiring said Order to be made by the Court. The repealing Act further provided for the expenses incurred by the Commissioners to be ascertained, and empowered the County Court to determine in writing the amount, specifying the sums allowed to the persons and the items, and to cause a certified copy to be delivered to the Auditor and Treasurer.

OPENING STREETS THROUGH LAGUNA SURVEY. 205

The Treasurer was also directed, without further auditing, upon the surrender to him of the warrants and certificates issued by the Commissioners, as soon as sufficient money was in the General Fund, to pay, in gold coin, the respective amounts so named in said determination as certified to by the Court.

The Board of Supervisors were also directed to levy a tax in the fiscal year 1872-73 sufficient to pay the warrants, and interest thereon, and all other sums of money allowed by said County Court, with interest thereon.

The Treasurer, in the fiscal year 1872-73, in compliance with the order of the County Court (Hon. John A. Stanly, Judge), paid the following amounts :

| | |
|---|-------------|
| Warrants paid, Laguna Survey..... | \$28,133 72 |
| Warrants paid, Laguna Survey, interest..... | 6,216 31 |
| Making a total of..... | \$34,350 03 |

As the amount paid by the city and county for the expense of the said Laguna Survey Commission.

The Statute further required all books, estimates, maps, plans and surveys, and all papers accumulated by and in the possession of said Commission, to be deposited with the County Recorder.

No further action was taken looking to the opening and projection of the streets through the Laguna Survey until after the passage of the Act of the Legislature of 1889 (Statutes 1889, page 70), whereby power and authority were conferred upon the Board to initiate proceedings to acquire private lands for street purposes.

The necessity of sewage facilities and access to and from the northwestern portion of the city in and through the Laguna Survey induced the Board of Supervisors, on July 29, 1889, to adopt a Resolution, No. 2297, of which the following is a copy, declaring its intention to open and extend the public streets through the Laguna Survey :

RESOLUTION No. 2297 (Third Series).

RESOLVED, That it is the intention of the Board of Supervisors of the City and County of San Francisco to order the opening and extending of the streets within the bounds of said city and county which are hereinafter named, through the land and lots of land known as the Laguna survey in said city and county, and to condemn and acquire for public use any and all land and property within said Laguna survey deemed necessary and convenient for the said opening and extending of the streets hereinafter named to their full official width as at present fixed by law through said Laguna survey, to wit: Green, Union, Filbert, Greenwich, Lombard and Chestnut streets in an easterly and westerly direction, through said survey, and Polk street, Van Ness avenue and Franklin street, in a northerly and southerly direction through said survey, each of the above mentioned streets and said Van Ness avenue to be opened and extended through said survey in the direct line of the projection of their respective courses, northerly, southerly, easterly and westerly, as the case may be; and further

RESOLVED, That the land deemed necessary to be taken therefor comprises all the land and property in the said Laguna survey, situate between the following lines of streets projected through and across said Laguna survey, namely, the northerly and southerly lines of Green street, the northerly and southerly lines of Union street, the northerly and southerly lines of Filbert street, the northerly and southerly lines of Greenwich street, the northerly and southerly lines of Chestnut street, the easterly and westerly lines of Polk street, the easterly and westerly lines of Van Ness avenue, and the easterly and westerly lines of Franklin street; and further

RESOLVED, That it is the intention of said Board to order that the said land and property within said Laguna survey, deemed necessary as aforesaid to be taken for the said opening and extending of said streets and of said avenue, be condemned, appropriated, acquired, set apart and taken for public use and for the said opening and extending of said streets and of said avenue through and across said Laguna survey; and further

RESOLVED, That the exterior boundaries of [the district of lands to be affected and benefited by said work and improvement, and to be assessed to pay the damages, cost and expense thereof, are as follows, to wit :

Commencing at intersection of Lewis and Fillmore streets ; thence easterly along Lewis street to Laguna street and Black Point Reservation; thence southerly along Laguna street and westerly

boundary of said reservation to Bay street; thence easterly along Bay street and southerly boundary of said reservation to Van Ness avenue; thence northerly along Van Ness avenue and easterly boundary of said reservation to Lewis street; thence easterly along Lewis street one block to Polk street; thence southerly along Polk street one block to Tonquin street; thence easterly along Tonquin street one block to Larkin street; thence southerly along Larkin street one block to Jefferson street; thence easterly along Jefferson street two blocks to Leavenworth street; thence southerly along Leavenworth street to Broadway; thence westerly along Broadway one block to Hyde street; thence southerly along Hyde street to Geary street; thence westerly along Geary street one block to Larkin street; thence southerly along Larkin street to Market street; thence southwesterly along Market street to Gough street; thence northerly along Gough street to Geary street; thence westerly along Geary street one block to Octavia street; thence northerly along Octavia street to Broadway; thence westerly along Broadway to Fillmore street, and thence northerly along Fillmore street to the point of commencement.

And the Clerk is hereby directed to advertise this resolution as required by law.

In Board of Supervisors, San Francisco, July 23, 1889.

Adopted by the following vote:

Ayes—Supervisors Bingham, Boyd, Pescia, Bush, Wheelan, Becker, Pilstér, Kingwell, Barry.

No—Supervisor Ellert.

Absent—Supervisor Noble.

JNO. A. RUSSELL, Clerk.

In compliance with the requirements of the Statute of 1889, notices were posted by the Superintendent of Public Streets along the line of the proposed projections, and a notice published from August 5th, 1889, for ten days, calling attention to the proposed action to condemn and acquire for public use any and all property deemed necessary for the opening and extending of the streets through the Laguna Survey.

A number of property owners filed objections as recited in the following copy of Resolution No. 2369 (Third Series), which were set for hearing on Monday evening, September 23, 1889.

[IN THE MATTER OF OPENING STREETS THROUGH THE LAGUNA SURVEY—NOTICE TO PROTESTANTS.]

RESOLUTION NO. 2369 (THIRD SERIES).

WHEREAS, E. W. Burr, Margaret Evans, T. B. Evans, and J. W. Wesson, by protest filed, August 19, 1889; B. Klumpke and John G. Klumpke, by protest filed August 24, 1889, Jay E. Russell, by protest filed August 28, 1889, and G. W. Grannis, Sarah J. Lux (per F. Lux), J. G. Clark (per P. Clark), H. B. Meyers, Gustav Guenther, Margareth White, Charles Monet, M. Gillespie, H. H. Kuchmeister, Miss C. Adams, N. Van Bergen, P. J. Thomas, E. M. Gallagher, E. B. Clark, Mrs. Catherine Weinke, James Walsh, Patrick Callaghan, E. Fletcher, G. Goodman, A. Montgomery, William Sinon, John Powers, Joe Pieperling, Chas. Moeller, M. D. McLaughlin, William Barton, Silas A. White, William Otis Reynolds, Mrs. G. Brook, Edward H. Howell, William J. Bryan, William Von Ronn, Benjamin Burton, John Moeller, Peter Scully, J. A. Bullard, James Attridge, Minna Tehnemann, Dora Leisen, John C. Hawke, George W. Irwin, John H. Pearson, John Bush, Bush Bros., Patrick Hogan, C. Harrigan, J. T. McCormick, F. Bronarde, by protest filed September 2, 1879 have objected to the work of opening and extending Green, Union, Filbert, Greenwich, Lombard and Chestnut streets in an easterly and westerly direction, and Polk street, Van Ness avenue and Franklin street in a northerly and southerly direction, through the Laguna Survey, as fully set forth in Resolution No. 2297 (Third Series), declaring the intention of the Board to open and extend said streets, setting forth respectively:

First.—That protestants do not object to the taking of their lands for the purpose named, provided the compensation therefor is first made or paid into court for the owners, but that they do protest against any taking, entering upon or damaging their property under the provisions of Resolution No. 2297, because it is unconstitutional and void, or in accepting of any warrant that may be drawn for the payment thereof in or by any proceeding initiated under said Resolution No. 2297.

Second.—Protesting against the passage of Resolution No. 2297 (Third series) by the Board of Supervisors.

Third.—Protesting against any portion of his 100-vara lot No. 22, in the Laguna survey, being taken, condemned or used by the city and county for streets or public use unless full payment made for the land so taken.

Fourth.—Protesting against including in the district to be assessed for the opening of the streets referred to those blocks, bounded by Larkin, Chestnut and Leavenworth streets and Broadway, for the reason that the land within said limits is hilly and rocky, and the expense of grading the streets thereon has already been unusually heavy, in some instances amounting to their forfeiture to the contractor to pay the expenses of grading, and that in this instance the section of territory desired to be excluded does not approximate within the line of improvement and for other reasons; therefore,

RESOLVED, and it is hereby ordered, that notice be given to all parties interested in said work, to be and appear before the Board of Supervisors of the City and County of San Francisco, at their chambers in the New City Hall, on Monday evening, September 23, 1889, at 8 o'clock that their objections to said work may be heard and action had upon the same.

And the Clerk is hereby directed to notify the persons so objecting, by depositing a notice on such time and place of hearing in the postoffice of said city and county, postage prepaid, addressed to each objector.

And the Clerk is hereby directed to advertise this Resolution in the San Francisco Daily Report newspaper, as required by law.

In Board of Supervisors, San Francisco, September, 16, 1889.

Adopted by the following vote:

Ayes.—Supervisors Bingham, Pescia, Bush, Ellert, Wheelan, Becker, Pilster, Kingwell, Barry, Noble,

Absent—Supervisor Boyd.

JNO. A. RUSSELL, Clerk.

All objections were heard by the Board of Supervisors on September 23, 1889, and taken under consideration. On October 28, 1889, the Committee on Streets reported in favor of overruling the objections made, "and of the appointment of Commissioners to assess the benefits and damages." In the case of the property included in the district bounded by Larkin, Chestnut, Leavenworth streets and Broadway, the benefits as they appear will probably be only nominal; the Commissioners determine the benefits accruing as well as the damages. The projection of the streets "through the Laguna Survey has been an improvement required in the interest of property in that section of the city, and should be prosecuted and carried out as designed for the benefit of the property-owners." On the last named date the Board of Supervisors (by Resolution No. 2592) overruled the objections, and by Order No. 2130 ordered the streets to be opened and extended and appointed James Hanley, Horace G. Platt and P. J. Corbett as Commissioners to assess the benefits and damages resulting from the opening and extending of the said streets through the Laguna Survey, to wit:

ORDER No. 2130.

OPENING AND EXTENDING GREEN, UNION, FILBERT, GREENWICH, LOMBARD AND CHESTNUT STREETS; ALSO POLK STREET, VAN NESS AVENUE AND FRANKLIN STREET, THROUGH THE LAGUNA SURVEY.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. It is hereby ordered that Green, Union, Filbert, Greenwich, Lombard and Chestnut streets, also Polk street, Van Ness avenue and Franklin street, be hereby opened and extended through the Laguna Survey in the City and County of San Francisco, as provided for in Resolution No. 2297 (Third Series), declaring the intention of this Board to order said streets opened and extended, and pursuant to the provisions of the Act of the Legislature of the State of California entitled, "An Act to provide for laying out, opening, extending, widening, straightening or closing up in whole or in part any street, square, lane, alley, court or place within municipalities, and to condemn and acquire any and all land and property necessary or convenient for that purpose. Approved March 6, 1889.

SECTION 2. James Hanley, Horace G. Platt and P. J. Corbett, all of the City and County of San Francisco, are hereby appointed Commissioners to assess the benefits and damages resulting from the opening and extending of the streets named as provided for in Resolution No. 2297 (Third Series) of this Board, and to have and exercise general supervision of the proposed work or improvement until the completion thereof in compliance with the statute aforesaid.

In Board of Supervisors, San Francisco, October 23, 1889.

Adopted by the following vote:

Ayes—Supervisors Bingham, Boyd, Pescia, Bush, Wheelan, Becker, Pilster, Kingwell, Barry, Noble.

Absent—Supervisor Ellert.

JNO. A. RUSSELL, Clerk.

The Commissioners appointed filed their oath of office and bonds in the sum of \$5,000, as required, those of James Hanley on October 31, 1889, with Jno. W. Farren and David Kerr as sureties, those of Horace G. Platt on November 4, 1889, with W. H. Dimond and W. F. Goad as sureties, and those of P. J. Corbett on October 31, 1889, with J. W. McDonald and Michael Maguire as sureties, which bonds were duly approved. The Commissioners organized and appointed Horace G. Platt Chairman, the first meeting of the Commissioners being held on January 16, 1890, in the office of the City and County Surveyor in the New City Hall building. While the work of the Commission proceeded the question of the constitutionality of the Act of 1889 was pending in the Supreme Court in the case of *Davies vs. City of Los Angeles*, and necessarily caused some delay in order that advantage might be taken of any decision which might in any way indicate a course of procedure under the Act, so that the proceedings might, if the Act was declared constitutional, be in accord therewith.

The Chairman of the Commission, Horace G. Platt, Esq., as *amicus curiæ*, filed a brief for appellants. The Supreme Court, on September 15, 1890, filed its opinion that the Act was constitutional, the following being the syllabus of the decision of the Supreme Court affirming the validity of the Act of the Legislature of 1889 (*Pacific Reporter*, Vol. 24, page 771):

DAVIES VS. CITY OF LOS ANGELES ET AL. (No. 13,803).

(Supreme Court of California. Sept. 15, 1890).

CONSTITUTIONAL LAW—CITY CHARTERS—STREET ASSESSMENTS.

1. Const. Cal. art. 11, § 8, provides for the preparation and adoption of a charter for any city which shall be submitted to the Legislature, and adopted by it, or rejected, "without power of alteration or amendment;" but requires such charter to be "consistent with and subject to the laws of the State;" and section 6 provides that all charters "shall be subject to and controlled by general laws." Held, that St. Cal. 1889, p. 70, providing for the opening and widening of streets within municipalities, being a general law, is applicable to the city of Los Angeles, though its charter was framed under said section 8. Beatty, C. J., and Fox, J., dissenting.

2. St. Cal. 1889, p. 70 is entitled, "An Act to provide for laying out," etc., "any street," etc. "within municipalities, and to condemn and acquire any and all land and property necessary and convenient for that purpose." Held, that provisions therein for the condemnation of land and for assessments on other lands to pay therefor are the means by which the object of the Act, the laying out, etc., of streets, is to be accomplished, and hence the Act is not unconstitutional because the subject of assessments is omitted from its title.

3. Such statute provides for publication of notice of the resolution of the city council to undertake the improvement, with a description of all lands to be affected; of notice of the filing of the report of commissioners appointed to consider the improvement, and of the confirmation of their report; and also of notice of the assessments made against land, and of their sale in case of delinquencies. And provision is made for the appearance of parties aggrieved to state the objections at each stage of the proceedings. Held, that the fact that personal service of notice on the parties to be affected is not required does not render the statute objectionable as a taking of property without due process of law. Beatty, C. J., dissenting.

4. The provisions of the Act for a lien on land for benefits assessed against it are not rendered invalid by the mere fact that, as the improvement may never be completed, the benefits may never accrue.

5. Nor are the provisions for assessments void because the amount thence arising may be greater than is needed, for the Act itself provides for refunding the excess. Beatty, C. J., dissenting.

6. Such Act is not in violation of Const. Cal. art. 11, § 13, as delegating municipal functions to a special commission, as the commissioners therein provided for are merely the agents of the municipality, and their acts are not binding or effective until they are approved and confirmed by the city council.

The Commission (by Order No. 2,211, adopted April 28, 1890) were granted an extension of six months from April 28, 1890, and a further extension of six months from October 28, 1890 (by Order No. 2287, adopted November 3, 1890).

On March 14, 1891, the Commission filed their report of the assessment of benefits and damages, with index accompanied with a map book containing plats of the assessment district, showing the land taken or to be taken for the opening and extending of said streets through the Laguna Survey and the lands assessed therefor; also a map showing the lands to be taken and the district declared to be benefited. The total amount assessed aggregating \$219,060 16, of which \$189,680 47 was for the payment for land taken and damages to improvements, \$22,693 50 for the expense of the Commission, and \$6,686 19 for incidental and contingent expenses required to defray expenditures to accrue to carry out the provisions of the statute and complete the work.

The following extracts from the report of the Commissioners, showing the principles upon which the assessments were based, the benefits and how assessed, the area of the land taken in square feet for the extension of the streets, and the rates allowed in each case:

REPORT OF THE LAGUNA SURVEY COMMISSION.

*To the Honorable Board of Supervisors
Of the City and County of San Francisco:*

The undersigned Commissioners, who were appointed by your Honorable Board under the provision of Order No. 2,130 to assess the benefits and damages resulting from the opening and extending of certain streets above named through the Laguna Survey beg leave to report as follows:

In pursuance of their said appointment they immediately qualified and took the necessary steps to begin their duties. They appointed a Secretary, and a Surveyor to survey the territory embraced within the district to be assessed for the said benefits and damages, had all necessary maps and plans prepared, and personally inspected the entire district. Herewith they file their report of their work, and a plat of the assessed district showing the land to be taken for the said extensions, and the lands assessed to pay for the same, the relative location of every block and lot, and its dimensions, so far as the Commissioners have been able to ascertain the same. Every block, lot and portion of lot taken or assessed is in this plat, designated and described by its appropriate number. In selecting these numbers it has been deemed advisable to adopt the numbers of the blocks, and lots found on the Assessor's maps. Lobos Park and Lafayette Park having no numbers on the Assessor's maps, appropriate numbers are given them. This plat is in the shape of a block book containing forty-five pages, the district being too large to be embraced upon any single page or map.

In obtaining the names of the owners of the lots taken or injured by the opening and extending of these streets, the Commissioners have gone to much trouble and believe that they have ascertained the names of the owners of each lot as they appeared on record nearly down to the date of the filing of this report. It has of course been impossible to keep up with changes that may have been made pending the preparation of this report.

The majority of the property owners of that portion of the city covered by the Laguna Survey, and included between Vallejo street on the south and Chestnut street on the north, Gough street on the west and Larkin street on the east, have long been in favor of having the streets running through this territory opened and extended. This improvement has long been retarded by one or two of the property owners in this portion of the city.

The Commissioners, after much labor and after having had the advantage of the opinions of the best real estate expert agents in the city, and after conferring with the property owners in the Laguna Survey, have arrived at a scale of prices to be paid for the land to be taken for the opening and extending of these streets which is acceptable to nearly all of these property owners, and which, it is confidently expected, will be accepted by all of them when the same is tendered to them.

In arriving at these prices, the Commissioners have been governed much by the fact that the streets as extended will leave the ownings of many property owners in triangular shapes that will not be immediately available for either improvements or for sale. The hundred vara lots in the Laguna Survey were laid off parallel with the lots lying on and to the south of Market street, and are, therefore, necessarily very badly cut up by the extensions of the streets heretofore mentioned.

Parts of the hundred vara lots to be taken for the extension of several of the above mentioned streets have already been either directly or indirectly dedicated to the public, and are, therefore, not included among the lots or portion of lots to be paid for under this Commission. That portion of the hundred vara lot number twenty-one (21) required for the extension of Lombard street is admitted by all who possibly have any claim to it as already dedicated to the public use as a street. Those portions of the hundred vara lots numbered fourteen and twenty-four (14 and 24) required for the extension of Union, Polk and Filbert streets have been deeded to the city by the owners. That portion of the hundred vara lot number twenty-five (25) required for the extension of Union street has been dedicated to the public by the acts of the owners thereof in conveying all of the land fronting on either side thereof to various grantees by deeds describing the various portions conveyed as fronting on the north or south side of Polk street. The same is true as to that portion of the hundred vara lot number fifteen (15) required for the extension of Union street.

There are no conflicting claims of title existing as to any of the lots required for the opening and extension of these streets except as to a portion of lot (9) situated on the northeast and southeast corner of Van Ness avenue and Green street. This conflict of title, however, will not retard the opening of these two streets, as the conflicting parties are willing to make a joint deed.

The Act of March 6, 1889, under which the Board have acted in appointing this Commission and ordering the opening and extension of the above named streets, provides that the cost and expense of this work shall be assessed upon the district of lands declared to be benefited by the resolution of intention providing for the proposed improvement. The district, the exterior boundaries of which were fixed by this Honorable Board, is a large one, extending from the bay on the north to Market street on the south, and having as its eastern and western boundaries, as to that portion lying between the bay and Broadway, Fillmore streets on the west and Leavenworth street on the east; as to that portion lying between Broadway and Geary streets, Octavia street on the west and Hyde street on the east; and as to that portion lying between Geary and Market streets, Gough street on the west and Larkin street on the east.

Under the above mentioned act this assessment must be levied upon the lands within said district in proportion to the benefit to be derived from said opening and extension, so far as the Commissioners can readily estimate the same, including in said estimate the property of any railroad company within said district, if such there be.

It has been no easy task to estimate the proportionate benefits which are to be derived by the lands within this district from this proposed improvement. That the burden of this assessment should bear the heaviest upon the lands in the immediate neighborhood of the proposed improvement, and should decrease in proportion to the distance from said improvement of any particular land to be assessed, is plainly evident. How to estimate this decreasing benefit is not so evident. Wherever a line is drawn, making the assessment heavier upon the lands on one side than on the other side, an objection naturally arises on the part of the person in the class against whom the distinction of assessment is made. This objection cannot be avoided, except by making the assessment equally heavy upon every lot in the district, and this would be manifestly unjust and wrong.

The Commissioners have therefore used their best judgment in estimating the benefits to be derived by the lands in the district from the proposed work, by dividing the district into four (4) classes. Into the first class they have put all lands lying within the Laguna Survey, in front of which are situated the lands to be taken for the opening and extension of any of the streets, and for which payment is to be made. This class bears the heaviest burden. Into the next class they have put the lands adjoining those in the first class, which they have judged will derive the most benefit from the proposed improvement next after the lands first mentioned. In the same way the rest of the district has been divided into three (3) classes. All lands situated at certain distance from the Laguna Survey, in the Commissioners' judgment, are equally benefited, and should bear their portion of the assessment in an equal ratio. The rest of the lands, those lying within these limits, should bear this assessment in a varying ratio, according to the varying benefits to be derived. Lands lying in the three (3) main streets running north and south, to wit, Franklin and Polk streets and Van Ness avenue, are estimated as deriving more benefits from the proposed work than those lying between these streets. Those situated on Van Ness avenue are deemed to be more benefited within certain limits than those lying on Franklin and Polk streets. Lands lying north of the Survey, and south as far as California street, and east and west of the Survey as far as Octavia and Hyde streets, are deemed to be more benefited than those lying east, west and south of these streets.

Attached to this report are exhibits showing the lot included within each of these different classes, and the ratio in which they are assessed. In making this assessment it has been deemed

wise to take as a basis the value of the lands as determined by the Assessor of the city and county. This gives as equitable a basis as the circumstances of the case will permit.

In addition to the "lands," the act of 1889 includes the "property" of any "Railroad Company" within said district. A distinction is here made between "lands" and "property." The Commissioners have therefore felt compelled to assess not only the lands owned by any railroad company, but also any other property owned by it within the district. A number of street railroads lie partly within the district to be assessed to pay for the opening and extension of these streets. That portion of the track of these companies which is styled by the Assessor of the city and county as "superstructure." The Sutter Street Railroad Company and the Presidio and Ferries Railroad Company, are assessed to be more benefited than the others, as these two run through the Survey. Four (4) railroad companies, to wit, the Sutter Street Railroad Company, the Bush Street Railroad Company the Presidio and Ferries Railroad Company, and the California Street Cable Company own other property within the district, to wit, "improvements" upon their real estate. These also have been assessed as being included within the "property of a railroad company." As the Commissioners have the power to levy the assessment upon property in proportion to the benefits derived by it from the proposed improvements, they have estimated the benefits derived by these improvements as very light.

There is a strip of land about 1,140 feet in length and 30 feet in width beginning at a little northeast of the center of block 43, and running in a southwesterly direction across Van Ness avenue and Greenwich street through the middle of block 98; across Franklin street and northwest corner of Fillmore street and Franklin street, block 106, and terminating in Fillmore street 106 feet west of Franklin street. This strip of land is bordered on the north by the hundred vara lots 3, 4, 7, 19 and 21, and on the south by the hundred vara lots 3, 6, 12 and 22. There is, however, no mention made of it in the record of the city and county. These eight (8) hundred vara lots, though bordering on this strip, are not described in the original Alcalde grants as bordering thereon. As far as can be ascertained the title of this narrow piece of land has never passed out of the city and county except by adverse possession. There is no record of its ever having been dedicated to the public use as a street. It is claimed by various persons who have been in possession of it for years and also by the city and county as recently announced in suit to have it pronounced a public street. This Commission has concluded that that portion of it required for the opening of Franklin, Fillmore and Greenwich streets and Van Ness avenue belongs to the city and county under the Van Ness avenue ordinance. Those portions of it required to be taken for the opening and extension of these streets is assessed to unknown owners.

The total amount of money required for the payment of lands to be taken for the opening and extension of the above mentioned streets is one hundred and eighty-nine thousand six hundred and eighty 47-100 dollars. \$189,680 47

The expenses of the Commission are as follows:

| | |
|--|-------------|
| Salaries of the three Commissioners..... | \$10,800 00 |
| Salary of the Secretary of the Commission..... | 1,800 00 |
| Fees of the Surveyor..... | 2,500 00 |
| Fees of the Searcher of Records..... | 2,500 00 |
| Fees of the expert witnesses..... | 2,500 00 |
| Attorney's fees..... | 1,000 00 |
| Expenses of extra clerks..... | 450 00 |

Miscellaneous Expenses—

| | |
|---|--------|
| Hack hire..... | 10 00 |
| Stationery..... | 50 00 |
| Table..... | 17 50 |
| Printing of Briefs..... | 52 00 |
| Blank books..... | 64 00 |
| Expert accountant..... | 50 00 |
| Type writing..... | 100 00 |
| Two (2) copies of maps and reports..... | 800 00 |

Total..... \$212,373 97

The total amount raised by assessment on private property is two hundred and sixteen thousand seven hundred and eighty-six 65-100 dollars..... \$216,786 65
 The total assessment on city property is..... 2,273 51

Total..... \$219,060 69

The extra sum of six thousand six hundred and eighty-six 19-100 dollars (\$6,686.19), the difference between the amount of expenses already ascertained and the total assessment, is levied in order to defray the contingent expenses that will accrue in carrying out the balance of the work of the Commission.

The Act of 1883 requires the Clerk of the City Council to give notice of the filing of this report by publication in one or more of the daily newspapers. It requires the Superintendent of Streets to give notice by publication in one or more daily newspapers, giving notice to the property owners to pay their assessments. In the event that the property owners fail to pay, the Superintendent of Streets is required to sell the delinquent property. Conveyances will have to be prepared between the property owners and the city for the land to be taken. Suits will have to be brought to condemn some of the land required. This extra expense is levied to meet these contingent expenses.

The Commission called to its assistance five (5) of the best real estate experts in the city to testify as to the reasonable price to be paid for the lands required to be taken for the opening of the streets mentioned. The fees paid to these experts are smaller than those usually paid to them when they testify in courts.

The fee paid to the Surveyor is a very reasonable one, especially when it is considered that he advanced more than three-fifths (3/5) of it as expenditures upon his work, even while the legality of the Commission was contested in the courts.

The fee of the Searcher of Records is much smaller than that charged to private citizens for a less amount of work.

Some comment has been made in the press upon the delay of this Commission in filing its report. Such delay was unavoidable. When the Commission was first appointed, it was compelled to wait a couple of months before the necessary surveys could be made and maps prepared. It then opened an office in the New City Hall, and through the courtesy of the press gave repeated notice to the public of its meetings, requesting the owners of the Laguna Survey to attend these meetings. The extraordinary rainy season of 1890 was then at its height, and little or nothing was accomplished, though frequent meetings were attended by the Commissioners. Then came the litigation from Los Angeles, in which the constitutionality of the act of 1889 was very vigorously assailed. As all persons working on this Commission were doing so with their pay contingent upon the legality of the Commission, they all very naturally suspended operations for several months until the Supreme Court decided in favor of the constitutionality of the act of 1889. This Commission then moved its office down to the law office of the chairman, in order to get the property owners in the Laguna Survey to come to the office of the Commission for consultation as to prices to be paid for the lands to be taken. This was slow work, but finally all were interviewed, and conclusions were reached between them and the Commission. It then became for the first time possible for the Commission to turn over its maps to a Searcher of Records for the purpose of obtaining as nearly as possible the names of the present holders of the various lots in the entire assessed district. Since then every possible dispatch has been used in the furtherance of this work.

Respectfully submitted,

H. G. PLATT, Chairman,
JAMES HANLY,
P. J. CORBETT.

The report, etc., of the Commissioners was presented to the Board of Supervisors at a meeting held on Monday evening, March 16, 1891, and by Resolution of said Board (No. 4870, Third Series), the Clerk was directed to publish the notice required by law for ten days in the San Francisco Daily Report, the Chronicle and Evening Bulletin newspapers. The following is a copy of the notice published as directed, to wit:

NOTICE

OF THE FILING OF REPORT OF COMMISSIONERS FOR THE OPENING AND EXTENDING OF STREETS THROUGH THE LAGUNA SURVEY.

CLERK'S OFFICE, BOARD OF SUPERVISORS,

CITY AND COUNTY OF SAN FRANCISCO,

Monday, March 16, 1891.

In compliance with law and the direction of the Board of Supervisors of said city and county public notice is hereby given that the Commissioners heretofore appointed for the opening and extending of Green, Union, Filbert, Greenwich, Lombard and Chestnut streets; also Polk street, Van Ness avenue and Franklin street, through the Laguna Survey, filed in this office on March 14, 1891, their report of the assessment made for benefits and damages in the opening and extending of the streets herein named through the Laguna Survey, accompanied by plats, maps, plans and diagrams of the assessment district, showing the land taken or to be taken for said opening and extending of said streets and the lands assessed therefor; also, that said report and plans, etc., are and will be open for inspection in this office, and all persons interested are hereby required to show cause, on or before April 18, 1891, if any, why such report should not be confirmed by the Board of Supervisors of said city and county. All objections to the confirmation of said report, etc., must be made in writing and filed with the Clerk of said Board on or before Saturday, the 18th day of April, 1891.

JNO. A. RUSSELL, Clerk.

Various objections were filed to the confirmation of said report, and on April 20, 1891, the Board of Supervisors, by Resolution No. 5054 (Third Series), provided for issuing notice to and set the time for hearing the objectors on Monday evening, May 11, 1891, which notice was mailed on April 27, 1891, to each of the said objectors.

The names of and reasons given by objectors were as follows:

1. Sarah M. Hansel—That the valuation of Lot No. 1, in Block No. 163, as laid down in the plat of said Commissioners, is fixed in accordance with the Assessor's valuation thereof, and not at the value thereof in point of fact; that the improvements have not been assessed, and that the assessment is excessive and not proportionate to the assessment on other lands.
2. J. M. Burnett (Trustee)—That with regard to Lots 11, 12, 13 and 14, in Block No. 20, and Lots 14 and 15, in Block No. 50, the same objections are applicable as above expressed. Also, that the lots and lands referred to are not benefited to the extent of the amount for which they are each of them assessed.
3. James Attridge—That the opening and extending of the streets named through the Laguna Survey are of no benefit to the property of James Attridge in Block 34.
4. J. E. Russell—That a certain strip of land 1100 feet by 33 feet 5 inches, extending across said survey, has been assessed for benefits and that said land has ever since 1848 been considered a public street, which has never been assessed for taxes, and that a suit is now pending in the courts to remove all persons claiming an interest in said strip of land.
5. Edward Kruse—That the proceedings had in relation to the opening of said streets have not any of them been in accordance with law; that the objectors have not had proper and legal notice of said proceedings; that the Commissioners have not complied with the provisions of law or any of them; that the Commissioners did not make any assessment or assess the amount of expenses upon any district of land as required by law; that the assessment is not in proportion to benefits to be derived from the work or improvement as required by law; that the assessment of every part of the district bounded by Geary, Market, Larkin and Gough streets at the same rate is unjust, improper legal and unauthorized, and that the assessment of property on Turk street away from Van Ness avenue at the same rate as property on Van Ness avenue, between Geary and O'Farrell streets, is unjust; that the property of objectors, being over a mile from the proposed improvement, is excessive.

sively assessed; that the Commissioners have not exercised due discretion or judgment in making these assessments, but have been guided by the assessments of the Assessor; that property in the Laguna Survey and its immediate vicinity should have been assessed and other property more remote only nominally; and that the amount to be paid for the opening of said streets is excessively disproportionate to the value of the land to be taken therefor.

6. John C. Hawke—That the property of John C. Hawke, situated in Block No. 34, is not benefited by the opening of said streets.

7. E. W. Burr—That the protestant, E. W. Burr, considers the award on 100-vara lots 12 and 13 is 50 per cent too low; that the valuation of his property to be taken is inadequate; that private property should not be taken for public use unless condemned under the right of eminent domain; that the cost of the commission is at least three times too great, and that he objects to making any deeds until the city is prepared to pay for the property.

8. Bartlett Doe, J. S. and C. F. Doe, Kate May Dillon, Mary Ives Crocker, James Simpson, Peter Dean, Jno. Nightingale and Jno. Nightingale, Jr.—That Bartlett Doe et al. consider that the proceedings had are not in accordance with law; that no proper notices were served upon protestants of said proceedings or the limits of the assessment districts; that the Commissioners have not complied with the provisions of law or any of them; that the Commissioners did not make any assessment of the amount of expenses upon any district of land, as required by law; that the assessment is not made in proportion to the benefits to be derived from the work or improvement; that the assessment upon the property of these objectors, respectively, is not in proportion to the benefits to such property; that the assessment of property in the district bounded by Geary, Market, Larkin and Gough streets, at the same rate as property on Van Ness avenue, between Geary and O'Farrell streets, is sufficient proof that the said assessment was not made in proportion to benefits, as contemplated by law; that the property of the protestants, being more than a mile distant from the proposed improvement, will be benefited only to the extent of a nominal amount, and not one-tenth of the property assessed only at the same rate on Van Ness avenue, between Geary and O'Farrell streets, will be benefited; that the owners of lands west of Larkin street have in all cases been required to donate their lands for purposes of public streets, and that the owners in the Laguna Survey should, in fairness and equity, be required to do the same.

9. Ellen Mowry—That Ellen Mowry objects to the award of the Commissioners of \$5,206 25 to John McGovern as damages for land taken for the opening of Van Ness avenue, being part of Lot 21 of the Laguna Survey, situated S. E. corner of Van Ness avenue and Lombard street, on the ground that said land is not owned by said John McGovern, but by said Ellen Mowry; also objects to the assessment of \$248.62 on Subdivision 1, Block No. 43, being S. E. cor. of Van Ness avenue and Lombard street, on the same grounds.

10, 11, 12, 13—W. B. Rowe, Wm. Sinon, Magdalena Zehender and Thomas Ennor, respectively, protesting against the payment of assessments for the cost of opening streets through the Laguna Survey, as aforesaid, and for other reasons

On Monday evening, May 11, 1891, the Board of Supervisors postponed the hearing of the objectors to the confirmation of the Report of the Laguna Survey Commission, to Tuesday forenoon, May 15, 1891, at 10 o'clock, at which time the Board heard all objectors, J. M. Burnett, trustee, Edward Kruse by his attorney, Theo. H. Hittell, Jno. C. Hawke, E. W. Burr by his attorney, J. C. Bates, Bartlett Doe for himself and others, John Nightingale, Kate M. Dillon and Mary I. Crocker by their attorney B. A. Hayne, Jas. Simpson, Peter Dean, Wm. Sinon and Jay E. Russell appeared and were heard, after which the whole matter was referred to the Committee on Streets to examine into the objections as to the assessments made and report the proper action to be taken by the Board.

On May 21, 1891, the Committee on Streets heard Horace G. Platt, Chairman of the Commission, and postponed further action to afford an opportunity for an examination into the assessments made and the objections thereto.

On September 7, 1891, at a meeting of the Board of Supervisors, the Committee on Streets, etc., presented the following report, recommending modifications and corrections in the report of the Commissioners appointed to assess benefits and damages resulting from the opening and extending of streets through the Laguna Survey, with volume accompanying containing said modifications and corrections, which report was received, read and adopted by the Board.

REPORT OF COMMITTEE ON STREETS.

To the Hon. Mayor and Board of Supervisors:

GENTLEMEN.—Your Committee, to whom was referred the matter of the report, assessment and plat filed by the Commissioners appointed to open certain streets through the Laguna Survey, and the objections filed against said report, assessment and plat, beg leave to report as follows :

Your Committee is of the opinion that said objections, so far as they refer to doing this work at all, or the size of the district to be assessed to pay for said work, or to the land that should or should not be assessed to pay for said work, or to the legality of the proceedings of the Board of Supervisors in this matter, or to any matters or things except as hereinbelow mentioned, are not well taken, and your committee reports against them. Said objections, so far as they refer to the damages to be paid for the land to be taken, or to the amounts assessed upon the individual lots in the district to be assessed, are in part well taken, and your committee has prepared certain modifications and corrections in accordance with the general tenor and spirit of said objections in this regard.

Under the report as presented by the Commissioners, the burden of the assessment was erroneously placed upon that portion of the district south of the Laguna Survey, and extending from Broadway street to Market street. This error has been corrected and the assessments have been so modified that the amount to be levied on said portion of the district has been reduced from the sum of \$161,903.35 (as per the Commissioners' report) to the sum of \$39,145.41; the amount to be levied upon the blocks covered in whole or in part by the Laguna Survey has been increased from the sum of \$20,542.45 (as per Commissioners' report) to the sum of \$50,822.62; the amount to be levied on the blocks north of Broadway street and not including the blocks covered in whole or in part by the Laguna Survey, has been increased from the sum of \$36,614.36 (as per said report) to the sum of \$71,476.47; the amount to be paid for the land in the Laguna Survey to be taken for streets has been reduced from the sum of \$189,680.47 (as per said report) to the sum of \$132,731, a reduction of \$56,929.47.

The assessments have been graded in a decreasing ratio from the corner of Filbert street and Van Ness avenue (the center of the Laguna Survey) to the four exterior boundaries of the district, the decrease being more rapid from Vallejo street, south to Market street, than towards Fillmore street on the west, the bay and United States Reservation on the north and Leavenworth street on the east.

Some of the expenses have been reduced and the amounts thus saved have been added to the amount required for future and contingent expenses.

The item of \$10 for hack hire has been disallowed. The item of \$2,500 for expert witnesses has been cut down one-half. The item of \$2,500 for searchers' fees has been cut down to \$2,000.

The modifications and corrections prepared by the committee, accompany and form a part of this report.

Parts of certain small alleys, lanes, avenues, streets and places the committee finds are inclosed and occupied by private individuals. It will require an action at law to determine whether these individuals have any ownership of the premises so occupied. These parts of these streets, etc., are therefore assessed to unknown owners and added as a correction to said report and assessment, and are enumerated in this report.

These modifications and corrections render unnecessary the column of figures in the report and assessment showing the rate per cent.

The explanatory remarks of the Commissioners accompanying their report and assessments have been changed to accord with these modifications and corrections.

Your committee recommends that said modifications and corrections be copied into said report, assessment and plat, and that the said report, assessment and plat hereto filed by the Commissioners be confirmed as so modified and corrected.

One of the reasons which render important that this proceeding should be consummated is that until these streets are projected, no system of sewerage can be constructed for this section of the city, the discharge from the Lombard street sewer alone being a serious nuisance which ought to be abated.

C. W. TABER,
W. WILKINSON,
D. B. JACKSON,
JAMES W. BURLING,

At the same meeting the Board of Supervisors passed Resolution No. 5674 (Third Series) of which the following is a copy, setting forth that the said Board would pass upon the report of the Commissioners, to open the streets through the Laguna Survey, and the objections to said report and assessments, to wit :

RESOLUTION NO. 5674 (THIRD SERIES).

RESOLVED, That this Board having heard and considered the objections to the report of the Commissioners appointed to assess benefits and damages resulting from the opening and extending through the Laguna Survey of Polk, Franklin, Green, Union, Filbert, Greenwich, Lombard and Chestnut streets and Van Ness avenue, will pass upon the said report and objections on Monday evening, September 14, 1891.

At a meeting of the Board of Supervisors, held on September 14, 1891, the matter of the report of the Commissioners appointed to assess benefits and damages resulting from the opening and extending of Polk, Franklin, Green, Union, Filbert, Greenwich, Lombard and Chestnut streets and Van Ness avenue through the Laguna Survey was taken up and the foregoing resolution read, whereby the Board declared its intention to pass upon said report, etc.

A protest of E. W. Burr, of which the following is a copy, was presented, received and read :

PROTEST OF E. W. BURR.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

In proceedings for opening streets through Laguna Survey, Polk, Franklin, Green, Union, Filbert, Greenwich, Lombard and Chestnut streets and Van Ness avenue, City and County of San Francisco,

Now comes E. W. Burr and without waiving any of his rights and remedies in regard to the above-named proceedings, makes the following objections :

1. That a substantially different report and appraisement has been made and presented September 7, 1891, and there has not been sufficient time to examine the same as provided by the act under which said proceedings were taken.

2. That said report and proceedings are unconstitutional and invalid, unequal and unjust in assessing land fronting on the street or avenue, proposed to be taken and appropriated for public use, for a street or avenue in front of the land taken, which in effect amounts to a taking of one-fourth (1/4) of your objector's property for public use and selling at public auction the rest to create a fund to pay for the land taken.

3. That it is not legal or competent to consider benefits otherwise than in estimating the value of the property taken for public use.

4. That your protestant objects to his property or any part thereof being taken or damaged for public use, except by proceedings taken in Court by Eminent Domain Proceedings.

5. That it is not competent to compel a certain number of private individuals of this city and county to pay for a street for public use, especially where the whole city and county constitutes the public and receives all the benefits that arise by the way of increased valuation for taxable purposes.

6. That your objector would be willing to have Van Ness avenue opened through the most valuable part of his property 68 9-12 feet wide without compensation, rather than have it cut through its present width 125 feet wide at 80 cents per square foot.

7. That the valuation on the property taken is too low by 100 per cent.

E. W. BURR,

Owner of land proposed to be taken for said street and assessed and sought to be sold to pay for the taking, as appears from the

Report of the Hon. Commissioners on file herein.

September 14, 1891.

J. C. BATES, Counsel for E. W. Burr.

Mr. E. W. Burr was called, to be heard in support of his protest, but failed to appear. The protest was then considered, no other parties being present or desiring to be heard, the following Resolution was adopted, overruling and disallowing the objections filed to the original report, except so far as they are adopted by the Board in said report as modified and corrected, and directing the Clerk to forward to the Superintendent of Streets a certified copy of said corrected and modified report, assessment and plat as finally confirmed and adopted, and file a copy of the plat appropriately

[CONFIRMING THE REPORT OF THE COMMISSIONERS APPOINTED TO ASSESS BENEFITS AND DAMAGES RESULTING FROM THE OPENING AND EXTENDING OF CERTAIN STREETS THROUGH THE LAGUNA SURVEY.]

RESOLUTION No. 5683 (THIRD SERIES).

WHEREAS, The Commissioners appointed to assess the benefits and damages resulting from the opening and extending through the Laguna Survey of Polk, Franklin, Green, Union, Filbert, Greenwich, Lombard and Chestnut streets and Van Ness avenue, did on the 14th day of March, 1891, file in the Clerk's office of said Board of Supervisors their written report of the benefits and damages assessed by them for said purpose, accompanied with a plat of the assessment district showing the land to be taken for said improvements, and the lands to be assessed, and the relative location of said district, blocks, lots and portions of lots and the dimensions of said lots contained in said district, so far as the Commissioners could reasonably ascertain the same; and

WHEREAS, The said Clerk on the 17th day of March, 1891, gave notice of said filing by publication as required by law, said notice requiring all persons interested to show cause, if any, why said report should not be confirmed before said Board of Supervisors on the 18th day of April, 1891; and

WHEREAS, This Board did, at a meeting held on the 20th day of April 1891, by Resolution Not 5054 (Third Series) fix the time for hearing all persons who had filed their objections to said report, at eight o'clock on Monday evening, the 11th day of May, 1891; and

WHEREAS, The Clerk, pursuant to the provisions of Section 14 of an Act entitled "An Act to provide for the laying out, opening, extending, widening, straightening or closing up, in whole or in part, any street, lane, alley, square, court or place within municipalities, and to condemn and acquire any and all land and property necessary or convenient for that purpose," approved March 6, 1889, did notify each and all of said objectors to the confirmation of said report, by notice mailed to their several addresses, deposited in the Postoffice, postage prepaid, to be and appear before the Board on the day and hour above named; and

WHEREAS, This Board has heard all objectors and heard and considered all objections made to the report of said Commissioners, who appeared in conformity with said notice at a meeting held on the 11th day of May, 1891, and at an adjourned meeting held on the 15th day of May, 1891; and

WHEREAS, This Board did, at a regular meeting held on Monday evening, the 7th day of September, 1891, pass upon all of the objections, so as aforesaid filed to said report, and did duly adopt certain corrections and modifications to said report, and ordered said corrections and modifications to be copied into said report; and

WHEREAS, At said meeting on said 7th day of September, this Board by due and regular resolution fixed Monday evening, the 14th day of September, 1891, as the time for finally passing, upon said report and objections, of which resolution all parties interested have been duly and legally notified; and

WHEREAS, Said modifications and corrections have been copied into said report; and

WHEREAS, E. W. Burr on this 14th day of September, 1891, filed certain objections to said modified and corrected report, and said objections thereto having been fully considered by this Board,

RESOLVED, That all objections filed to said original report, except as far as they are adopted by this Board in said corrected and modified report, and all objections filed herein to said corrected and modified report be and the same are hereby overruled and disallowed, and that the said report, assessment and plat of said Commissioners, filed on the 14th day of March, 1891, as so modified and corrected, be and the same is hereby confirmed, and the Clerk of this Board is hereby directed to forward to the Street Superintendent a certified copy of said corrected and modified report, assessment and plat as now finally confirmed and adopted, and also to file a copy of said plat, appropriately designated, in the office of the Recorder of said city and county.

And the Clerk is hereby directed to advertise this resolution, as required by law.

In Board of Supervisors, San Francisco, September 14, 1891.

Adopted by the following vote:

Ayes—Supervisors Jackson, Burling, Curtis, Ellert, Carnes, Coffee, Heyer, Hunt, Taber, Willkinson.

Absent—Supervisors Evans, Ayer.

JNO. A. RUSSELL, Clerk.

The following comparative table shows the names of the owners, so far as known, of the land taken for the projection and extension of the streets through the Laguna survey, the amount and value of the same, as determined by the Commissioners, and as modified and corrected by the Board of Supervisors, to-wit:

On September 24, 1891, certified copies of the report, assessment and plat, as modified and corrected by the Board of Supervisors, were transmitted, duly certified, to the Superintendent of Public Streets.

The following is a copy of the notice published by the Superintendent of Public Streets on September 25, 1891, in the daily newspapers, as required by law, giving notice that the assessments on said assessment for opening and extending streets through the Laguna Survey were due and payable and unless paid on or before October 20, 1891, would be delinquent, to wit:

NOTICE.

EXTENSION OF VAN NESS AVENUE AND OTHER STREETS THROUGH THE LAGUNA SURVEY.

Office of the Superintendent of Public Streets, Highways and Squares of the City and County of San Francisco, New City Hall, September 25, 1891.

Notice is hereby given by me, the Superintendent of Public Streets, Highways and Squares, that I have received from the Clerk of the Board of Supervisors of said city and county a certified copy of the report, assessment and plat of the Commissioners appointed to assess the benefits and damages resulting from the opening and extending through the Laguna survey of Polk, Franklin, Green, Union, Filbert, Greenwich, Lombard and Chestnut streets and Van Ness avenue, as corrected and modified by said Board of Supervisors, and so corrected and modified as finally confirmed and adopted by said Board of Supervisors by Resolution No. 5683 (Third Series), at a regular meeting of said Board of Supervisors, held on the evening of September 14, 1891; that said certified copy of said report, assessment and plat constitute the assessment roll for said opening and extending; that all sums levied and assessed in said assessment roll now constitute a lien upon all the property contained or described therein, and all sums are due and payable immediately at this office at the New City Hall, and the payment of said sums so levied and assessed must be paid to me at my said office within thirty (30) days from the date of the first publication of this notice, to wit: on or before the 26th day of October, 1891, inclusive; and that all sums not paid to me before the expiration of said thirty (30) days will be declared to be delinquent, and thereafter the sum of five (5) per cent upon the amount of each delinquent assessment, together with the cost of advertising each delinquent assessment, will be added thereto.

JAMES GILLERAN,
Superintendent of Public Streets, Highways and Squares.

On September 25, 1891, a certified copy of the plat, as required by law and the orders of the Board, was filed in the office of the City and County Recorder.

DUPONT STREET WIDENING.

Under an Act of the Legislature of March 24, 1876, Dupont street was widened, between Market and Bush streets, to a uniform width of seventy-four feet. The amount required to pay for the various pieces of property and improvements condemned was to be obtained from the sale of Dupont street bonds, which bonds were to be redeemed during a period of twenty years by the district benefited, by means of a tax fixed each year, by the Board of Supervisors, on the enhanced value of property, as fixed by the Commission appointed and as per their report confirmed by the County Court on December 20, 1876.

The amount of bonds issued was \$1,000,000 in the fiscal year 1876-7, of which \$81,000 have been redeemed. The bonds draw interest at the rate of seven per cent per annum, and five per cent of the principal is to be redeemed each year.

The amounts levied for this special purpose on each \$100 valuation of property, as fixed by said Commission at \$796,947, have been as follows :

| | | | |
|--------------|---------|--------------|---------|
| 1877-78..... | \$13 00 | 1885-86..... | \$12 43 |
| 1878-79..... | 15 00 | 1886-87..... | 14 35 |
| 1879-80..... | 13 53 | 1887-88..... | 14 35 |
| 1880-81..... | 13 11 | 1888-89..... | 14 35 |
| 1881-82..... | 14 50 | 1889-90..... | 14 35 |
| 1882-83..... | 14 43 | 1890-91..... | 14 35 |
| 1883-84..... | 12 43 | 1891-92..... | 14 35 |
| 1884-85..... | 12 43 | | |

The following is a copy of the Order passed for the fiscal year 1891-92 :

ORDER No. 2397.

TO PROVIDE REVENUE TO PAY THE INTEREST AND FIVE PER CENT OF THE PRINCIPAL OF THE DUPONT STREET BONDS FOR THE FISCAL YEAR ENDING JUNE 30, 1892.

The People of the City and County of San Francisco do ordain as follows :

SECTION 1. Under and in pursuance of an Act of the Legislature of the State of California, entitled "An Act to authorize the widening of Dupont street, in the City and County of San Francisco," approved March 23, 1876, there is hereby levied for the purpose of paying the interest and five per cent of the principal of the Dupont-street Bonds for the fiscal year ending June 30, 1892, on the enhanced values of the lands within the district described in Section 3 of said Act, between Bush and Market streets, as fixed in the final report of the Board of Dupont-street Commissioners, the sum of fourteen dollars and thirty-five cents (\$14 35-100) on each one hundred dollars of said enhanced values.

In Board of Supervisors, San Francisco, June 22, 1891.

After having been published five successive days, according to law, taken up and passed by the following vote :

Ayes—Supervisors Burling, Curtis, Ayer, Ellert, Carnes, Coffee, Heyer, Hunt, Taber, Wilkinson.

Absent—Supervisors Evans, Jackson.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, June 22, 1891.

GEO. H. SANDERSON,

Mayor and ex-officio President Board of Supervisors.

In the matter of the widening of Dupont street, there was pending in the Supreme Court a suit commenced in 1879, brought in the name of William Lent (joined with others) against the Tax Collector, to enjoin the sale of real estate for delinquent Dupont-street assessment, and to declare the assessment void, which was submitted on May 1, 1885; but re-argument was ordered of the case, which took place on August 16, 1886, when the case was submitted on briefs to be filed. The question as to the validity of the proceedings of the Commissioners, and consequently of the bonds issued by them, was presented in this case in the Court below, where judgment was rendered for plaintiffs some ten years ago.

This case and other cases of similar character were decided by the Supreme Court on May 31, 1887, in favor of the constitutionality and legality of the assessment, and an application for a rehearing was denied by said Court.

In this case, on July 9, 1887, a writ of error from the Supreme Court of the United States to the Supreme Court of California was allowed by Mr. Justice Field of the Supreme Court of the United States, and was issued and filed in the State Supreme Court. This writ of error was prosecuted on the ground that the Dupont-street Act is repugnant to the Fourteenth Amendment to the Constitution of the United States, in that it purports to authorize the taking of private property and the imposition of a burden thereon without affording to the owner due process of law.

The Supreme Court of the United States, on May 11, 1891, filed a decision, of which the following is a copy, holding as to the constitutionality and legality of the proceedings and that the plaintiffs had not been or were not about to be, deprived of their property in violation of their constitutional rights, thus ending the litigation, to-wit:

DECISION OF THE U. S. SUPREME COURT—LENT, ET AL., VS. TILLSON, TAX COLLECTOR.

(May 11, 1891.)

CONSTITUTIONAL LAW—DUE PROCESS—STREET IMPROVEMENTS—ASSESSMENTS—PUBLICATION.

1. Act Cal. March 23, 1876, (St. 1875 76, c. 326,) providing for the widening of Dupont street in San Francisco, defining the district on which the assessment to meet the cost of the work was to be imposed, making it a condition precedent that the improvement be declared expedient by a resolution or order of the Board of Supervisors, directing that after the passage of such order or resolution the Board of Commissioners to have charge of such improvement should, by notice published in two city papers for 10 days, inform the property-owners of its organization, allowing them within 30 days, by written protest, representing the majority in value of property, to defeat the improvement, directing that the Board make a report of the assessments and benefits to be left at their office 30 days for inspection, notice thereof to be published for 20 days, providing that any one aggrieved might by petition within the 30 days have the proceeding reviewed by the County Court, and providing that the Board could not proceed with the work until such alterations were made in its report as the court might direct is not in conflict with the constitutional provision against taking property without due process of law.

2. Even if the County Court did not, under the provision of the Act, have power to declare it unconstitutional, this would be immaterial as long as the Act was constitutional.

3. So long as the Board of Commissioners and the County Court acquired jurisdiction to proceed with the execution of the provisions of the Act, errors in the mere administration of the statute could not justify the Supreme Court of the United States, on reviewing the decision of the State Court, to hold that the State was depriving the owners of their property without due process of law.

4. It is no objection to the validity of the publication of a notice that in some issues it appeared in the supplement to the paper.

FIELD, J., dissenting.

Affirming 14 Pac. Rep. 71.

In error to the Supreme Court of the State of California.

This suit, which was commenced April 5, 1879, arises out of an Act of the Legislature of California, approved March 23, 1876, entitled "An Act to authorize the widening of Dupont street in the city of San Francisco." An assessment was made to meet the cost incurred in its execution. Provision was made in the Act to issue and sell bonds to meet such cost in the first instance, and for the levy of an annual tax on the lands benefited, in proportion to benefits, to pay the interest on the bonds, and to create a sinking fund for the payment of the principal debt. Bonds, dated Jan-

uary 1, 1876, to the amount of \$1,000,000, were issued in the name of the City and County of San Francisco, and made payable to the holder in gold coin of the United States, 20 years after date, with interest, payable half yearly, at the rate of 7 per cent. per annum. The bonds recited that they were issued under the above Act, were to be paid out of the fund raised by taxation as therein provided, and were taken by the holder subject to the conditions expressed in its twenty-second section, to be hereafter referred to. They were signed by the Mayor, Auditor, and County Surveyor, and attested by the official seal of the city and county. The plaintiffs in error, who were the plaintiffs below, being owners of lots or parcels of land within the district subject to the assessment, and claiming that the statute was unconstitutional and void, brought this suit to obtain a decree perpetually enjoining the defendant in error, Tax Collector of the City and County of San Francisco, from selling their property under the assessment. Holders of the bonds to a large amount intervened and were made defendants. The court of original jurisdiction—the Superior Court of the City and County of San Francisco—rendered a decree giving the relief asked. Upon appeal to the Supreme Court of California that decree was reversed, and the cause remanded, with directions to dissolve the injunction and dismiss the complaint.

The statute in question contains many provisions. The first section provides that, subject to the provisions of the Act, Dupont street in San Francisco should be increased to the uniform width of 74 feet (measuring westerly from its then easterly line) from the northerly line of Market street to the southerly line of Filbert street, the grades of the intersecting cross-streets to be adjusted by the Board of Supervisors so as to make them conform to the grade of the west line of Dupont street to be established by the Board of Supervisors, which was empowered to pass all necessary orders for that purpose. The second section provides that the value of the land taken for the widening of the street, and the damages to improvements thereon or adjacent thereto, which may be injured thereby, and all expenses whatsoever incident to such widening, "shall be held to be the cost of widening said street, and shall be assessed upon the district hereinafter described as benefited by said widening, in the manner hereinafter provided." The district declared to be benefited, and upon which the cost of making the improvement was directed to be assessed, is defined in the Act, and it was provided that in case Dupont street be not widened further north than Bush street, then the districts to be benefited "shall be bounded on the north by the southerly line of Bush street, and on the south by the northerly line of Market street." Section 3. The majority in value of the property owners fronting on Dupont street, between Market and Bush streets, were allowed to defeat the proposed improvements between those streets, and to relieve that portion of the assessment district from any burden on account of it, by filing a written protest at any time within 30 days after the notice provided for in section 6 of the Act, to be presently referred to. No such protest was filed. The Act also provided that unless within that time a majority of property owners fronting on Dupont street, between Bush and Filbert streets, should petition for it, there should be no widening north of Bush street, and that portion of the assessment district should be excluded. No such petition was filed, and the widening was limited to the four blocks between Market and Bush streets. Section 12.

The Mayor and Auditor of the City and County of San Francisco, together with the City and County Surveyor, and their successors in office, were constituted a "Board of Dupont-street Commissioners," the Mayor to be ex officio President of the Board. Section 4. The Board of Supervisors of the city and county were authorized, if they deemed it expedient that Dupont street be widened in the mode prescribed, to express such judgment by resolution or order within 60 days after the passage of the Act, and if they failed to do so no further proceedings were to be had or taken, under the Act, for any purpose, and the street was not to be widened. Section 21. As soon as convenient after the passage of such a resolution or order by the Board of Supervisors, the Dupont-street Commissioners were directed to "publish a notice, for not less than ten days, in two of the daily papers printed in the city of San Francisco, informing property owners along the line of said street that the Board is organized, and inviting all persons interested in property sought to be taken, or which would be injured by said widening, to present to the Board maps and plans of their respective lots, and a written statement of the nature of their claim and interest in such lots." Section 6. The Board of Commissioners, having prepared and adopted suitable maps, plans, and diagrams, were required to ascertain and determine and separately state in a written report, to be signed by at least a majority of its members, the description and actual cash value of the several lots and subdivisions of land and buildings included in the land taken for the widening of Dupont street, and the damage done to the property along the line of the street, specifying and describing in their report each lot and subdivision or piece of property taken or injured by the widening of the street, as far as an accurate description thereof was furnished by the owners, and setting down against each lot, subdivision or piece of property the names of the owners, occupants and claimants

thereof, or of the persons interested therein, as lessees, incumbrancers, or otherwise, and the particulars of their interest, as far as they could be ascertained, and the amount of value or damage determined upon for the same, respectively. If, in any case, the board found that conflicting claims of title existed, or were in ignorance or doubt as to the ownership of any lot of land, or of any interest therein, the lot was to be set down as belonging to unknown owners. The board was also directed to embody in a written report a description of the subdivisions or lots of land included in the districts designated in section 3 of the Act, and to set against each lot or subdivision the amount in which, according to the judgment of the board, such lot will be benefited by reason of the widening of the street, relatively to the benefits accruing to other lots of land within the designated districts; also setting against each lot or subdivision the names of the owners, lessees and claimants thereof, so far as the same can be ascertained conveniently, and, if not ascertained, setting them down to unknown owners. Error, however, in the designation of the owner or owners of any lot taken or assessed was not to affect the validity of the assessment. Suitable maps, plans or diagrams, showing the property taken and assessed for the improvement, in lots and subdivisions, with the names of the owners, lessees and claimants, as far as known to said board, were to be attached to the report. "Such report," the Act provided, "as soon as the same is completed, shall be left at the office of said board daily, during ordinary business hours, for thirty days, for the free inspection of all parties interested, and notice that the same is so open for inspection for such time and such place shall be published by said board daily, for twenty days, in two daily newspapers printed and published in said city and county." Section 7.

Any person interested in any piece or parcel of land situated within the district defined and described in section 3 of the Act, or in any of the lands taken for Dupont street, or in any improvements damaged by the opening of that street, feeling himself aggrieved by the action or determination of the board, as shown in its report, was entitled, at any time within the 30 days mentioned in section 7 of the Act, to apply by petition to the County Court of the City and County of San Francisco, setting forth his interest in the proceedings had before the board, and his objections thereto, for an order requiring it to file with that court its report, and such other documents or data as may be pertinent thereto, in its custody and used by it in preparing the report. "Said court is hereby authorized and empowered to hear said petition, and shall set the same down for a hearing within ten days from the date of the filing thereof; and the party filing said petition shall, on the day he files the same, serve a copy thereof on at least one of the members of the board of commissioners; and said board may appear by counsel, or otherwise, before said court, in response to said petition. Said board may file a written answer to said petition with said court. Testimony may be taken by said court upon said hearing, and the process of the court may be used to compel the attendance of witnesses, and the production of books or papers or maps in the custody of said board or otherwise. It shall be in the discretion of said court, after hearing and considering said application, to allow said order or deny the same; and, if granted, a copy thereof shall be served on said board, and it shall proceed to obey the same according to the terms of the order to be prescribed by the court. But in case no such petition shall be filed with said County Court within the time above limited for the filing thereof, the said report shall be presented by the said board to the said County Court with a petition to the court that the same be approved and confirmed by the court. The court shall have power to approve and confirm said report, or refer the same back to said board, with directions to alter or modify the same in the particulars specified by the court in the order referring the same back, and thereupon the said board shall proceed to make the alterations and modifications specified in the order of said court. The alterations and modifications aforesaid being made, the report shall be again submitted to the said court, and if the court, upon examination, shall find that the alterations and modifications have been made according to the directions contained in said order, the said court shall approve and confirm the same by an order to be entered on its minutes; but if the said board shall have neglected or failed to make the alterations and modifications set forth in the order of reference, the court may again refer the report back to said board, and so on until its original order of alteration and modification shall have been complied with by said board, and the said court shall then approve and confirm said report." Section 8.

All damages, costs and expenses arising from, or incidental to, the widening of the street, being fixed and determined by the final confirmation of the report, as in the Act provided, the board was to issue bonds of the City and County of San Francisco, in such form as they might prescribe, in sums of not less than \$1,000 each, for such an amount as shall be necessary to pay and discharge all such damages, costs and expenses; the bonds to be known and designated as the "Dupont Street Bonds," and payable in 20 years from their date, unless sooner redeemed, as in the Act provided, bearing interest at 7 per cent per annum, payable semi-annually at the office of the Treasurer of the city and county, such interest being evidenced by coupons attached to each bond and signed by the

president of the board. Section 9. Any person or persons to whom damages were awarded, according to the provisions of the Act, upon tendering to the board a satisfactory deed of conveyance to the city and county of the land for which damages were so awarded, was entitled to have bonds in an amount equal to the sum of the damages awarded for the lands so conveyed, together with damages for the improvements thereon or affected thereby; and the bonds so issued and delivered were to be in full compensation for all damages for lands and improvements taken and improvements injured, as contemplated in the Act. Section 10.

The Mayor, Auditor and Treasurer were authorized to sell bonds sufficient to realize money enough to meet and discharge all expenses and damages arising from the widening of the street, established by the report as finally confirmed. The money arising from their sale was to be known and designated as the "Dupont Street Fund." As soon as the bonds were converted into money, as in the Act provided, the board of commissioners were required to give public notice, in two daily newspapers published in the city and county, for at least ten days, that they were prepared to pay in full all damages and liabilities fixed by the final report of the board (not then already discharged), and, upon receiving from the parties entitled thereto the proper deeds or proper acquittances from those entitled to compensation, the board were to give to such party an order upon the treasury for the amount shown to be due, payable out of the "Dupont Street Fund." Section 11. Provision was made by the Act for the levy and collection annually, at the same time and in the same manner as other taxes are levied and collected in the city and county, of taxes upon the lands described in the third section sufficient to pay the interest on the bonds as it matured, and also sufficient to raise one-twentieth of the principal, and to constitute a sinking fund for the redemption of the bonds; such taxes to be collected out of the land only, to be adjusted and distributed according to the enhanced values of the lands as fixed in the final report of the board, and to go into the hands of the Treasurer of the city and county, as part of the Dupont Street Fund. Section 13. It was made the duty of the board of commissioners to cause block-books to be prepared, exhibiting the district declared by the Act to be benefited by the opening of Dupont street, according to the blocks or fractional parts of blocks thereof, and the subdivisions, according to which the benefits were fixed and determined; also, in convenient book form, descriptions of the several subdivisions shown on such books,—the amount of benefits or enhanced value to the subdivision, as established by the confirmed report, by reason of the opening of the street, being set opposite to each description of the several subdivisions. The block-books and description note-books, being certified by the board, were to be held by the Assessor of the City and County of San Francisco as a part of the records of his office until all the bonds issued in pursuance of the Act were redeemed. Section 14.

In case any person to whom, or in whose favor, damages were awarded by the board should fail or neglect, for the period of 20 days after there were funds to the credit of the "Dupont Street Fund" sufficient to pay such damages, to ask for and receive from the board a warrant for the sum so awarded, it could draw a warrant upon the Treasurer in favor of such owner or owners, and deposit the same with the Clerk of the city and county, accompanied by a certificate of the Treasurer that the warrant so drawn and deposited had been registered by him, and that there are funds in his hands to pay the same; and thereupon the board, on demand, was entitled to an order of the County Court authorizing it to enter upon such piece of land and remove obstructions therefrom, and to throw open the lots so described as part of the street, and an execution could issue to the Sheriff, commanding him to put the board in possession of such lot for the city and county; and thereafter, upon delivering to the County Court a sufficient deed conveying said lot of land to the said city and county, the party so dispossessed was entitled to receive the value of the land so conveyed, or the warrant of the board therefor. Section 16. If the owners of any lands taken for the street failed or neglected, within the space of 30 days after the money was in the Treasury to pay the same, to remove the buildings and improvements from such lands, and deliver possession of said lands to said board, on tender to them, respectively, of the sums awarded as the value of such lands, buildings or improvements, then the board could, at any time thereafter, sell such buildings and improvements at public auction to the highest bidders, to be removed by the respective purchasers thereof; the sums bid at such sales to be paid in cash or in the warrants of the board; and if at such auction there shall be no responsible bidder for such improvements, with the obligation to remove them within the time specified in the terms of sale, the Board was to remove the same at the cost of the "Dupont Street Fund." Section 17. The street, when widened, was to be sewered, graded, sidewalked and paved by the municipal authorities, the expense of such work to be assessed upon the adjacent property, or borne by the city and county, in the same manner as if the street remained of its original width. Section 18. The railway tracks in the street were required to be removed and changed to the center of the same by the street railroad companies then using tracks therein. Section 19.

The last section of the Act (section 22) provided that the completion of the work should be deemed an absolute acceptance, by the owners of all lands affected by the Act and by their successors in interest, of the lien created by it upon the several lots so affected, and operate as an absolute waiver of all claim in the future upon the City and County of San Francisco, and their successors in interest, for any part of the debt created by the bonds authorized to be issued. "This shall be regarded as a contract between said owners and the holders of said bonds and said city and county, and this provision shall be stated on the face of the bonds." St. Cal. 1875-76, c. 326, p. 433.

John Garber, Thos. B. Bishop and Jos. H. Choate, for plaintiff in error. John Mullan, A. H. Garland and H. J. May, for defendant in error.

Mr. Justice Harlan, after stating the facts in the foregoing language, delivered the opinion of the court.

The Chief Justice of the Supreme Court of California, under its order, made his certificate to the effect that in this suit and appeal there was drawn in question the validity of the above Act of March 23, 1876, and the authority exercised and the proceedings taken under it, on the ground that the statute and said authority and proceedings were repugnant to the fourteenth amendment to the constitution of the United States, and that the decision of that court was in favor of their validity.

The provisions of the statute, to which we have referred, sufficiently indicate its scope and effect, and enable us (without referring to others that relate to matters of mere detail) to determine whether or not the Act, upon its face or by its necessary operation, is repugnant to that clause of the constitution declaring that no State shall deprive any person of property without due process of law.

We have seen that the statute defined the district benefited by the widening of Dupont street, and upon which the assessment to meet the cost of the work was to be imposed; made it a condition precedent to the proposed improvement that it should be declared by resolution or order of the Board of Supervisors of the city and county to be expedient; directed that, after the passage of such a resolution or order, the Dupont-street Commissioners should publish, for not less than ten days, in two daily papers in San Francisco, a notice informing property owners along the line of the street of its organization, and inviting all persons interested in property sought to be taken, or that would be injured by the widening of that street, to present descriptions of their respective lots, and a statement in writing of their interest in them; allowed the majority in value of owners of property within the district embracing the lands of the plaintiffs, at any time within thirty days after the last publication of the above notice, by written protest filed with the Board of Commissioners, to defeat altogether the proposed widening of Dupont street; required the Board to prepare a written report showing the description and actual cash value of the several lots and subdivisions of land and buildings included in the land proposed to be taken for the widening of the street, the value and damage determined upon for the same, respectively, and the amount in which, according to its judgment, each lot had been or would be benefited by reason of the widening of the street, relatively to the benefits accruing to other lots of land within the designated district; and directed such report, as soon as completed, to be left at the office of the Board daily, during ordinary business hours, for the free inspection of all persons interested, and notice of the same being open for inspection at such time and place published by the Board daily, for twenty days, in two daily newspapers printed and published in the city and county.

But this was not all. For any person interested, and who felt himself aggrieved by the action or determination of the Board, as indicated by its report, was permitted, at any time within the above 30 days, to apply by petition to the County Court of the city and county, showing his interest in the proceedings of the Board of Commissioners and his objections thereto, for an order that would bring before that court the report of the Board, together with such pertinent documents or data as were in its custody, and were used in preparing its report. It was made the duty of the party filing the petition to serve, on the same day, a copy thereof on at least one of the members of the Board of Commissioners, who were at liberty to appear by counsel, or otherwise, and make answer to it. The court was also empowered to hear the petition, and set it down for hearing within 10 days from its being filed. Provision was made for the taking of testimony upon the hearing, and the court was authorized to use its process to compel the attendance of witnesses, and the production of books, papers or maps in the custody of the Board, or otherwise. The discretion given to the court, after hearing and considering the application, to allow or to deny the order prayed for, was, of course, to be exercised judicially, according to the showing made by the petitioners. And that complete justice might be done, the court was invested with power, not simply to approve and confirm the report of the Board, but to refer it back with directions to alter or modify the same in the particulars specified by the court. Until such alterations and modifications were made, the

court was under no duty to approve or confirm the report; and until it was approved and confirmed, the Board was without authority to proceed at all in the work committed to it by the statute.

Were not these provisions in substantial conformity with the requirements of "due process of law," as recognized in the decisions of this court? In *Davidson v. New Orleans*, 96 U. S., 97, 104, it was said that "whenever, by the laws of a State, or by State authority, a tax, assessment, servitude, or other burden is imposed upon property for the public use, whether it be for the whole State or of some more limited portion of the community, and those laws provide for a mode of confirming or contesting the charge thus imposed, in the ordinary courts of justice, with such notice to the person or such proceeding in regard to the property as is appropriate to the nature of the case, the judgment in such proceedings cannot be said to deprive the owner of his property without due process of law, however obnoxious it may be to other objections." So in *Hagar v. Reclamation Dist.*, 111 U. S., 701, 708, 4 Sup. Ct. Rep., 663: "Undoubtedly, where life and liberty are involved, due process requires that there be a regular course of judicial proceedings, which imply that the party to be affected shall have notice and an opportunity to be heard; so, also, where title or possession of property is involved. But, where the taking of property is in the enforcement of a tax, the proceeding is necessarily less formal, and whether notice to him is at all necessary may depend upon the character of the tax and the manner in which its amount is determinable. * * * As stated by Mr. Justice Bradley in his concurring opinion in *Davidson v. New Orleans*, 'in judging what is due process of law, respect must be had to the cause and object of the taking, whether the taxing power, the power of eminent domain, or the power of assessment for local improvements, or some of these; and, if found to be suitable or admissible in the special case, it will be adjudged to be due process of law; but, if found to be arbitrary, oppressive, and unjust, it may be declared to be not due process of law.' Of the different kinds of taxes which a State may impose, and of which from their nature no notice can be given, the court, in that case, enumerates poll-taxes, licenses (not dependent upon the extent of business), and specific taxes on things, persons, or occupations. Page 709, 111 U. S., and page 667, 4 Sup. Ct. Rep.

These principles were reaffirmed in *Kentucky Railroad Tax Cases*, 115 U. S., 321, 331, 6 Sup. Ct. Rep., 57, and in *Spencer v. Merchant*, 125 U. S., 345, 355, 8 Sup. Ct. Rep., 921, in the latter of which cases it was said that "the Legislature, in the exercise of its power of taxation, has the right to direct the whole or part of the expense of a public improvement, such as the laying, grading, or repairing (and, equally, the widening) of a street, to be assessed upon the owners of lands benefited thereby;" and that "the determination of the territorial district which should be taxed for a local improvement is within the province of legislative discretion;" also that, "if the Legislature provides no notice to and hearing of each proprietor, at some stage of the proceedings, upon the question what proportion of the tax shall be assessed upon his land, there is no taking of his property without due process of law."

Tested by these principles, the statute providing for the widening of Dupont street cannot be held to be repugnant to the constitutional requirement of due process of law. The notice by publication to all who owned property liable to be assessed for the cost of that improvement was appropriate to the nature of the case, and was reasonable in respect to the length of time prescribed for the publication. And ample opportunity was given to all persons interested to test in a court of competent jurisdiction the fairness and legality of any assessment proposed to be made upon their property for the purposes indicated by the statute. That court had power to require such alterations or modifications of the report of the Board of Commissioners as justice demanded. It was not bound to approve any report that did not conform to its judgment as to what was right; and without such confirmation the Board could not proceed in the execution of the work contemplated by the Legislature.

If we had any doubt of the correctness of these views, we should accept the interpretation which the highest court of the State places upon the statute. When the inquiry is whether a State enactment under which property is proposed to be taken for a public purpose accords full opportunity to the owner, at some stage of the proceedings involving his property, to be heard as to their regularity or validity, we must assume that the inferior courts and tribunals of the State will give effect to such enactment as interpreted by the highest court of that State. The Supreme Court of California, speaking by Mr. Justice Temple, in this case, has said: "We are not considering here a statute which is silent as to the hearing. The provisions in question were undoubtedly inserted in view of the constitutional requirement, and for the purpose of affording that opportunity to be heard, without which the law would be void. To give the statute the construction contended for would not only defeat the evident purpose, but would make the whole proceeding farcical. And I must confess, it seems to me, it requires great industry in going wrong, in view of all the circumstances, to conclude that such can be the meaning. Inapt words certainly are found in the section

(section 8), but it would not have provided so elaborately for a thorough investigation for grievances if it were not intended that redress should be awarded. The statute has apparently been patched and tinkered after it was first drawn, and incongruous matter injected into the body of it. But it still provides for a full hearing, and that the court may alter and modify. And it seems that such action is to be based upon the hearing provided for. The word 'discretion' is used in various meanings, but here, evidently, it was intended to submit the whole matter to the sound judgment of the court, to be exercised according to the rules of law." 72 Cal., 404, 421, 14 Pac. Rep., 71.

It is said that the County Court was without power to adjudge the statute to be unconstitutional, and had no discretion, except to confirm the report, or to require it to be altered or modified. We do not perceive that this is a material inquiry, so long as the statute is not repugnant to the constitution. But we do not admit that the County Court was without power to hold it to be unconstitutional and void—if such was its view—and to decline, upon that ground alone, to confirm any report that the Board of Commissioners might have filed. The Judge or Judges of that court were obliged, by their oath of office, and in fidelity to the supreme law of the land, to refuse to give effect to any statute that was repugnant to that law, anything in the statute or the constitution of the State to the contrary notwithstanding. Upon this subject, as well as in respect to the power of the County Court to consider objections of every nature that might be made to the confirmation of any report from the Board of County Commissioners, the Supreme Court of the State said: "The statute does not expressly authorize the court to pass upon the validity of the Act, or whether the Board of Supervisors had passed the necessary resolution, or the notices had been given. But the power to do this is necessarily involved in the power of the court to act at all. It may be that the court could not pass upon these questions upon which its jurisdiction depended, so as to conclude all inquiry even on a collateral attack. It was a constitutional court, invested with jurisdiction by the constitution of special cases. The parties had full notice of the proceeding, and of their right to be heard." Again: "The statute places no limit upon the objections which might be made by those deeming themselves aggrieved by the action or determination of the Board as shown in the report. As all their determinations which could affect any person were required to appear in the report, this would seem to include all possible objections. The determination, for instance, might have been objected to, because, the Act being invalid or the notices not having been given, the Board had no right to proceed to act at all. If this contention were sustained, the result would have been that the court would not have confirmed the report, and the proceedings would have ended without fixing a charge upon the property of plaintiffs. They could have complained that a wrong basis was adopted in estimating damages or benefits; that the estimated cost was too much; or for any misconduct of the Commissioners which could affect them; or that the cost exceeded the estimated benefits; and it does not seem to me that the court would have found any difficulty in granting relief." 72 Cal. 404, 422, 14 Pac. Rep. 71.

It is contended, however, that the act was so administered as to result in depriving the plaintiffs of their property without due process of law. This contention is material only so far as it involves the inquiry as to whether the tribunals charged by the statute with the execution of its provisions acquired jurisdiction to proceed in respect to the lots or lands in question and the owners thereof. Jurisdiction was, of course, essential before the plaintiffs' property could have been burdened with this assessment. But errors in the mere administration of the statute, not involving jurisdiction of the subject and of the parties, could not justify this court, in its re-examination of the judgment of the State Court, upon writ of error, to hold that the State had deprived, or was about to deprive, the plaintiffs of their property without due process of law. Whether it was expedient to widen Dupont street, or whether the Board of Supervisors should have so declared, or whether the board of commissioners properly apportioned the cost of the work or correctly estimated the benefits accruing to the different owners of property affected by the widening of the street, or whether the board's incidental expenses in executing the statute were too great, or whether a larger amount of bonds were issued than should have been, the excess, if any, not being so great as to indicate upon the face of the transaction a palpable and gross departure from the requirements of the statute, or whether upon the facts disclosed the report of the commissioners should have been confirmed, are, none of them, issues presenting federal questions, and the judgment of the State Court upon them cannot be reviewed here.

Upon the issues as to whether the board of commissioners and the County Court acquired jurisdiction to proceed in the execution of the statute, the evidence is full and satisfactory. The Board of Supervisors of the city and county, by resolution within 60 days after the passage of the Act, declared it to be expedient and necessary that Dupont street should be widened in accordance with the statute. Section 2. In conformity with this declaration the Mayor, Auditor and County Surveyor of the city organized as a Board of Dupont Street Commissioners, and by notice, published

for not less than ten days in two daily papers printed in San Francisco, informed property-owners along the line of that street of such organization, and invited all persons interested in property sought to be taken, or which would be injured by the widening of Dupont street, to present to it maps and plans of their respective lots, and a written statement of the nature of their claim or interest in such lots. Section 6. The Board of Commissioners caused to be prepared and adopted maps, plans and diagrams, and made the written report required by section 7 of the Act; and such report was left at the office daily, during ordinary business hours, for thirty days, for free inspection of all interested, notice that such report was so open for inspection for such time and at such place being published by the Board daily, as required by that section, in two daily newspapers printed and published in the City and County of San Francisco. Various parties who were interested in and affected by the widening of the street brought before the County Court of the city and county, by petition filed in due time, the written report of the Commissioners and all documents in their possession. The hearing of these petitions resulted in certain alterations and modifications of the report, and, on the 20th of December, 1876, the County Court made its final order of confirmation. That order, after reciting in detail the performance of all the acts required by the statute in execution of its provisions, proceeded: "And it further appearing to the court that all the proceedings taken by said Board have been duly and legally taken, and that each and all of the acts, matters and things provided by said Act to be done and performed by said Board in the premises, have, on the part of said Board, been duly and regularly done and performed in the form, at the times, and in the manner prescribed by said Act, and said Board having this day brought the said report, as so modified, into this court, and duly filed a petition in this court praying that said report, as so modified by this court, be confirmed and approved; now, therefore, after hearing all the proofs in the said matter, and on motion of Wm. Pierson, Esq., attorney for said Board of Dupont Street Commissioners, and no one objecting thereto, and after full consideration thereof, it is ordered, adjudged and decreed that the said report of the said Board of Dupont Street Commissioners, in the matter of the widening of Dupont street, filed in this court on the 27th day of October, A. D. 1876, as modified by said Board under the orders of this court heretofore made herein, and as the same now exists on file herein, be and the same is hereby, fully and in all respects approved and confirmed. And it is further ordered, adjudged and decreed that the lands described in the volume of said report, entitled 'Report Damages Widening Dupont Street,' be, and the same are hereby taken and dedicated for an open and public street, and for the widening of Dupont street, between Bush and Market streets, and that the title thereto, and every part thereof, as particularly described in said volume of said report, is vested in the City and County of San Francisco for the purpose of said street forever, upon the payment, in the manner prescribed by said Act, to the owners of each piece or parcel of such land, and to the owners of the improvements thereon, or upon the deposit or tender, as prescribed by said Act, of the amounts fixed and determined in and by said volume of said report." Subsequently to this order the street was widened in accordance with the report, and, as widened, is in public use, the special benefits of the improvement, whether more or less, being enjoyed by the plaintiffs, and by others in like situation.

It is contended that the notices required by the different sections of the Act to be published for a designated number of days were not so published. This contention rests, principally, upon the ground that the notices, on some of the days, appeared in a "supplement" of some of the newspapers, and not in the body of the paper, where reading matter was usually found. There is no force in this objection, and it does not deserve serious consideration.

Other objections have been urged by the plaintiffs which we do not deem it necessary to consider. For instance, it is said that the Mayor of the City of San Francisco, one of the Board of Commissioners, was himself the owner of a lot on Dupont street, and, for that reason, was incompetent to act as one of the Board of Street Commissioners; that some of the alterations and modifications of the report of the Commissioners made upon the hearing in the County Court of the petitions filed by different parties were so made under private arrangements between the Commissioners and those parties, of which other property-owners along Dupont street had no notice, and by which such owners were injuriously affected; that the Board of Commissioners selected experts to "assist" it in estimating the damages for property taken and injured by the proposed improvement, and the benefits accruing therefrom, and that the report of those experts was accepted by the Commissioners, without themselves making or attempting to make an appraisalment of damages or an assessment of benefits under the statute; and that such appraisalment and assessment were not in fact correct, fair or just, but were fraudulent. In respect to all these and like objections, it is sufficient to say that they do not necessarily involve any question of a federal nature, and, so far as this court is concerned, are concluded by the decision of the Supreme Court of California.

We are of opinion, upon the whole case, that the Supreme Court of California correctly held

that the plaintiffs had not been, or were not about to be, deprived of their property, in violation of the Constitution of the United States. Decree affirmed.

Field, J. I dissent.

In consequence of the litigation, the taxes levied on the assessment on the enhanced value of property as determined by the Commission were not collected. On the decision of the Supreme Court affirming the validity of the proceedings and the assessment, no further payments were made owing to the writ of error taken and pending in the United States Supreme Court to test the constitutionality of the Act of the Legislature. The Tax Collector, acting under advice of the City and County Attorney, proposed to sell the property for the delinquent assessment of all the owners who were not parties to the suit. This resulted in some payments being made by said property owners aggregating \$36,684.84, and compelled others who were also not parties to the litigation to commence suit to restrain the Tax Collector to avoid any further cloud upon the title to their property until the Supreme Court of the United States passed upon the question submitted to that tribunal.

Upon the decision of the United States Supreme Court affirming the validity of the proceedings it became the duty of the Tax Collector to make the collection of the amount levied and due as delinquent taxes on the assessment of enhanced values. In order to ascertain his power and duty in the premises he requested and obtained the opinion of the City and County Attorney on this matter, wherein the City and County Attorney held that he was empowered only to collect the face of the several taxes levied. The following is a copy of the opinion :

OPINION OF CITY AND COUNTY ATTORNEY.

Thomas O'Brien, Esq., Tax Collector :

DEAR SIR : Your communication, dated May 14, 1891, with reference to the taxes due for the widening of Dupont street, requests my opinion as to whether or not you shall exact five per cent for delinquency, and fifty cents for advertising in the case of the taxes, levied and assessed to pay the principal of the Dupont street bonds and the interest due thereon.

The Act to authorize the widening of Dupont street, approved March 23, 1876, Section 13, provides as follow : "There shall be levied, assessed, and collected annually at the time and in the same manner as other taxes are levied, assessed and collected, a tax upon the lands described, "sufficient to pay the interest on said bonds as the same matures ;" also upon the same lands, a tax upon each one hundred dollars valuations sufficient to raise one-twentieth of the principal of of said bonds (Statutes 1875-6, 439).

The tax levy provided for is in derogation of common right. It can extend no further than the express or necessarily implied provisions of the statute. There is no express provision imposing, in the case of delinquency, the 5 per cent penalty and the cost of advertising applicable in the case of general taxes for municipal and State purposes, unless the direction that the special tax shall be collected "in the same manner as other taxes are levied" can be construed to read into the statute of 1875-76, not only the mode of collection prescribed, but all the penalties for delinquencies imposed by the provisions of the Political Code, there is no statutory authorization for the exactions mentioned.

But the Supreme Court of this State has expressly decided this precise question. It has ruled in *Bucknall vs. Story, Tax Collector*, 36 Cal. 72, and in

Axtell vs. Gerlach, 67 Cal. 484.

That the penalties and costs imposed, or made incident to delinquency in the case of general taxes, are not comprehended within the term "manner" of collection. They constitute no part of the "manner" of collection.

It follows that the clause of the statute concerning the widening of Dupont street, referred to, incorporates into that statute only the mode of collection prescribed by the general laws as to general taxation, and not the penalties for or the costs made incident to delinquency.

You therefore are empowered only to collect the face of the several taxes levied. Any expense resulting to the city and county on account of delinquency is due to the inadequacy of the law and is without present remedy.

Respectfully submitted,

JOHN H. DURST,

City and County Attorney.

DUPONT STREET WIDENING.
